RE: Support Makila Farms!

I support this project simply because not only will it create jobs it will also give a chance for low income families to own their own home local and non local alike. I like the fact that it has its own water source as well as the approach taken towards fire hazard concerns by installing more fire hydrants as well as having easy access for emergency services in the event of an emergency. Its also a plus that the plan solves the run off of excess water running into the ocean issue. Overall I can't find any reason not to be in favor for this project and hope that it becomes a reality followed by more just like it!

Sincerely,
Raymond Lopes
