HFC-79 Paia Youth Center, I support the work of the Paia Youth Center. What an amazing and long standing venue for the youth. I would like to support Aunty Mopsy's comments regarding the need for full community input.

I am here to speak on HFC-24 and how it relates to Axis Deer, I wish to remind this Council Committee that experiential knowledge and expertise must be advantaged by including Kahikinui Game & Land Management 'Ohana (KGLMO). If it makes it easy for incoming next term Council and relative Committees, the contact information for KGLMO president Kawika Davidson is (808) 269-0699 and email is: kahiwad@gmail.com

I am writing to testify in favor of the grant of a renewed and expanded lease to Paia Youth Council, Inc. The youth program operated as "Paia Youth and Cultural Center" ("PYCC") is a long-standing and well established program with strong leadership and powerful values and goals, which has already proven itself to be an excellent steward. Because of the unique programming they offer, which is tied to the land and sea and promotes fundamental Hawaiian values, they serve a youth population that would likely be underserved or not served by other youth programs. PYCC is a great benefit to the community.

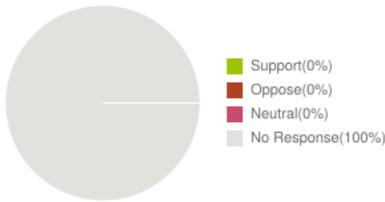

Expanding the youth program allows for more kids to attend without increasing the use of scarce parking and other resources. Kids are generally dropped off and much later picked up, and the MEO provides bus service. PYCC clearly could serve many more youth with their unique skills and opportunities if they had more space. Certainly they need a lease renewal and expansion in order to continue to provide their services and be better able to engage and protect the kids.

The ability to serve more youth is especially critical now, when parents need to work additional hours to recover from the economic impacts of COVID-19, and kids need the benefits PYCC provides. In order to do so, parents and the community need a safe and enriching place for kids to be outside of school.

PYCC has a large number of valuable programs that teach important life skills, but they are limited by the currently available space. Moving some of the activity away from the primary beach parking area will assist in reducing congestion overall, and will help reduce the tendency for homeless to camp in that currently unmonitored area. PYCC and the community both need this lease, for everyone's benefit. I believe from what I have personally observed, that granting this lease will not create any burden, but instead will be entirely beneficial and valuable. Thank you for your consideration.

I am strongly objected to the Cares funding disbursement of \$200k by Mayor Michael Victorino to Kia Hawaii LLC owned and operated by Jake Muise. This outfit has an atrocious history of poor practices. The subsistence hunters must be given a voice in decision making. I found Dr. Caires comments extremely helpful and I am pleased to see he is willing and enthusiastic about participating in this important conversation moving forward.

HFC-3 I am pleased to see the Lahaina Banyan Tree moving forward for continued solution finding. I truly believe fairness can be found in regards to the local businesses that have found economic stimulators around, under and near this beautiful living landmark.

HFC-5 I'm compelled to mention that I have new interest in the Kanaha Beach Park Master Plan implementation and how the Department of Parks and Recreation works with the new considerations that must be considered in regards to supporting the less fortunate Maui residents who rely on the park facilities to survive. I will following this moving forward.

HFC-24 I am in strong favor of this discretionary referral item being moved forward into the 2021 Council calendar (comments made previously).

HFC-34 Maui Emergency Management Agency, contract C6906; Jamie Caplan Consulting, LLC

HFC-44 Sex Trafficking, This item is critical and will take multi-agency involvement with a strong need for the Police Commission to have as an agenda item in this coming 2021 year. Pleased to see this item is still on the agenda for attention. Maui County has a responsibility to know all we can about this issue and see how we may assist in safeguarding our residents and implementing long term attention goals that never cease.

HFC-64 Health of Maui County Farmers, Please include organic farmers, perhaps the newly formed Dept of Ag can populate their databases with that differentiating information to spread the wealth fairly.

HFC-66 Evictions during COVID-19 Pandemic, Pleased to see this moving to the 2021 agenda, I predict that an entity might need to be identified to assist in this niche area of need moving forward.

HFC-71 Hale Hawai'i

I am interested in learning more about their efforts and I would encourage them to not only rely on the few Maui County agencies that work on housing issues but to make complete reach to all the grass roots organizations, groups and churches that are involved and contribute. I will be following this item intently.

HFC- 72 Kanaha Beach Greywater Reuse Demonstration Project, I just want to publicly be on record that this is important and I'm pleased to see it moving to the next council's business, there is no more immediate step than this to begin proper environmentally conscious resource recovery.

HFC-73 Animals at Large, I'm not certain what this includes but after hearing the equine related needs from our Maui County businesses who are in need of animal feed supplements due to the severing drop in tourism.

HFC-80 Establishing an Arts Commission, CC 20-560, I am interested in how this item relates to the Department of Housing and Human Concerns Commission on Arts and Culture. Not sure if it's dissolved and this is a measure to resurrect the efforts. I am of course as an artist myself, strongly supportive of any activity of this nature.
