Subject: parking spots at Keawakapu beach and rezoning of Maui Oceanfront hotel

Aloha,

I am writing today to encourage you to not eliminate parking spots in the gravel lot at Keawakapu beach that are valuable to the community. Additionally I am asking that there not be a rezoning of the Maui Oceanfront hotel. It is one of the only locations left from the Mana Kai south to the end of Wailea that provides substantial parking to the public for a beach which allows the local community enjoyment without hundreds of visitors that dominate the beach with hotel umbrellas, canoes and lawn chairs. Can't we please keep some balance here and provide access to locals to one large beautiful beach? This location is already a nice workable blend of guests and locals. It is currently a situation that works. The only reason to rezone would be to allow for a bigger profit for one company. Why does this need to happen at the expense of an area that is beautiful and clean and brings joy to locals and tourists alike. Please keep this area as is.

Mahalo.
