RE: Property Damage Claim Settlement \$7,500.00 or More

SUBJECT: Claimant: Paul Cleveland
Date of Loss: 05/05/2021
Claim Number: 4070761
RISK NO.: RISK-2021-0399

FACTS: This incident occurred on May 5, 2021 about 10:30 PM at 404 Auhana Rd, Kihei, HI 96753. A water main break caused damage to the claimant's property.

PROPERTY DAMAGE: The claimant's home, shed and landscaping were damaged from this loss. Claimant went through his carrier, DB Insurance Company for the damages and we received a subrogation demand for \$13,593.87.

Mitigation: \$5,126.33

Water Extraction & Remediation (Flood Pro): \$4,161.73

Dump fees: \$964.60

Dwelling Repairs: \$6,018.78 ACV, less \$174.08 depreciation, \$5,844.70 ACV

Other Structures (Shed Flooring): \$950.40, less \$126.72 depreciation, \$823.68 ACV

Contents: \$638.90

R&R Refrigerator (3): \$522.18 RCV, less \$119.538 depreciation, \$402.65 ACV

Futon Mattress: \$100.00 RCV, less \$25.00 depreciation, \$75.00 ACV

Electric Generator: \$75.00 RCV, less \$18.75 depreciation, \$56.25 ACV

Bed Mattress: \$150.00 RCV, less \$45.00 depreciation, \$105.00 ACV

*Replacement cost values were calculated for a similar replacement at the time of the loss. Attached are some current comparable items.

Driveway Cleaning/Pressure Washing Debris: \$1,160.26

DISCUSSION/RECOMMENDATION: Liability is probable. Bobby Vida with DWS confirmed the hub end of the 30" transmission line split and broke off. It is 42 years old and buried 5-8' deep. DWS is responsible for the transmission line, but they only maintain the valves and tank controls that come off the transmission line. We recommend settling this claim for \$13,593.87.

To divert the water south to a gulch approximately 200 ft. from the water main break/eruption on our street. 2 barricades diverting the water would have eliminated the threat of danger, damage or potential loss of life for humans or pets.

I stayed by the geyser of water with police and fire responders until past midnight and never saw one Water or County Supervisor arrive. I wanted to suggest diverting the water into the gulch instead of it raging down our driveway and under our home.

It was a scary night for our entire neighborhood. I was concerned about the foundation of our home withstanding the barrage of water for that many hours with no stopping in sight.

We have experienced 100 yr. flood waters from rain events in the past but nothing of this magnitude or strength of flow.

7am-10am:

I returned to see the water department beginning clean up with a backhoe. They dredged the hole and were diverting red mud filled water BACK down our street and again down our driveway and under our house. All of this has been video documented. My tenant located the Water Dept. supervisor and requested them to stop sending the mud filled filthy torrent of water back down our property. The supervisor was very responsive when he realized the mistake. He told her he thought there was a drain in front of our property which there definitely is not. The Water Department then redirected the hoses gushing muddy water in another less damaging direction. Unfortunately, it was too late for our property. It was loaded with filthy silt which we are STILL cleaning up.

The Water Department sent a loader to scrape loads of silty mud from our driveway but we really needed more help. I am still power washing the driveway and shoveling up huge amounts of muddy silt. It is blowing into our home.

Our entire neighborhood is on septic systems which overflowed the night of the water main break. Disgusting.

We have 37 years of memories from under the house which are ruined. Family photos, VHS tapes, Christmas decorations, camping gear, lawn equipment, gnererators, etc. GONE.

This is an estimate only and is intended to be a guide in the review of the insurance claim. We reserve the right to make adjustments to this estimate as additional information becomes available. This estimate reflects the actual cash value of the repairs. The actual cash value reflects a deduction for depreciation based on the age and condition of the items being replaced.. If your policy provides Replacement Cost coverage, this coverage provides payment of the actual, necessary costs of making repairs to your property without any deduction for depreciation. Before replacement benefits may be claimed, your policy requires that repairs be completed, or that an agreed price is reached with your contractor. The additional amount which may be claimed is limited to the smaller of the amount of depreciation or that portion of the depreciation actually spent for repairs. This is not an authorization to repair. This is not an interpretation of what is covered. Only your insurance company can make that decision.
