Dear,

MAUI Council Members I have spent about 30 what years drinking beer. I decided to go to Aloha House for 40 days and got sober. Then I have decided to seek treatment at ~~AA House~~ ^{OHANA MAKAMAHI} ~~House~~, and it is a really good Program. My sisters ~~are~~ have gone ~~there~~ through this Program & they are sober having a good living being clean. My life now being sober has really changed my life slowly but like they say one step at a time. The OHANA MAKAMAHI impatient program is helping because I get to stay away from Alcohol and ~~be~~ I get to go on with my life. But anyways it works but I'd like to say mahalo To all the programs =

ALOHA.....

Dear Maui Council Members,

First off hope all is well. Before coming to Ohana Makamae I was a major substance abuse user. From alcohol to crystal meth I would use anything to take the pain and memories away from growing up in a broken environment. I ended up spinning out of control and living on the streets of Kihei for a few months and decided that needed a change or was going to end up dead or in jail. Went up to LCRS (Aloha House) to detox for 10 days and my case worker told me there was a bed space open up in Hana at Ohana Makamae so decided to come check it out with a open-mind. This is my first time seeking treatment for my addiction and couldn't imagine a more serene place other than here to do it. I not only think Ohana Makamae makes a positive impact for the community of Hana, but the entire island. This treatment center and the people that run it give residents a opportunity to change their life in a positive way with the tools to stay clean once graduate.

Thank You
Paul

Dear: maui council members

The past 5 years I was a daily user of meth. I never cared about anything for those 5 years all I cared about was the drugs I had to have it at all times. At the time I thought I was doing nothing wrong while I was running around crazy driving illegal cars that was all busted up. I also didn't have a good relationship with family and old friends after I started using. ~~was~~ The only people I hanged with was drug addicts. on my 4th year using I've ~~was~~ got a child I thought that I was gonna change and stop using But it was hard and wasn't able to do it. 1 year later I decided to check in to ohana makamae and That was the best thing ive done in my life. It changed my life The help they give and the things they teach is unreal now I'm a sober person whos living a good happy life and can now see that I was a very sick person. Without ohana makamae I would still be out on the streets.

Aloha my Name is Claire Kamalu Carroll, President of Hana Community Association

Today I am testifying for the following, my testimony will also be passed out to council members today

My request for the 2019-2020 budget is as follows

- Hana Youth Center-The primary program that our children can go to that is safe and positive, including community service
- Hana Art-positive impacts of our children and offering many programs for our youth which is currently participating in encouraging our children to get involved in positive activities
- Kaunoa senior program-They offer our Kupunas social activities and have the social skills that every senior should have at retirement
- Kipahulu Ohana-They assist with Cultural programs and knowledge for our Community
- MEO- They have been serving our Community to our Seniors and Children and we would request that this continues (they shuttle our Children to the Youth Center after school)
- Ohana Makamae- They have continue offer services to help people in a live of sober and drug free live and helps build families back together in a positive way
- Mahele Farms- They continue to have our community participate and offer an awesome program that provides food into the community. This is sustainability to our community
- Hana Cultural Center- They offer many things that help understand our history and community
- Kahanu gardens-Area where the Largest Heiau is located and many Native Hawaiian plants. They have a small crew yet find the opportunity to still have community programs and work efforts in order to maintain the Gardens.
- 2 more miles of road paving in the Makalae-Pu'uiki area going toward Kaupo.
- Assistance for water to our Housing Project.
- Continued renovations to Helene Hall at Hana Bay
- Miconia-Our Community is in the heart of the most invasive plant to Hawaii-break down of monies come to per Adam Radford for \$706,0000- we ask that is be in its own line item. We need to protect our water sheds
- Last but not least-\$475,000 for Kaupo Community Center to purchase a commercial Septic tank that they may proceed in restoring the Kaupo School for Community use. I am aware of the past committee meeting where the opportunity was lost but I am here today to ask for this funding

Mahalo,

Claire Kamalu Carroll-President of Hana Community Association

Testimony at Budget Hearing –East Maui

4/5/2019

RECEIVED AT EDB MEETING ON 4/5/19

Claudia Kalaola

Hāna, HI 96713
Phone: 808 269-2514 wehi@kalaola.com

April 4, 2019

Aloha mai kākou,

O Claudia Kalaola ko'u inoa. Noho wau i Hāna. Hānau'ia a hānai'ia ma Hāna. E welina mai.

The following is my testimony to the County of Maui Economic Development and Budget Committee members for their peruse and consideration.

I make a request for the following:

- **A quick promise to repair the existing pavilion at Kapueokahi.** As you know the roof of the pavilion blew off during a storm in February. The pavilion is fundamental to the tradition of 'ohana gatherings and cultural events that take place at Kapueokahi. Without it, there is no covered facility to protect users from the **Koholapehu** or the rainy wind from the ocean.
 - The County's own website says " Hana is the garden treasure high atop Maui's Northern coast. No visit on island is complete without a scenic ride on the Road to Hana (Highway 36). Once you've arrived, Maui County Parks provide a variety of options for fun and recreation, and all county parks' locations can be reached by following the road into Central Hana. Each year Hana hosts a number of special events.... Hana is an ideal location for an all-day outing, experiencing the road at sunrise and park-supported events throughout the day."
- As a Director of the non-profit Nā Mamo O Mū'olea I have a real concern about whether or not we will have a venue for our 10th Hana Limu Festival. Last year we postponed what would have been our 10th ANNUAL event because of on-going construction plans in the Kapueokahi area. We have already started the permitting process (which literally takes months to complete) and applied for grants to help fund our event. But Parks & Rec cannot give us a guarantee everything will be repaired and ready for use. And while we understand this, I implore you to please make the repairs a priority! It's so important to maintain traditions: Not just our festival, but regattas, graduation parties, baby luaus, birthdays, Aloha Week etc. etc.

RECEIVED AT E03 MEETING ON 4/15/19

I strongly support of the following, and appeal to you to fund these worthy causes and organizations:

- **Ke Ao Hali'i** - Please support the Mayor's proposed budget to set aside \$2.25M from the Open Space, Natural Resources, Cultural Resources and Scenic Views Preservation Fund as a grant to Ke Ao Hali'i for land acquisition in Hana.
 - These coastal lands in the Mokae and Maka'alae areas are precious open space, very culturally and historically significant, and used by the community for traditional and customary practices and subsistence gathering, as well as recreation. These lands could soon be sold and developed if we don't act now, forever changing the landscape of Hana. This is a window of opportunity to protect these lands for future generations.
- **Nā Mamo O Mū'olea** is a 501(c)(3). For more than 10 years our organization of all volunteers have worked tirelessly to promote education and awareness of our ocean and near shore habitat. We have partnered with scientist to educate ourselves and others about the issues of 'opihi, limu, i'a, coral and all the delicacies we enjoy and hope 7 generations following will enjoy. We are sponsors of youth programs and outreach. We are committed, and we work hard. Please continue to support our requests for help with our outreach work in 'aina based and 'ohana based programs. Please continue to help us continue and grow our Hana Limu Festival event that takes place each November, drawing people from throughout Hawai'i Pae'aina. And which supports our Dr. Isabella Kauakea Aiona Abbott scholarship.
- **'Ahahui Ka'ahumanu** - for their dedication and commitment to preserve the history, legacy and mo'olelo of our great Queen who was born here in Hāna.
- **Hale Hulu Mamo** - A part of the Maui Adult Care Centers who provide a safe and stimulating environment for our kūpuna to share and have a sense of well being.
- **Hana Youth Center** - A safe haven for our youth that provides a positive learning environment for after school activities. So important for parents who work, and can feel good that their children are safe, doing homework and learning new and interesting life skills.
- **Maui Economic Opportunity** - Is a God send to the Hāna community. A tremendous help to our kūpuna, it not only provides transportation, but also piece of mind, especially for those who have no other means of transportation...that they can get to appointments and do shopping without the stress of figuring out the logistics of getting to and from home.

Mahalo a nui loa, and again, I humbly ask for your consideration of all the above.

Claudia Kalaola

Subject: Testimony for the budget meeting tomorrow...

Aloha Aunty Mavis,

I am unable to come to the meeting today but am very much wanting to submit testimony.

Bike path:

Having grown up in Hana I have walked and bike all over here and remember having some close calls. Now being a mother I hope we can provide a safe path for not only our children but everyone in the community in a way that would that would also preserve our rural community.

Ma Ka Hana Ka Ike:

A program I benefited from in school is now a key part of enriching my own life as I am able to use the skills in building my own home and enhance my own business. This skills taught here are fundamental in teaching life skills and I hope this program can continue to be supported.

Made in Maui Festival

I have participated in this event three times. It has been an amazing resource for a small business owners, helping connect us to whole-salers, help with marketing and really raising the bar and getting small business ready to expand on a national and international scale. I hope that this too can continue to be funded as we can helped small business thrive which in turns helps make us self sufficient.

Thank you so much. I tried to keep it short and to the point.

Mahalo

MAUI COUNCIL MEMBERS:

My NAME IS DOUG FROM TEXAS. I'M CURRENTLY A CLIENT AT OHANA MAKAMAE. BEFORE I HAD THE PLEASURE OF COMING TO HANA MY LIFE WAS A TRAIN WRECK. I'M AN ADDICT/ALCOHOLIC. I WAS SO DEPRESSED AND CAUGHT UP INTO DRUGS + ALCOHOL. I THOUGHT THAT WAS ALL THERE WAS TO LIFE. I DIDN'T HAVE A GOOD RELATIONSHIP WITH MY FAMILY, I WASN'T HEALTHY, TROUBLE WITH THE LAW + TROUBLE MAINTAINING MY LIFE. I DECIDED TO GET HELP JANUARY 2019 + CHECKED MYSELF INTO A TREATMENT FACILITY IN TEXAS. AFTER I COMPLETED THE INTENSIVE INPATIENT PROGRAM I WANTED TO CONTINUE THE INTENSIVE OUTPATIENT PROGRAM. BECAUSE MY LIFE DEPENDED ON IT. WE DID SOME RESEARCH + FOUND OHANA MAKAMAE HAD A SOBER LIVING HOUSE ALONG WITH THE (JOP) PROGRAM. THEY RETURNED MY CALL AFTER MY ASSESSMENT + SAID THEY WOULD GLADLY ACCEPT ME. I WAS SO EXCITED + TAB SCARED. I WAS TRAVELLING MAIL THE WAY ACROSS THE UNITED STATES TO MAUI ALONE.

WHEN I FINALLY MADE IT TO MAUI. I MET WITH THE MANAGER OF OHANA MAKAMAE. THE STAFF FOR THIS OHANA MAKAMAE ARE SO WARMING + WELCOMING TO ME WHEN I ARRIVED.

PG. 2

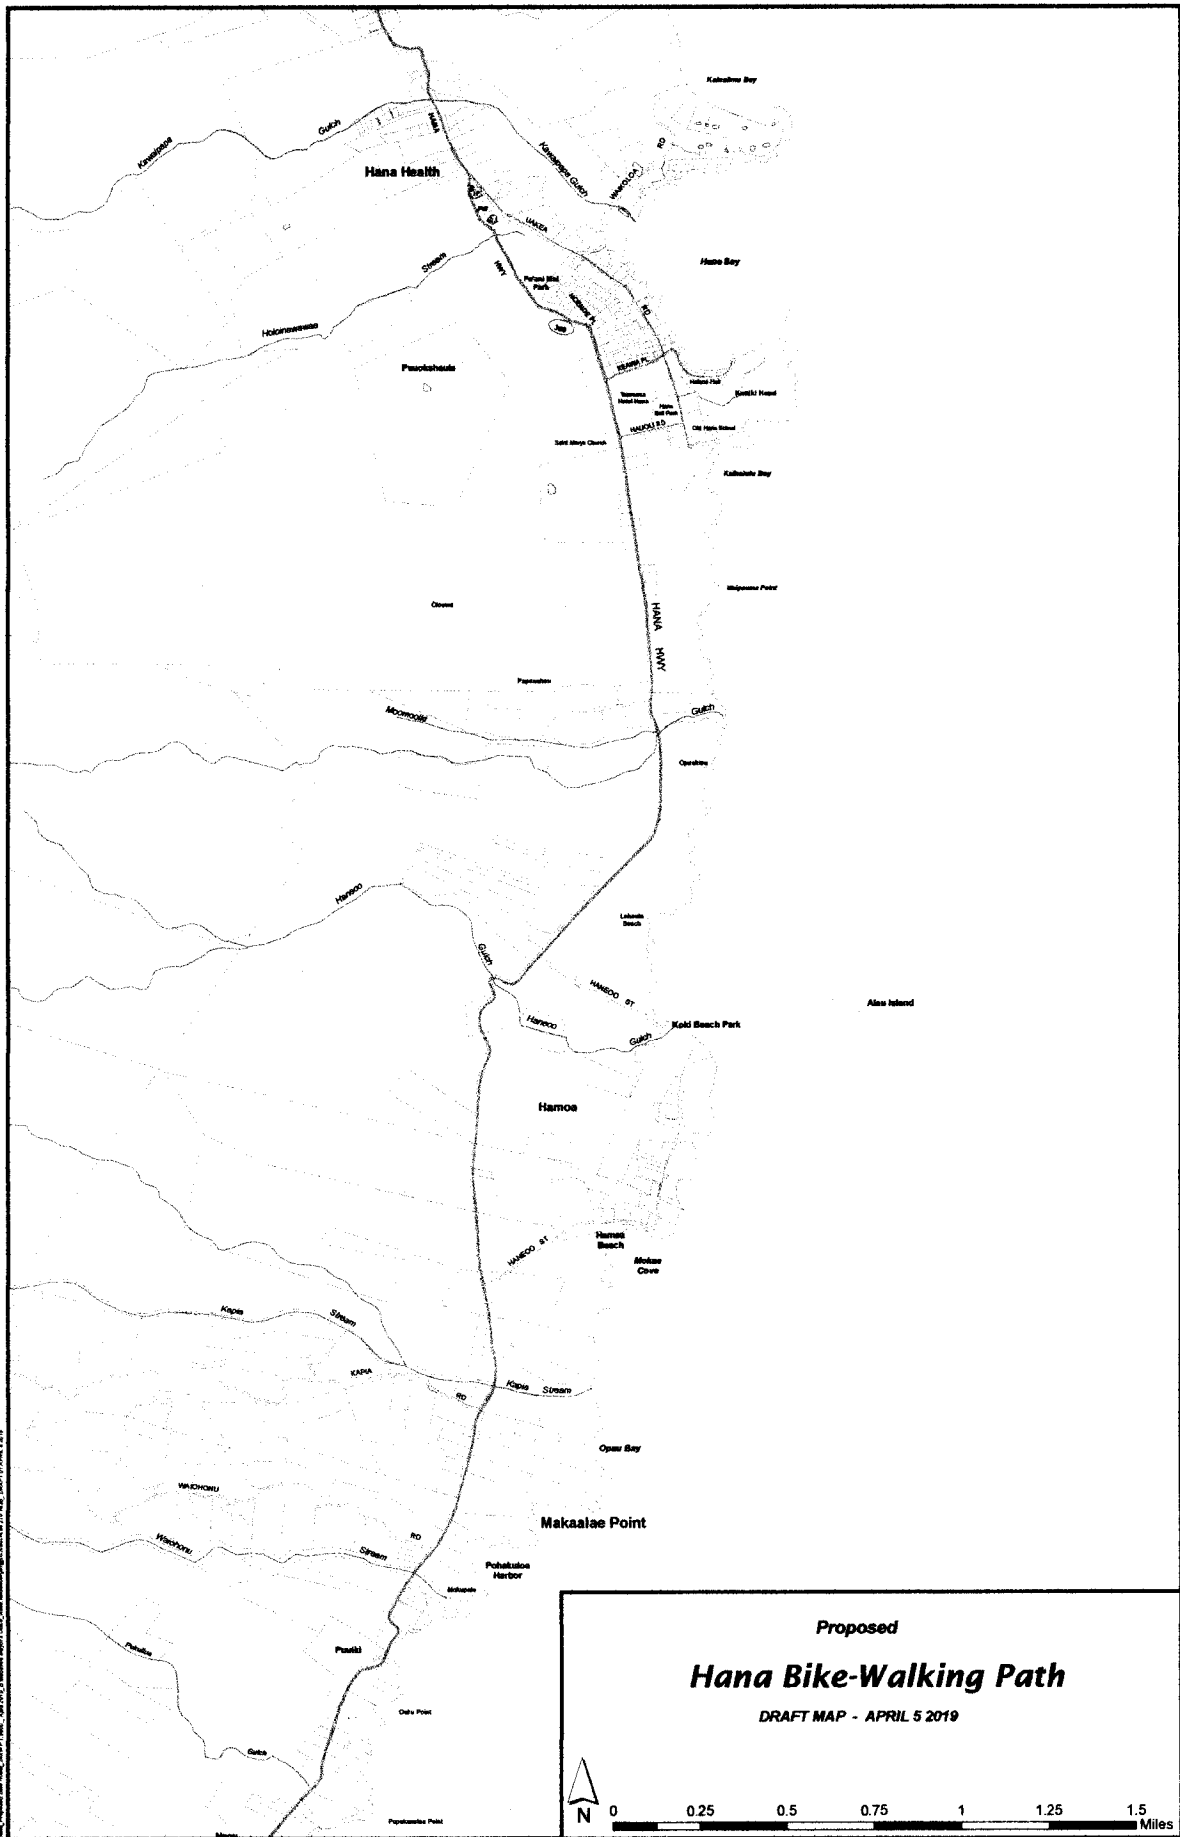

I'VE BEEN ON THIS ISLAND SINCE MARCH, 11 2019.
I LOVE IT HERE ON MAUI. THE PEOPLE IN HANA
TAKE ME IN AS ONE OF THEIR OWN. I FEEL LIKE
A LOCAL + PART OF THIS COMMUNITY. I REEVALUATED
MY LIFE + WHAT'S IMPORTANT IN LIFE. THIS COMMUNITY
IS LIKE ONE BIG FAMILY. EVERYONE IS THERE FOR ONE
ANOTHER. THE PROGRAM + SOBER LIVING + STAFF
AT OHANA MAKAMAE CHANGED MY LIFE. I'M ABLE
TO LIVE AGAIN, SOBER, I HAVE A HEALTHY RELATIONSHIP
WITH MY FAMILY, FRIENDS + LOVED ONES. WHAT
BETTER PLACE LIKE HANA, MAUI TO RESTART MY
LIFE. IF IT WERENT FOR OHANA, MAKAMAE, TRUSTEES,
THE BOARD I MAY NOT BE ALIVE TODAY. FOR THAT
I'M TRULY GRATEFUL FOR.

A LOT OF PEOPLE DON'T UNDERSTAND THE POWER
OF ADDICTION. ITS A DISEASE + ITS DEFINITELY TREATABLE.
THIS PLACE SAVED MY LIFE. THERE ARE MANY PEOPLE THAT
ARE STILL OUT THERE SUFFERING FROM THIS. I NOW
BELIEVE IN SECOND CHANCES THANKS TO ORGANIZATIONS
+ PEOPLE LIKE THIS ONE. PLEASE ~~HELP~~ KEEP THIS
ORGANIZATION GOING. THERE ARE SO MANY PEOPLE IN
HANA NONE THAT COULD USE THE HELP + OHANA MAKAMAE
PROGRAM TO POSSIBLY GET THEIR LIFE BACK. I APPRECIATE
YOUR TIME + PLEASE CONSIDER HELPING THIS CONTINUE
THIS PROGRAM!

Total for Section #2	969,462.55
Section #3: Koki Beach Entrance to Bridge by Makalii, approx 1 1/4 mile (6,600 linear feet)	
Re-mobilization: D6, D4, 320 Excavator with hammer, Roller, and Skidsteer	6,500.00
Prep 8ft wide path, flat rate of \$4,200 per day	88,200.00
6" Base, 7ft wide (sq yd)	333,710.00
2" AC Pavement, 6' wide (per sq yd)	220,000.00
Traffic Control, Rock breaking & removal, BMPs (Top-End Costs)	170,000.00
Subtotal	818,410.00
GE Tax	34,094.96
Total for Section #3	852,504.96
Prices do not include bridges, engineering, or surveying	
Bonding is NOT included	0.00

Thank you for your interest in our bid

Total \$2,353,318.28

Aloha,

Maui Council members. My name is Jacob, I am 40 years old from the Big Island of Hawaii. I have a loving supportive wife and three beautiful children. Two boys and a girl. They are my world. Throughout my life I have struggled with dealing with my problems in a negative way. I was reliving trauma I had experienced as a kid as I navigated through life. I would self-sabotage relationships to the point of isolation. With life's problems stacking up and everyday stressors becoming overwhelming. What once, I would turn to for numbing from time to time had now consumed me entirely. Drugs were apart of my everyday life. I was addicted. As my addiction grew so did my guilt, shame, sadness + anxiety. I felt alone in a dark place, despite having my family around me. The past year and a half was a living nightmare. It had gotten to the point that I would pray at night that the sun would not rise the next day. I'd think 'how could I get through another day when I had barely made it through today. I was a shell of myself

I had become emotionally vacant and spiritually bankrupt. I had not only hit rock bottom but had been surviving there for some time.

It was a week before this past Christmas and I was looking at my youngest who is two years old and something came over me. At that moment I had decided 'It's time'. I didn't want to continue on the path I was on. I wanted to be the husband and father my family deserves. I knew the only way to do that was to get help. By the grace of God, I ended up at Ohana Makamae. Since starting my journey here I have learned so much things. I have learned to have love and respect for myself. I have learned that my life has value and with the tools given to me by my counselors, I can live this life drug and alcohol free and face whatever problems past, present and future with confidence and a rational mind. This program with the counselors who I now consider family and their knowledge, love and aloha have given me what at one time I thought was an impossible dream.

They along with surrender, acceptance and commitment has given me my life back. I can be the husband and father I knew I always could be. I can handle life on life's terms. I have love and acceptance for myself and compassion for others. Most importantly I look forward to each new day and what it may bring. Getting to experience life sober. Ohana Makamae truly has changed my life. For that I am truly and unconditionally grateful.

Much Mahalo for this
Amazing gift! Jacob

Subject: Re: Testimony for the budget meeting tomorrow...

Aloha Mavis,

Mahalo for the notice. My Son is in the hospital with a hole in his lung. I will not be able to attend tonight's message and ask that you take my testimony in for me? Mahalo in advance. If you think I should add anything else to support our Hana Community, please let me know. Mahalo for you awesome service to us. Have a great day. Alohalani

Aloha Budget Committee,

This is my testimony for our East Side, Hana Community. Our services in Hana is vital to the population of the East Side Sector consisting districts from Huelo to Kaupo (correct me if I'm wrong).

The goal here to to not disrupt the community's life cycle when seeking services in their own district and not worrying about travel far.

I do want to point out a time, recently, that the community was so sincere and needed County's help with funding. Even a small token of funding would have made a difference but to our surprise, funding went to another District that did not contribute to our Hana District. How disappointing in our trust to expect the integrity of these funds serving our Hana Community end up at a Race Park in Wailuku District. The following are the areas that I would like to encourage funding for:

1. MEO for serving Community
2. Na Hulu Mamo and Kainoa Citizens - serving Kupuna
3. Ohana Malama
4. Hui Laulima Dialysis Center
5. Parks & Recs projects:
 - Repairing the Helene Hall & Pavilion.
 - Repairing parts of the Hana Community Center
 - Repaving the Basketball Court and Tennis Court
6. Open Space Funds for Ke ao hal'i for the future of our Keiki, as open space, cultural, recreational purposes

Note: Bike Paths is for future planning as the Community's gathering places and existing recreational areas are of importance. This is not a priority when we have all the other areas to fix before pursuing a new bike path. Unless we have lots of money going to all these County Parks, Landfill, Fire Station improvements and supporting Non-Profits mentioned, than we can add the bike path.

RECEIVED AT EDB MEETING ON 4/5/19
submitted by Mavis Medeiros
for Jade Smith

Dear Maui County Council Members,

I am one of 3 co-chairs of the annual Hāna Limu Festival, which is held every year at Hāna Bay Beach Park. This fun educational event draws hundreds of participants who have a great time learning not only about Limu, but also about all kinds of things related to maintaining healthy shorelines in East Maui . We have games, exhibits, music, hula, films, and educated speakers. This event draws families, local residents and visitors alike and is one of Hāna's most anticipated annual events.

In 2018 we had to cancel the Limu Festival because of uncertainty about the repair schedule for the facilities at Hāna Bay Beach Park. We were very disappointed, as it would have been our 10th Annual Limu Festival. Another venue would not have been suitable, as this is an ocean-oriented event. (in 2017 the Hōkūle'a participated).

Our 10th Limu Festival has been re-scheduled for November 2019, and we have already lined up speakers, entertainers , and participants. Grant funding is in place and permits are in process. I urge you to fund the immediate repairs to the Pavilion and other facilities at Hāna Bay Beach Park. We cannot hold the Limu Festival without the Pavilion, as it is the source of electricity for the PA system. Helene Hall is our venue for films and speakers.

Hāna Bay Beach Park is essential to the well-being of our Hāna community. It has always been the center of community life. It is our gathering place. It is where we swim, walk, relax, have luau's, parties, family get- together, and public events. I ask you to provide funding for essential repairs at Hana Bay Beach Park.

Mahalo
Jan Elliott
Co-Chair, Hāna Limu Festival

P.O. box 202; Hāna, HI 96713

April 2, 2019

To whom it may concern:

This Hāna Community Association would like to extend its enthusiastic support for the proposed donation of a community Bike Trail. The completion of this Bike Trail is critical to pedestrian safety in Hāna and would provide a much-needed venue for physical activities, to promote healthy living in our community.

In the small town of only 1,235 residents (U.S. Census 2010), our roadways see an average of 1,800 to 2,700 vehicles on a daily basis. This heavy flow of traffic is often erratic, since the vast majority of drivers are tourists unfamiliar with the turns and terrain. At the same time, the business center of Hāna has no continuous sidewalk, and most shoulders are on an incline. The only passage for pedestrians in Hāna center, **including for our youth**, are lanes of travel on the Hāna Highway or an equally hazardous one-lane roadway.

More than a two-hour drive from Maui's urban center, Hāna is disconnected from the health and medical facilities on island. With no gym or recreational center where residents of all ages can safely exercise, the creation of an extended trail, protected from the roadways, is essential to the health of our residents. This trail would promote biking, walking, jogging, and the exploration of nature, which is known to reduce stress and improve overall health.

The proposed trajectory of the Bike Trail meets the community's imminent need to connect the northern half of Hāna, where its preK-12th grade school is located, to the small business center of Hāna. The Hāna Community Association eagerly endorses this project, and urges our community leaders to provide the necessary support to see the Bike Trail project through for the well-being of this generation of keiki and in perpetuity for generations to come.

April 5, 2019, Maui County Council Economic Development and Budget Committee Meeting in Hana Regarding the County of Maui 2020 Budget, Keani Rawlins-Fernandez, Chair.

Hard Copies to Hana. Email to: edb.committee@mauicounty.us

***Aloha* Chair Rawlins-Fernandez and Council Members,**

Thanks for coming to Hana. Please contact me if you have any questions.

Mahalo!

**#1 BUDGET PRIORITY FOR THE HANA
COMMUNITY PLAN DISTRICT.**

“Prepare a domestic water system master plan and a wastewater system master plan for the Hana region”. Page 25, 1994 Hana Community Plan Ordinance. See link @ <https://www.mauicounty.gov/DocumentView.asp?DID=1710>

PLEASE FUND THIS URGENT, DECADES OVERDUE, “PHYSICAL INFRASTRUCTURE GOAL, POLICY, OBJECTIVE AND IMPLEMENTING ACTION”.

“GOAL; Timely and environmentally sensitive development and maintenance of infrastructure systems which protect and preserve the safety and health of the Hana region's residents and visitors, including the provision of domestic water, utility and waste disposal services, and effective transportation systems which meet the needs of residents and visitors while protecting the region's rural character.”

A very brief history:

- * There are more than a hundred cesspools, an injection well and the unlined-toxic-polluting Hana dump draining into Kapueokahi (Hana Bay). In addition, the entire Hotel Hana-Maui and the County of Maui Hana Community Center are in the Special Management Area (SMA) and are an integral part of the problems that must, by law, be timely resolved.
- * Dr. Jon Mink detected high levels of coliform bacteria in the area below the injection well on the Waikoloa side of the bay around 1988 while conducting base line studies for the Rosewood Sea Ranch Cottages.
- * Medical cases of staph infection from the water in Hana Bay are ongoing.
- * A “low tech” water treatment plan for Kapueokahi (Hana Bay) was discussed and formulated in 1988 between Dr. John Harrison, University of Hawai’i Environmental Center, and the Hana Community Association. This led to the 1994 Hana Community Plan language which has not been implemented in 25 years since 1994. Shameful.
- * The General Plan Advisory Committee (GPAC) discussed the Hana landfill situation. In public hearings, County of Maui officials stated the Hana landfill would be closed soon and become a “satellite” landfill. Meaning; Trash not recycled would be hauled to the Central Maui landfill. Landfill closure has not occurred. Aggregate “cover” material for the Hana landfill is now being hauled to Hana from Central Maui in over the legal weight limit trucks. **Please budget and require a forensic audit of the Hana landfill situation, including the previous illegal mining and desecration of Olapawa mountain in Kaeleku for landfill “cover” material.** The County of Maui agreed an Environmental Impact Statement should be done as part of remediation of Olapawa mountain. No Environmental Impact Statement has been produced. The county is

potentially liable for millions of dollars of property damage from the intentional neglect and loss of property from flooding caused by the un permitted mining.

- * **Solving these problems should be the highest budget priority for the District of Hana. I suggest budgeting \$100,000 as a “start up” six year capital improvement project and referring to the County Council Environmental, Agriculture, and Cultural Preservation Committee as an agenda item. The Hawai’i State Department of Health, the U.S. Environmental Protection Agency, the Gates Foundation and others should be included in the committee discussions and solutions. The Queen Ka’ahumanu Society, Hana Canoe Club, Hana Akule Hui, Travaasa Hana Maui and others should be included in the committee discussions and solutions.**

#2 BUDGET PRIORITY FOR THE HANA COMMUNITY PLAN DISTRICT.

I strongly support purchase of land in Hāna for conservation, recreation, historical, cultural and other values. Mayor Victorino has wisely included 2.25 million dollars in the proposed budget for that purpose. Mahalo Mayor Victorino!

I have worked for over forty years to help toward the acquisition of important lands for the community. The list includes ‘aina located in Kipahulu, Mu’olea Point, Maka’alae, the entire Hotel Hana-Maui and Hana Ranch and approximately 250 acres of culturally important land identified in the 21 “conditions of zoning” in the proposed PK-4 Keola Hana-Maui Golf Course and Country Club.

Attached for your information is the Maui News dated July 30, 1997. The front page story by Jill Engledow is titled “Bright side seen to beach dispute”. Mahalo and God Bless Tom Morrow, Larry Kaikala, Richard Keohuhu and all the

individuals, 'ohana and community groups involved in resolving this dispute.
'Onipa'a!

#3 BUDGET PRIORITY FOR THE HANA
COMMUNITY PLAN DISTRICT.

Hana should and must have its own Planning Commission. It is long overdue. A Hana Planning Commission will help to be certain important land use decisions are made in Hana by Hana residents. **Besides being a Pono and democratic proposal, implementation will certainly SAVE the County of Maui taxpayers money, avoid unwanted conflict and empower Hana residents.**

The Maui Planning Department and Maui Planning Commission have “dropped the ball” repeatedly over the years with a lack of local knowledge, bad leadership in the planning department, bad “interpretations” of the law and decisions contrary to the wishes of the Hana community.

“Bad decisions” include fraudulent approvals of Special Management Area Permits (SMA). Final approval or disapproval of all future SMA Permits should be made in Hana by Hana residents.

Enclosed for your information is page 2 of the Maui News dated July 30, 1997. The story by Jill Engeldow is titled “Hana apartment plan debated”. The story documents the complete failure of the Maui Planning Commission to hear and respond to the people of Hana. The last paragraphs documents Chair Velma Santos frustration with the situation and her move to create the Hana Advisory Committee to the Maui Planning Commission. Mahalo Velma!

I was appointed by Mayor Hannibal Tavares to serve on the first Hana Advisory Committee to the Maui Planning Commission along with John Akana, Bob Carroll, Roland Chang, Harry Hasegawa, Mathew Kalalau and Lidia Laeha,

Recently, after nearly ten years of conflict, the Hana Advisory Committee to the Maui Planning Commission wisely made the correct and community supported decision to recommend an Environmental Assessment (EA) process for the County of Maui, not community, proposed Nahiku Community Center. This process was required by both the State Land Board "Set Aside" and Hawaii Revised Statute Chapter 343. The Hana and Nahiku Community broke into loud applause when the recommendation passed at the meeting in Hana.

However, Planning Director Michele McLean and the Maui Planning Commission completely ignored the recommendation of the Hana Advisory Committee to the Maui Planning Commission and recommended approval. Shameful. Unethical. Illegal. **I repeat the community based request for a forensic audit of this entire corrupt situation.**

POSSIBLE HANA DISTRICT PROJECTS

NOT FUNDED IN MAYOR VICTORINO'S BUDGET

1. The Nahiku Community Center. I support and compliment Mayor Victorino's decision not to fund this development. The lack of legally required public due process, fraud, misrepresentations, lack of transparency, lack of legal jurisdiction and an unresolved lawsuit support his decision. This two million dollar + project is not supported by the community as proposed. More than a quarter million dollars of taxpayer money has already been wasted in this unwanted and destructive ten year long conflict. **I strongly support a forensic audit of this proposed development as previously requested by community members. I request all the funds previously designated for this corrupt proposal be budgeted and spent toward "cleaning up" and restoring Hana Bay.**

2. Lower Nahiku Bridge. This is an urgent health, safety and liability issue for the County of Maui and the State of Hawaii. The Maui County Council recently passed a very incomplete and uninformed “Resolution” regarding the bridge addressed to Mayor Victorino. The mayor certainly did not have time to fully consider the issue for the budget. However, it remains an important, serious and life threatening issue. Please revisit and fully consider this issue in the near future.

#1 BUDGET PRIORITY FOR THE COUNTY OF MAUI

Enclosed for your information is the Maui News front page story dated April 12, 1991, titled “Major property-tax reform proposed”. Please read the entire story by Mark Adams. **This is an important affordable housing issue.**

In the box titled “Highlights of the Tax Proposal” please note; “A study of the current tax system would be completed, with recommendations developed for revamping the system at the end of the three-year period for the proposed reform package. Possibilities for changes include doing away with the “comparable sales” method of assessing properties”.

Tragically, the study has never been done. Today, a study is needed more than ever to insure long-term, perennial, affordable housing is available to kanaka maoli and multi-generational ‘ohana of all cultural and ethnic heritages. The unfair and immoral “market value” property assessment system needs to be reformed to insure those who want to live and die here will not be taxed out of their homes or off their ‘aina.

Please read the enclosed Maui News VIEWPOINT, dated February 26, 2016, by William D. Tavares. It is titled “County Council continues to avoid a comprehensive property-tax study”. This is an important affordable housing issue.

I simply ask and recommend this issue be referred to the Maui County Council Affordable Housing Committee for consideration. This referral will not require additional spending of taxpayers money. It will require only normal monetary support for the Office of Council Services and Maui County Council Committees.

#2 BUDGET PRIORITY FOR THE COUNTY OF MAUI

I served as a dedicated member of the Maui General Plan Advisory Committee (GPAC). I diligently studied thousands of pages of information and reports and did my best to collaborate with the other 24 members in the best interests and common good of our community.

Please budget moving the Kahului sewage treatment plant away from the shoreline. And, please budget moving the dangerous and toxic storage away from the Kahului harbor. This is a dangerous risk to the downwind population. Sea rise issues should make these issues a budget priority.

Regarding a different budget item; I find Council Member Hokama's statement regarding the expensive proposed 80 million dollar redevelopment of Wailuku confusing or misleading. To paraphrase, "The project will not take money from other projects". I apologize to council member Hokama if the paraphrase is inaccurate. I certainly respect his experience and service.

Regardless, my points are valid.

- * Every budget item takes money from other possible and possibly more important projects...**unless** you plan to increase the budget and increase taxes to pay for the additional expense.
- * Every dollar spent is paid by the taxpayers. Federal, state and county tax revenues all come from the same source. We, the people.....

Unfunded county mandates have recently been estimated up to one billion dollars...with more bond debt requested. The administration, council and state have publicly discussed the “unfunded mandates” issues in hopes of resolving the government-created problems. **There are ominous implications for the future stability and well-being of our community.**

Please don't forget the federal “unfunded mandates” debt of tens of trillions of dollars. We have to pay for that debt, too.

It would be prudent, acting with or showing care and thought for the future, to pay down county employees retirement benefits and increase the “rainy day” fund to the maximum allowed by law.

Please carefully consider our values, priorities and spend wisely.

With ALOHA,

John Blumer-Buell

Postscript:

Following is a list of some of my community service. I offer this simply to show my recommendations are made through experience and community advocacy. These activities have been an important part of my life.

Maui General Plan Advisory Committee (GPAC), Hana Advisory Committee to the Maui Planning Commission (3 terms), Hana Community Association Board of Directors (25 years), COMET (Committee for More Equitable Taxation), Founding Board Member of the Hana Community Arts Council, the East-Maui Taro Festival, the Kipahulu 'Ohana, the Hana Community Dialysis Home, Na Mamo o Mu'olea and Ke Ao Hali'i (Save the Hana Coast).

County Council continues to avoid a comprehensive property-tax study

Viewpoint

February 28, 2014

By WILLIAM D. TAVARES , For The Maui News

My family and I live in Kuau, one of the most coveted areas of Maui. The property purchased by my late father, Antone F. Tavares, in 1903 has remained in our family's possession for 112 years. Each year we agonize in anticipation of the current property tax amount. This past year we saw an increase of 50 percent with the possibility of another steep increase this fiscal year.

I recently turned 94 and find it increasingly difficult to live under a property tax system that is as unfair, cruel, immoral and absolutely indefensible as Maui County's is. If I were younger you would see my righteous indignation made visible by public resistance to this abominable property tax system.

COMET (Committee for More Equitable Taxation) has proposed since 1988 that the Maui County Council undertake a thorough study of our present property tax system to no avail. This obstinate attitude was recently reaffirmed by the council chairman, who stated the council would not review its gutting of the "circuit breaker" tax credit or study the present system.

An earlier council recognized the need for a comprehensive study. For those who do not remember, COMET worked constructively with the council to enact the "homeowner's exemption" and "circuit breaker" in 1991. Those were implemented as short-term solutions. The "short-term solutions" have been in place for nearly 25 years. Broken promises.

The Maui News headline of April 12, 1991, stated: "Major property tax reform proposed." One of the proposals was "a study of the current property tax system would be completed with recommendations developed for revamping the system at the end of the three-year period for the proposed reform package. Possibilities

for changes include doing away with the comparative sales (market value) method of assessing property." Broken trust.

Recently, the County Council authorized the study of a "council-manager" form of government for a possible Maui County Charter amendment. As presented, this form could save taxpayers 10 percent through efficiency and take some of the destructive politics out of the current system. The council-manager form would not eliminate the position of mayor. The council-manager form of government is not new or untested. This study is a worthwhile exercise in democracy but raises a serious question.

Why does the current council so easily authorize the study and cost of changing our fundamental county government structure but continue to refuse to study the Maui County property tax system?

There is no good excuse for the County Council to continue to avoid a comprehensive property-tax study. It is long overdue and more relevant than ever.

It is an extremely sad situation that citizens of this once great nation are enduring. Our political leaders on all levels of government are so engrossed in their own political and personal welfare that the basic needs of society are ignored. Whales, porpoises, seals, turtles and even the lowly loli (sea cucumber) are given much attention but our basic spiritual and human needs are often ignored.

As far as I am concerned, this situation is comparable to the situation in Flint, Mich., where the personal health of thousands of citizens was placed in deadly jeopardy by an uncaring government. The current Maui property tax system is causing destructive stress and damaging the health and welfare of many of our citizens. Everyone, including our honored kupuna, Native Hawaiians and future generations, deserves better.

As I have asserted many times in the past, anyone who insists that our property tax system is a just, fair and moral system, is an unfortunate victim of invincible ignorance.

Aloha ke akua.

Bright side seen to beach dispute

By JILL ENGLEDDOW
 Staff Writer

HANA — A man whose company has been erecting fences across traditional beach access points and a man who has been cutting the fences took visitors on a tour of the disputed sites yesterday.

The tour was a display of cooperation that some residents say offers hope for a harmonious future for Hana.

A unique convergence of Hana natives and the transplants who have come to call Hana home may provide the answer to land use and beach access issues that have simmered in the community for years.

Members of these two groups have been meeting as the new Development Steering Committee of the Hana Community Association. Several members of that committee and representatives of Rosewood Hotels Inc. took County Council Planning and Land Use Committee members to look at beach access sites yesterday.

Present were Bob Zimmer, president of the corporation that now owns Hana Ranch and Hotel Hana Maui, hotel vice president Carl Lindquist, and several steering committee members. One of these, Larry Kaikala, has been a leader in the move to regain the traditional use of land some Hana residents claim is still partly theirs.

Kaikala is one of several Hana natives who have, in the past year, cut fences blocking trails used by their ancestors to reach favorite fishing sites. The cutting of fences erected by the ranch is a dramatic See BRIGHT, page A3

ON ACCESS — Hana resident Larry Kaikala discusses beach access with Council Member Tom Morrow during a tour yesterday of several sites that have been subject to dispute between local residents and the corporation that owns Hotel Hana Maui and the Hana Ranch. Kaikala is a member of a community committee now is seeking a workable compromise with the corporation allow local use of traditional access routes to the shoreline.

Committee to study Kihei vendor issue

By DAVE DeLEON
 Staff Writer

WAILUKU — The County Council Committee of the Whole yesterday approved a plan to set up a study committee aimed at resolving the various issues dealing with roadside vendors in Kihei.

The decision came despite a frequently strident call from the area's retail business leaders for passage of a bill that would have simply removed all "peddling" activity from the South Kihei Road, Wailea Alanui Drive and Makena Alanui Road areas.

The existing bill, which apparently lacks adequate council support, has been about two years in the making. The council put the bill on temporary hold, and might shelve it in favor of a compromise approach.

Also, at the request of the roadside vendors and the urging of Council member Velma Santos, the committee

Shark attack: Big Isle fishermen tell real-life tale that sounds like 'Jaws'

NAALEHU, Hawaii — Three Big Island fishermen, including a 12-year-old boy, escaped injury Tuesday night when their boat sank after a shark attack about nine miles off South Point.

Ka'u commercial fishermen Walter Gay, 27, and Weston Leslie, 40, and Leslie's son, Newton, were fishing for ahi (yellowfin tuna), using hand lines from a 20-foot trailer boat borrowed from Joe Hauanio of Kalapana, Gay told The Maui News this morning. The boat was borrowed because Leslie's boat is under repair.

The trio had chummed the water and hauled in six or seven ahi ranging in size up to 100 pounds when a large shark hit a fish on one of the lines and bit the tuna in half, Gay said. The shark remained near the boat "waiting for us to throw more food in the water," then started "biting on the back of the boat," where a 200-horsepower Mercury outboard was mounted.

"It was a big shark," Gay said. "I'd say 10 or 12 feet long, 700 or 800 pounds. We think it was a great white, because it was so aggressive. Both of us are very experienced fishermen, and we know the difference between sharks. It was a great white."

The shark was "right on the surface" as it tore at the boat's stern, Gay continued, so Leslie was able to prod it hard enough with a 44-caliber "bang stick" to fire a round into the shark. "We just hit it with the bang stick and it rolled off and sank," Gay said.

Once the shark was gone, the trio resumed fishing only to discover after pulling in three more ahi that the boat was rapidly filling with water.

"My partner said, 'hey, there's plenty water coming in this boat,'" Gay said. "We started throwing the tunas back in the ocean, but by the time we had grabbed the second or third fish, we knew we were going down. Within a minute or two the boat had completely sunk. We didn't have time to grab the life jackets or make a Mayday (SOS) call."

Gay said he thinks the shark tore out the boat's drain plug or otherwise pierced the hull, allowing enough sea water to enter so that the boat filled rapidly once three- to four-foot seas started pouring over the damaged stern. The boat capsized and sank almost immediately, Gay said.

Gay and Leslie salvaged a fiberglass plywood fish box about six feet long, three feet wide and three feet deep, had Newton climb into the box, and started rugging it toward the light of South Point and Naalehu about nine miles distant. The swimmers tore up Gay's raincoat and tied strips of fabric over their hands and feet to "hide the whites" from sharks, Gay said.

Swimming mostly underwater to avoid splashing, the men pulled Newton and the fish box toward shore for about 12 hours before landing near Honuapo, south of Naalehu, about 10 a.m. yesterday. Gay said that once the sun was up, they could see white-tipped sharks in the water beneath them, but drove them off by shouting underwater and banging their hands on the surface.

A fishing boat passed with 200 yards of them shortly after first light, he said, but the swells prevented anyone from spotting them.

The borrowed boat and its equipment, valued at \$20,000, was not recovered.

Gay said he plans to go back out fishing again "in a couple of days."

Pipebomb explodes at shopping

By BRUCE DUNFORD
The Associated Press

HONOLULU — A powerful pipebomb, similar to one that damaged a Waikiki hotel last week, exploded under a car in a shopping center here yesterday, setting the car on fire and peppering eight other cars with shrapnel, authorities said.

Police officials suspect the two bombings and a series of telephoned bomb threats are related. The motive for the bombings, if known, has not been disclosed.

There were no injuries in the blast

that occurred in an employees parking area of the Ala Moana Center, according to firefighters who extinguished the fire that heavily damaged a late-model car owned by a bank employee.

Minutes after the explosion, a man telephoned the manager of the Ala Moana Professional Building, located on one side of the shopping center, and said there was a bomb planted on the sixth floor.

Hundreds of office workers were evacuated while the 23-story building was searched by a police

bomb squad and dogs trained to sniff out explosives, police said. No bomb was found.

A man also telephoned television station KGMB within four or five minutes of the bomb blast and told News Assignment Editor Janelle Sancishi that he had set off the bomb, according to News Director Jim Manke.

The man suggested KGMB evacuate its building, located near the shopping center, but it was not, Manke said.

On Friday, a homemade pipebomb

exploded in a 22nd floor storage area at the Outrigger Prince Kuhio hotel in Waikiki, causing about \$1,000 damage but no injuries.

That blast was followed by a series of telephone calls to the hotel, warning that other bombs would be going off in the hotel later.

Some 350 hotel guests and employees were evacuated and a search of the hotel turned up no other devices, according to police. On Tuesday night, another series of telephoned threats to the hotel prompted another evacuation and

search.

A former security guard at a hotel was arrested Sunday questioned, but was later released without charges, police said.

The similarity of the two bombings and the bombings are the work of the same person, police Maj. Robert told television station KHON.

Detectives are following up developed in the hotel bombing part of their investigation into bombing at the shopping center said.

Hana apartment plan debated In Hawaii

The Maui News / JILL ENGLEADOW photo

COMMISSION'S ACTION AN "OUTRAGE" — John Blumer-Buell said the Planning Commission ignored a petition against the Purdys' proposal and approved it without discussion.

By JILL ENGLEADOW
Staff Writer

HANA — Opposition was strong last night to a plan to build 36 apartment units on land in the Wakiu area owned by Parker and Mary Purdy. Residents requested, and the Purdys agreed, to consider down-scaling the project to reduce the possible impact on the community.

Nearly 200 persons crowded Helene Hall for a meeting of the Planning and Land Use Committee of the County Council, whose main purpose for meeting in Hana was to consider the Purdy request.

The Purdy family wants to change the state's zoning from rural to urban and wants A-1 Apartment zoning from the county. There is no county zoning, because the county does not zone lands designated as rural by the state.

Speakers who opposed the project last night said they like and respect the Purdy family. However, the project is not in the spirit of the Hana Community Plan, would not provide housing local residents could afford and would add undesirable traffic too close to Hana School, they said.

Critics of the plan suggested the Purdys get together with the recently formed Development Steering Committee of the Hana Community Association and try to come up with a compromise plan.

Mary Purdy, replying to some of the criticism and concerns expressed, said since a Planning Commission meeting on the subject in January, no one had come to her to discuss their worries. She said the project already has been reduced from 42 units to 36, and pointed out the proposed zoning would allow 100 units.

Purdy said the project had been developed by legal procedures, that the community needs housing and that her current rental rates for houses on the family property prove that her future rates would be reasonable.

Asked by Council Member Wayne Nishiki if she would be willing to sit down with the steering committee to consider other possibilities, Purdy agreed to do so.

The opposition to the Purdy request was in contrast to the previous Hana meeting on the subject in January, when almost all who spoke to the Planning Commission said they favored the project as a way

to create jobs and housing for Hana.

Last night, some speakers complained that the Planning Commission paid little heed to opposition in the form of a petition signed by nearby neighbors, who feared upzoning might eventually mean higher property taxes and consequently higher land taxes.

Speaker John Blumer-Buell said it was "an outrage" the way the Planning Commission ignored the petition and approved the Purdy request with no discussion.

Blumer-Buell and others also pointed to the history of the designation of the Purdy land for apartment use by the Hana Community Plan.

Mike Minn, a member of the community advisory council that devised the plan, said Mary Purdy and Alfreda Worst, who owns the Heavenly Hana Inn across from the Purdys, just wanted their operations to be made legal.

At the time, he said, the two were operating visitor rental units illegally. The advisory council's impression was that all they wanted was to be legal and to be allowed to upgrade their facilities, but not to expand.

Minn called for a review of the community plan, which was passed five years ago. Council Planning Committee chair Velma Santos said the final version of the plan called for review within 10 years, and asked the Hana people to wait until the council finishes approving the last two regional plans from the first round before beginning another.

Council Member Tom Morrow said he would support an early review. The Hana plan was the first one done, he said, and provided a learning process for all concerned, including professionals giving advice to the citizens about how to deal with such existing non-conforming uses as the Purdys' and Worst's.

Santos, replying to criticism of the Planning Commission's handling of the request, said she will initiate legislation to create a Hana advisory committee to the Planning Commission, such as those on Molokai and Lanai.

Santos said the Planning and Land Use Committee would defer a decision on the Purdy request for a few weeks until the family can sit down with the steering committee to consider compromises.

Combined news services

JPO program up to state

HONOLULU — State Department of Education officials say they will have to insure junior officers themselves if the program continues.

Officials said the state has been unable to obtain private liability insurance for the estimated \$10 million JPOs in the state's public schools.

"We would not be willing to send out there without protection," official Eugene Imai said during a meeting of the Board of Education Discipline and School Safety Committee yesterday.

Since 1973, the state has obtained commercial insurance for the police officers. Last year a consortium of four insurance companies provided coverage.

This year, only one company was on the contract, but it could not meet the state's requirement that it provide \$100,000 coverage for \$20,000 less.

Fire burns landfill

KEALAKEHE — Big Island crews were battling a stubborn today burning in the county's landfill site.

The fire was in a contained area but crews were having a difficult time extinguishing the flames. It began fighting the flames in an abandoned vehicles yard about 8 p.m. yesterday.

Fire officials said they did not know what caused the blaze.

The landfill has been a problem recently for the county. Officials were threatened with a \$1,000 fine by the State Department of Health last year.

State bans paint sales

HONOLULU — The Department of Agriculture stopped the sale and use of a paint containing high concentration of a chemical it says could harm the environment and cause health problems for people who apply it.

The Navy uses the paint, which contains tributyl tin, or TBT, or

symbol of their claim to land parcels also claimed by the company that owns the hotel and ranch.

The fence cutters base their actions on evidence they say they have gathered during years of research that shows they or their relatives still have interests in lands that were leased long ago to the predecessors of Rosewood.

Rosewood claims it has quieted title on these lands, and has the right

to erect fences to keep cattle in and trespassers out. Those who want to use the access points must obtain a key and sign a liability waiver.

Several of these disputes are in the courts. Richard Kekohuhu, a relative of the Kaikala family, bolsters his claim with an eight-page poster containing details of land conveyances and genealogy of his family dating back to 1859.

Recent negotiations have brought

these disputing sides together in an effort to resolve the access problem by allowing traditional use of the shoreline while protecting it from being overrun by the thousands of tourists who flock to Hana each year.

Residents who spoke to County Council members in Hana for a meeting last night expressed confidence in current efforts to find a win-win answer to the access problem.

The residents appeared to be worried that the council had come to inspect beach accesses in order to condemn them for public use. Land Use and Planning Committee chair Velma Santos hastened to explain that the committee was visiting only in response to requests from residents to look into the situation.

Council members agreed to "file" the subject and let the community continue to seek its own solution.

Tie vote halts Kihei planning resolution

Major property-tax reform proposed

Council panel offers plan to help residents

By MARK ADAMS
Staff Writer

WAILUKU — Substantial changes in the current property tax system were approved yesterday by the Maui County Council's Finance Committee, including eliminating taxes on home improvements made after 1987 and repeal of a tax deferral option enacted last year.

Upon final approval, the five-point package passed by the committee would take effect in the last half of the 1991-92 fiscal year.

The reforms would see homeowners who lived on their property in 1987 and qualified for the owner-occupant exemption at that time sent the same property tax bill they paid for that tax year.

Those who bought homes after 1987 would not be eligible for the provision, but would take advantage of a lower tax rate being considered by the council.

The package would allow for increases in the tax bill to be considered in fiscal years 1993 and 1994, but for now a 3 percent hike contained in last year's reform effort would be eliminated.

Improvements made to owner-occupied properties since 1987, including ohana units, would not be taxed.

A "circuit breaker" system also would be in effect for qualified households where owners are 60 years or older and the property owner and spouse earn less than \$25,000 a year that attempts to hold property taxes to 5 percent or less of income.

Also, the committee recommended commissioning a study of the current property tax system that would recommend ways the entire process of determining property tax rates could be revamped, including the possibility of scrapping the "comparable sales" method of developing tax bills.

Finance Committee Chairman Rick Medina proposed the changes approved by the committee in re-

The Maui News / WAYNE TANAKA photo

Maui County Council Finance Chairman Rick Medina (center) discusses his property tax reform package with colleagues during a break in yesterday's session. The committee ultimately approved the five-point plan, which would provide relief for

qualified property owners whose home serves as their principal residence. The package was developed in response to rapidly escalating property values in the county.

tax values.

Fair market value of properties sold in a given area are a factor in determining property values. County Finance Director Travis Thompson told the committee that increases this year averaged 128 percent.

Thompson estimated the changes would cost the county about \$5.7 million in lost revenue.

About 25 residents, many of them senior citizens, attended the meeting to support some system of tax reform.

Bill Tavares of Kula, chairman of the county's Committee for More Equitable Taxation (COMET), asked the committee to support elimination of an "arbitrary and cruel" tax system.

"The power to tax is not the power to destroy," he said.

'The power to tax is not the power to destroy.'

— Bill Tavares,
Committee for
More Equitable Taxation

Tavares said his group was very pleased with the effort, saying it eliminates three years of trying to see some sort of relief enacted.

COMET especially appreciates elimination of the tax deferral, which gave qualified homeowners the ability to delay paying their tax bills until their property was sold, he said.

Criles said the measure amounted

Tavares gave Thompson and his staff high marks for the work they did developing numbers for the proposal.

Council Member Alice Lee said the committee's action demonstrates the council's seriousness about cutting taxes.

Noting the revenue loss, she asked Thompson to request that Mayor Linda Crockett Lingle identify where in her proposed \$181 million budget now before the council's Budget Committee the \$5.7 million revenue loss could be offset.

Lee also noted that Lingle's proposal to drop the residential tax rate to \$4.50 per \$1,000 of assessed value from the current \$4.50 rate will result in an additional \$4.36 million revenue drop, although the mayor has already figured that loss into the new

HIGHLIGHTS OF THE TAX PROPOSAL:

Here are highlights of the Maui County Council's Finance Committee proposal for property tax reform:

■ **Homeowners who qualified** for the owner-occupant exemption in 1987 would receive the same tax bill they paid for that tax year. Over the three-year life of the plan, the council would have the option of approving annual across-the-board percentage increases above the 1987 bills.

■ **Improvements made to a property** after 1987, such as ohana units, would not be taxed under the plan. That exemption was approved to simplify the process and allow the program to be up and running by December, when tax bills are sent out for the second half of the 1991-92 fiscal year. If property owners are charged too much on their first-half bill, which would be figured using the current method, refunds could be necessary.

■ **The tax deferral system** approved last year that allowed homeowners to delay paying taxes until their property was sold would be repealed. The 447 homeowners who participated in the program in fiscal 1991 would still be responsible for paying the amount they owe upon sale of their property.

■ **A "circuit breaker" system** would be enacted to help homeowners over 60. Household income must be \$25,000 or less, based on the property owner and spouse's earnings only. The plan would see those qualified paying 5 percent of their income in taxes, with a maximum benefit of \$1,250. The amount due would be figured based on the 1987 tax bill for those who qualify.

■ **A study of the current property tax system** would be completed, with recommendations developed for revamping the system at the end of the three-year period for the proposed reform package. Possibilities for changes include doing away with the "comparable sales" method of assessing property.

Lingle said yesterday that under the charter, she makes the initial budget proposal and the council then makes its adjustments before sending the package back to her.

As far as further cuts go, the mayor said the ball is in the council's court.

Lingle said she has not seen the tax reform package in writing and would reserve comment until it is sent to her office.

The mayor did respond to a proposal to lower the tax rate for some owners with the owner-occupant exemption to \$3.50 per \$1,000 while leaving the \$4.50 per \$1,000 rate in place for property owners who do not live in a home they own.

Creating two classes of residential property is an idea that she has supported for some time, Lingle said.

On the circuit breaker proposal, Lingle said she believes it should not be restricted to senior citizens, but should be available to all low-income property owners who face being taxed out of their homes.

Also discussed yesterday were ways to raise revenue from other sources, including creation of a special tax class for golf courses that would be taxed at a rate higher than the current rate.

Council Member Vince Higgins said the county could be looking at providing a lot of incentives when it comes to property taxes. "It does not mean property owners should not pay taxes," he said.

The committee's proposed new moves to the Budget Committee for review. Implementation would then be determined by the council.

EDB-175 (2019) Infrastructure for Kaupo School

April 5, 2019

Dear Council Members,

I would like to request your support for the request for \$475,000 funding (or the largest possible portion thereof) to fund the Infrastructure component of the Restoration of the Kaupo School Classroom and Teachers' Cottage for use as a community resource center and disaster shelter and mitigation facility.

This portion of the project will provide a conforming commercial septic system, an off-grid photovoltaic based energy generation, storage and distribution system; a water storage, filtration, pressurization and distribution system; with distribution piping, concrete pads and related site work sufficient to service the property.

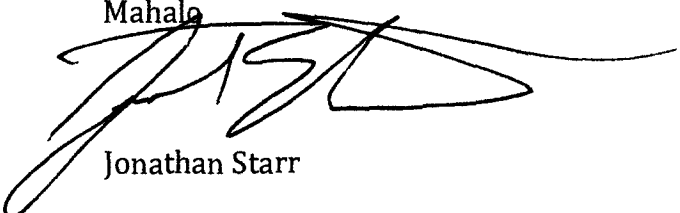

Treated drinking water will be made available onsite at the Kaupo School property. This filtered and UV treated rainwater will be the only source of safe drinking water available to residents and visitors anywhere in Southeast Maui. It will also provide adequate fire-flow protection for the structures and make 30,000 gallons of water available to Maui County and DLNR for fire response to brush fires.

The 1923 Classroom Building and Teachers' Cottage structures are being restored to original condition with funding already provided by State of Hawaii CIP GIA, and Maui County OED, and private foundations and donations along with in-kind volunteer services. Permits and contracts for the building restoration are in final stages of processing, and carpentry work will begin by summer, 2019. All other portions of the project, totaling over \$1,100,000 have been acquired by KCAI and have been released. This request for \$475,000 is 27% of the total project, and is in addition to \$30,000 received from Maui County (1.7%) for design of the septic system and building plans through OED in 2016.

The 2 restored buildings, 2.25 acre property and infrastructure will be utilized by Kaupo Community Association as a Community Resource Center and Disaster Mitigation facility. Residents of Kaupo will be provided a place for community, family, educational, health, cultural and social gatherings and programs and a facility of shelter with water, power and toilet facilities when needed.

Please support this project in the Maui County Budget.

Mahalo

Jonathan Starr

'OHANA MAKAMAE

Hana's Family Resource Center

Substance Abuse Treatment, Behavioral Health Resources, & Family Strengthening Programs

Box 914, Hana HI 96713 Office (808) 248-8538 Fax (808) 248-7099

'OHANA MAKAMAE
PRECIOUS FAMILY

April 5, 2019

Aloha Maui County Council members,

My name is Milton-Gerard Oliveira and I am writing to all of you in support of Ohana Makamae Family resource Center in Hana. I am the soberliving manager for our soberliving home: Hale Ku'oko'a. We service adult men with transitional living in recovery from substance and alcohol abuse. We support them with resources to assist them in reclaiming their lives clean and sober. Our organization is a community resource center that brings strength, hope and healing to individuals and families in need. Our mission is to strengthen families of East Maui through hawaiian culture and spiritual values.

Our services include Substance abuse treatment programs, A soberliving home for men, mental health programs, community & family programs, and support & resources.

Without the continued support from county funding, our programs cannot function. It is vital that we continue our programs for the residents of east Maui.

I humbly ask for your support again this year, and consider us in the budget.

Mahalo nui loa,

Milton-Gerard K. Oliveira

RECEIVED AT EDB MEETING ON 4/5/19

April 5, 2019

To: All Maui County Council Members

From: Robert Cantrell, MBA, MS, MCAP, LAADC, ICAADC, CSAC – Clinical Supervisor

Re: FUNDING - 'Ohana Makamae Behavioral Health Services & Family Resource Center

Crystal methamphetamine is a medical, legal and social crisis that has now entered its third generation in Hawai'i. The federal government estimates that more than 10,000 people died of meth-related drug overdoses last year, leaving children orphaned and communities destroyed. 'Ohana Makamae Behavioral Health Services & Family Resource Center is at the forefront in the battle to rescue our community from the Ice Epidemic by providing the Matrix Model of Recovery, an evidence-based program designed for stimulant addiction.

Success in addiction treatment can be defined in different ways, by negative urine drug tests, by continued participation in treatment. The National Institute on Drug Addiction (NIDA) Estimates the average success rate for addiction treatment to be 40-60%. The Matrix Model is superior to other treatment modalities in clinical trials, and outcomes are generally higher than 70%.

'Ohana Makamae Behavioral Health Services is *the only treatment facility* in Hawaii utilizing the Matrix Model of Recovery exclusively. A program acknowledged by the National Institute on Drug Abuse (NIDA) and the Substance Abuse and Mental Health Services Administration (SAMHSA), as a *successful method* in the fight against stimulant use disorders.

As part of 'Ohana Makamae's intensive outpatient program, an individualized treatment plan is designed to meet the specific needs of each client and their family. Clients attend group sessions three times each week with individual and conjoint sessions provided regularly. A continuing care program (Social Support Groups) meets weekly following the intensive phase of treatment. Also, the Matrix Model encourages clients to attend 12-step meetings as an added recovery source.

Currently, 'Ohana Makamae's clinicians are undergoing training from an educational supervisor certified by the Matrix Institute. Once completed, 'Ohana Makamae will provide services never before available to those we serve. We have an opportunity to save our community, and it cannot happen without funding. We have a chance to save a generation of Hawaiians lost in the darkness of addiction, and we need your financial support to make it happen. We're not talking about statistics... we are talking about human lives in need of help.

Respectfully submitted.

RECEIVED AT EDB MEETING ON 4/5/19

Kelly T. King, Council Chair
Maui County Council

RE: the Acquisition of Hana's Mokae and Maka'alaie lands

April 5, 2019

Aloha Councilmember King,

We humbly request your support for Mayor Victorino's budget item:

II. SPECIAL PURPOSE REVENUES- SCHEDULE OF REVOLVING /SPECIAL FUNDS FOR FISCAL YEAR 2020

Section J. Open Space, Natural Resources, Cultural Resources and Scenic View Preservation Fund,

Paragraph #9 & #10 which designate funds to acquire Hāna Coastal pasture lands by the Nonprofit "Ke Ao Hali'i" for protection from development and to be placed in conservation.

Attached within this packet are the following:

- Ke Ao Hali'i brochure to help explain our goals and intentions
- A letter outlining the Goals and Key Resources the land provides
- A map showing the parcels that are part of the package and details of the proposal
- photos of Mokae and Maka'alaie sections of the Hāna Coast

Please help us secure these lands for their Historic & Cultural value, Educational Opportunities, Environmental Incentives and the need of Stewardship by supporting this budget item.

Mahalo Nui Loa,

A handwritten signature in black ink, appearing to read "Robin Rayner", written over a horizontal line.

Robin Rayner
Ke Ao Hali'i Board Member

RECEIVED AT EDB MEETING ON 4/5/19

The Goal:

April 2019

Ke Ao Hāli'i / Save Hāna Coast seeks to Protect Hāna's precious Coastal Pasture Lands from development with the use of the County of Maui's Open Space, Natural Resources, Cultural Resources & Scenic Views Preservation Fund.

The Characteristics of the Land:

Hāna, Maui, considered "the Heart of old Hawai'i"; a small village isolated by its geographical boundaries, rural lifestyle & difficult mountain terrain had become complacent. Our coastal lands have been utilized as sugar plantations or for cattle ranching since 1854. But in 2017, the land owners decided to actively sell for profit, 400 acres from the Hana Highway to the ocean. In March 2018, the most significant Maka'ālae lands directly adjacent to Waioka Pond (Venus Pool) were under contract to sell. Realizing that the lands where the iwi kupuna were buried and Hawaiian culture celebrated would soon be developed; the community organized a spirited public meeting of 200+ residents in a show of solidarity. Tears were shed & several lineal decedents spoke eloquently, expressing opposition & concerns in both Hawaiian & English. In a stunning turn of event, the buyer backed out.

The nonprofit, "Ke Ao Hāli'i" grew out of the community's desire to protect the lands under threat of development.

Key resources to be protected:

This proposal seeks funds to acquire control of 15 lots (116 acres) within Maka'ālae and Mokae Ahupua'a in Hāna, Maui. The land is oceanfront pasture lands defined by the Hāna Highway, Waiohuno Stream, Waiokapia gulch and Haneoo Road. It includes scenic geological coastal area; sites used for Hawaiian cultural practices; access to food sources; burial grounds & other archeological sites; and agricultural cattle grazing, much of which is mentioned as important in the **Hāna Community Plan, section III: Policy**, and **Maui Countywide Island Plan, Section IV, Goals & Policies**. The sale of these parcels to private interests for development potentially places all of these resources at risk.

The Partnership:

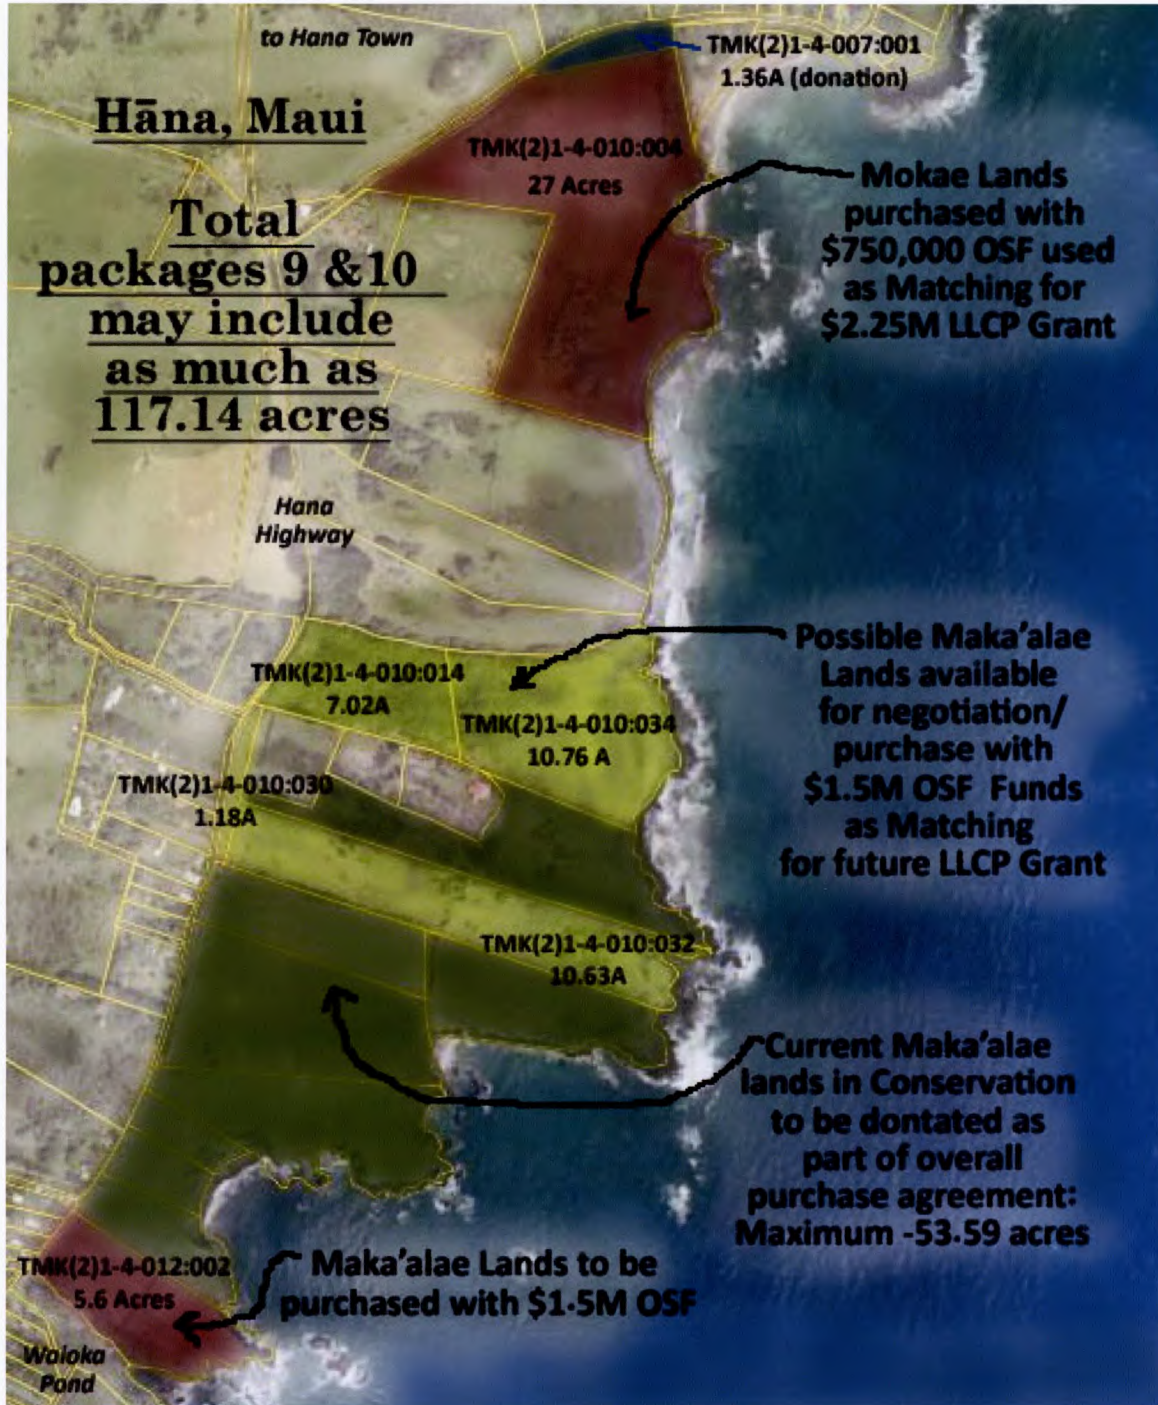

Ke Ao Hāli'i has been working with Hawaii State Legacy Land Conservation Program and recently was designated a grant of \$2.25M toward the purchase of Mokae parcel TMK(2)1-4-010-004. But this grant requires matching funds to complete the deal. Thus we are seeking to use Maui County OSF for this purpose, which means the county will be acquiring considerable land far below market values and leveraging public funds for the benefit of all.

Community Support:

To date, Ke Ao Hāli'i has over 1,100 signatures on our on-line petition; over 500 signatures on our paper petition; and 30 letters of support from Hāna Keiki.

Maui County Mayor's Budget for 2019-2020

Item J. : Open Space, Natural Resources, Cultural Resources, and Scenic Views Preservation Fund (OSF), # (9) & (10)

Note: LLCP is the State of Hawaii Legacy Land Conservation Program Funds

Hāna Maui - Mokaē Coastal Pasture Lands

Stewardship of the Land

Ke Ao Hāli'i is in place to purchase,
monitor & manage the land

Our goal is to keep the land opened pasture
land & manage invasive plant life

And to introduce native species to the areas

Lands will be purchased & placed in
conservation under
Hawaii Island Land Trust

Continue the partnership for
cattle grazing to maintain lands

Schedule regular beach clean-up days

Ensure vegetation heights & other
conservation restrictions are followed

*Hana's Precious Coastal Lands
remain natural,
beautiful and open!*

Will you help keep it this way?

Ke Ao Hāli'i

*Please join our
efforts to purchase,
preserve & manage Hana's
natural, scenic coastline,
saving our cultural history &
resources for the benefit &
education of future
generations.*

**Why protect these unique
coastal pasture lands:**

Historic & Cultural Concerns

Preserve existing Heiau
~

Safeguard burial grounds &
other cultural sites
~

Uphold access to long-established
food gathering places

Provide locations for traditional
ceremonial practices
~

Ensure access to fishing grounds
& fishing rights
~

Protect important historic lands

Educational Opportunities

Alternate learning experiences in a
natural coastal environment
~

Experience the impact of
careless waste disposal
~

Create habitats for sea creatures
~

Understanding appropriate methods for
watershed management
~

Recognizing edible coastal plant
foods sources

Planting native & indigenous species
appropriate to coastal lands
~

Combining programs with Hawaiian
language & species' names
~

Learning to manage & care for the land

Environmental Incentives

Protect environments for threatened wildlife
~

Ensure natural buffers remain to control
sea level & coastal erosion
~

Retain open vistas & view corridors to
scenic coastal pasture lands
~

Ensure natural habitats for creatures;
birds, fish & reptiles

Promote responsible use of coastal
& marine resources
~

Create rest & rejuvenation areas for
endangered sea & bird life

PETITION for PROTECTION OF MAKA'ALAE LANDS

To: Office of the Mayor, County Council & County Council Budget & Finance Committee

We, the undersigned, support the allocation of funds to perform due diligence regarding acquisition of lands at Maka'alae, and use of the County's Open Space Fund for such acquisition, to preserve the precious open space, and natural, historical and cultural resources of this area.

Ke Ao Hali'i - Save the Hana Coast

Recipient: Mayor Victorino, Councilmember Keani Rawlins-Fernandez

Letter: Greetings,

Protection of Maka'ala'e Lands, Hana, Maui

We, the undersigned, support the allocation of funds from the County's Open Space Fund for the acquisition of lands at Maka'ala'e, to preserve the precious open space, and natural, historical and cultural resources of this area.

RECEIVED AT EDB MEETING ON 4/5/19
Submitted by Scott Crawford

Dear Mayor Arakawa,

I am in the 11th grade at Hāna school and request that you support the acquisition of Maka'ala'e lands with Maui Open Space Funds. These lands are important to me because I live right next to it. This area is where I grew up. Letting someone buy it and build on it would affect the people around it, including me and my family. This is where we fish and gather food for our families. My grandma and I go on walks on these lands to stay healthy and enjoy the incredible view of pure nature. Waioka, the next to this land is practically my backyard. Selling the land would be cutting off access to a place where me and my family of generations spent our childhood. I've had multiple birthday parties at this place and it holds a lot of memories. I was just down there this weekend camping with my family and friends, and I hope I can continue to do that. So I ask you again Mayor Arakawa, please support the acquisition of Maka'ala'e lands with Maui Open Space Funds.

Sincerely,

Makenzie Pu

RECEIVED AT EOO MEETING ON 4/5/19
Submitted by Scott Crawford
(various)

Dear Mayor Arakawa,
I am a senior at Hāna School and request that you support the acquisition of Maka'ālae lands with Maui Open Space Funds. These lands are special to me because it's sacred lands, a lot of my childhood was spent in this area, and it's a big part of Hāna. A lot of the East side of Maui is sacred lands and Maka'ālae is just one of many places. It ties all of us in our community together and to our Hawaiian culture. Many cultural activities take place here, such as, hunting, fishing, and gathering of native plants and species. Also, important and fond memories of my childhood and family were made in this area. To take away the land and give it to a stranger is like taking away our ability to continue making more memories with loved ones. Finally, to give away Maka'ālae, it's just a matter of time before the rest of Hāna goes. We can't let our beautiful home to slip out of our hands. If we allow this to occur, we fail keeping our traditions, kupunas, and cultur alive. Please help us to not fail.

Sincerely,
Marissa Pu

9/5/2018

Dear Mayor Arakawa,

I am in the 12th grade at Hāna School and request the acquisition of Maka'alaie lands with Maui Open Space Funds. These lands are special to me because it is a place that provides resources for the people of Hāna. Many families, including my own, go to that place to fish and gather for their family. Recently my brother and my cousin went to the area below Braddah Hutts. They were successful in gathering enough fish to feed our family of eight and my cousins family of two. Taking away that opportunity to freely fish and gather there would be devastating. Selling those lands and building upon it can damage our towns ecosystem and taking important nutrients such as air, water and mineral soil that is necessary for other organisms to live. My sister's middle name is Owaipauma, named after the land that you want to sell. That land is where my ancestors used to work, live, and fun. It is also a place where they learned, cried and was taught the value of family. This is not a letter meant for pity and sympathy. It is a letter that in itself insist that you take upon the voice of Hāna High students. Please, listen to them.

Mahalo,

Sili'ilagi Moea I

Dear Mayor Arakawa,

I am in the 12th Grade at Hāna High and Elementary School and request that you support the acquisition of Maka'alaie lands with Maui Open Space Funds. These lands are special to families that are close and good friends of mine. This place is precious to them because it's how they are able to live a sustainable life all these years, Practicing our cultural traditions of subsistence food gathering continues to flourish here because the ocean is clean. The ocean and land that are connected should be untouchable. If one is corrupted it ruins the ecosystem along with all species in the system and destroys the sustainable living of these families. This land should be saved and protected. It should only be used for sustainable living to keep this land how it is for many years to come. As the Mayor of Maui living in Hawaii, do you support the cultural ways and practices of our people? As the mayor that we voted for, are you really for the people that got you into the office and their decisions or are you just their for the money? If you were for the people you would use the money in the Maui Open Space Funds to save this land for the Hana people.

Sincerely,

A handwritten signature in cursive script that reads "Angel Mahadocon". The ink is dark and the writing is fluid, with some loops and flourishes.

Angel Mahadocon

September 5, 2018

Dear Mayor Arakawa,

I am in the 12th grade at Hāna school and request that you support the acquisition of Maka'ale lands with Maui Open Space Funds. These lands are special to me because these lands are apart of us. Some see it as just a piece of land, but for us, this is our 'āina. Some of us even use it as a way to reconnect with our ancestors. People that trying to buy the land is taking that opportunity away for some of us. These pieces of lands are historical land sites, it's sacred land. This places are important to me because it's a gathering place for not only my ohana but most families here. It's so helpful for us to have these places as our resources area for food gathering. Living in Hāna is not cheap, and having places to get food from helps us to save money. It's important to fight for the land so that the younger generations get to go through the same experience we did when we were all young. I hope and pray that us, the next generation of Hāna can come together and fight to put a stop to this. I ask you, Mayor Arakawa, to use the Maui Open Space funds to acquire the Maka'alae Lands.

Mahalo,

A handwritten signature in cursive script that reads "Serene Perry". The signature is written in black ink and is positioned above the printed name.

Serene Perry

Dear Mayor Arakawa

I am a senior at Hana School and request that you support the acquisition of Maka'ala'e lands with maui open space funds. These lands are very special to my family and many other families in the Hana community I may not live there but as Hawaiians it is our jobs to protect as much land as we can so we may continue to spread our traditions and and cultures. I have many family members that go to that land to fish and gather opihi to feed their familys having companies come in and digging and spraying poision doing contruction and buliding houses will be taking our way of life. Letting people buy these lands will disrupt the system in Hana and and the eco system. My Aunty and her family has been going to that land for many years and I hope she can keep going there for the years to come. I hope the system that Hana has created will last for as long as it can for these lands demand respect and aloha

Sincerely
Justini Smith

Dear Mayor Arakawa

I am in the 12th grade at Hana School and request that you support the acquisition of Maka'alaie lands with Maui Open Space Funds. These lands are important to me and my family because our kupuna used these lands to provide for us. These lands should be preserved due to the important landmarks and it being a historical sight in the early 1900's when Portuguese arrived looking for work. When they arrived in hana they built a bread oven located next to the waiohonu stream. This bread oven fed plantation workers of maka'alaie and many in the hana community.

We need you Mayor Arakawa, to use the funds to help preserve this Aina. Not only is this a Historical sight but it is a place that people in the Hana community still use to provide for their families as we speak. Don't let people take away our communities resources.

Hana is a beautiful place, we want to keep it that way, development will change the true beauty of Hana.

Sincerely, *Kevin Clark*

September 4 2018

Dear Mayor Arakawa,

I am in the 12th grade at Hana High and Elementary School and request that you support the acquisition of Maka'alaie lands with Maui Open Space Funds.

These lands are special to me because me and my family use the spacious coastline of Maka'alaie to fish and bring food home to our family of eleven. Using the knowledge of fishing management taught to me by my older brother and dad, I know the what size fish to take home and what to throw back into the ocean. We do all sorts of fishing as a family, whipping, dunking, crossline and our favorite throw net. The ocean there is our ice box. In the past, our family reunion was held down at Pine Trees (Maka'alaie Point), where we camped and took plenty family pictures.

Waioka is a place where me and my family go swimming, it's an adventurous location. You have to walk thru the pasture and its tall grass. Then as your walking down the trail to get to Waioka, there is a tunnel formed by trees and bushes above a dirt path that opens up to Waioka Pond. I've learned from my Tutu that this is a sacred place because it was a home for mo'o wahine, an 'aumakua of my family. I wish it was more difficult for tourist to get there, that way we as locals are able to enjoy it more. Me and brothers like jumping off the high cliffs while my parents watch us from below, eating sandwiches and drinking ice tea.

I ask that you please support the acquisition of Maka'alaie Lands with Maui Open Space Funds. Mahalo!

Sincerely,

Nahinu Lind

Nahinu Lind

Dear Mayor Arakawa,

I am in the 12th grade at Hana school and request that you support the acquisition of

Maka'alaie islands with maui open space funds. These islands are special to me because these islands provide our families with food for families who don't have the money to buy their own food, so the land provides food for us to eat if we don't have any money. plus we give aloha and respect to our land for the strength and nourishment the food gives us from our land that was provided. our land is sacred to us because the land provides and takes care of us.

So we do the same for our land, we don't take away something that takes care of us.

To me, Hawaiian land should stay in hawaiian hands because we take from our land but

we also give something back like a small prayer or give back a small portion of what we

take back to the land, but we only take what we need, not just take and leave.

So whatever we take, we also give something back to show our appreciation for our land that

takes care of us Hawaiians. not just take and turn it into something our people won't like, like the

TMT (thirty meter telescope) operating in Hawaii so please leave our land to us.

Sincerely Keulakaiwailo'e-Keliihoomalu-Kuahiwinui

Keula, Keliihoomalu

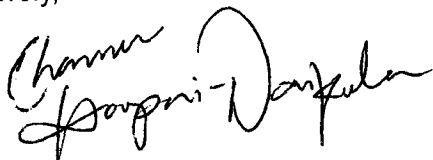

Dear Mayor Arakawa,

I am in the 12th grade at Hana school and request that you support the acquisition of Maka'ala'e lands with Maui Open Space Funds.

These lands are very special to me because I have kupuna who lay in the honua (ground). I have family who grow up here and this is where they gather their food from. The lands of Maka'ala'e should be preserved and listed as conservation lands. Ancient landmarks are located at numerous places along the coast. In the early 1900's at the arrival of plantation workers a Portuguese bread oven was made. It fed both the community and plantation workers and its located on the Hana side of Waiahonu stream.

We need you Mayor Arakawa to help us financially preserve this Aina. This is not only an historical site but it's a place where our families and community grow up. I, my community will hate to see this land taken from us. Hana is a beautiful place.

Sincerely,

A handwritten signature in black ink, reading "Chanur Hoopni-Danfala". The signature is written in a cursive style with a large, looping initial "C".

Dear Mayor Arakawa,

I am in the 12th grade at Hana School and request that you support the acquisition of maka'alaie lands with Maui Open Space Funds for the native people of Hawaii and the generations to follow. These lands are special to me because it is a part of the legacy upon which the Hawaiian people are entitled. Our future generations will either continue the practices that their ancestors before them did to sustain themselves and their 'aina, or they will continue to fall victim to the enslavement of modern society and consumeristic customs forced upon us by the adjustment of our society to the society which oppressed us and forced us into their destructive empire. Why should our culture, our land, our ocean, our children be forced to change, you are in charge, not because the people wanted you to be, because most of the people thought you weren't as bad as the other candidates, maybe it's true, but should one be recognized as being the least horrible or the greatest? I think the answer is clear, but no matter who is in your position, you are just a puppet of the powers that continue to oppress our people and our culture, all I ask you to do as a puppet is try to stand for the people who elected you and listen to their pleas, use you're power and position to help put an end to our oppression or continue to stand for the desires of the American government and individuals who want to profit from our lands, there is no inbetween.

Salutation,

Maluhia K. Stoner

A handwritten signature in black ink, appearing to read 'Maluhia K. Stoner', with a long horizontal flourish extending to the right.

Dear Mayor Arakawa,

I am in 12th grade at Hāna school and request that you support the acquisition of Maka'alaie lands with Maui open Space Funds. These lands are special to me because since the day I was born this place has been apart of my life. Maka'alaie has been a source of food for my kupunas, my family, and my community, taking this away is limiting our access to food. It is also stopping a tradition (living off the land) that the people in Hāna has learned, and taught to the upcoming generations in our town. It is unfair that people are trying to come in and take away something that the Hawaiians have been apart of for years. This land is sacred to us and it's something that no outsider could ever understand. I hope our community will continue to fight to protect this land.

Jade A

Dear Mayor Arakawa,

I am in 12th grade at Hana School and request that you support the acquisition of Maka'alaie lands with Maui open space funds. These lands are special to me because its a place where our Ancestors and Kupunas went to gather food for their family. This place is not only a special place to me but to our whole Hana community. My Kumu that is from Maka'alaie and her family has lived there for over 75 years. Her Kupunas and Ancestors that had lived there before her had left a important part on the land of Maka'alaie, and also left an important part in her life and where they come from. People that goes there to gather food for their families takes what they need and just enough for there whole family. Losing these lands of Maka'alaie will never remain the same because we will lose access to the ocean where we gather our food. Our future generation will no longer be able to go there and gather food for their families after this huge incident. Losing these lands is like losing our ancestors. We don't want any of these lands going up for sale because no one will no longer know the names of these places and what happened on these lands with our ancestors and ali'is. The story behind these places are important to us because it relates us back to our kupunas, ali'is and ancestors and what went on with these lands. It will fade away and our younger generation that are yet to be born wouldn't know the knowledge about these lands of Maka'alaie. These lands holds a lot of knowledge that are important to us about our ancestors, kupunas, and the knowledge that are yet to be shared to our younger generation.

Mahalo,

Shaylee Roback

Dear Mayor Arakawa,

I am in the 12th grade at Hāna school and request that you support the acquisition for Maka'alaie lands with Maui open space funds. These lands are special to me because my kupuna's spent their whole lives learning, gathering and caring for the land. My great-grandpa Manuel Manning Cosma and my great-grandma Beatrica Waiwaiole who in which are parents to Six, would use the lands as an icebox to feed their family. Not only did they use the lands for gathering but also for learning. They taught their children my grandpa who also taught me and my siblings the sacredness of the land and the ocean below it. For many years that land has been a way for my family to practice our cultural habits of living a sustainable life and I want it to stay that way so my children the next generation learns it as well. I urge you, Mayor Arakawa, to use the Maui Open Space Funds to acquire these lands at Maka'alaie.

Sincerely,

Shylar Contreras

Dear Mayor Arakawa

I am an 11th grader at Hana High School. I would like to request that you support keeping the Makaalaie lands an open space. These lands are crucial to the well being of many families here in East Maui. These lands are used to gather food. Families hunt and fish on those lands to support themselves and to keep themselves sustained. Not only is it used for food but also for gatherings and cultural practices. Many Ohana use the grounds to camp and to teach the future generations how to live off of the land like their kupuna before them.

Also, I would like you to give money to the restoration and repair of the Lower Nahiku road. The road is quite damaged with holes and gaps. There are people who drive that road every day so it is best to keep that road safe. As tax paying members of Maui we contribute to the county funds for road upkeep. That road is also the only way in and out of Lower Nahiku. This should be more reason to keep the road in top shape for the adults and children of Lower Nahiku. So please continue to support the Makaalaie lands with the open space funds and please help us keep the Lower Nahiku road safe.

Mahalo
Sincerely, Kanale Kekahuna -
aniina

9/5/18

Dear Mayor Arakawa

I am in the 11th grade at Hana School and I request that you support the acquisition of Maka'ala'e lands with Maui Open Space funds.

These lands are special to me because this is where I'm able to practice cultural values and also where I can provide for my family. These lands offer a great source to the ocean.

Not only a great source to get resources but as well to stay actively fit in the water such as throwing net, fishing with pole, freediving and surfing. These lands are where I can stay connected to my roots. But these lands aren't just fun and games there's also lots of history that people don't understand or either not recognize. There's lots of pristine remembrance before the sugar cane era such as bodies of old Hawaiians that died in battle that are up breaking out of the soil. The remembrance of old Hawaiian villages are still standing. During the sugar cane era the Portuguese brick oven for bread and the old sugar mill still stands. I feel that with the open space funds it can help by relieving the stress that the lands and everything on it as well as the seashore & ocean.

Xavier de Jetley
Student Hana School

4/5/18

Dear Mayor Arakawa,

I am in the 11th grade at Hana High School and request that you support the acquisition of Makai'iaie lands with Maui Open Space Funds. These lands are special to me because it is untouched land and the people of Hana wants it to stay that way. It has never ever been developed on in all the time that this land has been here. It would be extremely sad to see our land change in an unnatural way and have things built upon it. These lands holds so many memories of numerous 'ohana. It is a place everyone enjoys camping at with their 'ohana and also gathering fish right from the ocean at the very edge of these lands. When I was younger, my 'ohana and I would go there to relax and have a good time. My grandpa used to teach me and my siblings how to fish and I remember just having the most fun on this beautiful piece of land. Even kids today are making memories on this land here in Hana. Makai'iaie is a special place to all the people of Hana just the way it is and it should continue to be.

Sincerely,
Shaundee Roback

Dear Mayor Arakawa,

I am in the 11th grade at Hana School and request that you support the acquisition of Maka'ala'e lands with Maui Open Space Funds. These lands are special to me because my family fished at that place for a very long time. My Kupuna now and before has walked and fished these grounds and people continue to use that place for gathering food for their Ohana. It is important we keep Maka'ala'e the way it is or else we as the people of Hāna would lose a source of our resources that we use. Maka'ala'e is untouched land and I'm pretty sure the residence of Hāna would like to keep it the way it is.

Sincerely,

Mānoa Keaulana

Dear Mayor Arakawa

I am in the 11 grade at Hana School and request that you support the acquisition of Maku'ala'e lands with Maui open space funds.

Maku'ala'e is special to me because my ohana is from there. We always go down there to swim and camp and I think that if there is development it will ruin this special place. I also know families who still live there and have been there for a long time. So I know if this change really happens it's gonna affect all the families that live there. The local families gather food from the ocean at Maku'ala'e because it's plentiful. Please Mayor Arakawa, use the open space funds to acquire the Maku'ala'e lands.

Aloha

Tyren Feliciano-Benton

9/15/18

Dear Mayor Arakawa,

I am in the 11th grade at Hana School and request that you support the acquisition of Maka'ala'e lands with Mavi Open Space Funds.

These lands are special to me because it is Gods creation.

Sincerely,
Anthony

Dear Mayor Arakawa,

I am in the 11th grade at Hana High and Elementary School and request that you support the acquisition of Maka'ala'e lands with Maui Open Space Funds.

These lands are special to me because it is special to my family. I am about to write stories that my grandparents ~~remb~~ remember because I have no memories of this place. My grandpa and uncles use to go fishing and throw net down at Maka'ala'e. They also used the land to pick 'opihi and get limes. My grandpa also went down to Maka'ala'e to go and catch crab. Mayor Arakawa could you please use the Maui Open Space Funds on Maka'ala'e so that the rest of the Hana community can continue to have fun and do the things my grandpa use to do.

From,
Jaedyn

9/9/18

Dear Mayor Arakawa,

I am in the 12th grade at Hāna School and I request that you support the acquisition of Maka'āiaie lands with Maui Open Space Funds. These lands are important to me because even though I don't live that side of town, I still wouldn't want any of those lands go for sale. The reason why I wouldn't want that area to go up for sale is because those lands are part of our community and changing those lands really would be altering the beauty of that portion of Hāna in general. Another reason why is because there's significance of that portion and what it means to the community. Within those markings, is the history behind so many Kupuna's. Lastly, giving this land away will take away areas that's already being used for workers. Such as the pastures, there's cattling that takes place and giving that up causes lost of work and habitat for cattling. I strongly and deeply encourage that, we the people have support to protect our sacred lands and oceans.

Sincerely,

Snasta Kalalau

Dear Mayor Arakawa,

I am in the 11th grade at Hana High School and request that you support the acquisition of the Maka'alaie lands with Maui Open Space funds. These lands are important to me because they are apart of my hometown and hold rich history. Several generations have spent time on these grounds gathering resources, enjoying the waters, making memories and much more. To put these lands into the hands of those who plan on closing and developing Maka'alaie into something for their own good would mean losing a part of my home. Hana is a special place, isolated from the cruel world we hear and know about too well. To strip us of these lands for selfish reasons would destroy so much. It would break the hearts of surrounding families and Hana wouldn't be the same. I ask you, Mayor Arakawa to please, think about my home and the people and help keep our Maka'alaie lands open for years and generations to come.

Sincerely,

Kailaemoanini B. Kelam

Dear Mayor Arakawa

I am in the eleventh grade at Hana High School and request that you support the acquisition of Makai'ala lands with Maui open space funds. These lands are special to me because my whole life my family and I would go camping there almost every summer. It's a good place to go fishing and a good place for Keiki to learn how to fish and swim. Makai'ala is used by the entire Hana town, it is our icebox and to have it taken away from us will be detrimental to our well being. Our Kupuna used this land to gather food and they did a good job keeping it the way it is for us, now it is our job to keep it the way it is for the next generation. I don't live in that area but I have family that do and we use Makai'ala to spend quality time and pass down subsistence food gathering traditions. Please strongly consider using the open space funds to acquire the Makai'ala lands.

Sincerely, Austin R. Shamblin.

Dear Mayor Arakawa,

I am a 12th grade student at Hāna School. I request that you support the acquisition of Māka'ālae lands with māui open space funds. All of the land that is up for sale is land where locals practice their traditions. Many people rely on that coastline to feed their family. Taking away this land from the locals is like ripping a part out of them. Selling this land will do more bad than good. I hope you can understand that

Sincerely,

Helio S.

DEAR MAYOR ARAKANA,

I am in the 11th grade at Hana School and request that you support the acquisition of Maka'alaie lands with Maui Open Space funds.

These lands of Maka'alaie are special to me because my unana have been down there since their baby days. Most of my unana made memories they can never forget down at Maka'alaie, they would go fishing at the right times to provide for the right moments not only taking how much they want never that, only what we would need. Maka'alaie and its place the wind the air you breathe in its very special all those little things are very special. I know family that live down there, their unana has been down there for over 70 years. I know for a fact that they wouldn't want anything happening to any area down there, they have been down at Maka'alaie very long that they know every inch of the land and ocean, when to fish, how much of what they would need. My point is changing one thing could change many things. I am asking you Mayor Arakana to acquire the lands at Maka'alaie using Maui Open Space funds.

Sincerely,
Aisha Pann Nguyen

Dear Mayor Arakawa,

I am in the 12th grade at Hāna High and Elementary School and request that you support the acquisition of Makaiālae Lands with Maui Open Space Funds. These lands are special to me because this is where my ancestors first experienced life and where they are put to rest too. This huge piece of 'Āina is basically the motherland of my ancestry. All in these pastures are ancient burial grounds that have and never will be touched or disrespected by outsiders. My 'Ohana used to help clean up our ancestors graves because people use to just trash them, throw their outlying gravestones anywhere and just simply help themselves to explore on them as well. I have Kupuna buried on Hāmaea grounds too. All of them are scattered throughout acres of pastures to protect their 'Āina and what belongs to them. But coming here thinking that taking our lands and making them into profit is just unbelievable. Why come to a small isolated town and cause trouble? We mind our own business and don't bother anyone else. Developing on our land you don't know about is a huge disappointment not only to us but to those long before us. This place feel and cared for so many people that still today people go to gather there to survive and provide for their families. I highly suggest you use the funds to purchase the Makaiālae lands so no one can lay a hand on it in the future generations.

Mahalo,

Fushin P

Dear Mayor Arakawa,

I am in the 12th grade at Hāna School and request that you support the acquisition of Maka'ala'e lands with Maui Open Space Funds. These lands are special to the community and most importantly the families who have been living along this area for generations. These lands have been providing many families with a fulfilling amount of life. This land is sacred - full of history and left alone in its natural state. From generation to generation Maka'ala'e has offered an area for our cultural aspects to continue to thrive. There is not only such pristine beauty within the land, but also resources in which families feed off of. For a substantial amount of years, the practice of Kapu have been passed down and will continue to our future keiki. We offer our respect and aloha to the lands - only taking enough of what we need and allowing the lands to continue to flourish. Developing on these lands would mean taking away the essence of what it is.

Sincerely, Uloani Kahana

Dear Mayor Arakawa

I am in the 12th grade at Hāna School and request that you support the acquisition of Mākaʻālae lands with Maui Open Space funds. These lands are special to me because it's sacred land. It is important for me to try my best to fight for Mākaʻālae land because it's where our ancestors and kūpuna's did and still do cultural practice. The tradition of gathering food from the ocean is important for our families to learn and carry on so that we know how to feed ourselves. It's important for younger generations to know how special Mākaʻālae lands are to our kūpuna's and Hāna community and how sacred this land is to Hawaiian people. One day I hope our younger generation will still be able to visit Mākaʻālae land and learn about how sacred the land is and how it will always be sacred to us no matter what. I hope we can come together as a community and protect this land. Your support with using the open space funds to acquire this land will help us do just that.

Mahalo,

Shy D. [Signature]

Dear Mayor Arakawa,

I am in the 12th grade at Hana School and request that you support the acquisition of Makalae lands with Maui Open Space Funds. These lands are not really that important to me because my family has not lived here for that long. But the land that is up for sale is where many local families practice their cultural traditions. People gather food there to feed their family because living on Maui is so expensive that some people can't afford a lot of groceries. They rely on the land to support them. If these lands are sold, these families will have to find new places to gather food and practice their traditions.

Sincerely,
Heiko S.

Dear Mayor Arakawa

I am in the 11th grade at Hana School and request that you support the acquisition of Maka'ala'e lands with Maui open space funds. These lands are special to me because I spent a lot of my childhood there, the countless memories of fun and laughter is something I'll never forget. Living so close to Maka'ala'e I spent most of my summer days swimming at Waioka, and fishing off the Pali. We would camp at pine trees, fish and dive all day to enjoy what we caught at night. Losing access to Maka'ala'e would be a major loss for our people and community, I ask you Mayor Arakawa to please consider using the open space funds to save Maka'ala'e for generations to come.

Sincerely,

Jabiah Kaina

Dear Mayor Arakawa,

I am in the 11th grade at Hana High School and request that you support the acquisition of Maka'ala'e lands with Maui open space funds. These lands are special to my family and I. They are special to us because they hold our memories as well as our history. These lands are where it started, from the fishing, hunting, and raising of children, to the after work hours where we would spend quality time with each other and embrace what is surrounding us. This specific place, is one out of many on the east side of Maui, that brings ohana and the community together. My papa, John "Boy" Hanchett, a Hana town cowboy used these parts of Maka'ala'e to move his cattle from one pasture to another. My Great Great Grandfather, Harry Kunihi Mitchell, was one who fought for the rights of the waters to move through the streams of the native people. He knew that what belongs to the lands and the community around it must stay in the possession of those who value it. He also cared a lot for the land. We, the community, the people, the children of Hana, are the land. We will fight for what is ours and for what we live off of, the land is a part of us, and that shouldn't be taken away. My Great Great Grandfather opened our eyes to what is happening around us before it even begun and we will add on and embrace it. Maka'ala'e lands are important to Me as well as the community, I once again request that you support the acquisition of Maka'ala'e lands with Maui open space funds.

Sincerely,

Sarai Boeche *Sarai K. Boeche*

you can consider our small town in using the open space funds to help put Makalawe into conservation. Please help support what the people of the community need and want, that is in our best interest and no one else's. I appreciate you taking the time to read this letter and hope you can see what our community needs.

Sincerely, Nandi Carano

Dear Mayor Arakawa,

I am attending my junior year at Hana school, and i request that you support the acquisition of Maka'ala'e lands with Maui Open Space funds. My family is one of the many that have been going down to Maka'ala'e for years. That is a place that holds a special place in our hearts. We fish, camp, and make memories down there. I do think it would be oblivious to sell it off to a foreigner who will most likely conduct large unnecessary projects and ruin these virgin, Hawaiian lands that haven't been touched for decades. Any kind of land like this should be preserved and taken care of. The beach serves as a source of food for our families when we go fishing. I do think we should conserve what we have left of these virgin lands.

sincerely,

Dennis Rau

Jane & Dennis

Dear Mayor Arakawa

I am in the 11th grade at Hana School and request you support the acquisition of Makaalae lands with the open space funds. These lands are special to me because they provide food for the people of our community, this is our way of life. Many families use this place to go fishing, this is how many people in this community live and survive it is important we still practice Hawaiians way of life, to keep our culture alive. Taking away the lands we practice on would be a huge mistake. These lands are also untouched, undeveloped, virgin lands. No one has ever built them which makes them even more sacred and valuable. Makaalae also allows access to three different surf breaks along that coast Pine trees, Rivertmouth, and Sandbar. Many surfers, my boyfriend included go down here to surf the unique wave that breaks there. Development of these lands would effect this community greatly and disable us from use of it. I hope

Aloha Maui County Council Members

My name is Shirley Kahula,

Im writing you to ask for continued support for all of our nonprofits in Hana. I utilize and participate in programs & activities offered by the Hana Senior Center, Kauona Senior services, MEO, Alu Like Inc, Hana Parks & Recreation. Please continue to fund and support Hana as our community utilize and need all services offered by these organizations and our State and County agencies.

Mahalo for your Support

RECEIVED AT EAB MEETING ON 4/5/19

Aloha and Welcome to the Maui County Council Members who have traveled to Hana. Hopefully you have recovered from the bone-jarring journey if you came via KeoKea.

Here are two questions high in priority for our Councilmen and Councilwomen:

1. The "back road" from Hasegawa General Store to Nu'u is in various stages of disrepair, with some of the stretches, particularly between Kipahulu and Kaupo, very dangerous to all drivers, but especially those of us in East Maui who prefer to use that road to travel to and from Kahului early in the morning to avoid the increasingly heavy traffic, now estimated at approximately 350,000 vehicles annually and nearly 1 million people transiting the Hana highway.

QUESTION:

What are the short-term repair and LONG TERM REPAIR plans for this highway, including the timeline for immediate fixes on the washed-out guard rail at Kalepa and the frequently requested installation of a stoplight system between Kalepa and the top of the hill up the side of the cliffs bordered by the ocean? This is one of the most dangerous stretches of road in Hawaii. It is constantly used by motorists inexperienced in driving such a narrow, dangerous stretch of broken, rutted pavement frequently subject to landslides and washouts. It is only a matter of time before there is another fatal accident on this part of the road. Where is this road ranked on your repair list?

2. When this council was sworn in there were solid promises, especially by freshmen members and the current chairwoman, that the council would pursue a more aggressive policy of identification, enforcement, fines and prosecution of folks illegally operating transit vacation accommodations on Maui. This promise was accompanied by voter approval of a new law carrying an initial fine of \$20,000 and a daily \$10,000 a day fine for violators who were identified and then continued operating these illegal businesses that take away desperately needed housing buy local folks.

QUESTION:

On Dec. 20, AirBnB listed 81 TVAs for Hana; on Jan. 2, there were only the 21 currently permitted in Hana area. What has changed in the past three months in the county's identification and enforcement involving illegal TVAs? Please give specific statistical information on this issue, most particularly for East Maui.

RECEIVED AT EDB MEETING ON 4/15/19

Submitted by
Tad Wariner

Aloha Maui County Councilmembers,

I am a resident of Hana born and raised and reside at 350 Hane'o rd Hamoa. I am writing you all today to ask for your continued support and funding for all of the proposed items for the Hana District's 2020 Budget Capital Improvement, Nonprofits, and Government County and State agencies. I humbly ask to please **support** Hana.

1. Nonprofit and Government Agencies

Ohana Makamae Inc
Hui Iaulima O Hana Dialysis Home
Hana Senior Center – Hale Hulu Mamo
Hui No Ke ola Pono
Alu Like Inc
Ma Ka Hana Ka Ike Inc
Festivals of Aloha
East Maui Taro Festival Inc
Hana Art Barn
Kaunoa Seniors
MEO
Hana Youth Center

2. CBS-5504 Hana Land field

3. Hana Parks & Receptions

CBS NO. CBS-5531 Hana Park Tennis & Basketball Courts – Reconstruction of 2 new existing tennis courts and one basketball court with lights. Courts are in bad shape and need to resurface.
