FY22 1.26.2022 CARE - xx Recycling +Climate Action_FINAL.pdf

You don't often get email from cecile.mcmahon@co.maui.hi.us. Learn why this is important

Aloha,

Please see the attached presentation for the C.A.R.E. Committee meeting scheduled for this morning at 9:00 A.M.

Thank You,

Cecile

Cecile Powell, Recycling Specialist IV
Environmental Protection & Sustainability Division
County of Maui, DEM

Climate Change in Maui County

Geos Institute and Sustainable Pacific (2022). County of Maui, Hawai'i Climate and Community Trends Primer (Draft version)

OVERVIEW

Recycling, Composting, and Reducing Waste To Scale Down Greenhouse Gases (CARE-16)

- Recycling in Maui County
- Climate Goals and Objectives
- Climate Action

Recycling Contracts (CARE-68-72)

- CARE-68: C6539 Ecycling Maui: Electronics Recycling
- CARE-69: C6268 Hammerhead Metals: White Goods and AV's
- CARE-70: C6118 Cameron Chemical: UMO
- CARE-71: C6049 Maui Waste Services: County Office Paper
- CARE-72: C6795 Maui Disposal: Dropbox Materials Processing

WHAT CAN BE RECYCLED IN MAUI COUNTY?

mauicounty.gov/recycle (808) 270-7880 maui.recycle@mauicounty.gov

WHAT CAN BE RECYCLED IN MAUI COUNTY?

County Programs

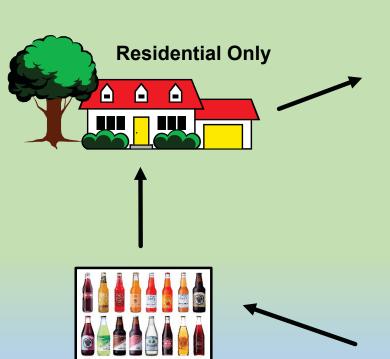

- HI-5 DBC Beverage Container Program
- County Office Paper Recycling
- Moving toward GW/Organics solutions
- Support of Zero Waste initiatives through grants
- ISWMP

Private Facilities

- Metals
- C&D
- Composting

Where Do Our Recyclables Go?

New Recycled

Products

Recycling Dropbox Centers

Glass, OCC, Newspaper, #1 & #2 Plastic Bottles, Metal Cans

Recycling MRF

(Materials Recovery

Sorting and Baling

Shipped Overseas

Where In the World Do Maui County Recyclables Go?

Our processor is required to report where recyclables from County Residential Recycling Centers are shipped in order to ensure that our recyclables are being recycled.

June 2021:

- OCC (cardboard) Genesis Resource Enterprise, Inc. – Shanghai, China
- OCC (cardboard) Greenhills International Taiching, Taiwan
- PET 7030 Plastic Newport CH International Oakland, CA USA
- Glass Strategic Materials Inc. Oakland, CS USA

It is important to recycle right because our recyclables are part of a global commodity market.

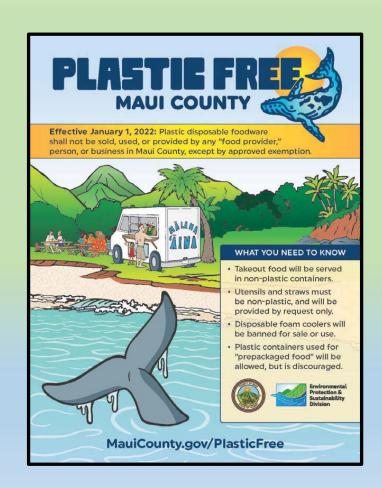

Climate Goal: Reduce Greenhouse Gases Caused by Municipal Solid Waste

Objectives:

- Decrease the use of landfills which produce methane and other GHG
- Capture landfill emissions
- Explore sustainable emerging technologies
- Decrease transportation emissions by reducing the need to ship materials in or out for recycling
- Decrease the influx of consumables by prioritizing waste reduction and behavioral change

1. Pursue a Zero Waste Maui County

- Zero Waste is: A set of principles and practices that fosters a circular economy of production, conservation of resources, and minimizing landfill disposal, prioritizing reuse/redistribution of resources and the reduction of waste at the source
- Reducing Waste At The Source
 - Bans: Plastic Bags, Polystyrene and Plastics foodware, foam body boards and coolers
 - EPR- Extended Producer Responsibility or Product Stewardship
- Empowering Waste Reduction Practices
 - BYO! Giveaways with Hui Zero Reusable meal container program
- Supporting Local Reuse Systems and Initiatives
 - Recycling Grants: Hui Zero, Trailer of Trash
- Sustainable Waste Management
 - Redesigning waste systems that promote Zero Waste
 - 2021 Integrated Solid Waste Management Plan
- Education
 - Working towards behavioral change

2. Reduce and Recycle Our Food Waste

- Maui County's waste stream consists of 20% food waste generating high GHG's as it decomposes in the landfill
- Reduce and divert food waste through education, incentives and mandates
- Carbon sequestration and local agriculture
 - Composting
 - Anaerobic Digestion (WTE) + Composting
 - Other sustainable technologies

3. Explore Local Recycling Options for Dropbox Materials

- Economy of Scale Finding the right balance for business
- Large scale recycling and remanufacturing in Hawai`i has not yet been shown to be economically feasible
- Implement Systemic and Infrastructure Improvements for Local Recycling Options
 - Short term initial investments for long term solutions
 - Multi benefits
 - Take the time to get it right

Glass - Local Intiatives

- ReVive Glassworks
 - Small-scale glassware upcycling
- Ridge to Reef Glass-to-Sand Pilot Recycling Grant
 - Possible uses for construction (pipe bedding) and black water filtration systems to replace cesspools
 - Potential for larger scale resource renewal

OGG - Cardboard

- Study feasibility of composting a portion of cardboard
- Current global market for OGG is strong
- Offsets needs for raw materials

Newspaper/Mixed Paper

- Not compostable: inks, chemicals, etc.
- Global market is in a good place right now; reduces need for raw materials
- Focus on promoting digital options to reduce paper use

Metals

- No viable local options, highest value for recycling
- Reduces need for metal mining resource extraction

Plastics - Consistent global market, but how can it be used locally?

- Precious Plastics/ByFusion ByBlock
 - Smaller scale technologies to use waste plastic to make new products and building materials
- Waste-To-Energy?
 - Incineration is not a climate friendly option
 - Gasification/Pyrolysis/Other Plastic-to-Fuel
 - *A pilot project must demonstrate
 - economic, sustainable, and scalable viability*
 - Must be GHG neutral and Zero Wastecompatible
 - · Possible benefits include:
 - Reduce volume of waste to landfill
 - Offset petroleum use
 - Addressing marine debris

We can scale-down GHG emissions caused by MSW by

- Pursuing a Zero Waste Maui County
- Reducing and Recycling Our Food Waste
- Exploring Local Recycling Options for Dropbox Materials

With

- Planning
- Time
- Investment
- Commitment to Overcoming Barriers

CARE-68:72: Recycling Contracts

- CARE-68-72: Recycling Contracts
 - CARE-68: C6539 Ecycling Maui: Electronic Waste Recycling
 - CARE-69: C6268 Hammerhead Metals: White Goods and AV's
 - CARE-70: C6118 Cameron Chemical: Used Motor Oil
 - CARE-71: C6049 Maui Waste Services: County Office Paper
 - CARE-72: C6795 Maui Disposal: Dropbox Materials Processing
