Subject: The Maui Oceanfront Inn is proposing to take away public parking stalls

Aloha,

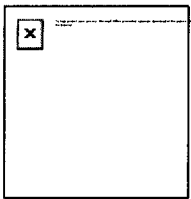

re: The Maui Oceanfront Inn is proposing to take away public parking stalls

Perhaps the County could lease these lands for expanded park areas instead of parking lots for resorts and restaurants? Surely the County can afford \$140 a month to preserve park and open space for the entire community?!

This area is Badly in need of a master plan, by our community, for our community. These are state lands.

Please ask for a site visit by all council members, ask for a community meeting, ask for a master plan, ask for deferral!

Mahalo,
