Please Support the Bill Phasing Out Oxybenzone and Octinoxate Sunscreens

HR Helen Radow <hradow@everyactioncustom.com> 📧
Wed 11/22/2017 3:24 PM
To: County Clerk ↗

Dear Maui County Clerk Maui County Council,

I am writing to ask that you support the bill phasing out oxybenzone- and octinoxate-based SPF products. These chemicals are known reef killers, and we must do everything to protect this fragile ecosystem.

If this bill is passed, Council will leave a lasting legacy for Maui's future and put us on the map as a world leader in protecting our ocean environment.

If this bill does not pass, our reefs will continue to suffer and this will negatively effect Maui's people, ecosystems and our economy. People from all over the world flock to Maui every year because of the island's pristine beauty, but more and more locals and visitors alike are leaving the water disappointed because our reefs are dead or dying. Many local people rely on the sea to provide food, but as the reef die so go the fish. Maui's future will be much less bright without thriving coral reef.

Please vote to pass this landmark legislation. Mahalo for your leadership!

Sincerely,
Ms. Helen Radow

Aloha,

I am a 10 year resident and work for a raft in Lahaina Harbor. The fact that visitors and locals alike are allowed to put on poison and swim in the ocean should be prohibited. We desperately Need to educate people on the harmful effects to themselves and our reefs.

Acting now by banning these toxic sunblocks can be the difference between improving our local ocean and the health of future generations. Applying a ban will give center stage to the issue and help ensure we do the right thing for the beautiful state of Hawai'i.

Please consider my feedback in this matter.
Mahalo Nui,
Celia Roberts

Subject: Please Support Bill 17-179 Prohibiting the Sale and Use of SPF Sunscreens Containing Oxybenzone and Octinoxate

Dear Maui County Clerk Maui County Council,

Aloha Council,

My deepest appreciation for the support of such an amazing bill. I snorkel swim as often as I can off the South Shore and over the 11 years I have lived here, I have watched the deterioration of our reefs and not just from sunscreen. But these bad sunscreen ingredients, as I have learned from the Ranger at Ahihi Kinau are doing damage at an alarming rate. These reefs are our County's great treasures...for both residents and visitors. Make history here!!!!

I strongly support the bill to prohibit the sale and use of oxybenzone- and octinoxate-based SPF products on Maui. These chemicals are known reef killers, and we must do everything to protect this fragile ecosystem.

Subject: Item 17-484 ~ Legislative Branch Organization

Aloha Mr. Danny Mateo,

It has been brought to my attention of this proposed bill , entitled "A BILL FOR AN ORDINANCE TO AMEND SECTION 2.08.050, MAUI COUNTY CODE, PERTAINING TO LEGISLATURE BRANCH ORGANIZATION".

As a native of Maui working in the visitor industry for the past 43 years I have come to realize how important your co-workers, your peers, your visitors and so much more, become a part of how you conduct your business and yourself. It is apparent that relationships are formed in this process, whether, boss to employee, employee to employee, whatever the combination, a relationship is an important and essential component for success no matter what level you thrive to achieve.

I am writing to you to voice my viewpoint and persuade highly **against this ordinance.**

It is important that our representatives build relationships that help the continuity and the vitality of purpose in their respective office and position. These same relationships, as you know in Hawai'i, truly become your 'ohana. To be dismissed by persons who have not been part of your 'ohana is unthinkable, honestly, just excluding stability, flow, cohesion and I can go on an on....I am sure my point is clear.

I would appreciate that you would see that my testimony be accepted as presented as I am not able to make a personal appearance this Friday. If there is a need to contact me feel free to email a response to this email or by phone, 808-281-9306.

Mahalo nunui for your time,

Aloha,

I am writing today to let you know that i am extremely concerned about Council Communication 17-484. This legislation in my eyes is a corrupt bill.

We worked hard to elect those to represent us and they should be left alone to do their job. Members' staff are an extension of the ELECTED member, and should not be threatened by a majority vote of the council. This is a form of “Bullying”!

This would essentially prohibit members' staff from safely and effectively conducting business on behalf of the member. I sincerely hope that your office does not allow this to happen and moves to have this item FILED. The public is paying attention and I am concerned for the welfare of our island should you allow bills like this to pass.

Thank you,
Alana Ross

Containing Oxybenzone and Octinoxate

Dear Maui County Clerk Maui County Council,

I strongly support the bill to prohibit the sale and use of oxybenzone- and octinoxate-based SPF products on Maui. These chemicals are known reef killers, and we must do everything to protect this fragile ecosystem.

If this bill is passed, Council will leave a lasting legacy for Maui's future and put us on the map as a world leader in protecting our ocean environment.

If this bill does not pass, our reefs will continue to suffer and this will negatively effect Maui's people, ecosystems and our economy. People from all over the world flock to Maui every year because of the island's pristine beauty, but more and more locals and visitors alike are leaving the water disappointed because our reefs are dead or dying. Many local people rely on the sea to provide food, but as the reefs die so go the fish. Maui's future will be much less bright without thriving coral reef.

Please show the community you care about Maui's future by voting yes on this landmark legislation.

Mahalo for your leadership!

Sincerely,
Ms. Shannon Rudolph

to counsil members concerned about the future of the reefs around Maui!

Please consider to make sunscreens containing harmfull ingredients (Oxybenzone and octinoxate)for the reefs, to not be sold here on Maui, better not in the whole State! It should not even be allowed to come in peoples suitcases from out of State!

As I see with my own eyes, the sorry state of the reefs now, it makes me so sad for the once so thriving ocean landscape. Not much is left for future generations to see, for tourist, who come for vacation to swim and admire - what! corals are dying if not dead already. Next to go is the fish, who live by the reef, which supported their life!

The least we can do is taking harmfull sunscreens with Oxybenzone and octinoxate out of the equation of the horrible bleaching reefkilling substances.

Please pass this!

Sincerely,

Jette Slater,

POB 790913,

Paia,

This is probably the most cost-effective thing that can be done quickly to protect what's left of the near shore coral reef's. As an avid snorkeler it has been shocking how many areas have not only bleached but totally dead coral in just the past year and a half. There are plenty of alternative sunscreens on the market, we don't want to sell what's left of our coral reefs to allow tourists to use cheap unconscionable sunscreens.

Scientific American - Feb. 3, 2017:
Hawaii Seeks to Ban "Reef-Unfriendly" Sunscreen

Downs' team detected oxybenzone contamination of up to 4,000 parts per trillion (ppt) in the waters off the most popular beaches of the Hawaiian island of Maui. An oxybenzone concentration of around 400 ppt over several days is enough to induce coral bleaching in warm waters, they say.

Aloha,

I am writing in support of Bill 17-179, "Prohibiting the Sale and Use of SPF Sunscreens Containing Oxybenzone and Octinoxate."

As a regular tourist to Maui to dive and snorkel its coral reefs, this is an important resource worth protecting. It generates millions of dollars for the local economy, support maritime jobs of all kinds.

These chemicals have been scientifically proven to harm and kill coral reefs. There's no need for oxybenzone and octinoxate sunscreen products. Alternative products provide broad spectrum sun protection without harming our coral reefs.

Thank you for supporting this bill.

Dear Maui County Clerk Maui County Council,

The reef deserves all the protection it can get. Its a living creature and it makes Maui such a great place to live. The benefits of this bill far outweigh the burdens.

I strongly support the bill to prohibit the sale and use of oxybenzone- and octinoxate-based SPF products on Maui. These chemicals are known reef killers, and we must do everything to protect this fragile ecosystem.

If this bill is passed, Council will leave a lasting legacy for Maui's future and put us on the map as a world leader in protecting our ocean environment.

If this bill does not pass, our reefs will continue to suffer and this will negatively effect Maui's people, ecosystems and our economy. People from all over the world flock to Maui every year because of the island's pristine beauty, but more and more locals and visitors alike are leaving the water disappointed because our reefs are dead or dying. Many local people rely on the sea to provide food, but as the reefs die so go the fish. Maui's future will be much less bright without thriving coral reef.

Please show the community you care about Maui's future by voting yes on this landmark legislation.

Subject: Please Support Bill 17-179 Prohibiting the Sale and Use of SPF Sunscreens Containing Oxybenzone and Octinoxate

Dear Maui County Clerk Maui County Council,

I strongly support the bill to prohibit the sale and use of oxybenzone- and octinoxate-based SPF products on Maui. These chemicals are known reef killers, and we must do everything to protect this fragile ecosystem.

If this bill is passed, Council will leave a lasting legacy for Maui's future and put us on the map as a world leader in protecting our ocean environment.

If this bill does not pass, our reefs will continue to suffer and this will negatively effect Maui's people, ecosystems and our economy. People from all over the world flock to Maui every year because of the island's pristine beauty, but more and more locals and visitors alike are leaving the water disappointed because our reefs are dead or dying. Many local people rely on the sea to provide food, but as the reefs die so go the fish. Maui's future will be much less bright without thriving coral reef.

Please show the community you care about Maui's future by voting yes on this landmark legislation.

Mahalo for your leadership!

Sincerely,
Mr. Ikaika Soares

Importance: High

Dear Honorable Chair, Co-Chair and HHT Committee:

I extend heartfelt respect and gratitude for your passing HHT -39 (Resolution for Front Street Apartments) . It was a great meeting filled with a lot of good questions excellent information.

Thank you for giving me hope and a good holiday. Last year I found out, but not from Management, about our status from Affordable to Market and my immanent homelessness on Thanksgiving day. It has been a long year filled with depression, hopelessness, yet you gave me back some Hope.

I am totally disabled not getting any younger either. Sadly, I do not even have money to move even if there were a place which we all know there is not. Your efforts are appreciated by every single one of us here at FSA's. We need your help desperately and your vote "yes" is critical on Friday December 1, 2017- NO. 17-178.

Mahalo Nui Loa.

Respectfully Yours,
Carmie Spellman

Aloha Maui County Council,

I am appalled that CC 17-484 is even being proposed. If it is even legal it is highly unethical. It is an abuse of power at the highest level. I strongly oppose this legislation.

Dear Maui County Clerk Maui County Council,

Please support the bill phasing out oxybenzone- and octinoxate-based SPF products. These chemicals are known reef killers, and we must do everything to protect this fragile ecosystem that is so valuable to our people and our visitors.

By passing this bill Council will show itself again as a world leader in protecting our ocean environment.

Without this bill, our reefs will continue to decline. The vital protection they provide our eroding coastline against surf and storm surge will continue to decline.

More and more locals and visitors are leaving the water disappointed because our reefs are dead or dying. Many local people rely on the sea to feed their families, but as the reef die so do the fish.

Please vote to pass this landmark legislation. Mahalo for your leadership!

Sincerely,

Aloha Chair White:

Please find the attached testimony for the proposed Bill on sand mining scheduled for the December 1, 2017 Maui County Council meeting.

Aloha

Daren Suzuki
Maui Lani Partners

MAUI LANI

A MAUI COUNTY DEVELOPMENT

November 30, 2017

Honorable Mike White, Chair
 Maui County Council
 200 South High Street
 Wailuku, HI 96793

Subject: Proposed Bill Declaring a Moratorium on Sand Mining of Central Maui Inland Sand, (IEM-33)

Dear Chair White and members of the Maui County Council:

On November 17, 2017, the Maui County Council voted to defer First Reading of the proposed Sand Moratorium bill. This deferral would allow some time for landowners to come forward and provide updated information on their properties for granting of a waiver to the moratorium.

Maui Lani Partners appreciates this deferral as we were not aware that waiver can be granted prior to the enactment of this moratorium. As such, we request that the following properties be exempt from this moratorium:

TMK:	Owner	acres	DLNR approvals	grading plan
238007152 (79, VMX)	Maui Lani, 100, LLC	7.537	Exhibits: 1 and 2	Exhibits: 3 and 4
238007157 (6D)	Maui Lani Partners	2.568	Exhibits: 5 and 6	Exhibit: 7
238007168 (77, VMX)	Maui Lani, 100, LLC	2.07	Exhibits: 1 and 2	Exhibits: 3 and 8
238007174 (regional park)	Maui Lani, 100, LLC	12.11	Exhibits: 9	Exhibit: 10
238097076 (76, VMX)	MLVC, Inc.	2.208	Exhibits: 1 and 2	Exhibits: 3 and 8
238007153 (Phase 9)	Maui Lani Partners	62.581	Exhibits: 11 and 12	Exhibit: 13
238007151 (Phase 8)	Gentry Maui	46.698	Exhibits: 14 and 15	Exhibits: 3 and 16

All properties listed above (with the exception of 238007153) have been mass graded with valid grading permits and approved archaeological surveys/assessments and monitoring plans. All known burial sites are protected by mitigation plans in compliance with HRS 6E.

Regarding parcel 238007153 (Phase 9), valid grading permits for the construction of a residential subdivision have been issued for this property with approved archaeological assessment reports and monitoring plans. During construction of the single family subdivision, there were 5 inadvertent discoveries which are pending final determination by the Department of Land and Natural Resources, Historic Preservation Division (SHPD) in accordance with Section 6E HRS. These known burial site are protected by interim mitigation plans approved by SHPD.

Honorable Mike White, Chair
November 30, 2017
Page -2-

The property also consists of the Central Maui joint venture water lines, HC&S irrigation lines, 3 well sites and pump stations with water transmission lines connecting to Kuikahi Drive and the Waiale Tank that provides water to various districts on Maui. Preliminary subdivision approval was also granted on September 29, 2017 for a residential subdivision which will include approximately 170 homes and are on hold pending the Planning Department's review of grading definitions (Exhibit 17).

Thank you for your consideration on excluding these parcels that have been mass graded and/or currently have valid permits and approvals from the moratorium. Should you have any questions, or need additional information, please contact me or Daren Suzuki at 244-8730, or by email at lpaci@mauilani.com or dsuzuki@mauilani.com.

Sincerely,

for Leiane Paci, Partner

Archaeological Services Hawaii, LLC
18 South Market Street, Suite G
Wailuku, Hawaii 96793

LOG NO: 2004.3187
DOC NO: 0410MK20

Dear Mr. Pantaleo:

SUBJECT: Chapter 6E-42 Historic Preservation Review of an Archaeological Monitoring Plan Proposed Construction on a Residentially Zoned parcel for Mr. Dave Gleason Formerly referred to as the "Light Industrial Park" Wailuku Ahupua'a, Wailuku District, Maui
TMK (2) 3-8-07: Por. 131

Thank you for the opportunity to review this plan which was originally sent to our office on May 3, 2004 (Rotunno-Hazulka and Pantaleo 2004, *Archaeological Monitoring Plan for the Proposed Construction of a Residentially Zoned parcel, TMK 3-8-07:131 Pors. Wailuku Ahupua'a, Wailuku District, Island of Maui*. Archaeological Services Hawaii, LLC, ms). We have previously commented on this parcel as part of Maui Land Use Plan Update and Related Project District Amendments (Log 2004.1833/Doc 0405CD49) and indicated that an archaeological survey was conducted on this portion of the project area in 2001. The report (Simoto et al. 2001, *Supplementary Archaeological Sampling: Proposed Light Industrial Park Maui Lani Development Area, Wailuku, Maui Island, TMK 3-8-07: por 131*) was reviewed (Log 28525/Doc 0110MK03) and revisions were recommended. Upon receiving this monitoring plan, we indicated to you that the requested revisions were necessary prior to our processing the review of the monitoring plan. We received the recommended revisions to the archaeological inventory survey on September 13, 2004. The revisions have been reviewed and accepted (Doc. 0410MK19). We can now proceed with the review of the monitoring plan.

The plan conforms with DLNR/SHPD guidelines governing standards for monitoring and includes the following provisions. An archaeologist will be on site on a full-time basis and will have the authority to halt excavation in the event that cultural materials are identified. Consultation with Maui SHPD will occur in this event, to determine acceptable course of action. If human burials are identified, work will cease, the SHPD Burial Sites Program, Maui SHPD, O'ahu SHPD and the Maui/Lana'i Islands Burial Council will be notified, and compliance with procedures outlined in HRS 6E-43.6 and HAR 13-300 will be followed. Coordination meetings with the construction crew will be held prior to project initiation. The plan further indicates that an acceptable report will be submitted to this office within 180 days of project completion.

EXHIBIT

Jeffrey Pantaleo
Page 2

Please notify our Maui and O'ahu offices, via facsimile, at onset and completion of the project and monitoring program.

The plan is adequate and we can accept it as final. If you have any questions, please contact Dr. Melissa Kirkendall at 243-5169.

Aloha,

Melanie A. Chinen, Administrator
State Historic Preservation Division

Dear Mr. Pantaleo:

**SUBJECT: Chapter 6E-42 Historic Preservation Review – Archaeological Assessment Survey For Maui Lani Residential Subdivision Phases 6D and 7.4 for Maui Lani Partners Wailuku Ahupuaa, Wailuku District, Island of Maui
TMK (2) 3-8-007: por 131**

Thank you for the opportunity to review this report which our staff received on September 27, 2006, (Pantaleo and Rotunno-Hazuka 2006, *Archaeological Assessment Maui Lani Residential Subdivision Phases 6D and 7.4, Wailuku Ahupuaa, Wailuku District, Island of Maui, TMK 3-8-007: por 131*... Archaeological Services Hawaii, LLC, ms).

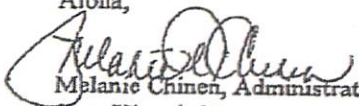

The assessment meets our minimum requirements, as set forth in HAR 276-5 (a) and (c). Archaeological inventory surveys in the general vicinity have also yielded negative results, although human burials are frequently identified during the monitoring process.

The survey has adequately covered the project area documenting no historic properties. Subsurface testing (twenty backhoe trenches) were also negative for evidence of cultural deposits. The stratigraphy revealed a homogeneous deposit of silty sand, lithified sand and either gravelly or lithified basal deposits.

We concur with the mitigation recommendation that, although no historic properties were identified, archaeological monitoring during all ground altering activities is warranted. We will anticipate receipt of an archaeological monitoring plan specific to Phases 6D and 7.4.

We find this report to be acceptable. As always, if you disagree with our comments or have questions, please contact Dr. Melissa Kirkendall at (808) 243-5169 as soon as possible to resolve these concerns.

Aloha,

Melanie Chinen, Administrator
State Historic Preservation Division

 Archaeology

Dear Mr. Ratte:

SUBJECT: Chapter 6E-42 Historic Preservation Review [County/DSA] –
 Grading and Grubbing Permit Application for the Proposed Mass Grading of
 Maui Lani Site 6-D (G T2006/0135) and Phase 7/ Increment 4 (G T2006/0136)
 Wailuku Ahupua'a, Wailuku District, Maui Island
TMK: (2) 3-8-007:131(portion) and 3-8-007:162

Thank you for the opportunity to review the grading and grubbing permit applications for the mass grading of future development for the Maui Lani Site 6-D and Phase 7 Increment 4 Subdivision. The proposed Maui Lani Project Site 6D (2.0 acres) and Phase 7.4 (17 acres) are located within the Pu'uone sand dune complex, where there have been numerous human burials documented (various SIHP numbers). During any and all ground alterations related to the proposed Phase 6D and/or 7.4, at least one archaeological monitor will be assigned to each piece of ground disturbing equipment.

We have accepted an archaeological assessment that met our minimum requirements, as set forth in HAR 276-5 (a) and (c). The assessment adequately covered the project area documenting no historic properties. Subsurface testing (twenty backhoe trenches) were negative for evidence of cultural deposits. We concurred with the mitigation recommendation that, although no historic properties were identified, archaeological monitoring is warranted for all ground altering activities. We recommended an archaeological monitoring plan specifically designed for the two phases (LOG NO: 2006.3597/ DOC NO: 0611MK11).

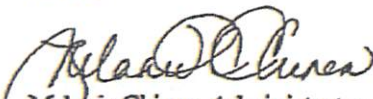

We have recently accepted an archaeological monitoring plan for the two phases entitled (Rotunno-Hazuka and Pantaleo 2007, *Archaeological Monitoring Plan for the Development of Phases 6D and 7.4 Located at Maui Lani Development TMK: (2) 3-8-007:131 Pors. Wailuku Ahupua'a, Wailuku District Island of Maui...Archaeological Services Hawaii, LLC*). For clarification regarding the specific boundaries for one of the proposed projects within such a large parcel, we request that all future references/correspondence for Phase 7 increment 4 reflect the recently designated TMK (2) 3-8-007:162 (formerly portion of 3-8-007:131).

EXHIBIT *b*

Mr. Bert Ratte
Page 2

Coordination meetings with the construction crew will be held prior to project initiation, SHPD will be notified on the onset and completion, and an acceptable report will be submitted to this office within 180 days of project completion. We believe it is unlikely that any historic properties will be affected with the implementation of the accepted archaeological monitoring plan (LOG NO: 2007.0986/ DOC NO: 0703JP19). If there are any questions or concerns, please don't hesitate to contact the SHPD, Maui Section at (808) 243-5169 or (808) 243-4641.

Aloha,

Melanie Chinen, Administrator

Dear Mr. Pantaleo:

**SUBJECT: Chapter 6E-42 Historic Preservation Review -
Archaeological Assessment Survey for a Portion of
Maui Lani Residential Subdivision Phase 8B and Maui Lani Regional Park
Wailuku Ahupuaa, Wailuku District, Island of Maui
TMK (2) 3-8-007: portion of 131**

Thank you for the opportunity to review this report which our staff received on August 18, 2006 (Pantaleo and Rotunno-Hazuka 2006, *Archaeological Assessment of a Portion of Maui Lani Residential Subdivision Phase 8B, and Maui Lani Regional Park, Wailuku Ahupuaa, Wailuku District, MTK 3-8-07 131 pors. Island of Maui*)...Archaeological Services Hawaii, LLC, ms.

The assessment meets our minimum requirements, as set forth in HAR 276-5 (a) and (c). The subject area is approximately 22 acres in size, and is within the Puone sand dune deposits.

The survey has adequately covered the project area documenting no historic properties. Subsurface testing (22 backhoe trenches) were also negative for evidence of cultural deposits.

We concur with the mitigation recommendation for monitoring during all ground altering activities within the proposed project area. We understand that the project will be covered under an existing monitoring plan, and we will expect a completed monitoring report within 180 days of completion of the project as per the HAR statutes.

We find this report to be acceptable. As always, if you disagree with our comments or have questions, please contact Dr. Melissa Kirkendall at (808) 243-1285 as soon as possible to resolve these concerns.

Aloha,

Melissa Kirkendall

Aloha Mr. Pantaleo:

**SUBJECT: Chapter 6E-42 Historic Preservation Review-
Draft Archaeological Assessment Addendum for a Portion of Maui Lani Phase 9
Wailuku Ahupua'a, Wailuku District, Island of Maui
TMK (2) 3-8-007:135, 153 and 159 (pors.)**

Thank you for the opportunity to review the draft plan titled *Additional Archaeological Assessment Procedures at Portions of Maui Lani Residential Phase IX, Wailuku Ahupua'a, Wailuku District, Island of Maui, TMK 3-8-007: pors. of 135, 153, 159* (Rotunno-Hazuka, Pantaleo, Formolo and Guerriero October 2014), which we received in October, 2014. We previously reviewed an earlier version of this plan and requested revisions (*Log No. 2010.1283, Doc no. 1011MD12*).

The subject area of the survey is a combination of previously graded land and trees/brush situated on the eastern periphery of the Puone sand dune. Twenty-two mechanical backhoe trenches were excavated, with no historic properties encountered.

The requested revisions have been adequately addressed. This AA meets the requirements of Hawai'i Administrative Rule § 13-275 and is accepted. Please send one hardcopy of the final document, clearly marked FINAL, along with a copy of this review letter and a text-searchable PDF version on CD to the Kapolei SHPD office, attention SHPD Library. Please contact me at (808) 243-4641 or Morgan.E.Davis@hawaii.gov if you have any questions or concerns.

Aloha Mr. Pantaleo

**SUBJECT: Chapter 6E-42 Historic Preservation Review-
Draft Archaeological Monitoring Plan for Maui Lani's Residential Subdivision, Phase 9
Wailuku Ahupua'a, Wailuku District, Island of Maui
TMK (2) 3-8-007:135, 153 and 159 (all, pors.)**

Thank you for the opportunity to review the plan titled *Archaeological Monitoring Plan for the Maui Lani Residential Phase IX, Wailuku Ahupua'a, Wailuku District, Island of Maui TMK: [2] 3-8-007: pors. 135, 153 and 159* (Rotunno-Hazuka and Pantaleo October 2013, revised December 2013), which we received in December 2013. We apologize for the delay in our reply.

This monitoring plan (AMP) was prepared at the request of Maui Lani Partners. The proposed project will include grading within a portion of approximately 30 acres. Monitoring will occur for all grading/filling activities including those associated with installation of all utilities within the subdivision, as well as lateral connection to main lines within the Maui Lani Parkway road. This AMP follows the review and approval of an archaeological assessment survey (Rotunno-Hazuka, et al. 2014; *Log No. 2014.04884, Doc No. 1411MD26*).

The subject area is bounded by Kuikahi Road extension to the south, an HC&S access road corridor and Waiale Reservoir to the west, and undeveloped parcels to the north. Maui Lani Parkway bounds the eastern border. Approximately 25% of the surface area has been impacted by prior grubbing of vegetation; grading for a former residential structure; baseyards; access roads; well sites; and utility pipe installations.

Excavations will range from 2-30 feet in depth, and all grading activities will be monitored full-time. One archaeological monitor per piece of ground-disturbing equipment is the protocol for this monitoring project.

The AMP meets the requirements of Hawai'i Administrative Rule § 13-279 and is accepted. **In the Final version, please provide a clearer map for Figure 1, page 4. Please notify the Maui office, via email or fax, on initiation and completion of the monitoring project.**

If this project extends beyond one year in duration, we request that annual interim monitoring reports be submitted, with a final report be submitted within 180 days after project completion. Please send one hardcopy of the final document, clearly marked FINAL, along with a copy of this review letter and a text-searchable PDF version on CD to the Kapolei SHPD office, attention SHPD Library.

Jeffrey Pantaleo
Archaeological Services Hawaii, LLC
16 South Market Street, Suite G
Wailuku, Hawaii 96793

LOG NO: 2004.2241
DOC NOC: 0407MK09

Dear Mr. Pantaleo,

Subject: Chapter 6-E-42 Historic Preservation Review of an Archaeological Monitoring Plan Proposed Construction on an Agriculturally Zoned Parcel (formerly part of the Ameron Sand Mining operation) for Mr. Dave Gleason, Wailuku Ahupua'a, Wailuku District, Maui TMK (2) 3-5-07: Por. 131

Thank you for the opportunity to review this plan which was sent to our office on 3 May 2004 (Rotunno-Hazuka and Pantaleo 2004, *Archaeological Monitoring Plan for the Proposed Construction of an Agriculturally Zoned Parcel, [TMK 3-5-07: 131] Pors., Wailuku Ahupua'a, Wailuku District, Island of Maui*. Archaeological Services Hawaii, LLC ms.). We have previously commented on this project as part of a Maui Land Use Plan Update and Related Project District Amendments (Log 2004.1633/Doc 0405CD49) and indicated that an inventory survey has not been conducted of this particular section of the project area. Ms. Rotunno-Hazuka (ASH, LLC) has indicated to us that the area specifically included in this monitoring plan has been subjected to considerable land alteration during Ameron Sand Mining operations. We believe, therefore, that monitoring is the recommended mitigation for this particular section (Please see attached map). Revisions to an interim monitoring report for finds to date on this section of the parcel have been submitted to our offices and are currently under review.

As indicated in the monitoring plan, reconnaissance level survey was conducted on the area in 1992. During monitoring for the Ameron Sand Mining operation three areas containing human remains were identified and accorded one site number (SIHP 50-50-04-5556). An interim monitoring report for Ameron is currently under review by this office. This monitoring plan has been submitted at the request of SHPD as a means of maintaining the current status of the project. This plan replaces any existing monitoring plans for this area of the subject parcel.

EXHIBIT 14

Jeffrey Pantaleo
Page 2

The plan conforms with DLNR/SHPD guidelines governing standards for monitoring and includes the following provisions. An archaeologist will be on site on a full-time basis, with the authority to halt excavation in the event that cultural materials are identified. Consultation with Maui SHPD will occur in this event, to determine acceptable course of action. If human burials are identified, work will cease, the SHPD Burial Sites Program, O'ahu SHPD, Maui SHPD, and the Maui/Lana'i Islands Burial Council will be notified, and compliance with procedures outlined in HRS 6.E-43 will be followed. Coordination meetings with the construction crew will be held prior to project initiation. An acceptable report will be submitted to this office within 180 days of project completion.

Please notify our Maui and O'ahu offices, via facsimile, at onset and completion of the project and monitoring program.

The plan is acceptable. If you have any questions, please contact Dr. Melissa Kirkendall at 243-5169.

Aloha,

Holly McEldowney

Aloha Mr. Pantaleo:

**SUBJECT: Chapter 6E-42 Historic Preservation Review--
Revised Draft Archaeological Monitoring Plan
Maui Lani Regional Park --North Section- and Maui Lani Residential Phase 8
Wailuku Ahupua'a, Wailuku District, Island of Maui
TMK (2) 3-8-007:150 (por.) and 151**

Thank you for the opportunity to review the draft plan titled *Draft Archaeological Monitoring Plan for the Northern Section of Maui Lani Regional Park and Residential Phase 8 Situated in Wailuku Ahupua'a and District, Pu'ali Komohana Moku, Island of Maui TMK [2] 3-8-007:150 pars and 151* (Rotunno-Hazuka and Pantaleo Revised January 2015). We received the submittal on January 22, 2015. During former reviews, we've requested additional information (Log 2014.03728 Doc 1409JP08, Log 2014.04749 Doc 1409JP09, Log 2014.04749, Doc 1410JP07, and Log 2014.03753, Doc 1412JP25 etc.). We have recommended revisions and consulted regarding the submittal of the subject plan.

The total area covered under the archaeological monitoring plan (AMP) includes 27.8 acres. An accepted archaeological assessment report included a 14.4 acre portion of the subject area (Log 2006.3500, Doc 0610MK15). Nine backhoe test trenches were placed in the north section of the Residential Phase 8 project area, which consists of 13.4 acres. Numerous human burial features were documented on the subject parcels during prior archaeological monitoring for mass grubbing and grading activities. Our History and Culture Branch consulted and approved the Burial Components of a Preservation Plan and Data Recovery documents, as detailed on page 9 in the AMP.

The revised AMP meets the requirements as specified in Hawai'i Administrative Rules §13-279-5 and is accepted. For the final submittal, please clarify that if construction plans change, the plan will cover all future and or additional work specifically *within the 27.8 acre project area*, opposed to *within the parcel* (Page 2). The plan states that all personnel will be apprised of the existing burial preservation areas, which are currently marked by orange construction fencing.

Please send one hardcopy, clearly marked **FINAL**, along with a copy of this review letter and a text-searchable PDF version on CD to the Kapolei SHPD office, attention SHPD Library. We continue to request that our Maui office is informed, in writing, of the **initiation and completion** of the upcoming construction monitoring project. Please contact Jenny Pickett at (808) 243-5169 or Jenny.L.Pickett@hawaii.gov if you have any questions or concerns about this letter.

SUBJECT: **MAUI LANI PHASE 9 SUBDIVISION**
TMK: (2) 3-8-007:135 & 153
SUBDIVISION FILE NO. 3.2378

Dear Mr. Unemori:

Preliminary approval was granted to the subject subdivision on September 29, 2017. Final approval shall be contingent upon compliance with the following conditions:

1. Submit a recommendation for final subdivision approval from Maui Electric Company (MECO). For further information, please contact MECO at 871-2390.
2. Requirements/comments from the State of Hawaii, Department of Transportation, Highways Division (DOT):

This subdivision will complete the Maui Lani Parkway improvements from Kaahumanu Avenue to Kuihelani Highway, thus improving the internal traffic circulation. We have no further comments to offer.

If you have any questions, please contact DOT at 873-3535.

3. Requirements/comments from the State of Hawaii, Department of Health:

We have no comments to offer.

If you have any questions, please contact Patti Kitkowski at 984-8230.

4. Submit a recommendation for final subdivision approval from the Department of Public Works, Engineering Division. For further information, please contact the Engineering Division at 270-7745.

**SUBJECT: MAUI LANI PHASE 9 SUBDIVISION
SUBDIVISION FILE NO. 3.2378**

September 29, 2017

Page 2 of 9

5. Submit a recommendation for final subdivision approval from the Department of Environmental Management, Wastewater Reclamation Division (WWRD). For further information, please contact WWRD at 270-7417.
6. Requirements/comments from the Department of Planning:
 - a. In the final plat notes section, include a note similar to the following:
 - 1) The subdivision contains the designations:
 - a) State Land Use URBAN;
 - b) Maui Island Plan URBAN;
 - c) Community Plan PROJECT DISTRICT;
 - d) County Zoning WAILUKU-KAHULUI PROJCT DISTRICT 1 (MAUI LANI) (Conditional Ordinance 1872) (with districts Residential SF-3, Public/Quasi-Public "Church use", Recreation/facilities "Golf Course use" and Open Space use); and
 - e) Flood Zone X.
 - b. Obtain the following approvals from the Department of Planning Current Division and submit a copy of the resulting approvals to the Department of Planning Zoning and Enforcement Division:
 - 1) A Project District Phase III Approval for this specific subdivision which includes the requested pedestrian/bikeway connection between Lots No. 25/26 and 27/28, and an approval for the revised road layout crossing through the middle of the Public/Quasi-Public church use area.
 - 2) An approved Change in Zoning (CIZ) Compliance Report, showing subdivision conformance with the change in zoning conditions of Ordinance 1872. To obtain this approval, submit to the Current Division a report containing verification that all conditions have been satisfied; if any conditions are not satisfied, include documentation showing your progress with a timeline for completion.
 - c. Lot No. 52, 53 169, 170, 172, and 180 shall be redesigned to comply with the project district land use categories and acres as shown in §19.78.060.A and Ordinance No. 3364.
 - 1) Ordinance No. 3364 contains the latest approved map identifying the Public/Quasi-Public "Church" use areas, and one of these church areas is a 2 acre location showing the Maui Lani Parkway running along the eastern side of this area; whereas, the current proposed subdivision now shows the Maui Lani Parkway crossing through the middle of this "Church" area, resulting in it being split into two separate "Church" areas. Also, the proposed subdivision shows only small portions (or no portion) in some of the six lots with topography suitable to be used as a "Church". The Department is concerned that the resulting separate "Church" areas are within the six lots and might not be of sufficient size and topography for each area to be used as a church. This would result in an inconsistency with the Council intent for this area to be used as a "Church".

Mr. Darren Unemori, P.E., P.L.S.

**SUBJECT: MAUI LANI PHASE 9 SUBDIVISION
SUBDIVISION FILE NO. 3.2378**

September 29, 2017

Page 3 of 9

- 2) The Public/Quasi-Public "Church" area must be subdivided in a way that allows for the area to be developed for church use. This most likely means all of the Public/Quasi-Public "Church" use area must be combined into two separate lots (one on each side of the roadway); however, more than two lots could be created if the lots are designed to allow for a church to be located on each lot. The Public/Quasi-Public area within Lots 53, 169, 170, and 180, does not appear to have enough area to allow for a church to be placed on each of these zoning lots.
 - 3) The 18' wide stem for Lot 172 appears to be a too narrow for the type of two way traffic that a church would likely generate.
 - 4) FYI, dwellings are not a listed permitted use on the portion of these lots zoned as Public/Quasi-Public (§19.78.050); however, dwellings are a permitted use on the portion of these lots zoned as Residential SF-3.
 - 5) FYI, in accordance with §19.78.070.D, district boundary adjustments may be possible if that is something you want to consider.
- d. For any lot containing multiple zoning districts: In the map section of final subdivision plat, show a metes and bounds boundary line between each zoning district. In the notes section of the final subdivision plat add a note (1) indicating the square feet of each zoning district and (2) a note indicating that buildings must be located outside of the setback area between each zoning district.
- 1) FYI: Lot No. 180 currently contains Public/Quasi-Public "Church", Recreation/facilities "Golf Course" and Open Space zoning.
 - 2) FYI: Lot No. 52, 53 169, 170, and 172 currently contains both Residential SF-3 and Public/Quasi-Public "Church" zoning. More information is needed to determine if the Residential SF-3 area within Lots 52 and 172 comply with the SF-3 average lot width requirement of 40' (§19.78.020.B.3.b).
- e. Subtract the land area, of any private right-of-way between 12 and 24 feet wide which provides access to a lot, from the total area of the lot containing the right-of-way and include the net area on the subdivision map (the net lot area shall comply with the zoning lot area standards). The net lot area has not been identified for Lot No. 2, 16, 17, 20, 21, 24, 25, 28, 31, 34, 37, 38, 46, 76, 77, 80, 81, 82, 83, 85, 88, 89, 103, 110, 111, 120, 121, 166, 167, 172, and 175.
- f. A lot (without a lot number) appears to be located between lots 25/26 and lots 27/28. This lot does not appear to comply with the minimum lot area and lot width requirements for the Residential SF-3 district; however, Ordinance No. 4464 contains provisions to allow this lot to be approved as a "restricted use lot". The Department recommends this lot be designated as a "restricted use lot" for utility and pedestrian/bikeway purposes with an improved pathway connecting the two roads.

Mr. Darren Unemori, P.E., P.L.S.

**SUBJECT: MAUI LANI PHASE 9 SUBDIVISION
SUBDIVISION FILE NO. 3.2378**

September 29, 2017

Page 4 of 9

- g. The current method of identifying Lot No. 176 – 182 as “Open Space” is confusing because a distinction needs to be made between the actual zoning district of these lots which are not all zoned as “Open Space” and what appears to be an owner statement of “Open Space”, which does not change the zoning or the uses allowed by zoning. If the lots do not contain multiple zoning districts, remove the indication of “Open Space” on the map area of the subdivision plat and clarify what is intended in the notes section of the final plat. FYI, an owner statement of “Open Space” does not change the uses allowed by the actual zoning district of the following lots, but a Project District approval could be pursued to relocate the existing zoning districts.
- 1) Lot No. 176, 177, 181 are zoned as Residential SF-3.
 - 2) Lot No. 180 contains areas zoned as Open Space, Recreation/facilities “Golf Course”, and Public/Quasi-Public “Church”.
 - 3) Lot No. 182 is zoned as Recreation/facilities (Golf Course).
 - 4) Lot No. 178 and 179 are the only lots completely zoned as Open Space.
- h. The following information shown on the bottom of the subdivision plat as “Lot Size Information” is not correct:
- 1) Minimum average lot width for Residential SF-3 is 40’ (not 35’).
 - 2) Final land use for Lots 1 through 172 cannot all be Single Family Dwellings, because Lots No. 52 and 172 contain Public/Quasi-Public zoning which does not allow “single-family dwellings” as a permitted use.
- i. If the preliminary subdivision approval requires street tree planting and irrigation in accordance with 12.24A.070(D) MCC, submit a copy of the approved Subdivision Landscape Planting Plan. This application is available at: <http://www.mauicounty.gov/index.aspx?NID=1574>
- j. Submit a statement indicating whether grading will be done as part of this subdivision. If yes; provide a PDF copy (on a compact disk) of the approved grading/elevation plans.
- k. Countywide Policy Plan, Maui Island Plan, and Community Plan review:
- 1) Previous Project District approvals have concluded that the overall Wailuku-Kahului Project District 1 (Maui Lani) is consistent with the Countywide Policy Plan and Community Plan. The consistency requirement for this subdivision can be satisfied by obtaining an approved Project District Phase III approval for this specific subdivision which includes the requested pedestrian/bikeway connection between Lots No. 25/26 and 27/28, and an approval for the revised road layout crossing through the middle of the Public/Quasi-Public church use area.
- l. Indicate when the tract master plan for this area will be completed (see §19.78.070.A – General standards for development)?

If you have any questions, please contact Paul Critchlow at 270-7253.

Mr. Darren Unemori, P.E., P.L.S.

**SUBJECT: MAUI LANI PHASE 9 SUBDIVISION
SUBDIVISION FILE NO. 3.2378**

September 29, 2017

Page 5 of 9

7. Requirements/comments from the Department of Water Supply:

The applicant must comply with the applicable sections of the Maui County Code. These include:

- a. Maui County Code, Chapter 14.12, "Water Availability Rule" concerning a long term supply of water for the subdivision.
- b. Maui County Code, Chapter 14.05, "Subdivision Water System Requirements" to provide an adequate water system for fire protection, domestic, and irrigation service.
- c. Maui County Code, Chapter 14.13, "Water Meter Issuance Provisions for the Upcountry Water System" concerning the Department's deferring action on this application if new water meters are not available for the subdivision.

The applicant should contact the Department of Water Supply to discuss the specific requirements for subdivision. Requirements may include the construction of water system improvements for adequate fire protection, domestic, and irrigation service.

If you have any questions, please contact the Department of Water Supply at 270-7835.

8. Requirements/comments from the Department of Parks and Recreation:

The master developer has satisfied the parks and playgrounds requirements as reflected in Resolution No. 14-17.

If you have any questions, please contact Robert Halvorson at 270-7387.

9. Requirements/comments from the Department of Fire and Public Safety:

At this time, the Fire Prevention Bureau would request a water supply for fire protection and fire department access roads.

Water supply for fire protection shall have a minimum flow of 1,000 gallons per minute for a two hour duration with hydrant spacing a maximum of 350 feet between hydrants. Dead-ends shall have a hydrant within 175 feet.

Service roads to proposed properties shall have a clear width of 20 feet. Any dead-end roads or cul-de-sacs shall have a clear width of 32 feet, and if greater than 150 feet in length, shall be provided with an approved fire apparatus turn-around. All turns and required turnarounds shall have an outside turning radius of 35 feet. The maximum grade for the service roads shall not be greater than 14%. Subdivisions with more than twenty parcels shall provide multiple access roads as approved by the AHJ.

Mr. Darren Unemori, P.E., P.L.S.
SUBJECT: MAUI LANI PHASE 9 SUBDIVISION
SUBDIVISION FILE NO. 3.2378

September 29, 2017
Page 6 of 9

Once construction of buildings are planned, there shall be at least one hydrant within 500 feet of any building to be constructed.

If you have any questions, please contact Parrish Purdy at 876-4697 or parrish.purdy@mauicounty.gov.

10. Requirements/comments from the Department of Housing and Human Concerns (DHHC):

No exemptions. The subdivision of 62.581 acre lot into 172 single-family houselots for residential use. It needs a Residential Work Force agreement with DHHC prior to final approval.

If you have any questions, please contact DHHC at 270-7805.

11. Comply with Section 18.12.040(B) of the Maui County Code. Submit a statement regarding the water system to be installed. If the proposed subdivision will be served by the County's water system, the subdivider shall provide a receipt of payment of a water meter reservation from the Department of Water Supply (DWS) verifying that the subdivision will receive water source and service from said department. Should a private water system be proposed, the subdivider shall provide written verification of a long-term, reliable supply of water from the Director of DWS in accordance with Chapter 14.12 of this code.

For further information, please contact DWS at 270-7835.

12. In accordance with Section 18.12.030(E)(13.a.) of the Maui County Code (MCC), submit a letter from all governmental agencies with an easement, lease or license affecting the land subdivided consenting to the preparation and recording of the final plat. If there are none, please indicate this in writing.
13. In accordance with Section 18.12.040 MCC, submit a tax clearance certificate (issued by Department of Finance, Real Property Assessment Division) to show written proof that all taxes and assessments on the tract are paid to date. An "Application for Tax Clearance for Subdividers" form can be obtained from the Real Property Assessment Division website. NOTE: The tax clearance certificate shall be valid at the time of final subdivision approval.
14. Dedicate the roadway lots to the County. Submit the original and one copy of an executed warranty deed to the County. In addition, if applicable, submit a copy of a recorded "Partial Release of Mortgage" document.
15. Submit a completed State of Hawaii, Department of Taxation, Exemption from Conveyance Tax form (Form P-64B) for the dedication of the road widening lot.

Mr. Darren Unemori, P.E., P.L.S.

**SUBJECT: MAUI LANI PHASE 9 SUBDIVISION
SUBDIVISION FILE NO. 3.2378**

September 29, 2017

Page 7 of 9

16. In accordance with Section 18.20.030 (Pavement of streets), improve the proposed subdivision roadways to the provisions of the subdivision ordinance for roadways within the urban district.
17. Submit documentation that the road right-of-way width and pavement sections are in compliance with Sections 18.16.050 (Minimum right-of-way and pavement widths) for the roadway between Lots 132-152.
18. Design and construct the drainage facilities to the requirements of the Department of Public Works. A detailed final drainage report and site specific erosion control plan shall be submitted with the construction plans for review and approval. The drainage report shall include, but not be limited to, hydrologic and hydraulic calculations, and the schemes for disposal of runoff waters. The site specific erosion control plan shall show the location and details of structural and non-structural best management measures. The drainage and erosion control plans shall provide verification that the grading and all runoff water generated by the project will not have an adverse effect on the adjacent and downstream properties.
19. Comply with Section 18.20.135 (Post-construction stormwater quality best management practices) MCC, wherein it states, "Post-construction stormwater quality best management practices, as may be required by the director, shall be implemented for all subdivisions.
20. Comply with Section 18.16.090(A) MCC, wherein it states "...The staggering of streets making "T" intersections shall be so designed and adjusted with curves and diagonals that jogs are not less than one hundred fifty feet measured along the centerline of the through street. ...".
21. Comply with Section 18.16.260 (Through lots) MCC.
22. Obtain street name approval from the Public Works Commission and show street names on the construction plans and final plat.
23. In accordance with Section 12.24A.070(D) MCC, submit an application for "Landscape Planting Plan" for subdivisions to the Department of Planning for review and approval. The application can be obtained at: <http://www.mauicounty.gov/index.aspx?NID=1574>.
24. In accordance with Section 18.12.040 (A) MCC, submit a complete title report issued by a licensed title company showing all persons vested with record title in the land subdivided.

Mr. Darren Unemori, P.E., P.L.S.

SUBJECT: **MAUI LANI PHASE 9 SUBDIVISION
SUBDIVISION FILE NO. 3.2378**

September 29, 2017

Page 8 of 9

25. If improvements are required, submit construction plans and drainage and soil erosion control reports for review and approval by the applicable agencies. In accordance with Section 18.24.010(D) MCC, a construction plan review fee (\$200/lot) shall be paid upon submission of the construction plans.

When the construction plans are approved, post construction requirements will be noted on the construction plan approval letter. The post construction requirements will need to be completed prior to final subdivision approval.

Contact the Development Services Administration, Civil Construction Section at 270-7242 if you have any questions or for the appropriate number of plans and reports to submit.

26. Submit fifteen prints of the final plat in accordance with Chapter 18.12 (Final Plat) MCC. The final plat shall include all revisions addressing the comments noted on the enclosed preliminary plat. The final plats shall be folded into 8 1/2" x 11" sized sheets.

Condition nos. 11 and 24 shall be submitted prior to or in conjunction with the final plat.

27. Submit a digital copy of the final plat to the standards of the Real Property Assessment (RPA) Division. If you have any questions, please contact RPA at 270-6225.

The preliminary plat was not routed to the State of Hawaii, Historic Preservation Division (SHPD) for review. The subdivider must comply with all requirements of SHPD. The Department of Public Works may in the future request review and approval of SHPD for subdivision final approval, construction plan approval or other types of permit applications. For further information, please contact SHPD at 243-5169.

Please review the enclosed sheet titled "Planning for Mail Delivery, A Guide for Hawaii Developers" from the United States Postal Service. For further information, please contact the local Growth Coordinator at (808) 423-3908.

Within one year from the date of preliminary approval of the subdivision, the final plat must be filed unless an extension of time is granted.

Please be forewarned that applications for an extension of time shall be made in writing to the Department of Public Works. Therefore, a time extension request must be made no later than September 29, 2018. In addition, a "good cause" reason for any time extension shall be stated in the request. Time extension requests which are not in compliance with both of these requirements, will result in the subdivision being deemed null and void.

If you have any questions regarding this letter, please contact Lesli Otani of our Development Services Administration at 270-7252.

PLANNING FOR MAIL DELIVERY

A Guide for Hawaii Developers

Centralized equipment installed by Developer

Introduction

The US Postal Service and Hawaii's Developers are in business to serve the needs of an expanding population.

For Developers, there are many phases of planning involved for new buildings and residences. The US Postal Service also needs planning to serve the expanding population with daily mail delivery.

The US Postal Service in Honolulu has a Growth Management Program Coordinator to assist you in planning mail service.

We offer guidance in establishing the mode of delivery, and the type and location of mailbox receptacles for your project. Contact the local Growth Management Coordinator for assistance.

Delivery Mode

The preferred mode for both residential and business customers is at a central location. "Centralization" is now the key to providing mail delivery in a secure, cost effective and beneficial manner.

Centralized equipment at Shopping Mall

Advantages of Developer/Builder Purchased Centralized Delivery Equipment

- Centralized delivery equipment is neat, uniform, and can be placed in a framework designed to blend with and maintain the aesthetics of the surrounding community.
- In many situations, with the use of centralized delivery equipment, the USPS may waive the "50% improved" requirement in new developments. This means delivery service may be established prior to 50% of residents moving in to a new development.

- Centralized delivery equipment provides the advantage of individually locking compartments for each customer, which affords additional security and privacy in comparison to unlocked curbside mailboxes. Parcel lockers and a secure outgoing mail receptacle are also included for customer convenience.

Centralized equipment installed by Developer

- Centralized delivery equipment purchased by the developer or builder can be installed in a number of attractive ways, including additional structures, lighting and landscaping.

Custom Box installed by Developer

Contact the local Growth Coordinator for more information at (808) 423-3908.

Please Support Bill 17-179 Prohibiting the Sale and Use of SPF Sunscreens Containing Oxybenzone and Octinoxate

SS Susan Sweet <susansweet1@everyactioncustom.com>

Reply all |

Yesterday, 6:04 PM
County Clerk

Dear Maui County Clerk Maui County Council,

I strongly support the bill to prohibit the sale and use of oxybenzone- and octinoxate-based SPF products on Maui. These chemicals are known reef killers, and we must do everything to protect this fragile ecosystem.

If this bill is passed, Council will leave a lasting legacy for Maui's future and put us on the map as a world leader in protecting our ocean environment.

If this bill does not pass, our reefs will continue to suffer and this will negatively effect Maui's people, ecosystems and our economy. People from all over the world flock to Maui every year because of the island's pristine beauty, but more and more locals and visitors alike are leaving the water disappointed because our reefs are dead or dying. Many local people rely on the sea to provide food, but as the reefs die so go the fish. Maui's future will be much less bright without thriving coral reef.

Please show the community you care about Maui's future by voting yes on this landmark legislation.

Mahalo for your leadership!

Sincerely,
Susan Sweet

Aloha,

I am writing in support of Bill 17-179, "Prohibiting the Sale and Use of SPF Sunscreens Containing Oxybenzone and Octinoxate."

These chemicals have been scientifically proven to harm and kill coral reefs. There's no need for oxybenzone and octinoxate sunscreen products. Alternative products provide broad spectrum sun protection without harming our coral reefs.

Thank you for supporting this bill.

I think it is absurd that council members can fire another council member because they do not go along with "their " agenda. Fire Mike White!

Subject: Please Support Bill 17-179 Prohibiting the Sale and Use of SPF Sunscreens Containing Oxybenzone and Octinoxate

Dear Maui County Clerk Maui County Council,

I strongly support the bill to prohibit the sale and use of oxybenzone- and octinoxate-based SPF products on Maui. These chemicals are known reef killers, and we must do everything to protect this fragile ecosystem.

If this bill is passed, Council will leave a lasting legacy for Maui's future and put us on the map as a world leader in protecting our ocean environment.

If this bill does not pass, our reefs will continue to suffer and this will negatively effect Maui's people, ecosystems and our economy. People from all over the world flock to Maui every year because of the island's pristine beauty, but more and more locals and visitors alike are leaving the water disappointed because our reefs are dead or dying. Many local people rely on the sea to provide food, but as the reefs die so go the fish. Maui's future will be much less bright without thriving coral reef.

Please show the community you care about Maui's future by voting yes on this landmark legislation.

Mahalo for your leadership!

Sincerely,
Ms Breanna Thunholm

County Council Meeting - December 1, 2017

Testimony in regards to item B91

Proposed new property tax category for Short Term Rental Homes/Condos

Taxation of Condos to highest and best use

My name is Margit Tolman and I am opposing the proposed new tax category for Short Term Rental Homes and Condos.

Condos ~~and Short~~ are very different in character and use compared to Short Term Rental properties.

Condominium properties are **apartment or hotel zoned properties** with an existing **high density** and each individual condo owner pays only a fraction of the property tax on the land.

Some condo resorts have front desks and operate similar than hotels.

There is no license or insurance required for short term rental condos.

Short Term Rental Homes have a **maximum of 6 rooms on residential/rural or ag zoned land.**

Short Term Rentals Homes need a license to operate. The license can not be transferred.

It takes many months to a year to obtain a license; **STR's pay fees** and **already pay a higher share in property taxes** on the entire property (not just the short term portion).

They do not fit into the same bucket as condos and they do not have the same highest and best use as Hotels and Resorts.

Short Term Rental home owners who already received a license based their decision on current fees and tax classification. It seems to be **unfair** to decide on a different tax category with about **30% increase** in taxes after the fact.

I manage 12 licensed Vacation Rental Homes on Maui's North Shore.
The owners and their families are using their homes frequently during the year.
Between their visits, we rent their homes.
The majority of income is paid out to maintenance services here on the island.

Looking at income and increasing tax expenses, I am expecting some home owners to discontinue offering their homes to visitors and just leave them vacant between their visits.

The **unlicensed Short Term Rentals** are able to offer homes for less. It is already hard to compete with illegal rentals and there is no room to increase rental rates.

With loss of inventory there will be no increase in property tax revenue.
There will be a **loss of maintenance/service jobs and housing provided to caretakers.**

If a separate tax classification is necessary, consider one "only" for short term rental like "Short Term Rental Homes".
Then there can be discussion of a fair rate between residential and hotel rates.

Improving the license process and getting the industry in compliance will create more tax revenues.

Please send this item back to Committee for further discussion

Thank for your consideration,

Margit Tolman R (S)

TESTIMONY AGAINST MIKE WHITE'S PROPOSED STAFF FIRING PROPOSAL

GT

Gita Tucker <tuckergi.student@waldorfmaui.org>

🔄 Reply all | ▾

Thu 11/30, 10:44 AM

County Clerk ↕

I am Gita Tucker from Kula, Maui. I do NOT support Mike White's proposed action to allow county council members to fire other member's staffers. It is not, in anyway, beneficial to the people of Maui County and would be very harmful to the County Council as a whole. I think that it will be the downfall of the future of Maui and I strongly urge all County Council members to vote against it. I also wanted to testify against the development of anymore Pa'ia land. It is not what the people of Maui want or need for the land and that land should be re-zoned to benefit the community. It has a very unclear plan for development and should not be re-zoned to urbanization.

Thank you.

Action Items

Aloha,

Please add my voice to those in support of banning oxybenzone sunscreens on Maui. Toxic substances like this that harm our reefs need to be banned from being sold on Maui. I support any measures to protect our reefs & marine life.

I also want to say "No" to the motion of Council members being able to fire the personal staff of other Council members without due process. I feel this is an inappropriate use of power and not a productive way to conduct business.

Please add my testimony to Friday morning's proceedings.

Mahalo, Melissa Verbena

Opposition against amendment to Section 2.08.050

County Clerk

Reply all |

I am in strong opposition of the amendment to Section 2.08.050, Maui County Code, Pertaining to Legislative Branch Organization introduced by Councilmen Mike White.

This amendment is an obvious ploy in leadership to maintain power over the other council members. I believe in democracy but this tactic looks more like a dictatorship by the chair. How dare you, Mike White, elevate yourself above the others! We voted the others in to represent our needs and by amending Section 2.08.050 you are trying to suppress their efforts to do their jobs effectively. Each council member hires staff that are like-minded and capable of carrying out their assigned task. I do not agree that it is right to allow a majority of Council members to fire other Council members' staff that they deem to be a threat. That is just plain wrong!

I want this whole matter dropped and never brought up again!

Support CC 17-472, prohibiting the use and sale of sunscreen containing oxybenzone and octinoxate

Oppose CC 17-481, nomination of Carl Adolpho, III to the Molokai Planning Commission

Support CC 17-167, declaring a moratorium on sand mining of central Maui sand.

Liko Wallace
Kaunakakai, Molokai

Subject: Please Support Bill 17-179 Prohibiting the Sale and Use of SPF Sunscreens
Containing Oxybenzone and Octinoxate

Dear Maui County Clerk Maui County Council,

I completely support the bill to prohibit the sale and use of oxybenzone- and octinoxate-based SPF products on Maui. The reefs around our sacred island are dying due to many causes, none less than the poisons that come from sunscreens.

If this bill is passed, Council will leave a lasting legacy for Maui's future and tell the world that Maui loves our Mother Earth, becoming an eco tourism destination, not just a playground for people to come to and destroy.

If this bill does not pass, our reefs will continue to suffer and this will negatively effect Maui's people, ecosystems and our economy. Many local people rely on the sea to provide food, but as the reefs die so go the fish. Maui's future will be much less bright without thriving coral reef.

Please show the community you care about Maui's future and our keikis by voting yes on this landmark legislation.

Item 17-179

Aloha -

I passionately support the ban of sunscreens which are damaging to our reef, specifically containing Oxybenzone and Octinoxate. This is an action which needs to happen world wide. Just as in the legislation to eliminate plastic bags, Maui can act as a global leader on this issue. On Friday December 1, let's make this decision and not look back.

Mahalo Nui Loa,
Julie Ybarra

Aloha,

I am writing in support of Bill 17-179, "Prohibiting the Sale and Use of SPF Sunscreens Containing Oxybenzone and Octinoxate."

These chemicals have been scientifically proven to harm and kill coral reefs. There's no need for oxybenzone and octinoxate sunscreen products. Alternative products provide broad spectrum sun protection without harming our coral reefs.

Thank you for supporting this bill.

Amendment to Section 2.08.050 of Maui County Code

R responsible_citizenry@hushmail.com
Yesterday, 10:13 PM
County Clerk

Reply all |

Action Items

Alas, Council Chair White's notorious back door takeover of the Maui Council on January 3, 2017 - preceded by his announcement that he would serve in that position after having copied graphics from the Maui County website to make the announcement on line readily demonstrating collusion echoing the 1893 takeover of Hawai'i herself - has now reached a whole new level.

Not only did White conspiracy that included back door teamwork with the Mayor, Corporate Council and four council member "conspirators" take control of the council at that level, two truly community dedicated council members were removed from committees they were successfully heading and making a difference (Elle Cochran and Don Kuzman). Additionally, the existing attorney for the council and other staff were effectively "fired."

So now we have the NEXT level - i.e., an amendment allowing White & company to fire staff of other council member's (of course, the four in the minority since White's take-over).

REALLY? WHERE DOES THIS INSANE Machiavellian take-over end? How willing long with this community put up this mayor, corporate council person, and four council member "team-mates to the subtreuge"? Where will it stop?

And alas, perhaps since White et al already "own" the council as demonstrated in his self-appointed re-establishment as council chair back on Jan 2, 2017 ... there will be no honest effective vote to occur this coming Friday. Might it just be a repeat of 1/2/17 - i.e., already a "done deal"

Shame on everyone who participated in this "rape" of Maui. Everyone of them should resign now or be fired!
