Subject: Short Term Rental enforcement data

Aloha Councilmember,

On Wednesday, the land use committee will consider enforcement procedures related to short term rentals and bed and breakfasts. When this issue was last discussed in committee on February 20, 2018, Council member Atay asked for information about how many complaints had been filed concerning this use and what the disposition of these complaints has been. To assist in answering these questions please find attached an excel spreadsheet showing all the requests for service (RFS) that have have been filed since January 1, 2016.

The spreadsheet attached shows every record that has been recorded on the public side of the County's Kiva system and provides an html link to each individual record.

There are 436 kiva records that were generated in this 28 month period. Many of these records are duplicates and many properties have multiple RFSs. Six records have no address listed for them. So the 436 total records relate to 330 unique property addresses.

Of the 330 unique addresses, about 30 of them concern condos where short term rental uses are not allowed. 13 records are reports of expired STRH or B&B permits and some small number relate to complaints about permitted operations violating the terms of their permits.

These RFSs were filed both by members of the public and in some cases county employees. 186 of the 436 records are marked as "Done" indicating that the RFS has been closed out and 250 are shown as "Open". But the public side of kiva does not show all the notes and follow up that the department side would have access to.

This data may help provide a foundation for a discussion of how enforcement takes place when the address relating to a particular advertisement has been reported. Please feel free to reach out to me for any more information about this data.

Tom Croly
