Subject: I am in support of Bill EAR 36

Aloha. I am a member of the Paia Town Association and I am in support of Bill EAR 36. Our community needs additional funding for beautification projects and daily maintenance. A self-funding mechanism is a tool Paia can use to bring in revenue to pay for future municipal services and more events for our community. These are a couple of examples of why I am in favor of Bill EAR 36. Mahalo.
