Subject: Affordable Housing Projects (Chapter 201H, Hawaii Revised Statutes) Independent Development to the Makila Farms Project (Lahaina) Agenda ItemAH-1 (3)

Council Members,

I am fully in support of this project. There is a dire need for affordable housing and this project goes way beyond any that has ever been built. The proposed lots will allow families land to grow on, not be stuffed into cracker boxes. Brown Development has raised the bar in affordable housing development. There have been denials of other proposed projects in the area and I hope this one does not meet the same fate.

Sincerely,

Gary Miyamoto
