COUNTY COUNCIL
COUNTY OF MAUI
200 S. HIGH STREET
WAILUKU, MAUI, HAWAII 96793
www.MauiCounty.us

October 13, 2020

Ms. Nicolette van der Lee, Program Coordinator
Sustainable Living Institute of Maui
University of Hawaii Maui College
310 West Ka'ahumanu Avenue
Kahului, Hawai'i 96732

Dear Ms. van der Lee:

**SUBJECT: HAWAIIAN ELECTRIC, CLEAN ENERGY
INVESTMENT IN HAWAII (WIT-104)**

Over the past three months, members of the Maui County Council have had numerous requests for meetings from developers of the large-scale solar projects selected in the Hawaiian Electric second-round procurement of renewable energy for Maui. I understand there are now five utility-scale solar projects on Maui that are working on the necessary studies and planning for their Public Utilities Company and County Special Use Permit processes.

Because of the unprecedented number of projects now moving simultaneously and anticipated future projects on Moloka'i and Lana'i, there is confusion about what the County is trying to accomplish by procuring all this solar energy. From the meetings I have had with the different developers, I believe this is a tremendous opportunity for our islands, and I want to see the County be as helpful as possible.

To that end, I am planning a 90-minute informational meeting in my Water, Infrastructure, and Transportation ("WIT") Committee to cover the overarching goals of the projects from different perspectives. I am inviting a group of panelists to present and answer questions from our WIT Committee members. I would like you, as the Program Coordinator for the Sustainable Living Institute of Maui, to speak about the business, workforce, and economic opportunities the projects can bring.

Ms. Nicolette van der Lee

I am also inviting Scott Seu from Hawaiian Electric to speak about a clear overview of the Power Supply Improvement Plan, the significance of the utility scale projects that were selected, and what this means for our County's electricity future. Scott Glenn, Chief Energy Officer at the Hawaii State Energy Office, will explain what the State's 100 percent renewable energy mandate means for our County and address related social-equity issues, considering those who cannot realize the full benefits of residential solar power because of the expense or because they live in multifamily housing. Alex de Roode, our County Energy Commissioner, will be speaking about the Administration's support of the projects. Fred Redell, Executive Director of Hawaii Clean Power Alliance, will represent the views of the solar developers, the challenges they face, and how our County government can help them succeed.

Our plan is to hold this meeting virtually on October 19, 2020, at 1:30 p.m. We will provide a video conference link for you to participate and will be scheduling a practice session with all panelists a couple weeks prior to the Committee meeting. My staff will help schedule this with you.

I look forward to hearing if you will be available for this unique opportunity to help educate our Committee members. The meeting will also be aired on our public access TV station, Akaku.

If you have any questions, please do not hesitate to contact me at 270-7939 or yukilei.sugimura@mauicounty.us. Please RSVP to Legislative Analyst Laksmi Abraham at 342-4165 or laksmi.abraham@mauicounty.us.

Sincerely,

A handwritten signature in black ink, appearing to read 'Yuki Lei K. Sugimura'.

YUKI LEI K. SUGIMURA, Chair
Water, Infrastructure, and Transportation
Committee

Attachment

Maui County Council
Water, Infrastructure, and Transportation Committee
Program: Maui's Energy Future
October 19, 2020
1:30 p.m. to 3:00 p.m.

- A. WIT Committee Chair Yuki Lei K. Sugimura
 - 1. Open meeting
 - 2. Take testimony
 - 3. Introduce panelists
- B. 1st presentation: Scott Glenn, Hawaii State Energy Office (10 minutes)
- C. 2nd Presentation: Scott Seu, Hawaiian Electric (10 minutes)
- D. 3rd Presentation: Ms. Nicolette van der Lee, UHMC – Sustainable Living Institute of Maui (10 minutes)
- E. 4th Presentation: Alex de Roode, County of Maui Energy Commissioner (5 minutes)
- F. 5th Presentation: Fred Redell, Hawaii Clean Power Alliance (10 minutes)
- G. Q&A from Council Committee Members (30 minutes or remaining time allotted)

Panelists are not required to have slides; however, if panelists choose to show slides, please keep them limited to no more than three per speaker.
