You don't often get email from sgdmauishannon@gmail.com. [Learn why this is important](#)

Aloha,

Hope this finds you well! I work at Surfing Goat Dairy and manage over 300 goats. We currently have around 100 kid goats that we are looking to sell, however, we are also working on establishing a goat grazing service to the island of Maui. The Maui Now article regarding fire safety violations truly resonated with me because I feel that Surfing Goat Dairy could help with this island wide issue. This summer we are attending a workshop on Oahu for large landowners to learn more about goat grazing for a purpose of field production. Although we are still in the planning stages, I wanted to reach out to see if there was a way to collaborate and join forces regarding the need to prevent wildfires in the future. I would love to discuss what we have so far and how we can be of use moving forward. Please feel free to reach out via email at sgdmauishannon@gmail.com or my personal number at 860-384-2186.

Mahalo nui,
Shannon McCann
Director of Goat Health
