Subject: PC-2 molokai island community plan update

La'a poepoe, full-time molokai resident, indigenous kanaka maoli cultural practitioner, submitting written testimony on item PC-2 molokai community plan update. In regards to land use designation recommendations for molokai, it is in the interest of preserving molokai's traditional Hawaiian cultural uses on the county level that the council absolutely does not follow the dept.'s recommendation to apply the lanai table to molokai. Please keep the land use designations included in the draft plan for molokai as it has been presented to the molokai community.
