Subject: PALAMA DRIVE RISK AND DISREGARD The Dept of Management County of Maui

Aloha Edb.committee, Welcome to our MOLOKAI member. ALOHA . we LIVE on Maui, wondering if this would be ok where you come from....??? In KAHULUI or is it Wailuku District? do you know? County owns Hospice property..Maui Lani GAVE in a well publicized ceremony with cigars and Kahu the meditation area easement FINALLY * as was quoted in the newspaper to HOSPICE....masterful that its so feel good.. Yet Palama Dr wailuku Kahului File Plan 766 east maui irrigation Kahului Towne development residents remain at huge risk.. Did they the Task Force to view the damage and RISK to residents on Palama DR. County of Maui ? Check the CD that was presented for County Council oh BTW Akaku the electricity was out that morning no traffic signals were working.. CD provided to council service person not allowed to be viewed by public..as part of my testimony.. but all Councilmembers Had photos of damages . I'm sure Corp Councils took advantage of the opportunity to view their property.. Action regarding failing walls , 100 pound blocks of decorative wall blocks encasing tons of mill sludge? did anyone ask what maintenance included that the County Claims to have paid for in the best interest of the safety health and well being of the citizens of our Kahului Community ? People in agreement of affordable housing have been falsely lead to believe that this development is safe.

My name is Annette L. Heu homeowner on Palama Dr. ...actually born up the hill at Maui Memorial Hosp. 1959.. have always lived on Maui... since 1984 I have been a resident of 309 Palama Dr. with our extended family...

The Fairways as you know from the extensive research your staff has done is a man made hill with a decorative unsafe retaining wall that threatens the Residents of Maui here on Palama dr. with all the legal entanglements and legally suggested mitigation.. the County permitted and let Palama drive homeowners suffer through accept and pay for..your staff must be highly motivated to see a Eco friendly affordable housing project be built on the MILL MUD... can't blame anyone for wanting a home... the County again taking to position of FEEL GOOD.....GOODE .. and presenting the view from the TOP their Hospice lot... Not the view of residential homeowners below in the depression with known drainage and sanitary sewer overflow while ponded..can't pretend any more maintenance occurred.. If the County partnership with Maui Lani here on Palama doesn't include existing decorative wall who does the wall belong to? The adjoining Pala circle has a distance different from Palama drive depression with the man made structure created at the 12D Faiways county property..Swale does not connect to Massive sand Hill we are below Wailuku.. Palama Dr is Kahului.file plan 766 a&b Properties. masterful.... The county of Maui has a responsibility to the health well being and safety of all.. the existing conditions that the Dept Management portrayed to the overall community has been generated to support only the affordable housing option.. I appreciated the time your staff has extended and the walk through and gathering rights.. after viewing the photos they took on site do you fell the county has maintained the swale in the best interest of the community? Do you feel the people who you are representing through your Committee deserve more consideration that the people who live here? If Maui lani enforces height restrictions to homeowners and the county allowed the project district to build the decorative wall how can they expect Maui Lani enforced homeowners to build anything? unless the option is underground bunker type homes...cause its Maui Lani's own law? They have not enforced their own maintenance requirements in regards to good neighbor responsibilities or has it been since the County owns it now ..its ok cause we no matter.. Would this Matter on Molokai? Not trying to criticize just trying to put my mind and the safety of our lives in a safe healthy place.... Everyone gonna say.. not me its them not me over there.. many of the residents who participated in the Lawsuit are DEAD.. PERFECT.. Data will show we have the majority to accomplish affordable housing and Alice Lee has the track record to get the road built.. Council Housing Council....she wants to Help Maui Lani and the County.....she saw the photos of Palama dr. risk are they gonna ignore us again? are You? Is this Council? Tasha Kama already with Corp Council so she will be primed for questions.. Mike Molina has been around along time he knows..his family would never suffer this abuse..oh but they don't live here they Planning ? Ann KUA

shepherds Maui Lani.... Its all so healthy....and progressive  but not insured /bonded right. speaking of Progressive ... What kinds of Insurance will be given for the Mill mud homes?

Its Hawaii nei... We are Mauna Kea... Ku Kiai Mauna Aloha Kapu.... funny this mirrors actions taken at Honokahua everybody over there while 1990's while A&B east Maui irrigation plan 766 Maui Lani being Sandmined of the lwi... behind the mountain auwe..broken trust... Waikapu Wailuku Kahului Now everybody looking at this huge issue Mauna Kea so quick get the pepa make the call.... take one picture make a couple talk stories ...advertise..

Now HAWAII? STATE ENFORCEMENT ARIZUMI/IGE 🙏 WE the people talking Mauna and togetherness on Hawaii Island ...everybody jumping on to publicize the HEWA overwhelming and the County ? COUNCIL thru Molokai assisting this County Management proposal to disregard the community here NO ALOHA FOR US.. FOR THE KUPUNA THE KEIKI THE WAHINE at Palama DR the uhane iwi Painfully Mixed messages .. HEWA... Arizumi Brothers are neighbors They see it every day..but they need permits they need to be neutral...We are all neighbors but working for the county&living on Palama give county human resources control civil servants the right to dictate our lives and keep us in harms way for affordable housing..and County revenue...wonder why people go crazy? committ suicide? are drunk on the side walks but the the Liquor Commission making bank of that so.AKAKU GLadys Baisa .Laugh at your meetings and continue the dialog....one day mother nature gonna cause a disaster thats gonna kill somebody on Palama dr..while you laugh in committee of course..Water resources director should check hydrology reports to see the old pond filled with battery acid from previous leaseholder adjacent to higherups.. did they interview for best practice and pollution with the task force? or did mr. Yamadas easement and business provide access to this sludge filled polluted neighborhood... now PERFECTLY suited for affordable housing...

This was a pond you filled these are drainage avenues of existing natural areas Mauna Kahalawai... UNEXPECTED.MUDSLIDES do occur in times of high water retention here adjoining FAIRWAYS the pressure walls are already bulging....the blocks falling and the fine print of the contracts printed right Sandy.... almost Autumn... Good Luck Ms

Fernandez..... Lorico/Harris/Berg Molokai 🐶 Ohana means family.. Fairways palama dr Ulili e
