Subject: Cc21-176 reserve 50% of our public beach parking for residents

Aloha,

Please pass bill(CC21-176) to reserve 50% of our public beach parking for residents.

I want to Mahalo our Council Members for thinking about your residents. I wanted to say at first thank you for putting us FIRST, but actually at 50% public beach parking for your residents you are actually keeping it even.

After a long day at work, or a long week at work, or even a long month of working we deserve a day of fun. And living in the islands, FUN is going to the beach. It's disappointing that at many times we can't find parking for us, the residents. We know that parking plays a huge part in controlling who has access to the beach. No parking, residents can't stay because we tend to get tickets for illegal parking. So we end up searching for another beach or even not going to the beach at all. So PLEASE give the right to access our beaches back to your residents! And this bill will do that, even if it's ONLY 50%. At 50% it's better than NONE and it's been NONE for many years now.

Mahalo,
Michelei Tancayo
