You don't often get email from brittany@yummet.com. [Learn why this is important](#)

Aloha Kakou,

I hope this message finds each of you in good spirits and health. Thank you profoundly for the insightful questions raised during the DRIP meeting on January 10, 2024. I am fully prepared to address all your inquiries, particularly those requiring detailed responses.

For clarity and a more interactive discussion, I propose to respond to these questions in person at today's meeting. This approach will enable me to provide more comprehensive answers and engage in any necessary follow-up discussions.

I've noticed that some questions are similar but phrased differently. Answering these in person will also allow for a consolidation of these into a singular, detailed response.

Regarding the request for 3 professional references, I am willing to share their details exclusively with the Maui County Council. However, to respect their privacy, I prefer to distribute this information as a hard copy, ensuring it remains confidential and not publicly accessible. Most of these individuals have already provided testimony, which can serve as a reference. Please note that Thomas J. Cognata from NASA, who is unlikely to join us today, has kindly submitted a video for his professional reference and can be viewed [HERE](#). To address any concerns about misinformation, Dr. Cogswell has prepared a brief video [HERE](#) that provides necessary clarifications.

I will be attending the meeting in person, accompanied online by two esteemed colleagues who will serve as additional resources:

- 1) Dr. Kevin MacDonald, Ph.D., PE, P.ENG, FACI - Professor at the University of Wisconsin and recognized as one of the Top 5 Most Influential People in the Concrete Industry.
- 2) Dr. Chris Cogswell – Ph.D. in Chemical Engineering, noted member of the American Institute of Chemical Engineers.

Thank you once again for your attention and the opportunity to engage with the committee. I am eager to answer any further questions and contribute to the productive discourse of the DRIP Committee.

Mahalo nui!

Hi, Brittany,

Checking back in. Do you have a list of the folks who will be joining in-person this Wednesday?

Please let me know if you have any other questions.

Thank you,

Paige

Hi, Brittany,

At your earliest convenience, can you please let me know how many resources from your team will be joining next week's reconvening meeting on January 24, 2024 at 1:30pm **in-person**?

It would also be helpful to know if you will be bringing additional folks, whether in-person or virtual, who were not at the last meeting. This is so Chair Paltin can recognize them and designate them as resource individuals.

Please let me know if you have any questions.

Thank you,

Paige
