Aloha, my name is Jonni Earl. I am a merchant in Paia with two store locations. I am in support of Bill EAR 36 because it is a self-funding mechanism that can help pay for services we as businesses all need and use, such as trash removal, maintenance of public walkways and parking lots, family friendly town events, etc. Many SID's exist throughout the US, and here in Hawaii. We would like to be added to this list.

Please consider approving this Bill and giving our town of Paia an opportunity for self-improvement. Paia has come a long ways and continues to gain popularity among tourists and local residents. We are proud of our town and shops and would like to continue adding to the appeal of the North Shore.
