Event of 12/5/2021 at 3274 Waileia Pl, Kihei, HI 96753

On the night of 12/5/21 there was flooding that incurred damaging my property when the drainage gulch adjacent was blocked up from debris and overflowed on to my property from the driveway and road. Normally the gulch handles flash floods without flooding, but because the culverts were blocked the flooding came up over the road and down onto my property.

These are pictures above of the flooding.

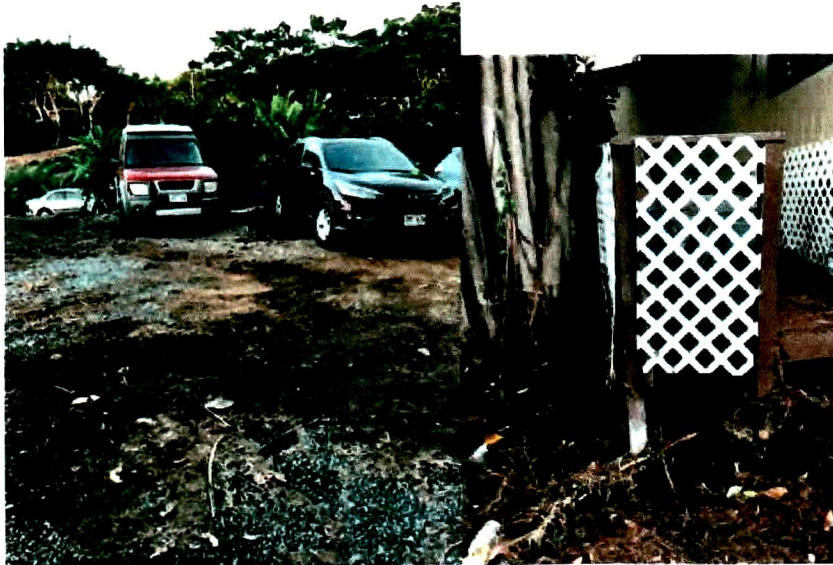

This is the downstream culverts adjacent to my property

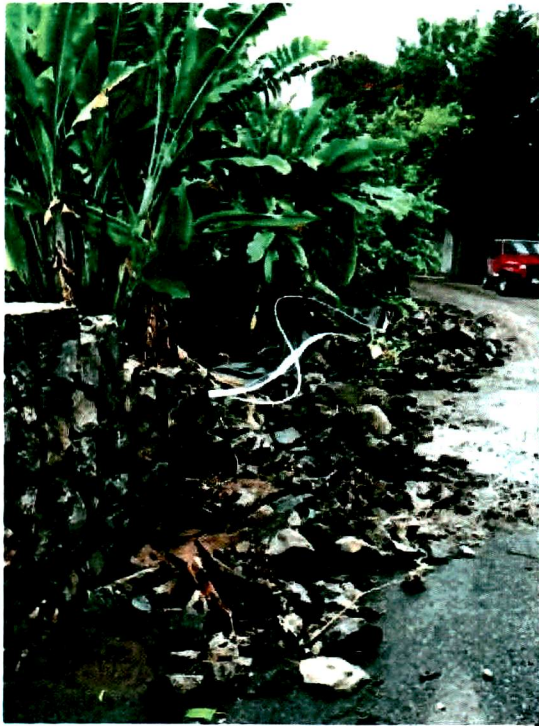

This is the upstream culvert which nearly complete obstructed on the opposite side of the road.

Due to the flooding that resulted from the blocked culverts in this drainage ditch, my property sustained substantial damage. The driveway and parking lot were completely destroyed, landscape, irrigation, porch support piers, washer and dryer were damaged. I have been

working at making repairs to the property which includes fixing the driveway, parking lot, irrigation, and porch foundation and replacing the washer/dryer. Invoices will be included for repairs. Additionally, there was a rock wall that blew out that I currently do not have the resources to repair. I will attach the quotes for the rock wall repair.

Restoration/Service/Remodel

Estimate: 4076201

This is an estimate only and is intended to be a guide in the review of the insurance claim. We reserve the right to make adjustments to this estimate as additional information becomes available. This estimate reflects the actual cash value of the repairs. The actual cash value reflects a deduction for depreciation based on the age and condition of the items being replaced.. If your policy provides Replacement Cost coverage, this coverage provides payment of the actual, necessary costs of making repairs to your property without any deduction for depreciation. Before replacement benefits may be claimed, your policy requires that repairs be completed, or that an agreed price is reached with your contractor. The additional amount which may be claimed is limited to the smaller of the amount of depreciation or that portion of the depreciation actually spent for repairs. This is not an authorization to repair. This is not an interpretation of what is covered. Only your insurance company can make that decision.
