Subject: I Support Short term real estate transfer tax

I Support Short term real estate transfer tax because I am a public school teacher, and buying a house on Maui at current market prices would be absolutely impossible with my salary. This is one of the reasons why the state of Hawaii has a growing problem filling teaching positions, with over 600 vacancies at the start of this school year.

Please take this issue seriously, or the gentrification of Maui will force every last working class local out of our island.

Aloha,
Shane Albritton
