Aloha:

Regarding the subject agenda item, please find attached a copy of an email transmittal of our annual report that was submitted in September of '21. From a quick look at the public record, it does not appear to be on the committee record.

Also, as discussed with Wilton Leauanae, I do have some scheduling challenges on Thursday, September 1st and will have a difficult time attending the hearing.

As far as project updates, we do intend to file an updated annual report later this month for '22. Also, please note, we are in a Phase II contested case hearing before the Maui Planning Commission, which started in February/March of this year. We believe there should be some resolution at the upcoming MPC hearing on September 27th. We would be very happy to provide the PSLU committee with an update upon the conclusion of the contested case hearing.

Thank you very much for your time and consideration.

Status: A draft Habitat Conservation Plan (HCP), which was prepared pursuant to applications for an Incidental Take Permit and an Incidental Take License, was accepted by the Maui Planning Commission in satisfaction of this condition in July 2018.

Subsequently, in consultation with USFWS and DOFAW, it was determined that neither an Incidental Take Permit nor an Incidental Take License was appropriate because the project is not likely to take protected species. Accordingly, the Habitat Conservation Plan was revised to remove references to provisions required for the Incidental Take Permit and Incidental Take License and retitled "Honua'ula Natural Resources Preservation Plan." This Plan will be submitted to the Planning Commission for confirmation of satisfaction of this condition concurrently with the application for Phase II approval.
