Subject: Please solve the pollution resulting from the Lahaina Injections Wells

Dear Maui County GET Committee,

I support the Council seeking to settle the Lahaina Injection Well case (HAWAII WILDLIFE FUND, ET AL. V. COUNTY OF MAUI, RELATING TO THE CLEAN WATER ACT) as per CC 19-225,

The County of Maui should not spend money attempting to gut the Clean Water Act. Instead, the money should spend money ensuring no pollutants reach the ocean from our wastewater facilities.

Maintaining a healthy reef is important. Too many nutrients entering the ocean from the injection wells have created an environment in the water that supports too many microbes causing illness in humans and diseases in ocean creatures. I have become ill and developed rashes from that location due to high bacterial counts. Turtles develop tumors in polluted waters which have occurred at Kahekili Beach from time to time as a result of the injection wells' nutrient load. The coral is stressed from algae growth nourished by the influence of the wells. They are stressed beyond the effects of bleaching alone adding to high mortality at this location. Finding a clean solution to this nagging problem is long overdue and expensive in many ways both directly and indirectly.

Sincerely,
Audrey Dack

Dear Maui County GET Committee,

I find it shameful that the County of Maui has been fighting the Clean Water Act over the injection wells in Lahaina. It would be an embarrassment for Maui County to be the Supreme Court case that allows pollution of our waters. Please do the right thing and ensure clean water for our residents and visitors to swim in.

I support the Council seeking to settle the Lahaina Injection Well case (HAWAII WILDLIFE FUND, ET AL. V. COUNTY OF MAUI, RELATING TO THE CLEAN WATER ACT) as per CC 19-225,

The County of Maui should not be spending money attempting to gut the Clean Water Act. Instead, the money should be spent ensuring no pollutants reach the ocean from our wastewater facilities.
