Carol Miyamoto	Wailuku, HI	2020-05-09	"I believe in life not death, I've been an animal care giver on Maui since 2000. My husband and I feed every night, on vacation we have fill in caregivers. We trap spay and neuter each cat with vaccines. I had volunteered at the Humane Society for 2 years full time in 2007-2009. I believe in compassion for animals and people. I been given donations of food and money for caregiving by people visiting the islands of Hawaii,they appreciated us giving care to the so called feral animals. I don't only save cats but any animal, bird that needs help. If we could all get together and pass laws to outlaw having animals that are not spay/neutered, Maui would be a beautiful place to live and visit. I have witnessed quite a few people who refuse to have cats they feed daily spay or neutered, makes me crazy. I witnessed last Saturday on hole nine of Waiehu Golf course, one of the feral cats was skin and bones because the person who normally feeds was afraid to feed at the park. I always feed the cats on hole nine every Sa"
Naomi Ackerman	Hawaii	2020-05-09	"Starving animals is not only cruel and inhumane, it is an ineffective approach to controlling the population. Studies have shown that the most effective approach is TNRM (Trap, Neuter, Return, Manage). Causing animals to have to desperately hunt for food would increase the problems that we have been working so hard to reduce. We would never consider this cruelty to our own pets or to people in our community. Many of them are pets who were dumped when people moved back to the mainland. They are very lovable. Help us to kill this bill, not animals."
Amber Naramore	Kula, HI	2020-05-09	"Starving cats will not work and will further add to native bird deaths. TNRM is the only humane solution. Toxoplasmosis comes from undercooked meat. Humans and other animals don't get it unless you eat cat feces. Let's be sensible and COMPASSIONATE."
Janine Linko	Kihei, HI	2020-05-09	"I signing because controlling feral cat colonies is another way to contribute to our community; and every animal deserves a dignified life. Stop being cruel!"
Deborah Adkins	Lexington, KY	2020-05-09	"I believe in humane treatment of all. TNR and keeping cats fed, keep healthy colonies. I am lucky to be in maui every winter. This is not aloha spirit. Please be kind and make smart decisions."
Loreli Bode	Lahaina, HI	2020-05-09	"Please allow the feral cats to be able to be fed!"
Lori Ramona	Tampa, FL	2020-05-09	"As a colony caretaker on Maui for 7 years I have witnessed the success of the program in place and was excited to see how the community was finally changing and working together after so much hatred and ignorance towards animals. Every night for 7 years during rain or storms caring for these hungry abandoned unwanted animals by people like Mr. Hokama. Persevering and enduring to be a positive influence in this community. University's and corporations all over the world jumping on board to educate and stop animal cruelty by creating their own colonies including Maui businesses. Now Mr. Hokama has a personal agenda to bring back hate and

			cruelty and dictate to residents & businesses what they can do for helpless animals? This is appalling! Especially during this crises of people depending on kindness and love to work together for the whole community. What kind of person Does this? So much time, love and effort went into changing society view and enduring harsh and ugly treatment for the sake of animal cru"
Lei Riela-Enoka	Kahalu'u, HI	2020-05-09	"No words for inhuman acts"
Lori Ramona	Tampa, FL	2020-05-09	"Focus on the pandemic, hungry children, domestic violence, homelessness, drug addiction."
Melissa Dodd	US	2020-05-09	"I'm against feeding bans resulting in the cruel starvation of cats. This is in humane."
Linda Banziger	Haiku, HI	2020-05-09	"This is not the answer. TRNM is the only successful way to control the population of community cats and this bill is cruel and unacceptable"
Laurie Pottish	Makawao, HI	2020-05-09	"Promoting animal cruelty is NOT a solution. Does anyone think that by starving cats there will be more birds saved? Let's deal in actual facts re toxoplasmosis and monk seal deaths (12 in 19 years) compared to how many that die from fishing net entanglement, pesticide run off, starvation from over fishing? And how many human cases came from cat feces rather than under cooked meat & shellfish? Other animals like mongoose (who EAT birds eggs) & pigs are also carriers. There is a humane solution and it has been implemented by Maui Humane Society & countless volunteers working tirelessly to solve this problem. A feeding ban has never proven to work or to be acceptable to the community at large."
marla wiggin	Napa, CA	2020-05-09	"If the populations are being ethically controlled by TNR, there should be no need for further action. There is never an excuse for cruelty & inhumane treatment!"
Linda Schartman	Makawao, HI	2020-05-09	"It is inhumane to let animals starve. The animals will come closer to businesses and be a nuisance. And they will look horrible, which won't reflect well on us as an island to tourists."
Michael Rigdon	Haiku, HI	2020-05-09	"It is not pono to starve felines. How about getting rid of half of the chickens and roosters that infest our island?"
Edward Clough	Seattle, WA	2020-05-09	"Because they beautiful animals that rely on humans. They are pets"
Irmgard Gutersohn	Asperg, Germany	2020-05-09	"The cats are living beings, don't starve them to death! Since when is cat colony management a crime ?"
Ivy Sylva	Makawao, HI	2020-05-09	"I believe it's unethical and inhumane to starve cats... I am an animal lover and will continue to feed cats!"
Gloria Navan	Lawrenceville, GA	2020-05-09	"This is outrageous ... current plan is tremendously successful. If it ain't broke, don't fix it."
David Rostetter	Haiku, HI	2020-05-09	"There are smarter and more humane ways to do this please consider researching and working within your community. There are mechanisms with this common goal in place that just need

			support. Plus lots of other bills about helping native species should be requiring gov attention right now."
Kelli Uderitz	Wailuku, HI	2020-05-10	"I have seen first hand how well trap neuter release and manage colonies work in reducing the number of feral cats. Thinking that starving animals could in anyway prevent breeding is ridiculous, you will just have higher numbers of hungry animals. This is the most inhumane thing I have seen in a long time. Its time for people to be educated about this subject."
Kris smith	Lahaina, HI	2020-05-10	"Please do not let these animals starve"
Tonya Wick	Lahaina, HI	2020-05-10	"1000% NOT ok!!!"
Tara Spires	Makawao, HI	2020-05-10	"It is inhumane and there are far better ways to keep control over the cat population through trapping spaying and neutering which has been working in diminishing the numbers"
Richard Finch	Lahaina, HI	2020-05-10	"We all want a reduction of the cat population, but let's do it in a humane and organized manner with all animal rescue agencies on the island in agreement."
Susan Homer	Kihei, HI	2020-05-10	"Starving cats is not a way to control the overpopulation on this island, TNRM is the only scientifically proven way to help curb the cat population! This is cruel and inhumane and will not be supported by residence or visitors alike, get rid of it!"
Aina Jackson	Lahaina, HI	2020-05-10	"I believe all animal's should be treated as a living being and never treated inhumanely"
rOBERT pERKINS	kAILUA, HI	2020-05-10	"I am a human being."
Donna Barnett	Kula, HI	2020-05-10	"Starvation is cruel & inhumane for Any animal. Refusal to work with Maui Humane Society towards solutions - is 4th world thinking. Visitors will be appalled and social media will explode with the news. Not good for us or our local support of Aloha. Please read article attached. And Please work together for Good Outcome."
Anna Stein	Melrose, MA	2020-05-10	"Evil people 郎💎"
Kayla Lash	Makawao, HI	2020-05-10	"We take care of 4 TNR cats upcountry. We love them!💎"
Diane Cargo	Kihei, HI	2020-05-10	"Starving cats is cruel & inhumane."
Susan Knieriemen	Summerfield, FL	2020-05-10	"So the island paradise thinks it's perfectly ok to starve animals? Fo4 what purpose? As a cat lover and guardian, I would rather see cared for colonies than dead bodies On my vacation."
Miel Bernstein	Agassiz, Canada	2020-05-10	"The programs to care for, spay neuter and feed Maui's cats are wonderful and important. Please don't harm these wonderful animals!"
Bonnie Morgan	Lahaina, HI	2020-05-10	"We need the TNR programs to be expanded ! Right now it's just Private citizens stepping up. Funds should be provided to the Humane Society to help them start their own program. It's been

			very successful on the island of lanai and now they don't have a feral cat problem"
Lorra Houghton	Georgetown, TX	2020-05-10	"I firmly believe this cruelty needs to be stop. ALL of us need to stand and be a voice for the voiceless! These animals ARE precious and beautiful. Let's choose to live in harmony and respect all life!"
Sylvia Dolena	Pahoa, HI	2020-05-10	"Killing is not the answer. Where is the Aloha?"
Jutta Mueller	Bobenheim-Roxheim, Germany	2020-05-10	"Its would criminal to just let them starve.....there is a working plan to have colonies until they eventually die out...but not via starvation"
Ranee Raddohl	Moorhead, MN	2020-05-10	"I support humane care and treatment for all animals."
Lauren Butcher	Honoka'a, HI	2020-05-10	"Everyone knows that spay/neuter with trap and release is what controls feral cat colonies. Starvation is cruel and abusive and whoever thought of this should be charged with felony animal abuse."
Patricia Johnson	Volcano, HI	2020-05-10	"This is outrageous!The spay, neuter and release program is working. Shame on those who promote animal cruelty!"
Lynley Dows	Kihei, HI	2020-05-10	"Feral cats will do more harm unfed than fed, monitored, trapped and neutered. In addition, without the protections that neighborhood cats currently have there will be negative impacts on other pet species. Most significantly there will be greater impacts on wild birds and other endemic. Finally, the unconscionable act of endorsing cruel treatment of one species encourages the development of a community that is ok with cruel treatment of animals in general."
Elizabeth Waddell	Kihei, HI	2020-05-10	"I manage a cat colony in Wailea that has been 100% spayed and neutered and been the same cats for 10 years. They have proven that a stable colony keeps away new unsplayed cats. We pay for the food out of our own pocket"
Aline Huntly	Makawao, HI	2020-05-10	"This is ridiculous AND evil. Vote Rikki Hokama OUT if he continues with this cruelty."
Sally Iwamoto	US	2020-05-10	"It's cruel"
Shanelle Sylva	Makawao, HI	2020-05-10	"It is an inhumane way to treat animals and it will not help the feral cat population problem. We need to better manage and fund existing programs that trap, fix, and release because these programs ARE WORKING!"
Lori Mattos	Hilo, HI	2020-05-10	"If we are not a part of the solution , we are a part of the problem!"
Ana Ruiz	St Cloud, FL	2020-05-10	"I am against animal cruelty."
Sara Patton	Wailuku, HI	2020-05-10	"Please listen to the experts at Maui Humane Society. This proposal to criminalize volunteer management of cat populations is ludicrous and misguided. It will not be effective, and it is a slap in the face to all those who have been working for decades to solve this problem. Have a heart, won't you?"

Barry Sultanoff	Haiku, HI	2020-05-10	"It is disgraceful and immoral to starve cats to death. Opposed to that practice!!!"
jill kanahele	wailuku, HI	2020-05-10	"It makes sense to feed the cats since this also goes hand in hand with catching the cats, sterilizing them and releasing them back. It keeps the population controlled and limited to specific areas. If the cats stop being fed they'll begin foraging for food throughout neighborhoods and/or killing wild birds"
Beth doughy	Kapolei, HI	2020-05-10	"T&R works. It's the only solution.... it's a win for all. I've seen it work in Tennessee."

Peggy Pratt	Wahiawa, HI	2020-05-10	"It's very cruel to allow animals to starve. It is no fault for the cats that are there. People need to be responsible for their pets and stop dumping . Tnr is the only way to control population"
Angela Rodgers	Townsville, Australia	2020-05-10	"Maui it's not OK to starve animals so that you can kill them!! To alot of people that's murder!!"

Ania Wood	Haiku, HI	2020-05-10	"Makes so much more sense to spay & neuter than to starve. Or if desperate to control the population then euthanize humanely and dispose of them safely. Hordes of slowly starving dying cats is just appalling."

Lee Schrader	Washington Court House, OH	2020-05-10	"This policy is both cruel an ineffective"
Diane Stephens	Knoxville, TN	2020-05-10	"I will never visit a state that has such a backwards view about TNR and feral cats. Educate the ignorant cat owners that didn't spay/neuter their cats."
Elaine Gregory	US	2020-05-10	"The problem is people, not cats. Punish people who dump their animals. Cats didn't choose to be homeless and hungry."
Christina Martell	Ewa Beach, HI	2020-05-10	"These innocent creatures should be helped, not harmed. It breaks my heart to see hungry kitties and people mistreating them. I have never in my life seen such disregard and cruelty toward living creatures as I have since moving to Hawaii. Please allow colony caregivers to continue to care for their colonies!!! These animals didn't ask to be homeless and hungry, please show them compassion."
Julie Ybarra	Kula, HI	2020-05-10	"All feral animals do not require the same legislation. Do not criminalize the feeding of feral cats. It is cruel, heartless, lacks reason and accomplishes nothing towards controlling their population."

Pam Wolf	kihei, HI	2020-05-10	"Starving any animal is barbaric! Pets can act like scared feral animals too, so you will be starving family pets. DLNR handout says toxo is not a concern at this time. Parasites are everywhere, not just cats! Even if you remove cats they are all around us! Parasites are also one of natures ways of making sure the population stays healthy, survival of the fittest. Humans are always the number 1 cause of all animals demise! Man is responsible for the killing of many many healthy seals! Nets, fishing harassing, dogs, gunshots, and bludgeoning... Don't use cats as a scapegoat!We need cats. But we need help stopping people from abandoning them and we need public govt help for TNR programs, and fixing all cats, which have been proven over and over that work."

There are spay/neuter plans that have worked in other states and are working on Maui. It is the opposite of Aloha to kill when there is a simple and effective solution. Let's live up to the spirit of Aloha."

Freya Harris	Atlanta, GA	2020-05-10	"TNR is the most humane and effective way to deal with stray/feral cats. Starving them will merely make them hunt more, causing damage to wildlife. Besides, tender-hearted people will risk fines and arrest to make sure they eat."

Unless you council people have Gone to the Dogs, you will forget this mean and hateful action against cats.It's not like you don't have Real Problem to deal with such as our homeless population and clean water for our residents among many issues. Leave our cats alone or in a year or so, you'll be in the news tackling a Huge Rat Problem! Let nature be balanced as it is now. Don't be the Mean Boys killing and touring a few cats. BTW, whoever estimated the cat population on Maui should flunk math because that is an Extreme Overestimate of our feline population. Killing one species over

Cat Billau	Bozeman, MT	2020-05-10	"This is animal cruelty that has absolutely no place in our world! TNR is a proven humane strategy to control cat populations. The public health implications of allowing dead and dying animals to litter public places is unconscionable."

The cats are in this predicament through no fault of their own. Colony caretakers are not the creators of this community problem, they are only helping to manage the situation and finding humane and compassionate answers, namely colony management through TNRM. This legislative shows a clear lack of understanding of this community problem. Starvation does not solve the problem, it will only make matters worse with cats going where they shouldn't, sick and desperate to find food. Prosecute the perpetrators, those who abandon cats, otherwise the problem will persist."

Maui's council members need to step up and fund the very successful TNR program of which I am a proud participant. Each council member should visit at least one colony, and talk to caretakers. Feral cats are the same species as pet cats. They should be loved and cared for as much as pet cats. If you starve them they will still reproduce and become aggressive in order to survive. Then you will find dead birds as well as dead cats. Is this what you want? As for the tourists, they love the feral cats, and would be outraged if the cats were starved."

It is appalling that Rikki Hokama is so uncaring that he would rather cause harm instead of support TNR volunteers and solve the problem,. This program of catch spay and neuter has worked for years and folks who wish to feed and care for these cats should continue. Toxoplasmosis is not common in cats who are well fed by humans as long as that food does not contain uncooked meat. The reason to kill the cats due to toxoplasmosis is a poor argument at best. If you cease to manage your colony due to a mandate by a sector of the state or government, then you are committing an abandonment crime and therefore will be prosecuted."
Gail Matteson	New freedom, PA	2020-05-11	"Starvation leads to other problems such as illness and behavioral issues. It is likely that some of the cats with proper care and attention can be socialized and find a permanent home. This will result in natural attrition of the colonies. I visit Maui several times a year and in the past my husband and I have helped with the feeding and trapping of the feral cats. The groups you have in place managing these colonies they are not simply feeding them they are a part of your solution. Your "solution" is barbaric and unproven. Please reconsider, work with your people, build a spay/neuter campaign in your communities and pay trained HUMANE trappers a fee for catching, neutering(on the campaigns dime) and returning to field. Get your vets on board to offer reduced rates, let them be a part of the solution. Respect your animals ALL animals!"
