Subject: Support for TVR amendment to Bill 105

Housing Land Use Committee,

Aloha Chair and Members of the Maui County Council,

I am writing to express my strong support for Councilmember Tamara Paltin's amendment to Bill 105, which would exclude Transient Vacation Rentals (TVRs) from resuming operations under nonconforming use provisions, particularly in areas affected by disaster.

In the aftermath of the Lahaina fires, our community has made it clear that we do not want TVRs in our neighborhoods. This message has been consistent throughout our recovery, and it's crucial that the County listens. In the LTRP feedback presentation, eliminating short-term vacation rentals in neighborhoods was one of the top five concerns raised by residents.

Housing needs, limiting oversized homes, and removing TVRs. We encourage you to listen to our community and act on these concerns. were repeatedly highlighted as urgent priorities to address West Maui's housing shortage.

Rebuilding TVRs would not only divert critical resources but also directly compete with the rebuilding of long-term housing. Workers like contractors and electricians are already in short supply, and restoring short-term rental properties will further delay the construction of affordable homes. Additionally, water allocations are already strained, and prioritizing TVRs would make it harder to meet the needs of local families.

TVRs have contributed to the displacement of local families and the rising unaffordability of housing in West Maui. By excluding them from nonconforming use, we can prioritize long-term housing and the recovery of our community. This amendment reflects the needs of the families who have lost everything.

I urge you to pass this amendment to protect the future of our neighborhoods and ensure our recovery prioritizes local residents.
