Aloha Committee Chair Paltin and Council Members,

My apologies for the late testimony. It's more of a Q&A testimony.

It is always nice to read information of how decisions are made utilizing the General Plan, Maui Plan and little of the Community Plans. My question to you is, how and when do you get this info out to the communities on the completed, in progress, on going and not begun? A resident would have to be involved with the process or the one who brings attention to the department of the agenda item.

I may not fully understand the process but we have a lot of agenda items that are not completed. I do understand that covid and short staff plays an important part in the process but there's that "But".

Enforcement to me is the process that needs to be followed and have the biggest attention factor.

I speak from experience where plans contradict each other.

Mahalo for allowing me to share my mana'o and Ke Akuas Blessings.

Aunty Mopsy
