

§205-4.5 Permissible uses within the agricultural districts.

(a) Within the agricultural district, all lands with soil classified by the land study bureau's detailed land classification as overall (master) productivity rating class A or B shall be restricted to the following permitted uses:

- (1) Cultivation of crops, including crops for bioenergy, flowers, vegetables, foliage, fruits, forage, and timber;
- (2) Game and fish propagation;
- (3) Raising of livestock, including poultry, bees, fish, or other animal or aquatic life that are propagated for economic or personal use;
- (4) Farm dwellings, employee housing, farm buildings, or activities or uses related to farming and animal husbandry. "Farm dwelling", as used in this paragraph, means a single-family dwelling located on and used in connection with a farm, including clusters of single-family farm dwellings permitted within agricultural parks developed by the State, or where agricultural activity provides income to the family occupying the dwelling;
- (5) Public institutions and buildings that are necessary for agricultural practices;
- (6) Public and private open area types of recreational uses, including day camps, picnic grounds, parks, and riding stables, but not including dragstrips, airports, drive-in theaters, golf courses, golf driving ranges, country clubs, and overnight camps;
- (7) Public, private, and quasi-public utility lines and roadways, transformer stations, communications equipment buildings, solid waste transfer stations, major water storage tanks, and appurtenant small buildings such as booster pumping stations, but not including offices or yards for equipment, material, vehicle storage, repair or maintenance, treatment plants, corporation yards, or other similar structures;
- (8) Retention, restoration, rehabilitation, or improvement of buildings or sites of historic or scenic interest;
- (9) Agricultural-based commercial operations as described in section [205-2(d)(15)];
- (10) Buildings and uses, including mills, storage, and processing facilities, maintenance facilities, photovoltaic, biogas, and other small-scale renewable energy systems producing energy solely for use in the agricultural activities of the fee or leasehold owner of the property, and vehicle and equipment storage areas that are normally considered directly accessory to the above-mentioned uses and are permitted under section 205-2(d);
- (11) Agricultural parks;
- (12) Plantation community subdivisions, which as used in this chapter means an established subdivision or cluster of employee housing, community buildings, and agricultural

 Planning Committee Chair (PC-23)

support buildings on land currently or formerly owned, leased, or operated by a sugar or pineapple plantation; provided that the existing structures may be used or rehabilitated for use, and new employee housing and agricultural support buildings may be allowed on land within the subdivision as follows:

- (A) The employee housing is occupied by employees or former employees of the plantation who have a property interest in the land;
 - (B) The employee housing units not owned by their occupants shall be rented or leased at affordable rates for agricultural workers; or
 - (C) The agricultural support buildings shall be rented or leased to agricultural business operators or agricultural support services;
- (13) Agricultural tourism conducted on a working farm, or a farming operation as defined in section 165-2, for the enjoyment, education, or involvement of visitors; provided that the agricultural tourism activity is accessory and secondary to the principal agricultural use and does not interfere with surrounding farm operations; and provided further that this paragraph shall apply only to a county that has adopted ordinances regulating agricultural tourism under section 205-5;
 - (14) Agricultural tourism activities, including overnight accommodations of twenty-one days or less, for any one stay within a county; provided that this paragraph shall apply only to a county that includes at least three islands and has adopted ordinances regulating agricultural tourism activities pursuant to section 205-5; provided further that the agricultural tourism activities coexist with a bona fide agricultural activity. For the purposes of this paragraph, "bona fide agricultural activity" means a farming operation as defined in section 165-2;
 - (15) Wind energy facilities, including the appurtenances associated with the production and transmission of wind generated energy; provided that the wind energy facilities and appurtenances are compatible with agriculture uses and cause minimal adverse impact on agricultural land;
 - (16) Biofuel processing facilities, including the appurtenances associated with the production and refining of biofuels that is normally considered directly accessory and secondary to the growing of the energy feedstock; provided that biofuels processing facilities and appurtenances do not adversely impact agricultural land and other agricultural uses in the vicinity.

For the purposes of this paragraph:

"Appurtenances" means operational infrastructure of the appropriate type and scale for economic commercial storage and distribution, and other similar handling of feedstock,

fuels, and other products of biofuel processing facilities.

- "Biofuel processing facility" means a facility that produces liquid or gaseous fuels from organic sources such as biomass crops, agricultural residues, and oil crops, including palm, canola, soybean, and waste cooking oils; grease; food wastes; and animal residues and wastes that can be used to generate energy;
- (17) Agricultural-energy facilities, including appurtenances necessary for an agricultural-energy enterprise; provided that the primary activity of the agricultural-energy enterprise is agricultural activity. To be considered the primary activity of an agricultural-energy enterprise, the total acreage devoted to agricultural activity shall be not less than ninety per cent of the total acreage of the agricultural-energy enterprise. The agricultural-energy facility shall be limited to lands owned, leased, licensed, or operated by the entity conducting the agricultural activity.

As used in this paragraph:

"Agricultural activity" means any activity described in paragraphs (1) to (3) of this subsection.

"Agricultural-energy enterprise" means an enterprise that integrally incorporates an agricultural activity with an agricultural-energy facility.

"Agricultural-energy facility" means a facility that generates, stores, or distributes renewable energy as defined in section 269-91 or renewable fuel including electrical or thermal energy or liquid or gaseous fuels from products of agricultural activities from agricultural lands located in the State.

- "Appurtenances" means operational infrastructure of the appropriate type and scale for the economic commercial generation, storage, distribution, and other similar handling of energy, including equipment, feedstock, fuels, and other products of agricultural-energy facilities;
- (18) Construction and operation of wireless communication antennas; provided that, for the purposes of this paragraph, "wireless communication antenna" means communications equipment that is either freestanding or placed upon or attached to an already existing structure and that transmits and receives electromagnetic radio signals used in the provision of all types of wireless communications services; provided further that nothing in this paragraph shall be construed to permit the construction of any new structure that is not deemed a permitted use under this subsection;
- (19) Agricultural education programs conducted on a farming operation as defined in section 165-2, for the education and participation of the general public; provided that the agricultural education programs are accessory and secondary to the principal agricultural use of the parcels or lots on

which the agricultural education programs are to occur and do not interfere with surrounding farm operations. For the purposes of this section, "agricultural education programs" means activities or events designed to promote knowledge and understanding of agricultural activities and practices conducted on a farming operation as defined in section 165-2;

(20) Solar energy facilities that do not occupy more than ten per cent of the acreage of the parcel, or twenty acres of land, whichever is lesser; provided that this use shall not be permitted on lands with soil classified by the land study bureau's detailed land classification as overall (master) productivity rating class A; or

[(21)] Geothermal resources exploration and geothermal resources development, as defined under section 182-1.

(b) Uses not expressly permitted in subsection (a) shall be prohibited, except the uses permitted as provided in sections 205-6 and 205-8, and construction of single-family dwellings on lots existing before June 4, 1976. Any other law to the contrary notwithstanding, no subdivision of land within the agricultural district with soil classified by the land study bureau's detailed land classification as overall (master) productivity rating class A or B shall be approved by a county unless those A and B lands within the subdivision are made subject to the restriction on uses as prescribed in this section and to the condition that the uses shall be primarily in pursuit of an agricultural activity.

Any deed, lease, agreement of sale, mortgage, or other instrument of conveyance covering any land within the agricultural subdivision shall expressly contain the restriction on uses and the condition, as prescribed in this section that these restrictions and conditions shall be encumbrances running with the land until such time that the land is reclassified to a land use district other than agricultural district.

If the foregoing requirement of encumbrances running with the land jeopardizes the owner or lessee in obtaining mortgage financing from any of the mortgage lending agencies set forth in the following paragraph, and the requirement is the sole reason for failure to obtain mortgage financing, then the requirement of encumbrances shall, insofar as such mortgage financing is jeopardized, be conditionally waived by the appropriate county enforcement officer; provided that the conditional waiver shall become effective only in the event that the property is subjected to foreclosure proceedings by the mortgage lender.

The mortgage lending agencies referred to in the preceding paragraph are the Federal Housing Administration, Federal National Mortgage Association, Veterans Administration, Small Business Administration, United States Department of Agriculture, Federal Land Bank of Berkeley, Federal Intermediate Credit Bank of Berkeley, Berkeley Bank for Cooperatives, and any other federal, state, or

private mortgage lending agency qualified to do business in Hawaii, and their respective successors and assigns.

(c) Within the agricultural district, all lands with soil classified by the land study bureau's detailed land classification as overall (master) productivity rating class C, D, E, or U shall be restricted to the uses permitted for agricultural districts as set forth in section 205-5(b).

(d) Notwithstanding any other provision of this chapter to the contrary, golf courses and golf driving ranges approved by a county before July 1, 2005, for development within the agricultural district shall be permitted uses within the agricultural district.

(e) Notwithstanding any other provision of this chapter to the contrary, plantation community subdivisions as defined in this section shall be permitted uses within the agricultural district, and section 205-8 shall not apply.

[(f)] Notwithstanding any other law to the contrary, agricultural lands may be subdivided and leased for the agricultural uses or activities permitted in subsection (a); provided that:

- (1) The principal use of the leased land is agriculture;
- (2) No permanent or temporary dwellings or farm dwellings, including trailers and campers, are constructed on the leased area. This restriction shall not prohibit the construction of storage sheds, equipment sheds, or other structures appropriate to the agricultural activity carried on within the lot; and
- (3) The lease term for a subdivided lot shall be for at least as long as the greater of:
 - (A) The minimum real property tax agricultural dedication period of the county in which the subdivided lot is located; or
 - (B) Five years.

Lots created and leased pursuant to this section shall be legal lots of record for mortgage lending purposes and shall be exempt from county subdivision standards. Avoiding the Next Hokuli'a: The Debate over Hawai'i's Agricultural Subdivisions. 27 UH L. Rev. 441.

Case Notes

Religious Land Use and Institutionalized Persons Act of 2000 (RLUIPA), assuming it was constitutional, did not facially invalidate Hawaii's land use law, where plaintiffs challenged this section and

§205-6 to the extent the sections required a religious organization to obtain a special use permit, as violations of the "equal terms" and "nondiscrimination" provisions of the RLUIPA. 229 F. Supp. 2d 1056.

"Communications equipment buildings" and "utility lines" in subsection (a)(7) do not encompass "telecommunications antennas" or "transmission antennas" such as a cellular telephone tower; public utility thus had to apply for a special permit under §205-6 to place the tower in a state agricultural district. 90 H. 384, 978 P.2d 822.

Under subsection (a)(4) and (10), a chimney and garage are permitted as accessories to a farm dwelling; however, utilizing the chimney to conceal an antenna and the garage to house communication equipment were not permitted uses under either subsection (a)(4) or (10). 106 H. 343, 104 P.3d 930.

Under the circumstances of the case, the residence and the chimney with the concealed antenna constituted a "communications equipment building" and, thus, were permitted uses under subsection (a)(7); also, as the garage was not abnormally large and was designed specifically to store the communications equipment for the concealed antenna, utilizing the permitted garage structure to house the communications equipment for the antenna was a permitted use under subsection (a)(7). 106 H. 343, 104 P.3d 930.
