**Subject:** Emergency Funding for Iao Valley Disaster

Aloha Chair and Council Members,

I strongly oppose any additional funding for the Iao Disaster of Sept. 13, 2016 until a full audit has taken place.

There needs to be a full investigation into how these contracts were awarded and a detailed daily breakdown from all contractors, police and fire departments involved. The daily weight of materials hauled, mileage, wages, including overtime wages and all FEMA Money's applied for. I was told that the contractors were not following FEMA guidelines in terms of weight loads of all materials hauled out of the river, mileage and many other details that is required for FEMA disaster relief. This also includes work restrictions on private property which is a serious question that still needs to be addressed.

What the zero notification of this hearing? The public funds you are asking for deserve the proper notification to the public. This mess violated the peoples trust and dignity not to mention feeling financially fleeced by the Administration and Wailuku Water Company.

I testified the 1st time against any Emergency Funding and I am saying NO again till a full audit is complete. You don't spend frivolous money and they expect to get reimbursed on a moments notice. Why is the electronic sign next to the dump still there flashing that the driveway is for Iao Valley Trucks? There has not been any activity there for a few months. How much is that costing?

Has all the pohaku that was hauled and dumped without any measurement of weight on the A7B Property in Waikapu been returned? We are done bring lied too.

I have videos of the trucks leaving the Wailuku bridge and going to that site and dumping that I'm happy to share.

Enough of the secrecy. The people demand transparency with this Disaster. NO MORE LIES!

Mahalo,

Ms. Barbara Barry

Ha'iku
