

## Petition to Add Bus Service between Pa'ia and Makawao

We, the undersigned, are concerned citizens who urge the County of Maui Department of Transportation to prioritize the implementation of the planned Pa'ia Town-Makawao Villager Route 38, with an additional stop at 1931 Baldwin Avenue, in order to serve the agencies in that area that provide important support and services to members of the community.

Reasons:

1. There is a cluster of agencies off Baldwin Avenue that provide support services for Maui's youth and families. These agencies are geographically isolated and currently unserved by public transportation. Not having public transportation imposes a hardship on those needing to access places such as their jobs, other services and supports, and court.
2. There is currently no way for Upcountry residents to get to Paia Town and points beyond from Makawao Town without going to Kahului (and through the airport loop) first. Let's change that!
