Subject: Testimony In Support of Amending Section 2.80B Maui County Code

Aloha Chair King & Members of the Climate Action & Resilience Committee

On behalf of the 7,000 members and supporters statewide of Our Revolution Hawaii we write in strong support to the proposed bill amending Section 2.80B, Maui County Code, to add to the Countywide Policy Plan a goal to mitigate Climate Change and work toward resilience.

It is essential that this bill pass. We are in the last possible moment in the fight to prevent perpetual Climate Chaos. We can no longer afford to wait to pass effective Climate legislation. We must do it now or it will be too late. As some 13,766 scientists from 156 countries have declared we are in already in Climate Emergency. We must take their warning seriously.

Please support this vitally important bill.

Mahalo Nui Loa for your kind attention.
Dave Mulinix, CoFounder, Our Revolution Hawaii
