Nothing says "Aloha" like animal cruelty. For years local volunteers and animal welfare organization have at no cost to the public humanely controlled the community cat population by TNR (trap neuter return). Now a new bill 6.04.041 introduced by Rikki Hokama intends to make colony management a crime and promotes cruel starvation of these animals as the accepted method of population reduction. Please find the bill at the end of this petition along with contact information of the people It is URGENT you call to stop this unacceptable animal abuse.

These colonies have been successfully managed for years scientifically reducing cat population in paradise by internationally accepted humane methods.

Feeding bans are archaic and have been tried elsewhere. There is not one example where they have been successful. We challenge Maui legislature to present us with one working example. They are a waste of taxpayers dollars and reduce the positive impact of TNR efforts. If their concerns are sick/diseased animals surely **without the care they get in managed colonies they will become sick from neglect.** With no more vaccines flea control or vet care all available to these animals now there will be diseased debilitated animals or dead bodies rotting in public places.

Toxoplasmosis one of the concerns based on flawed research is not only spread by cats but other animals like pigs and mongoose. **There is no evidence any seal ever caught anything from a cat.** With the extremely bad feral pig problem on Maui it is just as possible a monk seal caught toxoplasmosis from a pig being slaughtered upstream and filth washing off contaminated land or dead pigs into the ocean. It is more likely man and industrialization has been the culprit here. There is no evidence any seal ever caught anything from a cat.

This bill has largely been kept under wraps. There were no public notices and they timed it in the middle of coronavirus lockdown when the community is planning reopening not looking for animal welfare issues.

With reopening imminent **visitors** who support Maui who are used to state of the art no kill acceptable humane methods of controlling cat population **will be shocked and appalled at this violation of animal cruelty laws.**

URGENT PLEASE CONTACT MAUI COUNCILMEMBERS AND TELL THEM STARVATION OF THESE CATS THAT ARE WELL CARED FOR NOW WILL RESULT IN SICK AND DYING NEGLECTED ANIMALS. FEEDING BANS DONT WORK!

We are asking you do this in lieu of sending support money. Please share this information. Public sentiment is important. Please help these cats. They are being punished unfairly and are currently loved and cared for.

As a colony caretaker on Maui for 7 years I have witnessed the success of the program in place and was excited to see how the community was finally changing and working together after so much hatred and ignorance towards animals. Every night for 7 years during rain or storms caring for these hungry abandoned unwanted animals by peo... Read more

It's inhuman and cruel to intentionally starve an animal. Beyond that, it's proven not to work.
