Subject: Keawakupu parking lot

We want to officially protest the plans to develop the parking lot next to the five palms and restrict access to local and property owners. The hotel has their own parking and should not have access to the public parking currently their for their own private use.

This is an access point where locals can put gather as families on the weekends and it also provided in and out access for boats and paddle boards.

If locals and tourists are pushed to park on the street it causes an already busy and dangerous road to be blocked by cars parked on the side and limit visibility. There was a motorcycle accident just 4 months ago at the entrance here.

We own at 227 Mahie pl Kihei and use this access point to the beach regularly.

This should not be changed to a larger hotel or their own private parking lot.
