Dear Ms. Martin:

SUBJECT: UNDERGROUND UTILITIES AND POWER BY POLE

Please explain the difference between undergrounding utilities and power by pole?

Is there a difference in reliability? If yes, please explain the differences.

Is there a difference in cost? If yes, what is that amount?

Is the use of underground utilities a necessary decision or is it optional?

Is the Hoku'ula residential workforce housing project, located at TMK 2-5-003:029, an area that will experience high winds that will cause outages or safety hazard risks?

Lastly, may I request that you transmit this information no later than June 3, 2022? This will ensure that we have this information available for the Infrastructure and Transportation meeting on June 6, 2022. Thank you for your assistance with this request.

Mahalo,
