Subject: Affordable Housing Project (Chapter 201H, Hawaii Revised Statutes)(Independent Development of Makila Farms; Lahaina) AH-1(3(Sub(3)

I live in Kihei and work in downtown Lahaina and I whole-heartedly opposed this development. Between the environmental impact, the long construction process, and the added traffic on the one lane each way in that area, will make commuting a complete nightmare. That area already has the worst traffic in all of Maui every single day. The idea that this will make affordable housing available is absolutely absurd.

Again I oppose this development and I oppose Greg Brown for trying to line his pockets without any concern for the actual residents of Maui.
