Dear Council Member Kama,

I represent my family in asking for your approval on the Litigation Matters (Settlement Authorization: Chevalier's vs County). We believe the settlement benefits the County and our family. We have owned this Keokea, Kula, property for over 100 years and we fear we may lose it if this settlement is not accepted. This settlement will allow us to complete the installation of the waterline and meters that we have already paid for. Our family is unwittingly a part of this litigation that was filed last year. We have over \$3 million dollars invested in this subdivision to date and have collateralized several of our own properties, including Fong Store and Grandma's Coffee Shop, in borrowing to fund this project. Contact me if you need further details or information, at 264-2067, thank you.

Roderick Fong
