Subject: Public beach access parking

Aloha kakou,

It is blatantly apparent that Mike White is attempting to block public access to the beach through a legal maneuver to restrict parking at the hotels which are located along the shores of the island.

It is already difficult enough for local residents to park at the beach with extremely limited parking available and in some cases along the Westside vehicles are being locked in after dark, thereby allowing only hotel guests to enjoy the beaches at nighttime. This is lawful and mandated parking. By doing so Mike White is keeping out Hawaiians from practicing traditional and customary rights and residents who are entitled to beach access as well.
