I am strongly opposed to Maui county using pesticides and chemical fertilizers in the parks where our keiki play. The parks are looking great. No need to poison our keiki and spend unnecessary taxpayer money on those poisons.

Aloha,

We would like to have our voices counted that we do not support reversing the pesticide and fertilizer ban at county parks. We are a family of four in Kula and want to keep our keiki safe from pesticides while playing and exercising.

Thank you for listening,
Madeleine and family

To whom it may concern:

Aloha,

I have just been informed of a proposed bill from our Mayor to reinstate using pesticides on county property (see below).

This is deeply disturbing, as the pesticides are toxic to everyone, specially children, as well as nature.

I am **opposed** to this bill and very much count on you for doing the right thing.

Pesticides are harmful and cause cancer - we can do better than that.

Let's move forward in a way that promotes health & wellness for all,

Mahalo,

Grace Pretre
Resident of Hāna
