Subject: Affordable Housing Program

Aloha,

I am writing in regards to the Affordable housing program at Front Street Apartments. I received a notice in my door yesterday saying that our owners have opted out of the affordable housing program. Please understand how frighten I am with this notification. I am a single parent of 2 children and barely make it on the income that i have to live where I live. How am I to raise my children if I have to work 2 full time jobs just to pay rent. I fear the worst, that we would have to live in my car or on the beach. Someone told me they pay \$1,400 a month for a one bedroom apartment in Lahaina. I bring home \$1,575. would leave me with \$175 to feed my children a month. Now I am not saying that is what the rent will be but, that would be a struggle for me and for most families that live in our apartment complex. I am not sure what you could do to help with my concern. I will hope and pray that you could fix this problem so that so we could continue to live at Front Street Apartments.

Thank you for your time

Shannon
