Can Page 129 Table 9-23a header be amended to:

Estimated Water Use by Kuleana Parcels per 2015 Commercial Activity Agricultural Baseline

Page 130 Figure 9-13a Confusion about the two same colors for future use and three same colors of green "other ag" and slightly different green for taro and other

Clarify 2015 Ag baseline is commercial activity (in title of figure) and different color for kuleana parcels it looks as though the entire map is kuleana white, it looks as though DHHL Honokowai ag lots 800 acres is not indicated on this figure.

Page 132 Table 9-24

21 Kaua'ula

42 Māhinahina

DWS Kanahā

Table 9-25 wondering if Nāpili community garden, Hua Momona farms water usage has been taken into account?

Page 133 DHHL lands what Upcountry irrigation system? What stream for streamflow? is rainfall referring to the reservoirs? it looked like there were at least three reservoirs but only one had water and it appeared as though it was leaking out
