You don't often get email from fryrchr@aol.com. [Learn why this is important](#)

re: Brown violations by Director if Planning

To remove stop work order she issued a SMA Minor Permit after the fact on a development that was found in violation of their SMA Permit Exemption.
She was required to revoke the SMA Permit due to false representation on the application.
She is spinning the rules outside of her authority..

SMA Enforcement is a Committee item..

It's time to schedule that item and let the citizens speak without filing lawsuits!

The Council needs to be the authority on SMA laws.

Appointed citizens are writing SMA rules which have the force and effect of law!
