[More Info](#) | [First Tab](#) | [Plan Details](#) | [Main Menu](#)**More Info****I. Project InformationAPPLICATION DOCUMENTS**

Please use the below hyperlinks to open and/or download forms to be used while preparing and submitting your application. [Next Section](#) | [Top](#)

[Outline of ZPA Questions](#)

You can use this outline to help navigate within the set of questions below and refer to any specific one.

[Required Attachments for Change of Zoning](#)

Upload all the listed documents in the "Attachments" section if you are requesting a Change of Zoning.

[Required Attachments for CP and MIP amendments](#)

Upload all the listed documents in the "Attachments" section if you are requesting an amendment to a Community Plan (CP) or the Maui Island Plan (MIP).

[Required Attachments for a Land Use Commission DBA](#)

Upload all the listed documents in the "Attachments" section if you are requesting a Land Use Commission District Boundary Amendment.

[Sample of Basic Answers to Questions](#)

You can review this first sample to help you frame less complex answers to all questions below except those in Section V. Most should be appropriate for a less complex application and/or project. Most sample answers are drawn from actual reports to Commissions.

[Sample of Moderately Complex Answers to Questions](#)

You can review this second sample to help you frame more complex answers to all questions below except those in Section V. Many should be appropriate for a more complex application and/or project. Most sample answers are drawn from actual reports to Commissions.

[Sample Answers to Section V. Questions](#)

You can review this third sample to help you frame answers to questions in Section V. Section V. is specific to only this particular type of application. The questions in the other two samples above are common to a variety of applications which require a public hearing by a County Commission.

[Land Use Comm. Admin. Rules 15-15-18 thru 15-15-21](#)

If you are requesting a Land Use Commission District Boundary Amendment, you will need to describe below how the applicable criteria from sections 15-15-18 through 15-15-21 of the Land Use Commission's administrative rules are met.

[Notice of Application - ZPA](#)

**Fill out the Notice of Application and mail it out with a location map to all owners and recorded lessees within 500 feet of the subject project site property boundaries. Upload a copy in the "Attachments" section.**

[Notarized Affidavit of Mailing of Notice of App](#)

**After mailing out the Notice of Application, fill out the Affidavit, have it notarized, and upload it in the "Attachments" section.**

[Notice of Public Hearing](#)

**Fill out the Notice of Public Hearing and upload it in the "Attachments" section. Do not mail it out until you are asked to do so later.**

[Notarized Affidavit of Mailing-Notice Public Hrng.](#)

**After mailing out the Notice of Public Hearing, fill out the Affidavit, have it notarized, and upload it in MAPPS.**

[Sample land use change map](#)

**Prepare a map of the subject property and its surrounding properties, including their Tax Map Key numbers and the proposed land use change, in a format designed to be printed on regular paper of 8 1/2" x 11". The map will not include the metes and bounds on it, nor signature lines or dates for any approvals. Upload it in the "Attachments" section.**

**You will have the opportunity to upload some attachments in batches in the "Attachments" section.**

## QUESTIONS

**If a question below does not apply to your project, enter NA as your answer and if the question requires a count, enter 0.**

### I. Project Information

#### A. GENERAL INFORMATION

##### 1. Select one or more types of amendments or changes being requested

<input type="checkbox"/>	Change of Zoning
<input type="checkbox"/>	Community Plan Amendment
<input type="checkbox"/>	Countywide Policy Plan Amendment
<input type="checkbox"/>	District Boundary Amendment
<input type="checkbox"/>	Maui Island Plan Amendment

##### 2. What other application(s) are you applying for related to this project?

Not applicable

##### 3. Associated application number(s), if known

Not applicable

**4. Is this application for a Maui County agency project?**

No

**5. Project Name**

Miki Basin Industrial Park

**6. Total Area of Lot(s) - acreage of TMK parcel(s) where use is proposed**

16337.6

**7. Project Site Area [Enter only if different from Total Area of Lot(s)] - sq. ft. of area where use is proposed.**

8712000

**8. Valuation of Project\***

78800000

**\* Total cost or fair market value, as estimated by an architect, engineer, or contractor licensed by the State of Hawaii Dept. of Commerce and Consumer Affairs; or, by the administrator of the Dept. of Public Works, Development Services Administration.**

**9. Physical Address/Location of Project**

Miki Road, Lānaʻi, Hawaiʻi

**10. Additional Location Information**

TMK No (2) 4-9-002:061(por.); 3.2 miles southwest of Lānaʻi City off of Kaumālapaʻu Highway and south of Lānaʻi Airport

**11. Describe the Existing Use.**

The majority of the project site is vacant and fallow agricultural land. An approximately 14.5-acre interim industrial use for the concrete crushing facility has been established for a portion of the project area that borders the western side of the Miki Basin Industrial Condominium. The Applicant applied and was approved for a Land Use Commission Special Permit (SUP2 2021-0008) for the 14.5-acre area in March 2022.

**12. Briefly describe the Proposed Development/Use.**

The project area totals 200 acres and will include 20 acres for infrastructure purposes (10 percent of the project area, which will be used for roads, common areas, and other related uses); 127 acres for renewable energy projects (e.g., photovoltaic plus battery energy storage); 14.5 acres for the relocation of an existing concrete recycling and rock crushing operation (and for the storage and stockpiling of aggregate and construction materials); 12.5 acres for the relocation of an existing asphalt plant; and 26 acres for new industrial uses. Possible new future industrial uses include a slaughterhouse, warehouse space for cold storage, laboratory/testing facilities, niche product development, automotive services, multi-media facility, animal hospital, and other industrial uses allowed under "M-1, Light Industrial" and "M-2, Heavy Industrial" zoning. The number of parking spaces to be provided after development will be determined based on specific uses and will be in compliance with parking requirements established by Maui County Code, Chapter 19.36B.

**13. No. of Parking Spaces now on the site**

50

**14. No. of Parking Spaces on the site after development**

50

**15. Building Permit Application No.**

Not Applicable

**16. Has the proposed use or any work related to it already been started or completed for this project?**

Yes

**17. If (Y) describe after-the-fact use or work**

The majority of the project site is vacant and fallow agricultural land. An approximately 14.5-acre interim industrial use for the concrete crushing facility has been established for a portion of the project area that borders the western side of the Miki Basin Industrial Condominium. The Applicant applied and was approved for a Land Use Commission Special Permit (SUP2 2021-0008) for the 14.5-acre area in March 2022.

**B. DESCRIPTION OF THE PROJECT****1. List any amendment to text changes you are requesting for zoning conditions or plan wording.**

Change of Zoning (CIZ) from "Agricultural" district and "Interim" district to "M-1, Light Industrial" district and "M-2, Heavy Industrial" district.

**2. Provide a statement of the purpose and need for the proposed action.**

The proposed Miki Basin Industrial Park will provide much needed industrial land on Lānaʻi, and a much needed industrial park. Currently, vacant industrial land is not available on the island. The project will provide space for the relocation and/or expansion of existing industrial activities on Lānaʻi, land and warehouses for storing goods and equipment, and land and buildings to accommodate industrial activities new to Lānaʻi. Readily available industrial land is important to take immediate advantage of any new economic opportunities which may arise. According to the Market Assessment prepared for the project, pent-up demand for industrial land and industrial space to accommodate "typical industrial activities" (i.e., manufacturing, warehouses, base yards, etc.) is readily apparent on Lānaʻi. See Final Environmental Assessment (EA), Appendix "A", Market Assessment. Many businesses in Lānaʻi City are operated from homes, partly because there are no industrial parks on Lānaʻi that serve small scale tenants. Yards and rooms are used for operations and to store equipment and supplies. In some cases, inadequate space may be limiting local companies' ability to expand. For some of these businesses, an industrial park may be a more suitable location because of more space, visual impacts, noise, odors, dusts, etc. Many of these home businesses provide a second source of income for workers employed elsewhere on Lānaʻi. If industrial space were available, some business owners might opt to expand their companies into full-time operations. In other cases, businesses are operated from vans and residences, and some might benefit from a permanent location in an industrial park. In addition, some industrial activities may fail to develop on Lānaʻi due to a lack of a suitable location.

**3. Describe the full scope of your project. Include, where applicable, but not limited to: use, length, width, height, building materials, floor area, and size of structures in square feet, project need, hours of operation, number of employees, proposed employee housing plan, construction costs, construction timeline, phases, landscaping, and area, depth, or volume of grubbing, grading, fill, and any other ground-altering activity such as utility installation.**

Eighty-seven (87) percent of the land area (174 acres) are planned to be developed within five (5) years of securing all entitlements. The remaining 13 percent (26 acres) may begin within the first five (5) years, however, it is expected to be completed within 20 years. The remaining 26 acres are set aside for new industrial uses. The new industrial uses will be implemented throughout the duration of the project (over a period of 20 years). The relocated asphalt plant will be on a 12.5-acre site. The plant and its aggregate stockpiles cover approximately 79,000 square feet (sf.). Portable restrooms and an office trailer are also planned for the site. The concrete crushing operation will be located on a 14.5-acre site. The operation includes a 700-sf. scale house and 16,400-sf. of crushing equipment. The concrete batch plant, cement silo storage, aggregate stockpiles and concrete washout pit will cover approximately 25,000 sf. An office trailer, portable restrooms and water tank will also be located on the site. It is estimated that up to 25 employees will work at the two (2) operations, and hours of operation will be from 7:00 a.m. to 3:30 p.m. The renewable energy projects will be located on a 127-acre site. Facilities and equipment may include, but is not limited to, photovoltaic panels, battery energy storage systems, substation structures, control equipment enclosure cabinets, circuit breakers, transformers, relays, switches, arresters, telecommunication equipment and security equipment. Other industrial uses are planned for the remaining 26 acres. While the specific uses have not been identified at this time, possible new future industrial uses may include a slaughterhouse, warehouse space for cold storage, animal hospital, and other industrial uses allowed under "M-1, Light Industrial" and "M-2, Heavy Industrial" zoning. See Miscellaneous Plans, Surveys and Documentation, attached for more detailed information.

## **C. DESCRIBE THE FOLLOWING SITE CONDITIONS**

### **1. Elevations (highest and lowest points)**

The project area is situated on gently to moderately sloping lands with an average slope of five (5) percent to the southeast with elevations of 1,361 ft. above mean sea level to approximately 1,180 feet above mean sea level in the southeastern portion of the project area. The lands were formerly part of a large pineapple plantation. These lands have lain fallow since the plantation closed in 1992, and are now overgrown with a dense cover of grassland and shrubs.

### **2. Slopes**

Average slope is five (5) percent sloping to the southeast.

### **3. Topography**

Gently to moderately sloping terrain.

### **4. Soil Types**

Soils consist of three (3) series characterized as clay loam (WRA, 0 to 3 percent slopes), Molokai silty clay loam (MuA, 0 to 3 percent slopes; MuB, 3 to 7 percent slopes; MuC, 7 to 15 percent slopes) and Uwala silty clay loam (UwB, 2 to 7 percent slopes; UwC, 7 to 15 percent slopes), which are all variants of deep, well-drained soils of the upland plateau of Lāna'i (U.S. Department of Agriculture (USDA), 1972).

### **5. Natural Features**

Although historical evidence suggests the existence of perennial streams, no surface water resources currently exist on the island. There are also no wetlands located on or in the immediate vicinity of the proposed project site (County of Maui, Department of Water Supply, 2011).

### **6. Vegetation**

A terrestrial vegetation and wildlife study of the project area was completed. No State or federally listed threatened or endangered species or rare native Hawaiian plant species were observed within the project area, and the area is not designated as a critical habitat for any species. Historically, the

vegetation of Lānaʻi has been impacted by grazing and commercial pineapple cultivation. The vegetation in the project area is dominated by hardy, invasive non-native species. Of the 39 plant species observed, only three (3) are native to the Hawaiian Islands. 'Ilima (*Sida fallax*), 'uhaloa (*Waltheria indica*) and 'a'ali'i (*Dodonaea viscosa*) are common native plants documented in small numbers in the project area.

## 7. Existing Development

The majority of the project site is vacant and fallow agricultural land. An approximately 14.5-acre industrial use area for the concrete crushing facility has been established for a portion of the project area that borders the western side of the Miki Basin Industrial Condominium. The Applicant applied and was approved for the Land Use Commission Special Permit (SUP2 2021-0008) for the area in March 2022.

## D. LIST THE ADJACENT AND SURROUNDING LAND USES

### 1. North

Lānaʻi Airport and Kaumālapaʻu Highway

### 2. East

Fallow agricultural land

### 3. South

Hawaiian Electric Company Generating Station and Miki Basin Industrial Condominium

### 4. West

Fallow agricultural land

## E. HISTORIC PROPERTIES CHECK/HRS 6E

### 1. If any of the following apply, check this box

Does the site include a registered Historic property?

Does the property include any buildings/structures 50 or more years old?

Is there ground altering activity proposed?

### 2. Is it in NHLD?

### 3. County Historic District?

## F. CHAPTER 343, HRS (HAWAII ENVIRONMENTAL POLICY ACT) COMPLIANCE

### 1. If any of the following apply, check this box

Is there a Chapter 343 trigger?

Has an EA or EIS already been submitted?

Is the project exempt under Chapter 343?

**II. Plan Consistency & Impacts**  
**A. SELECT THE RELEVANT THEMES, GOALS, OBJECTIVES, AND POLICIES FROM THE COUNTYWIDE POLICY PLAN AND DESCRIBE HOW YOUR PROPOSAL IS OR IS NOT CONSISTENT WITH THEM. WHERE IT IS NOT CONSISTENT, DISCUSS WHY YOUR PROPOSAL IS JUSTIFIED. You may also list and discuss any other section of the plan that is relevant to the proposed request. Consult the relevant goals, objectives, policies, and implementing actions of the Countywide Policy Plan for guidance.**

[Countywide Policy Plan Details Form](#)

**B. SELECT THE RELEVANT CORE VALUES, GOALS, OBJECTIVES, POLICIES, AND IMPLEMENTING ACTIONS (CH. 1-7) FROM THE MAUI ISLAND PLAN AND THE DIRECTED GROWTH PLAN (CH. 8) AND DESCRIBE HOW YOUR PROPOSAL IS OR IS NOT CONSISTENT WITH THEM. WHERE IT IS NOT CONSISTENT, DISCUSS WHY YOUR PROPOSAL IS JUSTIFIED. You may also list and discuss any other section of the plan that is relevant to the proposed request. Consult the goals, objectives, policies, implementing actions, and Table 8-2 in Chapter 8 of the Maui Island Plan for guidance.**

**Core Values:** To achieve our island's vision, we will be guided by the following values: a) Adopt responsible stewardship principles by applying sound natural resource management practices. b) Respect and protect our heritage, traditions, and multi-cultural resources. c) Plan and build communities that include a diversity of housing. d) Retain and enhance the unique identity and sense of place. e) Preserve rural and agricultural lands and encourage sustainable agriculture. f) Secure necessary infrastructure concurrently with future development. g) Support efforts that contribute to a sustainable and diverse economy for Maui. h) Create a political climate that seeks and responds to citizen input. i) Respect and acknowledge the dignity of those who live on Maui. j) Establish a sustainable transportation system that includes multiple modes, including walking, biking, and mass transit, as well as automobile-based modes. k) Recognize and be sensitive to landownership issues and work towards resolution.

[Maui Island Plan Details Form](#)

**2. If your request or project falls within a Maui Island Plan Protected Area, address how your project or proposal impacts the Protected Area. Discuss any mitigation measures intended to protect the area. Consult the Protected Area Diagrams and Table 8-2 in Chapter 8 of the Maui Island Plan for guidance. If your request does not fall within a Maui Island Plan Protected Area, answer N/A.**

Not Applicable

**3. If your request or project falls within a Maui Island Plan Growth Boundary, address how your project is consistent with Chapter 8 of the Maui Island Plan, Directed Growth chapter. If your project falls within (affects) a Planned Growth Area, address how your project is consistent with the Planned Growth Area description in Chapter 8. Consult Chapter 7 and 8 of the Maui Island Plan for guidance. If your request does not fall within a Maui Island Plan Growth Boundary, answer N/A**

Not Applicable

**C. SELECT THE RELEVANT SUBJECTS, GOALS, OBJECTIVES AND POLICIES, AND IMPLEMENTING ACTIONS FROM THE RELEVANT COMMUNITY PLAN AND DESCRIBE HOW YOUR PROPOSAL IS OR IS NOT CONSISTENT WITH THEM. WHERE IT IS NOT CONSISTENT, DISCUSS WHY YOUR PROPOSAL IS JUSTIFIED. You may also list and discuss any other**

**section of the applicable community plan that is relevant to the proposed request. Community plan areas are defined by geographic boundaries. Consult the relevant goals, objectives, policies, and implementing actions in the relevant Community Plan for guidance.**

### [Community Plan Details Form](#)

## **D. DESCRIBE HOW YOUR PROPOSAL IS CONSISTENT AND CONFORMING WITH EACH OF THE APPLICABLE FOLLOWING TYPES OF MAPPED LAND USE DESIGNATIONS FOR THE SITE:**

### **1. State Land Use Districts**

The project site is designated as "Agricultural" by the State Land Use Commission. In Docket A19-809, the Applicant is seeking a District Boundary Amendment (DBA) for "Urban" designation, to bring consistency with the Lānaʻi Community Plan.

### **2. Maui Island Plan Growth Boundaries**

Not Applicable

(N/A if project on Molokai or Lanaʻi )

### **3. Maui Island Plan Protected Areas**

Not Applicable

(N/A if project on Molokai or Lanaʻi )

### **4. Community Plan Land Use Designations**

The Lānaʻi Community Plan was adopted by the County of Maui through Ordinance No. 4343 which took effect on July 26, 2016. Land use guidelines are set forth by the Lānaʻi Community Plan Land Use Map. The project site is designated as "Light Industrial" and "Heavy Industrial" by the Community Plan. The proposed project is consistent with the Community Plan land use designations.

### **5. Zoning Designations**

The project site is zoned "Agricultural", with a small portion zoned "Interim" by County Zoning. The Applicant is seeking a Change of Zoning (CIZ) for "M-1, Light Industrial" and "M-2, Heavy Industrial" designation, to bring consistency with the Lānaʻi Community Plan. Pūlama Lānaʻi will work with Maui County in establishing the allowable uses in the Miki Basin Industrial Park from the overall permitted uses allowed by zoning. The Miki Basin Industrial Park will focus on Light and Heavy Industrial uses, including renewable energy uses, an asphalt plant, a concrete recycling and rock crushing operation, and materials storage and stockpiling of aggregate and construction materials. It should be noted that "Special Uses" permitted in "M-2, Heavy Industrial" zoning include asphalt manufacture, cement, lime, gypsum, or plaster of paris manufacture, and rock, sand, gravel, or earth excavation, crushing or distribution. The proposed project complies with the criteria to be granted a CIZ as follows: 1. Meets the intent of the Lānaʻi Community Plan as illustrated in D.4. 2. Consistent with the Lānaʻi Community Plan Map. 3. Meets the intent and purpose of the "M-1, Light Industrial" and "M-2, Heavy Industrial" districts. 4. Will not adversely affect social services or infrastructural services. 5. A project Final EA determined no adverse impacts on the socio-economic and environmental resource. 6. The CIZ does not involve establishment of an agricultural district Although the project includes 2 of the 3 criteria pursuant MCC, Section 19.30A.020 for determining whether Agricultural lands should be retained in the agricultural district there are several reasons supporting the CIZ. The 200 acres of the proposed project represents approximately 1.1 percent of the 18,000 plus acres of the previously cultivated pineapple fields. There is presently no demand for agricultural use of the project area, and there is sufficient available agricultural land to meet demand.

## **DEVELOPMENT IMPACTS**

## **E. ARCHAEOLOGICAL, HISTORICAL, AND CULTURAL RESOURCES IMPACTS:**

### **1. Describe any archaeological impacts.**

The AIS recommended that a data recovery plan be developed for Sites 50-40-98-1980 and 50-40-98-1981, and that this plan be implemented prior to proposed construction activities within the parcel. SHPD concurred with this recommended mitigation. The Applicant has prepared an Archaeological Data Recovery Plan and Archaeological Data Recovery Report that have been submitted to SHPD for review. Refer to Final EA, Appendices "D-1", "D-2", "D-3", and "D-4". The Applicant will comply with all applicable County, State and Federal laws and rules regarding the treatment of archaeological and historic sites. Should evidence of archaeological or cultural resources be encountered during site preparation work or during drilling, then activities at the site will be suspended and Pūlama Lāna'i and the SHPD will be contacted immediately for review, evaluation, and recommendations on how to preserve or avoid damage to the resources. However, given the conclusions of the AIS, discovery of historic items in the project area are not expected. None of the historic sites identified in the AIS are located on the project area and the sites have been removed, as noted in the Archaeological Data Recovery Plan and Archaeological Data Recovery Report that was submitted to SHPD.

### **2. Describe any impacts on historic resources.**

The pedestrian survey and subsurface testing resulted in the identification and documentation of two (2) secondarily deposited historic scatters and two (2) historic properties, designated Site 50-40-98-1980 and Site 50-40-98-1981. Site 50-40-98-1980 is comprised of two (2) features including a lithic scatter and an eroded exposed fire-pit. Site 50-40-98-1981 is a subsurface truncated fire-pit feature. Both historic properties are evaluated as significant for the important information on Hawaiian history and prehistory that they have yielded. The AIS recommended that a data recovery plan be developed for Sites 50-40-98-1980 and 50-40-98-1981, and that this plan be implemented prior to proposed construction activities within the parcel. SHPD concurred with this recommended mitigation. The Applicant will comply with all applicable County, State and Federal laws and rules regarding the treatment of archaeological and historic sites. Should evidence of archaeological or cultural resources be encountered during site work, then activities at the site will be suspended and Pūlama Lāna'i and the SHPD will be contacted immediately for review, evaluation, and recommendations on how to preserve or avoid damage to the resources. However, given the conclusions of the AIS, discovery of historic items in the project area are not expected. None of the historic sites identified in the AIS are located on the project area and the sites have been removed, as noted in the Archaeological Data Recovery Plan and Archaeological Data Recovery Report that was submitted to SHPD.

### **3. Describe any impacts on cultural resources.**

The impacts to cultural resources were assessed for the project area by Honua Consulting Services LLC. Refer to Final EA, Appendix "D-4", Supporting Documentation on Cultural Impact Assessment Requirement. The AIS prepared for the proposed project included research compliant with guidelines for development of a Cultural Impact Assessment (CIA). The project area is situated in the ahupua'a of Kamoku. The CIA involved ethnographic research and interviews of individuals with knowledge of Kamoku and native Hawaiian beliefs, practices and traditions on Lāna'i. One of the interviewees indicated that the project area had been used for gathering of 'a'alii and 'uhaloa for adornments and la'au lapa'au. Both 'a'alii and 'uhaloa are common throughout the Pālāwai-Miki Region of Lāna'i and prevalent in the surrounding areas. Therefore, while the project area is used for traditional practices, the proposed project is not anticipated to affect the availability of these cultural resources, and the project will not affect access to these resources in the region. The project is not anticipated to have an impact on native Hawaiian traditional and cultural practices in the ahupua'a.

### **4. List any comments/recommendations received from State Historic Preservation Division.**

The State Historic Preservation Division (SHPD) accepted the AIS on August 4, 2020. Refer to Final EA, Appendix "D-2", State Historic Preservation Division Archaeological Inventory Survey Acceptance Letter. SHPD concurred with this recommended mitigation of a data recovery plan be developed for Sites 50-40-98-1980 and 50-40-98-1981 and that this plan be implemented prior to proposed construction activities within the subject parcel. By letter dated October 11, 2022, the SHPD accepted the Data Recovery Plan and Data Recovery Report and notified the County that the permit issuance process may proceed.

## F. SOCIO ECONOMIC IMPACTS

### 1. Identify social and economic impacts (such as the need for affordable housing, impacts on population, impacts on labor, local economy, etc.).

**Surrounding Land Uses:** The proposed Miki Basin Industrial Park will be compatible with existing industrial uses on neighboring properties and has been designated by the Lānaʻi Community Plan for industrial use. In this regard, the proposed action is not anticipated to have significant adverse effects on the neighboring facilities or the Lānaʻi Airport. **Population and Demography:** The proposed project is not a direct population generator and, thus, not anticipated to have a significant adverse impact on population or demographic trends on Lānaʻi. The project will allow existing industrial facilities currently scattered in business and residential areas in Lānaʻi City to relocate to more appropriate locations for industrial uses with infrastructure and buffers. **Economy:** The project will create temporary and permanent employment opportunities. The project will also provide space for new businesses to flourish and for the diversification of the economy. The project will transform vacant land of limited agricultural potential into an asset for the community. Construction activities will result in short- and long-term creation of jobs and materials spending. During the initial 10-year development period, when most of the development is expected to occur, total construction expenditures are estimated at \$78.8 million. Construction expenditures plus indirect sales related to construction expenditures are expected to average \$12.9 million per year based on State economic multipliers. By 2030, new economic activities at the Miki Basin Industrial Park are expected to generate approximately \$17.1 million annually. Overall, the project will produce annually an estimated \$670,000 in State taxes and \$380,000 in County taxes. Refer to Final EA, Appendix "F", Economic, Population, and Fiscal Impacts Report.

## G. ENVIRONMENTAL IMPACTS

**Describe any impacts to the following:**

**1. Environmentally Sensitive Areas, including shoreline, wetlands, streams, other fresh waters, estuaries, coastal waters, sea level rise exposure area, other erosion prone areas, geologically hazardous land, tsunami zone, flood plain, rock outcroppings, endangered plants and animals and exceptional trees. For proposals on Maui Island, consult the Protected Area sections in Chapter 8 of the Maui Island Plan (MIP) and discuss how the area will be protected from adverse actions. Include any mitigation measures if applicable. Please consult Table 8-2 in the MIP for guidance.**

Although historical evidence suggests the existence of perennial streams, no surface water resources currently exist on the island. There are also no wetlands located on or in the immediate vicinity of the proposed project site (County of Maui, Department of Water Supply, 2011). The proposed project is also approximately 3.5 miles inland from the shoreline and at a significantly high elevation, thus, the project site is not subject to any foreseeable negative impacts from tsunamis or sea level rise. The proposed improvements are located outside of the projected 3.2-ft. sea level rise hazard area as identified in the Hawaiʻi Sea Level Rise Vulnerability and Adaptation Report published in 2017 by the Hawaiʻi Climate Change Mitigation and Adaptation Commission. According to the Flora and Fauna Study, the vegetation in the project area is dominated by hardy, invasive non-native

species. No special habitats for native plants were found. Because of the above information, it is determined that there is nothing of special botanical concern with regard to this project. No recommendations with reference to plants were deemed necessary. The fauna recorded in this project area is largely non-native in character. Axis deer are abundant throughout the area and have significantly modified the habitat by reducing plant species to a few hardy dominants. Two (2) indigenous seabirds, the endangered 'ua'u and the threatened 'a'o, while not nesting in the project area, do fly over it during dusk to access their burrows high in the mountains and again at dawn to head out to sea. The Flora and Fauna Study recommended that any significant outdoor lighting associated with the proposed project be hooded to direct the light downward to mitigate this threat. No other recommendations with reference to fauna were deemed necessary in the study.

## **2. View corridors and scenic resources impacts**

The project area is not part of a scenic corridor, and the project will not affect scenic vistas or view planes. Rather, the project area abuts the southeast end of Lāna'i Airport and the project will have complementary, industrial uses to the neighboring facilities. No adverse impacts to open space or scenic resources are anticipated as a result of the project. The project area is not located near traditional access or walking trails between coastal or upland areas.

## **3. Flora impacts**

A terrestrial vegetation and wildlife study of the project area was completed. Refer to Final EA, Appendix "C", Flora and Fauna Study. No State or federally listed threatened or endangered species or rare native Hawaiian plant species were observed within the project area, and the area is not designated as a critical habitat for any species. Historically, the vegetation of Lāna'i has been impacted by grazing and commercial pineapple cultivation. The vegetation in the project area is dominated by hardy, invasive non-native species. Of the 39 plant species observed, only three (3) are native to the Hawaiian Islands. 'Ilima (*Sida fallax*), 'uhaloa (*Waltheria indica*) and 'a'ali'i (*Dodonaea viscosa*) are common native plants documented in small numbers in the project area.

## **4. Fauna impacts**

The fauna recorded in this project area is largely non-native in character. Axis deer are abundant throughout the area and have significantly modified the habitat by reducing plant species to a few hardy dominants. This in turn has a somewhat limiting effect on resource availability for other mammals, birds and insects. Two (2) indigenous seabirds, the endangered 'ua'u and the threatened 'a'o, while not nesting in the project area, do fly over it during dusk to access their burrows high in the mountains and again at dawn to head out to sea. Young birds taking their first fledging flights are inexperienced fliers. They often are disoriented by bright lights and crash into light structures where they become vulnerable to injury and predators. The Flora and Fauna Study recommended that any significant outdoor lighting associated with the proposed project be hooded to direct the light downward to mitigate this threat. No other recommendations with reference to fauna were deemed necessary in the study. Refer to Final EA, Appendix "C", Flora and Fauna Study. The U.S. Fish and Wildlife Service (USFWS) was consulted for the proposed project and recommended avoidance and minimization measures be implemented for the project as it relates to the endangered Hawaiian petrel (*Pterodroma sandwichensis*) which may occur in the vicinity or pass through the project area. The USFWS also provided additional information on listed species that may occur or transit through the proposed project area, along with recommended avoidance and minimization measures for the Hawaiian hoary bat, Blackburn's sphinx moth, and Hawaiian seabirds. The measures will be incorporated into the project plans, as applicable.

## **5. Dune ecosystems impacts**

The proposed project is located inland approximately 3.5 miles from the coastal zone and the underlying soils are composed of silty clay loam. As such, impacts to dune ecosystems are not anticipated.

## **6. Stream ecosystems impacts**

Although historical evidence suggests the existence of perennial streams, no surface water resources currently exist on the island. There are also no wetlands located on or in the immediate vicinity of the proposed project site. No surface water resources currently exist on Lānaʻi, thus, there will be no impacts to streams or wetlands.

## **7. Marine ecosystem impacts**

The proposed project area is inland approximately 3.5 miles from the coastline. As such, adverse impacts to marine ecosystems are not anticipated from the proposed action.

## **8. Natural features impacts**

The project area is located in the Miki Basin on gently to moderately sloping lands that were part of a large pineapple plantation. The proposed project is not anticipated to adversely impact any significant natural features.

## **9. Open space impacts**

The proposed project is located in the Miki Basin approximately four (4) miles southwest of Lānaʻi City and abuts the southeast end of Lānaʻi Airport. The project area is situated on gently sloping land with an average slope of five (5) percent. The proposed project is located away from public roadways and residential areas. The proposed project is not anticipated to adversely impact open space resources.

## **10. Noise Impacts**

Noise around the project area is dominated by noise from airport-related activities, including roadway use and aircraft taxiing, taking off and landing. Operations at the HECO fossil fuel power plant and the Miki Basin Industrial Condominium also contribute noise to the surrounding area. The nearest noise sensitive areas to the project area are located in Lānaʻi City. No noise-sensitive areas are present within the project area. Ambient noise conditions will be temporarily affected by construction activities. Sound attenuating construction equipment will be used, where practicable, and necessary to mitigate noise impacts caused by construction. Night-time construction activity is not anticipated or proposed. Future industrial park users will be responsible for complying with all applicable DOH rules and regulations relating to noise impacts. Pūlama Lānaʻi will ensure that any impact to air quality or noise caused during construction will be mitigated by compliance with applicable State and Federal regulations and best management practices.

## **11. Air Quality Impacts**

Construction related activities for the proposed project will be the primary source of airborne pollutants affecting the surrounding air quality. Appropriate BMPs, such as frequent watering of exposed surfaces and regular maintenance of construction equipment will be utilized to minimize air quality impacts associated with project construction. Any future industrial activities which may have air quality impacts will be regulated by the DOH. The 127 acres of the Miki Basin Industrial Area to be utilized for renewable energy projects (photovoltaic plus battery storage), will not generate adverse air quality impacts. Other future uses include the relocation of an existing concrete recycling and rock crushing operation, and for the storage and stockpiling of aggregate and construction materials. Stockpile sites are generally left uncovered based on the need to transfer aggregate materials into and out of storage frequently. The generation of dust is the primary emission or by-product associated with the stockpile site. BMPs employed at the site to address these problems would principally consist of adhering to environmental regulations for the storage and use of the aggregate stockpiles. Dust control would be handled by use of regular wetting of the crushed concrete and rock, and materials storage areas with a sufficient amount of water to saturate the area without causing runoff. In the context of the Green House Gas Reporting Program (25,000 metric tons of CO<sub>2</sub> EQ), the relative effects GHG emissions (CO<sub>2</sub> EQ) during construction from earthmoving equipment and

transportation of materials to and from the project site, will be short term and are not considered significant. Based on the foregoing, the proposed action is not anticipated to create significant direct and indirect foreseeable GHG emissions. This action does not fall within the threshold of mandatory GHG reporting.

## **12. List any comments/recommendations received from government agencies.**

The U.S. Fish and Wildlife Service requested additional details in the Final EA regarding listed species that may occur in the project area and recommended avoidance and minimization measures. The Applicant included the listed species and avoidance measures recommended by the agency in the Final EA. The Hawai'i Department of Land and Natural Resources Engineering Division requested the Applicant research the Flood Hazard Zone designation for the project, which the Applicant completed and determined that the property is located within Zone X and will not require a Special Flood Hazard Area Development Permit. The Hawai'i Department of Health Clean Air Branch provided its standard comments for Land Use Reviews. The Applicant acknowledged the comments and confirmed it will obtain an air pollution control permit, as applicable. The Applicant will also provide reasonable measures to control airborne, visible fugitive dust from the road areas during the various phases of construction.

## **H. OTHER IMPACTS, MEETINGS, APPROVALS AND ZONING**

### **1. Describe any other impacts.**

The proposed project commits 200 acres of land for the construction of the proposed Miki Basin Industrial Park. Other resources which will be committed in the implementation of the proposed action include material and fuel resources. The project will result in short-term beneficial impacts related to temporary construction employment and spending. The Applicant will work to minimize noise emissions at the relocated facilities, including the use of all combustion powered equipment and vehicles. Any equipment found to be in poor condition will be repaired or replaced, and mufflers shall be used in accordance with federal and state laws and regulations. Considering the project represents the relocation of existing facilities, significant increases in noise generation are not anticipated. It should be noted that the relocation site was selected, in part, due its close proximity to similar industrial uses, as well as its distance from noise-sensitive areas. Construction of the industrial park will allow existing industrial facilities currently scattered in business and residential areas in Lāna'i City to relocate to more appropriate locations having the infrastructure and buffers necessary for industrial uses. The proposed action also provides opportunities for future industrial development on Lāna'i, which will add to the Lāna'i's economy and, thereby, contribute to the island's resiliency and sustainability.

### **2. List the dates of any community meetings held regarding the project and summarize the feedback. Have your neighbors been made aware of your project and what has been their general feedback?**

During the Lāna'i Community Plan process, the proposed 200-acre Industrial land was publicly discussed at ten (10) Lāna'i Community Plan Advisory Council meetings, four (4) Lāna'i Planning Commission meetings, and three (3) Maui County Council meetings as part of an update to the Lāna'i Community Plan. A public community meeting was also held on Lāna'i on October 22, 2018. The project was explained, and questions were asked and answered. A Draft Environmental Assessment (EA) for the Miki Basin Industrial Park was previously published on November 23, 2019. Because additional detail became available on the proposed action and technical studies were updated, a 2nd Draft EA was published on November 23, 2021. Consultation conducted during the preparation of the November 23, 2019 Draft EA and comments received on that previously published Draft EA informed the preparation of the 2nd Draft EA. The Draft EA consultation included a public hearing before the Lāna'i Planning Commission (LPC) on December 15, 2021. The LPC requested

additional information regarding the project, which was addressed in the Final EA and response letter to the commission. The Final EA was prepared and submitted to the State of Hawai'i, Land Use Commission (LUC) for a public hearing on February 16, 2022. The LUC determined that the Final EA was acceptable and issued a Finding of No Significant Impact by letter to the State Environmental Review Program on February 25, 2022.

**3. If applicable, provide an assessment of the impact the proposed use may have on agricultural use of the property with comments from the Department of Agriculture (DOA) and Natural Resources Conversation Service (NRCS).**

The project area is currently unproductive and not suitable for cultivation. The approximately 200 acres of the proposed project represents approximately 1.1 percent of the 18,000 plus acres of the previously cultivated pineapple fields. Although the project will result in the loss of approximately 200 acres of historically cultivated agricultural land, the land has not been cultivated for decades. Moreover, the 200-acre project area makes up a fraction of the potentially cultivatable acres on the island and even less of the 200,000 acres of fallow agricultural lands vacated by the sugar and pineapple industries statewide. There is presently no demand for agricultural use of the project area, and there is sufficient available agricultural land to meet near to mid-term demand. Refer to Final EA, Appendix "B", Impacts on Agriculture Report.

**4. Identify other governmental approvals that the development will be subject to.**

The following permits and approvals will be required prior to the implementation of the project: State of Hawai'i 1. Chapter 343 Hawai'i Revised Statutes, Environmental Assessment 2. Land Use District Boundary Amendment Approval (Land Use Commission) 3. National Pollutant Discharge Elimination System (NPDES), as applicable 4. Community Noise Permit, as applicable 5. Permit to Perform Work Upon State Highways, as applicable 6. Permit to Operate or Transport Oversize and/or Overweight Vehicles and Loads Over State Highways, as applicable County of Maui 1. Maui County Code, Title 19, Change of Zoning (CIZ) 2. County Special Use Permit (asphalt plant and rock crushing operation) and/or other Title 19 approvals, as applicable 3. Construction Permits (Grading, Building, Electrical, and Plumbing)

**5. Describe the relationship of the proposed project to the Maui County Code Title 19, Zoning Code.**

The land underlying the proposed project site are zoned "Agricultural", with a small portion zoned "Interim" by the Maui County Zoning. Refer to Final EA, Figure 10. The Applicant is seeking a Change of Zoning (CIZ) request to the Maui County Council for "M-1, Light Industrial" and "M-2, Heavy Industrial" designation, similar to the designation called for in the 2016 Lāna'i Community Plan. The Final EA is the primary supporting document for the CIZ process. Pūlama Lāna'i will work with Maui County in establishing the allowable uses in the Miki Basin Industrial Park from the overall permitted uses allowed by zoning. The Miki Basin Industrial Park will focus on Light and Heavy Industrial uses, including renewable energy uses, an asphalt plant, a concrete recycling and rock crushing operation, and materials storage and stockpiling of aggregate and construction materials. Possible new future industrial uses in the project area include a slaughterhouse, warehouse space for cold storage, laboratory/testing facilities, niche product development, automotive services, multimedia facility, animal hospital, and other industrial related uses allowed under "M-1, Light Industrial" and "M-2, Heavy Industrial" zoning. It is noted that certain uses, including asphalt plant and rock crushing operations, are identified as special uses by the zoning ordinance and the applicable County Special Use Permit will be obtained. MCC, Section 19.510.040 outlines the criteria which a project must meet in order to be granted a CIZ by the Maui County Council. The proposed project was evaluated with respect to these criteria and is discussed in further detail in the Final EA.

## **6. Describe the relationship of the proposed project to any other relevant regulatory controls, best management practices, policies, plans, technical studies, guidelines, or studies.**

The subject property is designated “Agricultural” by the State Land Use Commission. In Docket A19-809, the Applicant is seeking a District Boundary Amendment (DBA) for “Urban” designation, to bring consistency with the Lāna‘i Community Plan, which designates the property as “Light Industrial” and “Heavy Industrial”.

### **III. InfrastructureA. WATER**

#### **1. Identify existing water source and current usage.**

[Previous Section](#) | [Next Section](#) | [Top](#)

Akinaka & Associates, Ltd. prepared a Water Master Plan for Mānele Bay Water System (Public Water System 238 (“PWS 238”)), which provides service to the project area and to Mānele, Hulopo‘e and the Pālāwai Irrigation Grid. Refer to Final EA, Appendix “H-1”, Water Master Plan. PWS 238 is owned, operated and maintained by the Lāna‘i Water Company. PWS 238 is sourced by Well No. 2 (State Well No. 5-4953-001) and Well No. 4 (State Well No. 5-4952-002). PWS 238 provides water service to Mānele, Hulopo‘e, and the Pālāwai Irrigation Grid. Water from the wells is either stored in the existing 0.5 million gallon (MG) Hi‘i Tank, 1.0 MG concrete Hi‘i Reservoir, or fed directly into the distribution system depending on the demand. PWS 238 consists of 10-inch, 12-inch, and 16-inch transmission mains. PWS 238 is interconnected with the Lāna‘i City Water System (Public Water System 237 (“PWS 237”)). During emergencies, PWS 237 can be connected to PWS 238 by opening a valve. The existing average daily water usage of PWS 238 is estimated at 433,000 gallons per day (GPD). Existing water demand for the Concrete Batch Plant (CBP) is 3,500 GPD, which is currently provided by PWS 238. Existing water demand for the asphalt plant is 1,000 GPD, which is currently provided by PWS 237. The asphalt plant will have a new demand of 1,000 GPD on PWS 238, when it is relocated into the Miki Basin Industrial Park.

#### **2. Describe any water transmission lines currently serving the site.**

As mentioned previously, PWS 238 consists of 10-inch, 12-inch, and 16-inch transmission mains. The 12-inch transmission main transports water from the 1,000,000 gallon Hi‘i Reservoir to the 500,000 gallon Hi‘i Tank and into the Mānele Bay Water System (PWS 238). The 12-inch main splits at a junction to serve both Mānele and Pālāwai Irrigation Grid. From the junction to Mānele and Hulopo‘e, the 12-inch line feeds into three (3) pressure breaker storage tanks. From the junction to the Pālāwai Irrigation Grid area, the waterline upsizes to a 16-inch main for water delivery. The existing 12-inch Pālāwai PRV downstream of the junction reduces the pressure in the waterline to 95 psi. The Mānele Bay Water System (PWS 238) is interconnected with the Lāna‘i City Water System (PWS 237). During emergencies, the Lāna‘i City System (PWS 237) can be connected to the Mānele Bay Water System (PWS 238) by opening a valve.

#### **3. Describe the adequacy of the water supply to meet fire protection requirements.**

The majority of the project will be developed within five (5) years upon securing all entitlements and can be supported by the current water system. The remaining 13 percent will likely need additional capacity depending on the new industrial uses that will be implemented throughout the duration of the project (over a period of 20 years). The Water Master Plan notes that PWS 238 does not have adequate well-pump capacity (source) for the full buildout of the project. However, there is enough storage to support the full buildout with the existing tank and reservoir. The Water Master Plan includes a detailed list of improvements that will be required to support full buildout of the industrial park which include modifying or replacing the existing PRV, drilling a new source or multiple sources

to obtain an additional minimum pump capacity of 426 gallons per minute (GPM), and evaluating the condition of sections of the Pālāwai Irrigation Grid to determine the need for pipe repair, replacement or possible abandonment. The New Well Supply Alternatives report prepared by Tom Nance Water Resource Engineering concluded that a new well to supply the Miki Basin Industrial Park project can be accommodated within the Leeward Aquifer System's 3.0 MGD sustainable yield. Refer to Final EA, Appendix "H-2", New Well Supply Alternatives for the Mānele Bay Water System, Public Water System No. 238. The water demand for the proposed project is also analyzed in the context of the 6.0 MGD sustainable yield for the island as a whole. The current water demand on Lāna'i is 1.517 MGD, the next additional incremental demand is the full buildout for the Miki Basin Industrial Park at 0.159 MGD, followed by other proposed or approved projects at 0.260 MGD. The total forecasted water demand for Lāna'i (summation of the values) is 1.936 MGD, which is 55 percent less than the 4.3 MGD trigger set by CWRM and 68 percent less than the sustainable yield of 6 MGD for Lāna'i.

#### **4. Describe any anticipated increase in water demand and if necessary, any subsequent improvements.**

The near-term Miki Basin Industrial Park's anticipated uses include the relocation of the CBP and the asphalt plant. These near-term uses are expected to have an incremental demand of 2,625 GPD for the CBP and a new demand of 1,000 GPD for the asphalt plant on PWS 238. In the long term, the new industrial uses are expected to have a new demand of 156,000 GPD on PWS 238. According to the Water Master Plan for PWS 238, the full buildout of the Miki Basin Industrial Park's new or incremental estimated water demand on PWS 238 is 159,625 GPD. The estimated water demand on PWS 238 for the full buildout of the Miki Basin Industrial Park is 163,125 GPD, which includes the existing and new or incremental estimated water demand. The projected average day demand for PWS 238, including full buildout of the Miki Basin Industrial Park and existing demands (not Miki Basin Industrial Park related), is 592,625 GPD. The Water Master Plan includes a detailed list of improvements that will be required to support full buildout of the industrial park. Three (3) alternative well sites were also evaluated, with the recommended site located 2,000 feet northwest of existing Well No. 2 at the top of a former pineapple field and accessed by old plantation roads. This proposed well site is far enough away from existing wells so as not to impact their sustainable supplies. A well at this site would encounter high-level, drinking water quality groundwater and could meet or exceed the necessary 426 GPM capacity to ensure adequate supply for the full buildout of the Miki Basin Industrial Park. Additionally, the design and operations of facilities will include measures which will promote the conservation of water resources. The project will be constructed with appropriate water efficiency measures. The Applicant confirms its commitment that water usage for the project will not exceed the maximum daily usage calculations provided in the Water Master Plan report.

#### **5. List any comments/recommendations received from government agencies.**

The County of Maui, Department of Water Supply (DWS) noted that Lāna'i island does not obtain water service from the County, and, therefore, any building or plumbing permits would not be reviewed by DWS. DWS noted, however, if a subdivision application is received, then it would review the project to ensure compliance with county code. The Applicant acknowledged the comments and confirmed that the project does not involve a subdivision of the property. Additionally, DWS provided its standard comments for Best Management Practices (BMPs) for pollution prevention and conservation indoor and outdoor BMPs and noted that the project's potential use of R-1 recycled wastewater would be in alignment with the Lāna'i Island Water Use and Development Plan. The Applicant will utilize R-1 recycled wastewater for the project, to the extent feasible and practicable, as well as BMPs for pollution prevention and water conservation measures. It is noted, however, that landscaping in an industrial area is not necessarily conducive.

### **B. SEWERS**

#### **1. Identify existing sewage service (treatment plants, transmission lines, etc.).**

There is currently no existing County or privately owned or operated wastewater treatment system in the vicinity of the proposed 200-acre Miki Basin Industrial Park. Wastewater is currently treated via onsite individual wastewater systems.

## **2. Identify current wastewater usage.**

Currently, there is no wastewater generated from the proposed 200-acre Miki Basin Industrial Park site.

## **3. Describe any anticipated increase in wastewater demand and if necessary, any subsequent improvements.**

According to the Akinaka & Associates, Ltd. Wastewater Master Plan for the proposed 200-acre Miki Basin Industrial Park, the construction of onsite Individual Wastewater Systems (IWS), decentralized Wastewater Treatment Plants (WWTP) and collection systems will be required to support development activity. Refer to Final EA, Appendix "I", Wastewater Master Plan. Each development within the industrial park will be required to provide its own wastewater treatment system and associated wastewater collection system. The type of treatment system used will be determined by the size and type of development. Sizing of each system will be determined during the design phase of each development. Since specific development plans for the industrial park are not yet available, proposed wastewater flows for buildout of the industrial park are based on the proposed land use and an estimated developable area for each parcel. The proposed design average wastewater flow for full buildout of the industrial park is 80,179 GPD, with a design peak flow of 333,688 GPD. It is anticipated that the concrete facility and asphalt plant may be the first sites developed, and will require the installation of an IWS septic system. The wastewater flows generated from these facilities are minimal and could be managed with an IWS even after development of a nearby decentralized WWTP. The light industrial area west of Miki Road would produce the majority of the projected design wastewater flow. A WWTP developed at the lowest point in the project site on the southwestern edge of the light industrial area west of Miki Road could collect the wastewater from this area without the need for pump stations and force mains. The wastewater system for the Miki Basin Industrial Park will be designed in conformance with the requirements of the DOH and the County of Maui to ensure proper handling and treatment of wastewater generated by the project.

## **4. List any comments/recommendations received from government agencies.**

The County of Maui, Department of Environmental Management did not provide any comments on the proposed project.

## **C. DRAINAGE**

### **1. Describe existing drainage pattern.**

R.M. Towill Corporation prepared a Drainage Report on July 9, 2021, to determine that the offsite and onsite drainage system requirements for the proposed Miki Basin Industrial Park meet the County of Maui Storm Drainage Standards. Refer to Final EA, Appendix "J", Drainage Report. Offsite runoff generated from the area north of Miki Road sheet flows and is intercepted by an unlined ditch along Miki Road. Once in the unlined ditch, the runoff flows towards the southeast direction to a low point in Miki Road, near the existing HECO facility. The existing onsite terrain is covered with vegetation and slopes at about five (5) percent from Miki Road toward the southeast. There is no existing storm drain system within the project area. Offsite runoff, including runoff generated from the HECO facility, is diverted around the Miki Basin Industrial Condominium site and is discharged into an existing drainageway. Runoff generated within the existing Miki Basin Industrial Condominium site is collected by an onsite drainage system and is discharged offsite.

### **2. Describe existing drainage structures.**

There are currently no drainage structures within the 200 acre project area.

### **3. Describe any anticipated increase in drainage and if necessary, any subsequent improvements.**

The proposed development will increase the amount of impervious area within the project. The project will increase the runoff onsite by 141.36 cfs based on a 100-year, 24-hour storm. Existing drainage patterns will be maintained by discharging intercepted offsite runoff to its original flow path. Offsite runoff will be intercepted before entering the project site by proposed drainage ditches. The drainage ditches will divert runoff around the perimeter of the project site to an offsite discharge point downstream. The ditches will be sized to accommodate the peak runoff flow from the 100-year, 24-hour storm and 10-year, 1-hour storm where necessary and provide a minimum 2-foot freeboard. Onsite runoff will be collected by a proposed underground storm drain system consisting of pipes and inlets. The additional flow generated within the proposed parcels can be accommodated by the existing Miki Basin and Pālāwai Basin. The additional runoff volume is negligible compared to the available basin capacity. Stormwater treatment will not be provided for this project since the runoff flows into an existing offsite sump with no outlet to the ocean. Applicable law will be followed to minimize soil movement, erosion and compaction during all project actions. The proposed drainage plan will meet the requirements of Chapter 4, "Rules for the Design of Storm Drainage Facilities in the County of Maui" and Chapter 111, "Rules for the Design of Storm Water Treatment Best Management Practices". The project will include the implementation of site-specific BMPs during the construction to provide erosion control and minimize impacts to downstream properties. Based on the foregoing, the proposed 200-acre industrial development will not have an adverse impact on any existing downstream properties.

### **4. Describe any flood hazard impact.**

As indicated by the Flood Insurance Rate Map for the County of Maui, the project site is located within Zone X. The Zone X designation corresponds to areas of minimal flood hazard, which are the areas outside the Special Flood Hazard Area and higher than the elevation of the 0.2-percent annual chance flood. Due to the project location, significant adverse impacts related to flood hazards, are not anticipated.

## **D. ROADWAYS, CURBS, GUTTERS AND SIDEWALKS**

### **1. Describe existing roadway conditions including width of right-of-way, pavement width, improvements such as curbs, gutters, sidewalks, deceleration/acceleration lanes.**

The primary street for ingress/egress for the project is Miki Road. Miki Road is a generally north-south, two-way privately-owned roadway that begins to the north at its intersection with Kaumālapā'u Highway and extends approximately 2.95 miles to the south. Kaumālapā'u Highway is generally east-west, two-way, two-lane state-owned roadway that runs perpendicular to Miki Road. Miki Road is 13 to 15 feet wide and currently requires vehicles to pull off to the unpaved shoulder when encountering approaching vehicles traveling in the opposite direction. The Traffic Impact Analysis Report (TIAR) evaluated traffic impacts resulting from the proposed project. Refer to Final EA, Appendix "G", attached, Traffic Impact Analysis Report. Due to atypical traffic caused by COVID-19, Hawai'i Department of Transportation (HDOT) traffic volume data from 2018 were utilized instead of the 2020 traffic volumes in the TIAR. The TIAR considered the total traffic impacts of the project as well as the impacts of known future developments in the vicinity of the project. Currently, the Kaumālapā'u Highway/Miki Road intersection operates at level of service (LOS) B, which is defined as reasonably free-flow traffic conditions.

### **2. Describe existing and proposed ingress and egress into and from the site.**

At least two (2) driveway access points to the project site will be provided along Miki Road. Project Driveway 1 provides access to the light and heavy industrial areas west of Miki Road and Project Driveway 2 provides access to the light industrial area east of Miki Road. Refer to Final EA, Appendix "G", Traffic Impact Analysis Report, attached.

### **3. Describe any proposed roadway condition improvements.**

The TIAR recommends the widening of Miki Road between its intersection with Kaumālapa'u Highway to the project driveways. Miki Road is currently estimated to be 13 feet wide and should be widened to accommodate large vehicles and full side-by-side bi-directional travel with intersections capable of accommodating turning movements, and to provide an exclusive westbound left-turn deceleration lane. Each of the intersections is forecasted to operate at LOS B, which is similar to existing conditions.

### **4. Comprehensively describe traffic impacts in and around the project site.**

The project is anticipated to generate 161 trips during the weekday AM peak hour of traffic and 163 trips during the weekday PM peak hour of traffic by 2040. Upon completion of the project, all intersection movements are forecast to operate at LOS B or better during the AM and PM peak hours of traffic. Miki Road is privately-owned; the levels of service for the proposed uses on such are acceptable and not significant.

### **5. List any comments/recommendations received from Department of Public Works or State DOT.**

The Hawai'i Department of Transportation (HDOT) Airports Division provided comments and guidance on addressing Federal Aviation Administration (FAA) regulations and impacts from aircraft operations. The Applicant acknowledged the division's comments and will comply with all FAA regulations. HDOT's Highways Division provided recommendations on traffic mitigations and improvements, and requested additional information on planned projects that could affect traffic conditions on Kaumalapau Highway by 2040. The Highways Division also requested consultation with the Maui Highway District Engineer for required permits and approvals, as well as implementation of a maintenance and monitoring program. The Applicant acknowledged responsibility for all required improvements and confirmed it will consult directly with the Maui District Engineer on permit approvals, and maintenance and monitoring during the project's development. The Applicant also provided additional information and clarification in the Final EA. The County of Maui Department of Public Works did not provide any comments on the Draft EA.

## **E. ELECTRICAL, TELEPHONE AND CABLE**

### **1. Describe existing and proposed utilities.**

The HECO powerplant is adjacent to the proposed project and provides energy to Lāna'i Airport operations. The electrical service lines to the Airport are underground, running from Kaumālapa'u Highway along the Airport access road to the Airport. The Miki Basin Industrial Park will include 127 acres for renewable energy projects, including photovoltaic equipment with battery energy storage. The project's location adjacent to the HECO fossil fuel power plant will significantly reduce connection costs associated with bringing the renewable energy project online. The electricity generated by the renewable energy project will provide clean energy for 95 percent of the energy demand for the island of Lāna'i. By replacing the use of fossil fuels with renewable energy, Lāna'i will increase resiliency and minimize the impacts of price fluctuations based on the price of oil. The project is not anticipated to have an adverse impact on existing electrical, telephone, or cable television systems, nor is it expected to extend existing service area limits. Early project coordination will be carried out with the service providers to ensure services can be delivered to the project site in

a timely basis. Hawaiian Telecom (HTCO) and Charter Communications dba Spectrum (Spectrum) will offer broadband and telephone services to the project.

## **F. SOLID WASTE**

### **1. Solid Waste Landfill Site**

Lanai Landfill

### **2. Solid Waste Facilities Adequacy**

The Lānaʻi Landfill on Kaumālapaʻu Highway accepts municipal solid waste and construction debris dropped-off from commercial and residential customers. In addition, personal delivery to the landfill of municipal solid waste, green waste, and trash is available. During the initial short-term construction phase of the project, the contractor will develop and implement a construction-generated waste disposal plan. Appropriate construction debris will be taken to the landfill. A large proportion of the Miki Basin Industrial Park, 127 acres, is proposed for renewable energy uses such as photovoltaic plus battery energy storage, which would not be a generator of new solid waste. If necessary, appropriate decommissioning practices in compliance with federal, state, and local regulations will be implemented at the end of the useful life of the renewable energy project. Individual users at the Miki Basin Industrial Park will be responsible for disposing of solid waste, recyclables, and green waste consistent with State and County regulations and programs. With respect to the concrete recycling and crushing operation, the operator will manage solid waste disposal consistent with the County programs on the island. Most of the materials and by-products would consist of rock, aggregate, and concrete cement that is planned to be recycled as much as possible to reduce the need for costly importation of building materials. Materials that are considered construction and demolition debris waste would be handled and disposed of in accordance with State and County regulations and laws. Inasmuch as the concrete crushing operation represents a relocation of an existing use, significant new solid waste generation is not anticipated. Based on the foregoing, the proposed Miki Basin Industrial Park is not anticipated to generate a significant adverse impact related to solid waste disposal considerations.

### **3. Describe your plans for solid waste disposal and recycling.**

During the initial short-term construction phase of the project, the contractor will develop and implement a construction-generated waste disposal plan. Appropriate construction debris will be taken to the landfill. With respect to the concrete recycling and crushing operation, the operator will manage solid waste disposal consistent with the County programs on the island. Most of the materials and by-products would consist of rock, aggregate, and concrete cement that is planned to be recycled as much as possible to reduce the need for costly importation of building materials. Materials that are considered construction and demolition debris waste would be handled and disposed of in accordance with State and County regulations and laws. Inasmuch as the concrete crushing operation represents a relocation of an existing use, significant new solid waste generation is not anticipated.

### **4. List any comments/recommendations received from government agencies.**

The County of Maui, Department of Environmental Management Solid Waste Division did not provide any comments on the Draft EA.

## **G. OTHER**

### **1. Describe any other infrastructure requirements**

The proposed project is located adjacent to and east of the Lānaʻi Airport. The airport has a single runway and primarily serves scheduled interisland and commuter/air taxi traffic. The airport complex includes a terminal, parking, rental car facilities, cargo, and airport support services. The portion of

the airport property that is immediately adjacent to the project site consists of vacant land. The airport runway is located over 1,500 feet from the nearest property boundary. The Miki Basin Industrial Park will comply with all applicable requirements and regulations regarding development near the airport, including requirements pertaining to the development of solar energy facilities.

#### IV. Public ServicesA. PARKS

[Previous Section](#) | [Next Section](#) | [Top](#)

##### 1. List any County or other local community/recreational facilities that serve your site.

The project is not anticipated to have any impact on parks or recreational resources. Nevertheless, there are adequate park facilities available. The Maui County Department of Parks and Recreation and Lānaʻi public schools maintain a number of recreational resources on the island of Lānaʻi. County parks and facilities in Lānaʻi City include: the Lānaʻi Community Center, the Lānaʻi Gym and Tennis Courts, and the Lānaʻi Little League Field, Fraser Avenue Park and Kaumālapaʻu Highway/Fraser Avenue Park. Pūlama Lānaʻi also owns and maintains a number of recreational facilities that are available for public use including Dole Park, Olopua Woods Park, Waialua Park, Hulopoʻe Beach Park, and the Lānaʻi Recreation Center. Other recreational facilities operated by Pūlama Lānaʻi include the 18-hole championship golf course at Mānele Resort and the 9-hole Cavendish Golf Course.

##### 2. Select the State community/recreational facilities that serve your site.

<input type="checkbox"/>	Halekii-Pihana Heiau State Monument
<input type="checkbox"/>	Iao Valley State Monument
<input type="checkbox"/>	Kaumahina State Wayside
<input type="checkbox"/>	Makena State Park
<input type="checkbox"/>	Polipoli Spring State Recreation Area
<input type="checkbox"/>	Puaa Kaa State Wayside
<input type="checkbox"/>	Waianapanapa State Park
<input type="checkbox"/>	Wailua Valley State Wayside
<input type="checkbox"/>	Palaau State Park
<input type="checkbox"/>	N/A

##### 3. Identify any impacts of your proposed project to those facilities.

The proposed action is not expected to generate a need for additional recreational facilities. There are no anticipated adverse impacts to existing recreational facilities and resources.

##### 4. Describe any additional public facility requirements to serve your site.

Not Applicable

## B. SCHOOLS

### 1. Select the Public School Facilities which serve your site.

<input type="checkbox"/>	Hana Schools
<input type="checkbox"/>	Kahului Schools
<input type="checkbox"/>	Kihei Schools
<input type="checkbox"/>	Kula Schools
<input type="checkbox"/>	Lahaina Schools
<input type="checkbox"/>	Lanai Schools
<input type="checkbox"/>	Makawao Schools
<input type="checkbox"/>	Molokai Schools
<input type="checkbox"/>	Paia-Haiku Schools
<input type="checkbox"/>	Pukalani Schools
<input type="checkbox"/>	Wailuku Schools

### 2. Identify any impacts of your proposed project to those facilities.

The project is located approximately 3.2 miles from Lānaʻi High and Elementary School, which is the only public school that serves the educational needs of the island of Lānaʻi. The project is not anticipated to generate an increase in enrollment. The proposed Miki Basin Industrial Park will allow existing industrial uses currently scattered in business and residential areas in Lānaʻi City to relocate to more appropriate locations having the infrastructure and buffers necessary for industrial uses. The project is not a population generator and, as such, adverse impacts on educational facilities are not anticipated.

## C. PUBLIC SERVICES

### 1. Select the fire station that serves your area.

<input type="checkbox"/>	Wailuku Fire Station
<input type="checkbox"/>	Kahului Fire Station on Dairy Road
<input type="checkbox"/>	Kihei Fire Station next to Kalama Park
<input type="checkbox"/>	Lahaina Fire Station - Lahaina Civic & Rec Ctr
<input type="checkbox"/>	Napili Fire Station - Napili Hau Shopping Center
<input type="checkbox"/>	Kula Fire Station on Kula Highway
<input type="checkbox"/>	Makawao Fire Station on Makawao Avenue

<input type="checkbox"/>	Paia Fire Station on Hana Highway in Paia Town
<input type="checkbox"/>	Hana Fire Station
<input type="checkbox"/>	Hoolehua Fire Station
<input type="checkbox"/>	Kaunakakai Fire Station
<input type="checkbox"/>	Pukoo Fire Station
<input type="checkbox"/>	Lanai Fire Station
<input type="checkbox"/>	Wailea Fire Station

## 2. Describe the fire protection for your site.

The Lānaʻi Fire Station provides the fire protection services for the island. Located at 1345 Fraser Avenue in Lānaʻi City, the fire station is approximately three (3) miles from the project area. The station includes a total staffing of 18 personnel. Three (3) captains, six (6) Firefighter III, and nine (9) Firefighter I. Lānaʻi Station houses one (1) engine company and one (1) tanker. There are six (6) personnel on duty daily (County of Maui, Department of Fire and Public Safety, 2014-2015). The project is not anticipated to have a significant impact on fire protection services.

## 3. Select the library that serves your area.

<input type="checkbox"/>	Maui Public Library in Wailuku
<input type="checkbox"/>	Hana Public and School Library
<input type="checkbox"/>	Kahului Public Library on School Street
<input type="checkbox"/>	Kihei Public Library near Kalama Park
<input type="checkbox"/>	Lahaina Library - Front Street
<input type="checkbox"/>	Makawao Public Library - Makawao Town
<input type="checkbox"/>	Lanai Public and School Library on Fraser Avenue
<input type="checkbox"/>	Molokai Public Library in Kaunakakai

## 4. Select the police station that serves your area

<input type="checkbox"/>	Wailuku Police Station on Mahalani Road
<input type="checkbox"/>	Hana Police Station
<input type="checkbox"/>	Lanai Police Station
<input type="checkbox"/>	Molokai Police Station
<input type="checkbox"/>	Kihei Police Station
<input type="checkbox"/>	

<input type="checkbox"/>	Wailuku District Substations
<input type="checkbox"/>	Haiku Community Center
<input type="checkbox"/>	Lokahi Pacific
<input type="checkbox"/>	Maui Community College
<input type="checkbox"/>	Luana Gardens
<input type="checkbox"/>	Maui Marketplace
<input type="checkbox"/>	Pukalani Terrace
<input type="checkbox"/>	Wailea Point between Kamaole II and III
<input type="checkbox"/>	Office at Kihei Community Center
<input type="checkbox"/>	Lahaina Police Station

**5. Select the hospital that serves your area.**

<input type="checkbox"/>	Maui Memorial Medical Center - Wailuku
<input type="checkbox"/>	Kula (long term care facility)
<input type="checkbox"/>	Hana Medical Center
<input type="checkbox"/>	Lanai Community Hospital in Lanai City
<input type="checkbox"/>	Molokai General Hospital in Kaunakakai

**6. Describe any additional public services to serve your site.**

The proposed project will not adversely affect public services. It is not a population generator, nor will it expand service limits for public services. The project involves development of an area for light and heavy industrial uses, as identified in the Lānaʻi Community Plan.

**V. Other Info-Code, DBA & MBAA. PROVIDE THE OTHER  
BELOW INFORMATION  
REQUIRED BY ZONING CODE SECTION 19.510.010**

[Previous Section](#) | [Next Section](#) | [Top](#)

**1. A detailed land use history of the subject parcel(s) to include former and existing state and county land use designations, violations, and uses.**

The proposed project area lands were formerly part of a pineapple plantation and no violations have been recorded by the Applicant.

**2. An analysis of secondary impacts of the proposed use on surrounding uses.**

The context for analyzing secondary and cumulative impacts is defined by the time horizon within which “reasonably foreseeable” conditions may occur. The future context for development is

established by the Maui County General Plan (General Plan) and the 2016 Lānaʻi Community Plan. The General Plan defines parameters for growth. The document plans for the horizon year 2030 and “reasonably foreseeable” conditions may be considered within this future context. Whereas the Countywide Policy Plan covers planning goals and objectives at the broadest levels, the regional Community Plans consider specific regional needs and opportunities. The Lānaʻi Community Plan (LCP) identifies fostering a robust and diversified economy as a critical component to establishing a sustainable and resilient future for Lānaʻi. The project site is located 3.2 miles southwest of Lānaʻi City and is far enough removed from the island’s main business center and residential area as to minimize those impacts common to industrial areas, such as noise, odors, and heavy vehicles. Development of the 200-acre industrial park will allow existing industrial facilities currently scattered in business and residential areas in Lānaʻi City to relocate to more appropriate locations having the infrastructure and buffers necessary for industrial uses; and provide opportunities for future industrial development on Lānaʻi, which will add to the diversification of Lānaʻi’s economy and thereby contribute to the island’s resiliency and sustainability. The proposed Miki Basin Industrial Park is not anticipated to result in significant impacts that will not be mitigated. It is not part of a larger action and will not result in significant cumulative impacts. The project is not a population generator and will not result in significant adverse secondary impacts.

**3. Identify any traditional beach and mountain access trails and additional trails which may be required for public access, and, if applicable, a preservation/mitigation plan and comments from the Department of Land and Natural Resources and the Office of Hawaiian Affairs.**

The project is located approximately six (6) miles from the nearest beach and approximately ten (10) miles from the peak of Lānaʻi hale, the highest point on the island. There are no traditional access trails identified in close proximity to the proposed project area. Accordingly, there are no anticipated adverse impacts to beach and mountain access from the proposed project.

**4. Identify and provide an assessment of chemicals and fertilizers used, including, but not limited to, detailing effects upon surface, underground and marine water resources and neighboring properties and surrounding flora and fauna, and if applicable, a mitigation plan and maintenance program and schedule, and comments from the Departments of Health and of Land and Natural Resources of the State, the United States Fish and Wildlife Service, and the United States Environmental Protection Agency.**

TRC Environmental Corporation (TRC) prepared a Phase I Environmental Site Assessment (ESA) of the approximately 200- acre project site to identify potential hazardous materials sources on the project site. Refer to Final EA, Appendix “E”, Phase I Environmental Site Assessment. The Phase I ESA notes that the site is believed to always have been undeveloped and utilized for agricultural purposes associated with pineapple cultivation. The Phase I ESA did not identify any Recognized or Historical Environmental Conditions, or de minimis conditions which require mitigation. From a long-term perspective, it is noted that operations of future industrial activities are regulated by applicable federal and state law and industry standards. At the concrete recycling and rock crushing operation, the types of materials processed include different types of cement that are free of paint or other hazardous coatings or products. The size of any individual piece must be three (3) inches in diameter (across any dimension) or less. If there is rebar embedded in the concrete, it will be broken up onsite, and the rebar removed. The rebar will be shipped off-island for appropriate disposal in a landfill. The U.S. Fish and Wildlife Service requested additional detail in the Final EA regarding listed species that may occur in the project area and recommended avoidance and minimization measures. The Applicant included the listed species and avoidance measures recommended by the agency in the Final EA. The Hawaiʻi Department of Health Clean Air Branch provided its standard comments for Land Use Reviews. The Applicant acknowledged the comments and confirmed it will obtain an air pollution control permit, as applicable. The Applicant will also provide reasonable measures to control airborne, visible fugitive dust from the road areas during the various phases of construction.

## B. DISTRICT BOUNDARY AMENDMENTS

### 1. For District Boundary Amendments, describe how the applicable criteria from sections 15-15-18 through 15-15-21 of the Land Use Commission rules are met.

In Docket A19-809, the Applicant is seeking a District Boundary Amendment (DBA) from "Agricultural" to "Urban" to bring consistency with the Lāna'i Community Plan. The DBA is being processed by the State Land Use Commission. Discussion of the applicable criteria of the Land Use Commission rules is provided in the Applicant's Petition for a DBA before the Land Use Commission.

## C. Maui Island Plan Amendments

Complete this section if your project requires a Maui Island Plan Amendment. Review the Guiding Land Use Principles below for their relevance to your project and describe how your project supports each relevant principle. If your project does not require a Maui Island Plan Amendment, go on to the next section.

**CRITERIA FOR GROWTH BOUNDARY AMENDMENTS. SELECT THE RELEVANT LAND USE PRINCIPLES FROM CHAPTER 8, DIRECTED GROWTH PLAN OF THE MAUI ISLAND PLAN AND DESCRIBE HOW YOUR PROPOSAL SUPPORTS AN AMENDMENT TO A GROWTH BOUNDARY. WHERE IT DOES NOT SUPPORT A GUIDING LAND USE PRINCIPLE, DISCUSS WHY YOUR PROPOSAL IS JUSTIFIED.** Consult the land use principles, themes, goals, policies and implementing actions of the Maui Island Plan for guidance. Review chapters 7 and 8, the Planned Growth Areas in chapter 8, and Table 8-2 in chapter 8 of the Maui Island Plan to help you answer how your project addresses each land use principle below.

### Guiding Land Use Principles

**1. Respect and encourage island lifestyles, cultures, and Hawaiian traditions:** The culture and lifestyle of Maui's residents is closely tied to the island's beauty and natural resources. Maintaining access to shoreline and mountain resources and protecting culturally significant sites and regions perpetuates the island lifestyle and protects Maui's unique identity. One of the most vital components of the island lifestyle and culture is Maui's people. In an island environment where resources are finite, future growth must give priority to the needs of residents in a way that perpetuates island lifestyles.

Not Applicable

**2. Promote sustainable land use planning and livable communities:** Managing and directing future growth on Maui should promote the concept of sustainability, and the establishment of livable communities. Sustainable practices include: 1) Focusing growth into existing communities; 2) Taking advantage of infill and redevelopment opportunities; 3) Promoting compact, walkable, mixed-use development; 4) Revitalizing urban and town centers; 5) Providing transportation connectivity and multimodal opportunities; 6) Protecting and enhancing natural and environmental resources; 7) Protecting, enhancing, and expanding communities and small towns, where appropriate; and 8) Encouraging energy and water-efficient design and renewable energy technology.

Not Applicable

**3. Keep "urban-urban" and keep "country-country":** Given the high cost of developing public infrastructure and facilities to service remote areas, the significant environmental and social impacts associated with long vehicle commutes, and the desire to "keep the country-side country" it is preferable to develop compact communities and to locate development within or as close as possible to existing urban areas and employment centers.

Not Applicable

**4. Protect traditional small towns: Development within and adjacent to Maui's traditional towns should be compatible with and perpetuate their unique character. Hard edges should be maintained around new and existing communities through the use of greenbelts and significant open space.**

Not Applicable

**5. Protect open space and working agricultural landscapes: In light of continuing urbanization, the protection of agricultural and open-space resources will depend on a healthy agricultural industry and progressive planning and regulation. Planning should utilize agricultural lands as a tool to define the edges of existing and planned urban communities, apply innovative site design, create buffers along roadways, provide visual relief, and preserve scenic views.**

Not Applicable

**6. Protect environmentally sensitive lands and natural resources: Environmentally sensitive lands, natural areas, and valued open spaces should be preserved. Native habitat, floodways, and steep slopes should be identified so future growth can be directed away from these areas. It will be important to plan growth on Maui in a manner that preserves habitat connectivity, watersheds, undeveloped shoreline areas, and other environmentally sensitive lands.**

Not Applicable

**7. Promote equitable development that meets the needs of each community: Each region of the island should have a mix of housing types, convenient public transit, and employment centers. Where appropriate, all neighborhoods should have adequate parks, community centers, greenways, libraries, and other public facilities. No community should have a disproportionate share of noxious activities. Additionally, a fair, efficient, and predictable planning and regulatory process must be provided. A cornerstone of equitable development should reflect a focus on providing affordable housing for all of Maui's residents over developing nonresident housing.**

Not Applicable

**8. Plan for and provide efficient and effective public facilities and infrastructure: Many of Maui's public infrastructure systems and facilities were constructed decades ago and are in need of repairs and upgrades to meet current and future demand. Growth should be planned for areas with existing infrastructure, or where infrastructure can be expanded with minimal financial burden to the public. Transportation infrastructure should be designed to be in harmony with the surrounding area.**

Not Applicable

**9. Support sustainable economic development and the needs of small business: Land use decisions should promote and support sustainable business activities.**

Not Applicable

**10. Promote community responsibility, empowerment, and uniqueness:** The development of community plans should be a broad-based, inclusive process. The community plans shall be reviewed by the Community Plan Advisory Committees, the planning commissions, and approved by the Council. The MIP shall provide a framework for the updated community plans. Subsequent proposed community plan amendments should be subject, as much as possible, to local community input.

Not Applicable

## VI. Long Range Planning\_InfoA. PERMITS REQUESTED

[Previous Section](#) | [Top](#)

### 1. What Permits Are You Applying For?

Change of Zoning

#### B. RESIDENTIAL PROJECTS

##### 1. How many single-family units?

0

##### 2. Will any accessory dwellings be permitted?

No

##### 3. If yes, how many?

0

##### 4. How many multi-family units are you building?

0

##### 5. Are you subdividing your property?

No

##### 6. If yes, how many buildable lots are you requesting to create?

0

##### 7. How many acres, or square feet, is the project site?

0

##### 8. If only a portion of the property is going to be used for this project, how many acres or square feet will be used just for the project?

0

#### C. LAND USE ENTITLEMENTS

##### Will This Project Require Land Use Amendments? (Check All That Apply)

##### 1. Change of Zoning (COZ)

Yes

##### 2. Change of Zoning (COZ) From:

Agricultural District and Interim District

**3. Change of Zoning (COZ) To:**

M-1, Light Industrial District and M-2, Heavy Industrial District

**4. Community Plan Amendment**

No

**5. Community Plan Amendment From**

Not Applicable

**6. Community Plan Amendment To:**

Not Applicable

**7. State Land Use District Boundary Amendment**

Yes

**8. State Land Use District Boundary Amendment From:**

In Docket A19-809, the Applicant is seeking a District Boundary Amendment (DBA) from "Agricultural" to "Urban" to bring consistency with the Lānaʻi Community Plan. The DBA is being processed by the State Land Use Commission.

**9. State Land Use District Boundary Amendment To:**

In Docket A19-809, the Applicant is seeking a District Boundary Amendment (DBA) from "Agricultural" to "Urban" to bring consistency with the Lānaʻi Community Plan. The DBA is being processed by the State Land Use Commission.

**10. Maui Island Plan Designation Change**

No

**11. Maui Island Plan Designation Change From:**

Not Applicable

**12. Maui Island Plan Designation Change To:**

Not Applicable

**13. Will you be selling any of the units as "affordable" as defined under HUD guidelines?**

No

**14. If yes, how many units, or percentage of units will fall under this category?**

0

**15. From the date of filing the application with the Planning Dept, how long do you estimate the project to reach complete build-out?**

16-20 years

**D. INDUSTRIAL / COMMERCIAL PROJECTS**

**WILL THIS PROPERTY BE USED FOR: (List all that apply by providing the square footage proposed)?**

**1. Retail Purposes**

# NOTARIZED AFFIDAVIT OF MAILING OF NOTICE OF APPLICATION

I, Karlynn Fukuda, being first duly sworn on oath, deposes and says that:

1. Affiant is the applicant for a Change of Zoning for land situated at Miki Road, Lāna'i, Hawai'i, TMK (2): 4-9-002:061(por.)
2. Affiant did on October 7, 2022, deposit in the United States mail, postage prepaid, a copy of a Notice of Filing of Application with a location map, a copy of which is attached hereto as "Exhibit A" and made a part hereof, addressed to each of the persons identified in the list of recorded owners and lessees identified as "Exhibit B," attached hereto and made a part hereof.

Further, Affiant sayeth naught.

Karlynn Fukuda

subscribed and sworn to before me this

13 day of October, 2022.

Tracy Nakamoto  
Notary Public, State of Hawaii

Print Name: Tracy Nakamoto

My commission expires: 10/15/2024

## NOTARY PUBLIC CERTIFICATION

Doc. Date: none

# Pages: 19

Notary Name: Tracy Nakamoto

Judicial Circuit: second

Doc. Description: Notarized Affidavit of  
Mailing of Notice of Application

Notary Signature: Tracy Nakamoto

Date: 10/13/2022

**EXHIBIT A.**

**NOTICE OF APPLICATION**

# NOTICE OF APPLICATION

Date: Oct 5, 2022

TO: **OWNERS/LESSEES**

Please be advised that the undersigned has filed an application for a Change of Zoning with the County of Maui, Department of Planning for the following parcel(s):

1. Tax Map Key Number: (2) 4-9-002:061(por.) (see attached map)

2. Street address: Miki Road, Lānaʻi, Hawaiʻi

3. Land Use Designations and Change(s) Being Sought:

	<u>Existing</u>	<u>Proposed</u>
State Land Use District	District Boundary Amendment from Agricultural to Urban is in process with the State Land Use Commission (Docket A19-809)	No Additional Change
Community Plan	Light Industrial/Heavy Industrial	No Change
Zoning	Agricultural and Interim	M-1 Light Industrial, M-2 Heavy Industrial
Other		

4. Description of the existing uses on the Property:

Vacant, with the exception of a 14.5-acre interim industrial uses area established on a portion of the project area that borders the western side of the Miki Basin Industrial Area (approved SUP2 2021-0008).

5. Description of the proposed development and uses on the Property:

200-acre light and heavy industrial park, including 127 acres for renewable energy, 20 acres for infrastructure purposes (roads, common areas, and other related uses), 12.5 acres for relocation of an existing asphalt plant, 14.5 acres for relocation of an existing concrete recycling and rock crushing facility, and 26 acres for new industrial uses.

*The Applicant is responsible for ensuring accuracy of the information.*

# **3 - COMMUNITY PLAN DETAILS FORM**

**(Community\_Plan\_Details\_Form\_Miki\_Basin\_Industrial)**

## Community Plan Details

**SELECT THE RELEVANT SUBJECTS, GOALS, OBJECTIVES AND POLICIES, AND IMPLEMENTING ACTIONS FROM THE RELEVANT COMMUNITY PLAN AND DESCRIBE HOW YOUR PROPOSAL IS OR IS NOT CONSISTENT WITH THEM. WHERE IT IS NOT CONSISTENT, DISCUSS WHY YOUR PROPOSAL IS JUSTIFIED. You may also list and discuss any other section of the applicable community plan that is relevant to the proposed request. Community plan areas are defined by geographic boundaries. Consult the relevant goals, objectives, policies, and implementing actions in the relevant Community Plan for guidance. Please address at least one policy and/or implementing action. Please fill out one form for each policy and/or implementing action and combine PDFs into one multi-page PDF before attaching to your application in the Customer Self Service (CSS) portal.**

Subject: HAZARD MITIGATION

Goal: Lana'i will be prepared for natural disasters.

Objective: 3. Encourage economic diversity, environmental health, infrastructure, maintenance, and hazard preparedness to improve the community's resiliency.

Policies:

Implementing Actions:

Relevance: The proposed Miki Basin Industrial Park will include 127 acres for renewable energy projects (e.g., photovoltaic plus battery energy storage), which will improve the overall resiliency and sustainability of Lāna'i. The planned increase in renewable energy projects will also reduce the island's reliance on fossil fuel, currently imported from off-island and used to generate electricity by Hawaiian Electric Company.

Other:

## Community Plan Details

**SELECT THE RELEVANT SUBJECTS, GOALS, OBJECTIVES AND POLICIES, AND IMPLEMENTING ACTIONS FROM THE RELEVANT COMMUNITY PLAN AND DESCRIBE HOW YOUR PROPOSAL IS OR IS NOT CONSISTENT WITH THEM. WHERE IT IS NOT CONSISTENT, DISCUSS WHY YOUR PROPOSAL IS JUSTIFIED. You may also list and discuss any other section of the applicable community plan that is relevant to the proposed request. Community plan areas are defined by geographic boundaries. Consult the relevant goals, objectives, policies, and implementing actions in the relevant Community Plan for guidance. Please address at least one policy and/or implementing action. Please fill out one form for each policy and/or implementing action and combine PDFs into one multi-page PDF before attaching to your application in the Customer Self Service (CSS) portal.**

Subject: CULTURAL, HISTORIC, AND SCENIC RESOURCES

Goal: Lānaʻi's diverse cultural, archaeological, and historic resources and practices, and scenic resources will be protected for future generations.

Objective: 9. Require developments to mitigate their impacts on historic, cultural, natural, and scenic resources.

Policies:

Implementing Actions:

Relevance: The proposed project has been designed so as to not impede scenic views from upland areas. An AIS has been prepared and accepted by the SHPD. The project is not anticipated to have an impact on native Hawaiian traditional and cultural practices. The Applicant will abide by the recommendations and requirements from the SHPD.

Other:

## Community Plan Details

**SELECT THE RELEVANT SUBJECTS, GOALS, OBJECTIVES AND POLICIES, AND IMPLEMENTING ACTIONS FROM THE RELEVANT COMMUNITY PLAN AND DESCRIBE HOW YOUR PROPOSAL IS OR IS NOT CONSISTENT WITH THEM. WHERE IT IS NOT CONSISTENT, DISCUSS WHY YOUR PROPOSAL IS JUSTIFIED. You may also list and discuss any other section of the applicable community plan that is relevant to the proposed request. Community plan areas are defined by geographic boundaries. Consult the relevant goals, objectives, policies, and implementing actions in the relevant Community Plan for guidance. Please address at least one policy and/or implementing action. Please fill out one form for each policy and/or implementing action and combine PDFs into one multi-page PDF before attaching to your application in the Customer Self Service (CSS) portal.**

Subject: ECONOMIC DEVELOPMENT

Goal: A stable, sustainable, and diverse economy that is consistent and compatible with Lana i's rural island lifestyle.

Objectives:

Policy: 1. Support diversification of Lana'i's economy.

Implementing Actions:

Relevance: While much of Lāna'i's economy relies on the visitor industry, the proposed Miki Basin Industrial Park will include 127 acres for renewable energy projects (e.g., Photovoltaic plus battery energy storage) and 26 acres for new industrial uses allowed under Maui County Code "M-1, Light Industrial" and "M-2, Heavy Industrial" zoning. While the specific uses have not been identified at this time, possible new future industrial uses may include a slaughterhouse, warehouse space for cold storage, animal hospital or other uses.

Other:

## Community Plan Details

**SELECT THE RELEVANT SUBJECTS, GOALS, OBJECTIVES AND POLICIES, AND IMPLEMENTING ACTIONS FROM THE RELEVANT COMMUNITY PLAN AND DESCRIBE HOW YOUR PROPOSAL IS OR IS NOT CONSISTENT WITH THEM. Community plan areas are defined by geographic boundaries. Consult the relevant goals, objectives, policies, and implementing actions in the relevant Community Plan for guidance. Please address at least one policy and/or implementing action. Please fill out one form for each policy and/or implementing action and combine PDFs into one multi-page PDF before attaching to your application in the Customer Self Service (CSS) portal.**

Subject: ECONOMIC DEVELOPMENT

Goal: A stable, sustainable, and diverse economy that is consistent and compatible with Lana i's rural island lifestyle.

Objectives:

Policy: 8. Encourage and support lease and fee simple land ownership options for residential commercial, and industrial properties.

Implementing Actions:

Relevance: The Applicant may lease land within the Miki Basin Industrial Park for individuals to pursue industrial operations and businesses. The Applicant will, when applicable, develop the major common infrastructure, such as roads and electric and water utility lines, to support the industrial park, while individual users will be responsible for vertical development on their particular properties and for compliance with applicable regulatory requirements associated with their individual developments.

Other:

## Community Plan Details

**SELECT THE RELEVANT SUBJECTS, GOALS, OBJECTIVES AND POLICIES, AND IMPLEMENTING ACTIONS FROM THE RELEVANT COMMUNITY PLAN AND DESCRIBE HOW YOUR PROPOSAL IS OR IS NOT CONSISTENT WITH THEM. WHERE IT IS NOT CONSISTENT, DISCUSS WHY YOUR PROPOSAL IS JUSTIFIED. You may also list and discuss any other section of the applicable community plan that is relevant to the proposed request. Please address at least one policy and/or implementing action. Please fill out one form for each policy and/or implementing action and combine PDFs into one multi-page PDF before attaching to your application in the Customer Self Service (CSS) portal.**

Subject: INFRASTRUCTURE AND UTILITIES (ENERGY)

Goal: Increase the proportion of electricity that is generated from renewable sources to reduce electricity costs and Lana'i's dependence on fossil fuels.

Objectives:

Policy: 1. Support the increased use of renewable energy sources.

Implementing Actions:

Relevance: The proposed Miki Basin Industrial Park will include 127 acres for renewable energy projects (e.g., photovoltaic plus battery energy storage), which will reduce Lana'i's reliance on fossil fuel.

Other:

## Community Plan Details

**SELECT THE RELEVANT SUBJECTS, GOALS, OBJECTIVES AND POLICIES, AND IMPLEMENTING ACTIONS FROM THE RELEVANT COMMUNITY PLAN AND DESCRIBE HOW YOUR PROPOSAL IS OR IS NOT CONSISTENT WITH THEM. WHERE IT IS NOT CONSISTENT, DISCUSS WHY YOUR PROPOSAL IS JUSTIFIED. You may also list and discuss any other section of the applicable community plan that is relevant to the proposed request. Please address at least one policy and/or implementing action. Please fill out one form for each policy and/or implementing action and combine PDFs into one multi-page PDF before attaching to your application in the Customer Self Service (CSS) portal.**

Subject: LAND USE

Goal: Lana'i will have an efficient and sustainable land use pattern that protects agricultural lands, open space, natural systems, and rural and urban character.

Objectives:

Policy: 2. Limit new residential, commercial, or industrial development to existing communities and proposed expansion areas as shown on the Lana'i Community Plan land use maps.

Implementing Actions:

Relevance: The proposed project implements the vision for placement of industrial land uses on the island and expands upon the much-needed industrially zoned land area called for in the Lāna'i Community Plan. The site was chosen for its proximity to the workforce in Lāna'i City and proximity to other industrial uses.

Other:

## Community Plan Details

**SELECT THE RELEVANT SUBJECTS, GOALS, OBJECTIVES AND POLICIES, AND IMPLEMENTING ACTIONS FROM THE RELEVANT COMMUNITY PLAN AND DESCRIBE HOW YOUR PROPOSAL IS OR IS NOT CONSISTENT WITH THEM. WHERE IT IS NOT CONSISTENT, DISCUSS WHY YOUR PROPOSAL IS JUSTIFIED. You may also list and discuss any other section of the applicable community plan that is relevant to the proposed request. Please fill out one form for each policy and/or implementing action and combine PDFs into one multi-page PDF before attaching to your application in the Customer Self Service (CSS) portal.**

Subject: LAND USE

Goal: Lana'i will have an efficient and sustainable land use pattern that protects agricultural lands, open space, natural systems, and rural and urban character.

Objectives:

Policy: 10. Ensure all lands are zoned and zoning standards are consistent with community plan policies and land use designations as shown on Maps 9.2 through 9.6.

Implementing Actions:

Relevance: The subject CIZ application will bring consistency between zoning and the Lāna'i Community Plan.

Other:

## **4 - COUNTYWIDE POLICY PLAN DETAILS FORM**

**(Countywide\_Policy\_Plan\_Details\_Form\_Miki  
Basin\_Industrial)**

## Countywide Policy Plan Details

**SELECT THE RELEVANT THEMES, GOALS, OBJECTIVES, AND POLICIES FROM THE COUNTYWIDE POLICY PLAN AND DESCRIBE HOW YOUR PROPOSAL IS OR IS NOT CONSISTENT WITH THEM. WHERE IT IS NOT CONSISTENT, DISCUSS WHY YOUR PROPOSAL IS JUSTIFIED. You may also list and discuss any other section of the plan that is relevant to the proposed request. Consult the relevant goals, objectives, policies, and implementing actions of the Countywide Policy Plan for guidance. Please address at least one policy and/or implementing action. Please fill out one form for each policy and/or implementing action and combine PDFs into one multi-page PDF before attaching to your application in the Customer Self Service (CSS) portal.**

Theme: Protect the Natural Environment

Goal: Maui County's natural environment and distinctive open spaces will be preserved, managed, and cared for in perpetuity.

Objective: (3) Improve the stewardship of the natural environment.

Policies: (c) Evaluate development to assess potential short-term and long-term impacts on land, air, aquatic, and marine environments  
\* \* \*

(l) Educate the construction and landscape industries and property owners about the use of best management practices to prevent erosion and nonpoint source pollution

Implementing Action: (a) Document, record, and monitor existing conditions, populations, and locations of flora and fauna communities

Other:

Relevance: The Final Environmental Assessment (EA) prepared for the project evaluated the potential short-term and long-term impacts of the proposed action on the environment. The Final EA included a Flora and Fauna Survey that documents and records existing conditions at the subject property.

## Countywide Policy Plan Details

**SELECT THE RELEVANT THEMES, GOALS, OBJECTIVES, AND POLICIES FROM THE COUNTYWIDE POLICY PLAN AND DESCRIBE HOW YOUR PROPOSAL IS OR IS NOT CONSISTENT WITH THEM. WHERE IT IS NOT CONSISTENT, DISCUSS WHY YOUR PROPOSAL IS JUSTIFIED. You may also list and discuss any other section of the plan that is relevant to the proposed request. Consult the relevant goals, objectives, policies, and implementing actions of the Countywide Policy Plan for guidance. Please address at least one policy and/or implementing action. Please fill out one form for each policy and/or implementing action and combine PDFs into one multi-page PDF before attaching to your application in the Customer Self Service (CSS) portal.**

Theme: Strengthen the Local Economy

Goal: Maui County's economy will be diverse, sustainable, and supportive of community values.

Objective: (4) Expand economic sectors that increase living-wage job choices and are compatible with community values.

Policies: (a) Support emerging industries, including the following:

- Health and wellness industry;
- Sports and recreation industry;
- Film and entertainment industry;
- Arts and culture industry;
- Renewable-energy industry;
- Research and development industry;
- High-technology and knowledge-based industries;
- Education and training industry;
- Ecotourism industry; and
- Agritourism industry.

Implementing Actions:

Other:

Relevance: The proposed action does have a direct relationship to the objective to expand economic sectors that increase living-wage job choices compatible with community values. The proposed action is envisioned to incorporate renewable energy, developments, and operating spaces involved in other emerging industries.

## Countywide Policy Plan Details

**SELECT THE RELEVANT THEMES, GOALS, OBJECTIVES, AND POLICIES FROM THE COUNTYWIDE POLICY PLAN AND DESCRIBE HOW YOUR PROPOSAL IS OR IS NOT CONSISTENT WITH THEM. WHERE IT IS NOT CONSISTENT, DISCUSS WHY YOUR PROPOSAL IS JUSTIFIED. You may also list and discuss any other section of the plan that is relevant to the proposed request. Consult the relevant goals, objectives, policies, and implementing actions of the Countywide Policy Plan for guidance. Please address at least one policy and/or implementing action. Please fill out one form for each policy and/or implementing action and combine PDFs into one multi-page PDF before attaching to your application in the Customer Self Service (CSS) portal.**

Theme: Improve Physical Infrastructure

Goal: Maui County's physical infrastructure will be maintained in optimum condition and will provide for and effectively serve the needs of the County through clean and sustainable technologies.

Objective: (3) Design all developments to be in harmony with the environment and to protect each community's sense of place.

Policy: (h) Ensure better connectivity and linkages between land uses.

Implementing Actions:

Other:

Relevance: The proposed action is directly related to this objective as it will provide an opportunity for similar industrial uses to co-locate in an area specifically designated for industrial use by the 2016 Lānaʻi Community Plan. Building the industrial park will allow existing industrial facilities currently scattered in business and residential area in Lānaʻi City to relocate to more appropriate locations having the infrastructure and buffers necessary for industrial uses.

## Countywide Policy Plan Details

**SELECT THE RELEVANT THEMES, GOALS, OBJECTIVES, AND POLICIES FROM THE COUNTYWIDE POLICY PLAN AND DESCRIBE HOW YOUR PROPOSAL IS OR IS NOT CONSISTENT WITH THEM. WHERE IT IS NOT CONSISTENT, DISCUSS WHY YOUR PROPOSAL IS JUSTIFIED. You may also list and discuss any other section of the plan that is relevant to the proposed request. Consult the relevant goals, objectives, policies, and implementing actions of the Countywide Policy Plan for guidance. Please address at least one policy and/or implementing action. Please fill out one form for each policy and/or implementing action and combine PDFs into one multi-page PDF before attaching to your application in the Customer Self Service (CSS) portal.**

Theme: Improve Physical Infrastructure

Goal: Maui County's physical infrastructure will be maintained in optimum condition and will provide for and effectively serve the needs of the County through clean and sustainable technologies.

Objective: (3) Significantly increase the use of renewable and green technologies to promote energy efficiency and energy self-sufficiency.

Policies: (a) Promote the use of locally renewable energy sources, and reward energy efficiency.

\* \* \*

(d) Encourage small-scale energy generation that utilizes wind, sun, water, biowaste, and other renewable sources of energy.

\* \* \*

(e) Expand renewable-energy production.

Implementing Actions:

Other:

Relevance: The land use plan envisioned for the project area includes 127 acres for renewable energy, which advances the objective of energy self-sufficiency.

## Countywide Policy Plan Details

**SELECT THE RELEVANT THEMES, GOALS, OBJECTIVES, AND POLICIES FROM THE COUNTYWIDE POLICY PLAN AND DESCRIBE HOW YOUR PROPOSAL IS OR IS NOT CONSISTENT WITH THEM. WHERE IT IS NOT CONSISTENT, DISCUSS WHY YOUR PROPOSAL IS JUSTIFIED. You may also list and discuss any other section of the plan that is relevant to the proposed request. Consult the relevant goals, objectives, policies, and implementing actions of the Countywide Policy Plan for guidance. Please address at least one policy and/or implementing action. Please fill out one form for each policy and/or implementing action and combine PDFs into one multi-page PDF before attaching to your application in the Customer Self Service (CSS) portal.**

Theme: Promote Sustainable Land Use and Growth Management

Goal: Community character, lifestyles, economies, and natural assets will be preserved by managing growth and using land in a sustainable manner.

Objective: (1) Improve land use management and implement a directed-growth strategy.

Policies: (b) Direct urban and rural growth to designated areas

\* \* \*

(h) Direct new development in and around communities with existing infrastructure and service capacity, and protect natural, scenic, shoreline, and cultural resources

\* \* \*

(h) Ensure better connectivity and linkages between land uses.

Implementing Actions:

Other:

Relevance: The proposed project directly supports the goal for managed growth, as the action is proposed within an area designated for industrial uses by the 2016 Lānaʻi Community Plan. In this connection, the proposed action has a relationship to the policy of directing development in and around communities having infrastructure service potential, and ensuring connectivity and linkages between land uses.

## Countywide Policy Plan Details

**SELECT THE RELEVANT THEMES, GOALS, OBJECTIVES, AND POLICIES FROM THE COUNTYWIDE POLICY PLAN AND DESCRIBE HOW YOUR PROPOSAL IS OR IS NOT CONSISTENT WITH THEM. WHERE IT IS NOT CONSISTENT, DISCUSS WHY YOUR PROPOSAL IS JUSTIFIED. You may also list and discuss any other section of the plan that is relevant to the proposed request. Consult the relevant goals, objectives, policies, and implementing actions of the Countywide Policy Plan for guidance. Please address at least one policy and/or implementing action. Please fill out one form for each policy and/or implementing action and combine PDFs into one multi-page PDF before attaching to your application in the Customer Self Service (CSS) portal.**

Theme: Strive for Good Governance

Goal: Strengthen governmental planning, coordination, consensus building, and decision making.

Objective: (2) Promote civic engagement

Policies: (a) Foster consensus building through in-depth, innovative, and accessible public participatory processes

(b) Promote and ensure public participation and equal access to government among all citizens

\* \* \*

(g) Expand opportunities for all members of the public to participate in public meetings and forums.

Implementing Action: (d) Develop a project-review process that mandates early and ongoing consultation in and with communities affected by planning and land use activities.

Other:

Relevance: The proposed action promotes civic engagement through the Chapter 343, HRS, Environmental Assessment (EA) and land use entitlements processes. Public participation is promoted through review process for the Draft EA and land use applications, as well as through the Lānaʻi Planning Commission proceedings. Additionally, the applicant has undertaken a community outreach process designed to inform nearby residents and the larger community of the proposed project. Collectively, the foregoing processes support community-based decision-making.

## Countywide Policy Plan Details

**SELECT THE RELEVANT THEMES, GOALS, OBJECTIVES, AND POLICIES FROM THE COUNTYWIDE POLICY PLAN AND DESCRIBE HOW YOUR PROPOSAL IS OR IS NOT CONSISTENT WITH THEM. WHERE IT IS NOT CONSISTENT, DISCUSS WHY YOUR PROPOSAL IS JUSTIFIED. You may also list and discuss any other section of the plan that is relevant to the proposed request. Consult the relevant goals, objectives, policies, and implementing actions of the Countywide Policy Plan for guidance. Please address at least one policy and/or implementing action. Please fill out one form for each policy and/or implementing action and combine PDFs into one multi-page PDF before attaching to your application in the Customer Self Service (CSS) portal.**

Theme: Mitigate Climate Change and Work Toward Resilience

Goal: Minimize the causes and negative effects of climate change.

Objective: (3) Significantly increase the use of renewable and green technologies to promote energy efficiency and energy self-sufficiency.

Policies: (e) Expand renewable-energy production.

\* \* \*

(i) Promote the retrofitting of existing buildings and new development to incorporate energy-saving design concepts and devices.

\* \* \*

(k) Reduce Maui County's dependence on fossil fuels and energy imports.

(l) Support green building practices such as the construction of buildings that aim to minimize carbon dioxide production, produce renewable energy, and recycle water.

Implementing Actions:

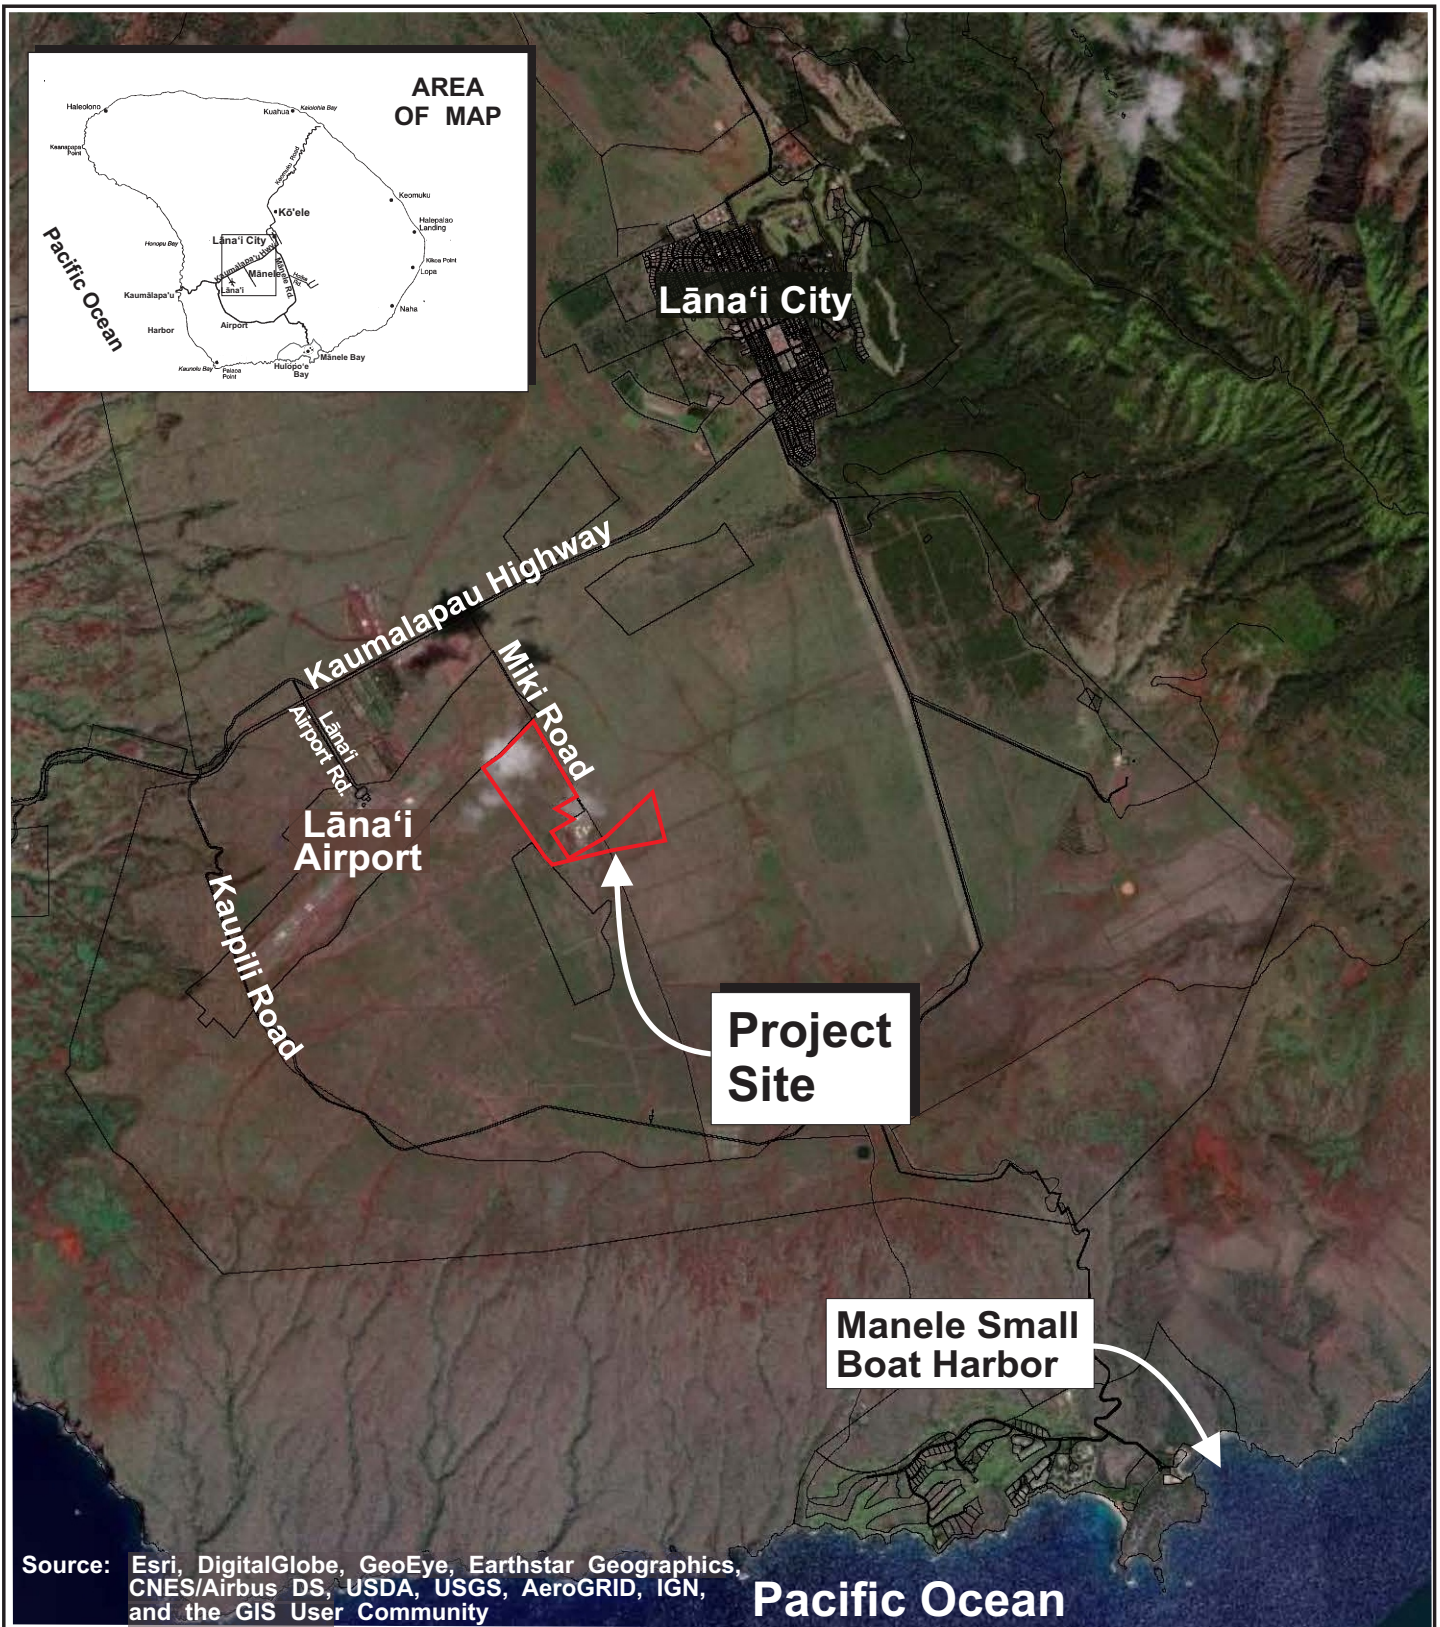

Other:

Relevance: The project directly supports the objective of significantly increasing the use of renewable and green technologies to promote energy efficiency and energy self-sufficiency, with 127 acres proposed for renewable energy use that will reduce the island's dependence on fossil fuels.

**7 - NOTICE OF FILING OF APPLICATION**  
**(ZPA\_Notice-of-Filing-of-App\_Miki\_Basin\_Industrial)**

# NOTICE OF APPLICATION

Date: Oct 5, 2022

TO: **OWNERS/LESSEES**

Please be advised that the undersigned has filed an application for a Change of Zoning with the County of Maui, Department of Planning for the following parcel(s):

1. Tax Map Key Number: (2) 4-9-002:061(por.) (see attached map)

2. Street address: Miki Road, Lānaʻi, Hawaiʻi

3. Land Use Designations and Change(s) Being Sought:

	<u>Existing</u>	<u>Proposed</u>
State Land Use District	<u>District Boundary Amendment from Agricultural to Urban is in process with the State Land Use Commission (Docket A19-809)</u>	<u>No Additional Change</u>
Community Plan	<u>Light Industrial/Heavy Industrial</u>	<u>No Change</u>
Zoning	<u>Agricultural and Interim</u>	<u>M-1 Light Industrial, M-2 Heavy Industrial</u>
Other	<u></u>	<u></u>

4. Description of the existing uses on the Property:

Vacant, with the exception of a 14.5-acre interim industrial uses area established on a portion of the project area that borders the western side of the Miki Basin Industrial Area (approved SUP2 2021-0008).

5. Description of the proposed development and uses on the Property:

200-acre light and heavy industrial park, including 127 acres for renewable energy, 20 acres for infrastructure purposes (roads, common areas, and other related uses), 12.5 acres for relocation of an existing asphalt plant, 14.5 acres for relocation of an existing concrete recycling and rock crushing facility, and 26 acres for new industrial uses.

*The Applicant is responsible for ensuring accuracy of the information.*

**LIMITED WARRANTY DEED**

THIS LIMITED WARRANTY DEED is made as of June 22, 2012, by **CASTLE & COOKE, INC.**, a Hawaii corporation, hereinafter called the "**Grantor**," in favor of **CASTLE & COOKE RESORTS, LLC**, a Hawaii limited liability company whose address is 680 Iwilei Rd., Suite 510, Honolulu, Hawaii 96817, hereinafter called the "**Grantee**."

**WITNESSETH:**

That for Ten Dollars (\$10.00) and other good and valuable consideration paid by the Grantee, the receipt of which is hereby acknowledged, the Grantor does hereby grant, bargain, sell and convey unto the Grantee, as tenant in severalty, all of the property more particularly described in **Exhibit A** attached hereto and made a part hereof;

And the reversions, remainders, rents, issues and profits thereof and all of the estate, right, title and interest of the Grantor, both at law and in equity, therein and thereto, including but not limited to, if any, water, minerals, metals and geothermal resources;

TO HAVE AND TO HOLD the same, together with all buildings, improvements, rights, easements, privileges and appurtenances thereon and thereto belonging or appertaining or held and enjoyed therewith, unto the Grantee according to the tenancy herein set forth, forever.

AND, in consideration of the premises, the Grantor does hereby covenant with the Grantee that the Grantor is lawfully seised in fee simple of the property herein described (the "Property") and has good right to sell and convey the Property; that the Property is free and clear of all encumbrances made or suffered by the Grantor, except as set forth in **Exhibit A** and except for the lien of real property taxes not yet by law required to be paid; and that the Grantor shall WARRANT AND DEFEND the foregoing against the lawful claims of all persons claiming by, through, or under the Grantor, unto the Grantee and the Grantee's successors and assigns, forever.

AND the Grantor quitclaims to the Grantee all rights, title and interests reserved, granted or acquired by the Grantor or its predecessors in interest with respect to land owned by others on the island of Lanai, including but not limited to, if any, rights and interests with respect to easements, rights of way, access, water, minerals, metals, geothermal resources, and restrictive covenants.

The rights and obligations of the Grantor and the Grantee shall be binding upon and inure to the benefit of their respective estates, heirs, personal representatives, successors, successors in trust, and assigns. The conveyance herein set forth and the warranties of the Grantor concerning the same are expressly declared to be in favor of the Grantee, and the Grantee's heirs, personal representatives, successors, successors in trust and assigns.

The terms "**Grantor**" and "**Grantee**," as and when used herein, or any pronouns used in place thereof, shall mean and include the masculine or feminine, the singular or plural number, individuals or corporations, limited liability companies or partnerships, and their and each of their respective, heirs, personal representatives, successors, successors in trust, and assigns, according to the context thereof.

This Deed is being made as a part of a larger sale of assets by the Grantor relating to the island of Lanai through which the Grantor is receiving consideration for this Deed by the transfer of assets from the Grantee and additional value from the Grantee and its affiliates.

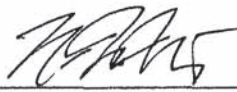

IN WITNESS WHEREOF, the Grantor has executed these presents as of the day and year first above written.

Lots 13-A-1-A of Land Court Consolidation No. 170 and Apana 1 of Land Court Application No. 786 were consolidated and resubdivided into Lots 13-A-1-A-1 and 13-A-1-A-2 as shown on survey map prepared by Kirk T. Tanaka, Land Surveyor with R. T. Tanaka Engineers, Inc., dated March 17, 2016, last revised July 21, 2016, approved by the Department of Public Works, City and County of Maui, Subdivision File Number 6.180, on October 31, 2017.

61. Any matters affecting title to the land which may arise out of final approval of the Petition(s) for subdivision by the Land Court of the State of Hawaii.

SCHEDULE B CONTINUED

62. Discrepancies, conflicts in boundary lines, shortage in area, encroachments or any other matters which a correct survey or archaeological study would disclose.
63. Any unrecorded leases and matters arising from or affecting the same.
64. Claims arising out of customary and traditional rights and practices, including without limitation those exercised for subsistence, cultural, religious, access or gathering purposes, as provided for in the Hawaii Constitution or the Hawaii Revised Statutes.

**END OF SCHEDULE B**

## SCHEDULE C

All of that certain parcel of land situate on the Island of Lanai, County of Maui, State of Hawaii, described as follows:

LOT 13-A-1-A, area 17,113.987 acres, (deducting therefrom the following lots of Land Court Application 862:

LOTS E-2-A-1-A-1-B,  
E-2-A-1-A-1-D,  
E-2-A-1-A-1-F,  
E-2-A-1-A-1-G,  
E-2-A-1-A-1-H and  
E-2-A-1-A-1-J, as shown on Map 13;  
35, as shown on Map 19;  
37, as shown on Map 20;  
44 and 45, as shown on Map 21;  
724 to 731, inclusive and  
733 to 743, inclusive, as shown on Map 48;  
746 to 751, inclusive, as shown on Map 60;  
Exclusions 13, 17, 18, 26 and 36 as shown on Map 3;  
and all existing Government Roads  
and also the following lots of Land Court Consolidation  
No. 170;  
LOTS 12 as shown on Map 5; and  
13-B to 13-G, inclusive, as shown on Map 6; containing an  
area of 889.799 acres),

and containing a net area of 16,224.188 acres, more or less, as shown on Map [15](#), filed in the Office of the Assistant Registrar of the Land Court of the State of Hawaii with Land Court Consolidation No. 170 of Castle & Cooke, Inc.;

Together with perpetual rights and easements as set forth by Land Court Order No. [132974](#), filed October 12, 1998, as follows:

(A) Perpetual right and easements to build, construct, install, maintain, operate, repair and/or replace pole and wire lines or underground lines for power and communications; underground water pipelines, including fire hydrants and valves; underground concrete and/or corrugated iron structures for purposes of drainage and irrigation; and underground sewer lines;

SCHEDULE C CONTINUED

(B) Perpetual right and easements to install, construct, lay, maintain, repair, remove and/or replace an underground water pipeline or pipelines along, across, through and under Lots 482-B, 553-B, 303-B, 549, 551-C and 561-A, together with the right of access from time to time for the purpose aforesaid; provided, however, and this reservation is on the condition that, if said easements are not used for the aforesaid purpose at any time for a period of two (2) consecutive years, then the same shall cease and terminate, as reserved in Deeds, dated December 1, 1961, December 1, 1961, January 30, 1962, July 27, 1962, April 20, 1964 and April 20, 1964, filed as Document Nos. [282714](#), [282715](#), [286951](#), [293717](#), [329739](#) and [329740](#), respectively; and

Being land(s) described in Transfer Certificate of Title No. 1,044,094 issued to CASTLE & COOKE RESORTS, LLC, a Hawaii limited liability company.

BEING THE PREMISES ACQUIRED BY LIMITED WARRANTY DEED

GRANTOR : CASTLE & COOKE, INC., a Hawaii corporation  
GRANTEE : CASTLE & COOKE RESORTS, LLC, a Hawaii limited liability company

## GENERAL NOTES

1. There is hereby omitted from any covenants, conditions and reservations contained herein any covenant or restriction based on race, color, religion, sex, sexual orientation, familial status, marital status, disability, handicap, national origin, ancestry, or source of income, as set forth in applicable state or federal laws, except to the extent that said covenant or restriction is permitted by applicable law. Lawful restrictions under state or federal law on the age of occupants in senior housing or housing for older persons shall not be construed as restrictions based on familial status.
2. CHANGE OF NAME AND ORDER filed as Land Court Document No. T-[8310375](#) sets forth the change of name from CASTLE & COOKE RESORTS, LLC to LANAI RESORTS, LLC.
3. CHANGE OF NAME AND ORDER filed as Land Court Document No. T-[9312234](#) sets forth the change of name from LANAI RESORTS, LLC to LĀNA'I RESORTS, LLC.

## **SCHEDULE D**

### **CONDITIONS AND STIPULATIONS**

1. This Status Report (which term shall include any revisions thereto) is a report of the record title only, based solely upon an abstract and examination of the Indices described in Schedule A as of the date of the Report. No responsibility is assumed for (a) matters which may affect the title but either were not disclosed or were incorrectly disclosed in said indices at the date hereof; or (b) matters created, suffered, assumed, or agreed to by Purchaser; or (c) matters not shown herein but actually know to Purchaser. Title Guaranty of Hawaii, Inc. (the "Company") makes no representation as to the legal effect, validity or priority of matters shown or referred to herein.
2. If the Report is incorrect in any respect, the responsibility of the Company shall be limited to the resulting actual loss, including any attorney's fees and legal costs, but in no event shall exceed the lesser of \$3,500 or two times the amount paid for the Report. Upon payment of any loss hereunder, the Company shall be subrogated to all rights the Purchaser may have against any person or property as a result of such loss.
3. If the Purchaser of this Report shall suffer an actual loss by reason of the incorrectness of the Report, the Purchaser shall promptly notify the Company in writing. After receipt of such notice, the Company shall be allowed a reasonable time in which to investigate the claim. At its sole option, the Company may litigate the validity of the claim, negotiate a settlement or pay to Purchaser the amount the Company is obligated to pay under this Report. The Company's responsibility hereunder constitutes indemnity only and nothing herein shall obligate the Company to assume the defense of the Purchaser with respect to any claim made hereunder.
4. This report is the entire contract between the Purchaser and the Company and any claim by Purchaser against the Company, arising hereunder, shall be enforceable only in accordance with the provisions herein.
5. Notice required to be given the Company shall include the Order Number of this Report and shall be addressed to Title Guaranty of Hawaii, Inc., P.O. Box 3084, Honolulu, HI 96802, Attention: Legal Department.

SUBJECT: Proposed Miki Basin Industrial Park Project in Lānaʻi City; TMK (2) 4-9-002:061 (por.); Lānaʻi, Hawaiʻi 96763

Dear Ms. McLean:

Lanai Resorts, LLC a Hawaiʻi limited liability company doing business as Pūlama Lānaʻi, owner of the above-referenced parcel, submits this letter to authorize Munekiyo Hiraga to prepare, file, process, and obtain all required regulatory permits for the subject project including, but not limited to, a Change of Zoning application.

I certify that I am an authorized signatory for the subject property.

Should you have any questions, feel free to contact me at (808) 237-2001.

Sincerely,

*Kurt Matsumoto*

**14 - MISCELLANEOUS PLANS,  
SURVEYS AND DOCUMENTATION**  
(Misc\_Plans\_Survey\_and\_Documentation\_Miki\_Basin  
\_Industrial )

The conceptual master plan for Miki 200 Basin Industrial Park is illustrated in Figure 1. It should be noted that the site plan at this point for the project area is conceptual and the information provided below describing the size of structures, hours of operation, number of employees, etc. could change depending on a multitude of factors including economic conditions, technological advancements, etc.

## CONCEPTUAL MASTER PLAN FOR MIKI 200 BASIN INDUSTRIAL PARK

Pūlama Lānaʻi

Figure 1: Conceptual site plan.

### **Descriptions of areas identified in Figure 1**

#### **A: Renewable Energy Projects**

The Renewable Energy Project site will include 127 acres for renewable energy projects, including photovoltaic equipment and battery energy storage. Its location is adjacent to the Hawaiian Electric Company's (HECO) fossil fuel power plant. Future renewable energy projects that will be constructed here will significantly reduce the connection costs associated with bringing the renewable energy project online, due to its close proximity to the HECO substation. The electricity generated by the renewable energy project will provide clean energy for 95 percent of the energy demand for the island of Lānaʻi. By replacing the use of fossil fuels with renewable energy, Lānaʻi will increase its resiliency and minimize the impacts of price fluctuations based on the price of oil.

The renewable energy projects may be constructed by a third party. The State has a goal to reach 100 percent renewable energy by 2045. Facilities and equipment at the Applicant's site may include but is not limited to photovoltaic panels, battery energy storage systems, substation structures, control equipment enclosure cabinets, circuit breakers, transformers, relays, switches, arresters, telecommunication equipment and security equipment.

Figure 2: Aerial image of Kaua'i Island Utility Cooperative (KIUC) Photovoltaic and Battery Energy Storage Project. Provided here as a visual representation of what will be located in the future.

### B: Asphalt Plant

The Asphalt Plant area will be 12.5 acres. The table below summarizes the structures that are contemplated to be located at the Asphalt Plant; however, as noted above these are estimates based on the current structures in another location and could be altered. In general, the equipment is similar. Further, approximately 90 percent of the area is aggregate stockpiled material.

Equipment or Structure Name	Description (Providing specific equipment description; however, we reserve the right to switch equipment vendors. The functionality will remain similar.)	Size of structure (sqft)
Asphalt Plant	110 ton per hour Asphalt Drum Mixers, Inc. hot mix asphaltic concrete batching plant, which includes: <ul style="list-style-type: none"> <li>- Rotary drum dryer model SPL110</li> <li>- Hot oil tank/heater</li> <li>- Venturi wet scrubber with sediment collection pond</li> <li>- Hot mix silo</li> <li>- Aggregate bins</li> <li>- Conveyor belt assemblies</li> </ul>	79,000
Aggregate Stockpiles	Rock and sand material stockpiles required to support asphalt batching operations	
Portable Restrooms	1 portable restroom unit	10
Office Trailer	Mobile office trailer	220

- Hours of operation: 7:00 am – 3:30 pm

- Estimated number of employees: The crushing operation will require 6 to 8 employees, the concrete batching operation will require up to 9 employees and the asphalt batching operation will require up to 8 employees anticipating a moderate amount of growth.
  - It should be noted that there are shared resources of employees at the asphalt plant and concrete crushing operation.
- Estimated relocation of equipment: Relocation to commence within a year of approval of all entitlements, subject to availability of island operations and other projects.
- Landscaping: No landscaping improvements are contemplated in the industrial area.
- Construction cost estimate: No new construction of structures are estimated at this time. Either relocation of existing structures or pre-fabricated structures will be installed.

*Figure 3: Aerial image of existing Asphalt Plant on Lānaʻi. This is provided as a visual representation of what the area will look like in the future.*

### **C: Concrete Crushing Facility**

The Concrete Crushing Facility area will be 14.5 acres and will include two separate operations; a natural rock material and demolished concrete crushing operation and a concrete batching operation. It should be noted that approximately 90 percent of the area is aggregate stockpiled material. The table below summarizes the structures that are contemplated to be located at the Concrete Crushing Facility; however, as noted above these are estimates based on the current structures in another location and could be altered. In general the equipment is similar.

<b>Equipment or Structure Name</b>	<b>Description</b> (Providing specific equipment description; however, we reserve the right to switch equipment vendors. The functionality will remain similar.)	<b>Size of structure (sqft)</b>
Scale house	100,000 pound certified weigh scale for all aggregate and vehicle measurements	700 (platform with office container)
Concrete Batch Plant	200 cubic yards per hour Con-E-Co Lopro327 portable dry batch concrete plant, which includes: <ul style="list-style-type: none"> <li>• Aggregate bins</li> <li>• Weigh scales</li> <li>• Air compressors</li> <li>• Hoppers</li> <li>• Belt and screw conveyor assemblies</li> </ul>	25,000
Cement Silo Storage	<ul style="list-style-type: none"> <li>• Two 60 ton vertical cement silos,</li> <li>• 150 ton vertical cement silo</li> <li>• 125 ton horizontal cement trailer</li> </ul>	
Aggregate Stockpiles	Rock and sand material stockpiles required to support concrete batching operations	
Concrete Washout Pit	Lined excavation pit that facilitates cleaning cement mixer trucks. Contents are dried and then safely disposed.	
Crushing Equipment	460 ton per hour mobile crushing plant and associated conveyor belts	16,400
Office Trailer	Williams Scotsman mobile office trailer	360
Portable Restrooms	1 portable restroom unit	10
Water tank	10,000 gallon water tank	150

- Hours of operation: 7:00 am – 3:30 pm
- Estimated number of employees: The crushing operation will require 6 to 8 employees, the concrete batching operation will require up to 9 employees and the asphalt batching operation will require up to 8 employees anticipating a moderate amount of growth.
  - It should be noted that there are shared resources of employees at the asphalt plant and concrete crushing operation.
- Estimated relocation of equipment: Relocation to commence within a year of approval of all entitlements, subject to availability of island operations and other projects.
- Landscaping: No landscaping improvements are contemplated in the industrial area.
- Construction cost estimate: No new construction of structures are estimated at this time. Either relocation of existing structures or pre-fabricated structures will be installed.

*Figure 4: Concrete Crushing Operation site on Lānaʻi, providing as a visual representation of similar equipment that will be located in the future.*

*Figure 5: Aerial image of existing Concrete Batch Plant on Lānaʻi. This is provided as a visual representation of what the area will look like in the future*

*Figure 6: Aerial image of aggregate stockpiles currently in the area.*

#### **D: Other Industrial Uses**

The other industrial uses will be 26 acres and will consist of uses allowed under Maui County Code “M-1, Light Industrial” and “M-2, Heavy Industrial” zoning. While the specific uses have not been identified at this time, possible new future industrial uses may include a slaughterhouse, warehouse space for cold storage, animal hospital or other uses.

There are no buildings or site plan contemplated, at this time. The area includes potential developable areas in purple, a detention basin in green, a steep slope bank in army green (not developable), and an on-site loop road.
