TIVOLI S. FAAUMU
CHIEF OF POLICE

DEAN M. RICKARD
DEPUTY CHIEF OF POLICE

April 17, 2017

Ms. Lynn A.S. Araki-Regan
Budget Director, County of Maui
200 South High Street
Wailuku, Hawaii 96793

Honorable Alan M. Arakawa
Mayor, County of Maui
200 South High Street
Wailuku, Hawaii 96793

For Transmittal to:

Honorable Riki Hokama
Chair, Budget and Finance Committee
Maui County Council
200 South High Street
Wailuku, Hawaii 96793

RE: REQUESTS/QUESTIONS FROM THE APRIL 7, 2017 MEETING (PD-1) (BF-1)

Dear Chair Hokama:

Thank you for the opportunity to respond to your requests/questions from the Fiscal Year 2018 Budget and Finance Committee Meeting on April 7, 2017.

1. As it relates to CBS-1010 (page 700 of the Program Budget), Countywide Police Facilities:
 - a. Provide a breakdown of the existing air conditioning system elements at the Forensic Facility requiring design, renovation, and replacement. Include the square footage of the facility. (MW)

The Forensic Facility's square footage is 8,076.

The Facility has air conditioning split-type systems, with all units installed in 2006 or before.

On the first floor there are four (4) units: Fujitsu, Model AOU24RC (serial: T000102); Mitsubishi Electric Mr. Slim, Model PU42EK7; York Lx Series, Model YCJD60S41S1C; and another Mitsubishi Electric Mr. Slim, Model PU42EK7.

On the second floor there are three (3) units: Rheem Classic Series Model RAND-060JAZ (serial: 7307F160610449); Mitsubishi Electric Mr. Slim, Model PU36EK1; and a Rheem Classic Series Model RAND-060JAZ (serial: 7307F160610456).

APPROVED FOR TRANSMITTAL

Al Araki 4/18/17
Mayor

Date

OFFICE OF THE
COUNTY COUNCIL
APR 18 PM 3:23

RECEIVED

Design, renovation, and replacement of existing split-type systems requires removal of exterior condensing units, interior air handler units and related conduits (from within drop ceilings) and installation of new system-related components. Design and replacement equipment will provide laboratory-quality air (humidity controlled and HEPA filtered) which is essential to comply with evidence-handling protocols, accreditation standards and expensive instrumentation for the relocated MPD's Crime Laboratory in the analysis of drugs, and eventually, DNA evidence (the MPD Crime Lab is currently in the Wailuku Station).

The air conditioning units are constantly failing which requires unscheduled repairs. The age of the units makes it difficult to find parts. On several occasions it took approximately 6 months for required parts to be located, all while the unit was turned off.

The proposed budget cost was received as a ball park figure from the contractor based on the size, dimensions, and usage of the entire structure.

- b. As of February 28, 2017, the Department spent \$80,000 on maintenance and repair costs. How much of these costs are attributed to the Forensic Facility? (RH)

To date, air conditioning maintenance and repair costs during Fiscal Year 2017 for the Forensic Facility totaled \$5,038.59.

2. Please explain the success measurements of Goal 1 (2) (page 492 of the Program Budget), related to the percent of complaints resulting in an employee being exonerated or not sustained. (RH)

The goal is to enhance personnel development.

The objective is to conduct administrative investigations in a timely manner when a complaint of misconduct is made against an MPD employee.

It is to measure the percent of complaints resulting in the employee being exonerated or not sustained.

The intent of this measure is to track the internal review process for complaints of employee misconduct and violations of Department policy and procedures. Complaints against employees are referred to an Administrative Review Board (ARB). It is the responsibility of this Board to review complaints and determine the appropriate disposition. The Board will determine if the complaint is:

- Sustained - the misconduct or violations did occur
- Not Sustained - no sufficient evidence to prove or disprove allegations
- Unfounded - allegation is false, did not occur or involve the employee named
- Exonerated - incident occurred, but employee acted lawfully and properly.

This performance measure provides the percentage of complaints where the disposition was exonerated or not sustained.

3. Explain the salary adjustments for the following positions in the Investigative Services Program: (RH)

- a. PD-0258 Police Officer III (page 15-13 of the Budget Details), \$4,026 salary increase.

PD-0258	Police Officer III	p. 15-13	\$4,026			
FY 2018	Vice	PO-9C	(incumbent's step)

FY 2017 Budget	22L			12	6054	72324
						2868

4. Provide a detailed cost breakdown, by program, on all categories included in "Other Premium Pay," such as emergency call back, hazard pay, night differential, overtime, standby, temporary assignment, premium pay, and other salary adjustments. Is this amount *in addition* to the salary increases listed per position? (RH)

We are requesting the following amounts for Premium Pay in our Fiscal Year 2018 proposed budget: \$61,500 in Administration, \$475,718 in Investigative Services, \$3,575,799 in Uniformed Patrol Services, and \$474,134 in Technical and Support Services. These totals encompass payments for emergency call back, hazard pay, night differential, overtime, standby, and temporary assignment as required by the corresponding collective bargaining agreement contract. These amounts are in addition to the salary increases listed per position. Those salary increases are for base pay, to include standard of conduct differential, only.

5. For the 339 patrol vehicles in the Department, provide a list of vehicles by program and district, and include vehicle type. (MW)

Please refer to Attachment A, MPD Vehicles By Program.

6. Please explain the following large salary increases noted on page 15-50 of the Budget Details. Include the number of step increases being awarded for each position and the reason for the large jump in steps. (SC)

Both incumbents were selected as Primary Field Training Officers (FTO) for recruit officer training. FTOs are reallocated to Police Officer III, PO-09 pay at their respective step, temporarily until the end of the recruit training program's FTO phase. The FTO phase lasts four months, unless the recruit requires additional training.

- a. PD-0545 Police Officer II: Reallocation to Police Officer III - FTO, step 7B to 9L2, \$19,142 salary increase.

PD-0545	Police Officer III	p. 15-50	\$19,142			
FY 2018	Kihei	PO-9L2	(incumbent's step)			
CBA rates /eff.	9L2	1/1/2017	83184	12	6932	
	SOCD >PO-08		8320			91504

FY 2017	7C	7/1/2016	32934	6	5489	
	CBA ATB 3.3%	1/1/2017	34020	6	5670	
	SOCD <PO-08		7904			74858
						10262

7. Are the funds appropriated in the Uniformed Patrol Services Program Subaccount 5215 Premium Pay, per district (pages 15-51 through 15-54, Budget Details), adequate to cover expenses through the end of Fiscal Year 2017? Please explain. (MW)

No, the funds appropriated in the Uniformed Patrol Services Program Subaccount 5215 Premium Pay expenditure report submitted on March 29, 2017 by Ms. Lesley Uemae, each district/unit is projected to run a deficit by the end of Fiscal Year 2017. Below are the projected deficits of each district/unit in the Uniformed Services Bureau (USB):

Wailuku Patrol:	-\$ 543,176
Lanai Patrol:	-\$ 34,587
Hana Patrol:	-\$ 27,295
Lahaina Patrol:	-\$ 258,788
Molokai Patrol:	-\$ 87,146
Kihei Patrol:	-\$ 333,232
Traffic Section:	<u>-\$ 85,624</u>
TOTAL:	-\$ 1,369,847

There are a variety of reasons for overtime including call-backs/holdovers for sick, vacation and injured personnel; responses to natural disasters (such as the flooding in Iao Valley); motor vehicle traffic accidents involving fatalities or near fatalities; protests, etc.

8. For the Central Maui Patrol (pages 15-37 through 15-44 of the Budget Details), explain why the 2017 E/P count is 99, yet at a March 20, 2017 Policy, Economic Development and Agriculture Committee meeting, the Department reported current staffing at 87 and authorized staffing at 95. Explain the disparity in numbers. (RH)

For Fiscal Year 2017, the total authorized E/P count for Central Maui Patrol is 101. Ninety-nine persons are assigned to USB Central Maui Patrol, and an additional two positions (PD-0427, PD-0428) are Technical Services Unit (TSU) positions, to be reorganized and identified on 910160 as "Computer Operations". At the Policy, Economic Development and Agriculture Committee Meeting the Department identified 95 authorized positions, which excluded the 6 Crime Reduction Unit positions charged to 910117A. The current staffing as of April 1, 2017, was 87.

9. Regarding PD-0231 Public Safety Aide (page 15-35 of the Budget Details), explain why the position has a step correction noted, but no salary increase. (RH)

PD-0231	Public Safety Aide	p. 15-35	\$0	Step Noted		
FY 2018	Lahaina	SR12C	(incumbent's step)			
CBA rates /eff.	12C	1/1/2017	34260	12	2855	
						34260
FY 2017 Budget	12B					32976
						1284
*Error:	Amount should be corrected with step increase.					
	Amount should be \$34,260, annual salary at SR-12C					

10. Provide a comparison of all position salaries, as listed in the Budget Details, per program, per district, against their actual salaries. Note any discrepancies and explain. (MW)

Please refer to Attachment B, MPD Salaries.

11. Regarding PD-0374 Office Operations Assistant II (WP) (page 15-66 of the Budget Details), what does "WP" stand for? (RH)

"WP" refers to a clerical position created for the purpose of Word Processing.

12. Provide cost details of the \$400,000 included in subaccount 6132 Professional Services (page 15-80 of the Budget Details). (MW/RH)

The \$400k requested for Professional Services is for contracting with architects, engineers, and consultants to do project design work in advance of requesting for CIP funds. The specialized nature of communications facilities and the additional environmental concerns and requirements make it more cost effective to do planning and design in advance of requesting for construction or project funding. For example, in addition to the construction of a building to house the communications equipment which is common for most construction, additional planning and permitting needs to be done for:

1. Electrical and signal grounding systems that comply with the R-56 Standard. This standard goes beyond typical Electrical Code and incorporates all aspects of a facility to control and manage electrical noise, radiofrequency interference, communications/computer systems grounding and lightning protection.
2. Structural and Civil Engineering requirements for antenna towers are more like designing a bridge than a building. The Telecommunications Industry Association (TIA) 222-G Standard considers loads and stresses on the tower based on the antenna systems projected as well as the site geography to determine the potential wind forces and the stresses on the tower to determine the design of the tower and its foundation.

3. Avian studies to determine risks to endangered bird species. Unlike buildings, antenna towers do not present a solid obstruction to birds. The presence, numbers, and flight patterns of these endangered species in the area specific to the site need to be quantified and a collision model used to determine the potential 'take' or death/injury of these birds that could be caused by this structure. Based on these studies, discussion with and the approval of the US Fish and Wildlife as well as the Department of Land and Natural Resources is required to proceed with construction.
4. FCC licensing and frequency coordination costs are also not common for consideration in any project, as well as any expansions or additions to the Public Safety Radio System.

Approximate costs for the Fiscal Year 2018 requested funds for these engineering and design services are provided below:

1. Clean agent fire suppression system design for the radio, network and 911 equipment rooms constructed previous to the Public Safety Radio System at the County of Maui Building (rooftop), Lahaina Police Station, Kihei Police Station, Kaunakakai Fire Station - \$90,000 (\$20k - \$30k)
2. Site improvements are needed at the Hāna Airport and Pu'u o Hoku Ranch sites for tower replacements, generator shelters and fuel system. The towers at these locations, as well as at the Ke'anae Department of Transportation (DoT Baseyard) need replacement to improve their survivability in severe wind events. The TIA 222-G standard changed the way the effects of wind on structures, and these towers will need replacement in order to survive based on these new calculations. Generators at these sites are exposed to the elements, and have required replacements of the large motor alternators that produce the electrical power. These replacements are unusual and most motor alternators last as long as the generator engines. The project would seek to construct a shelter to house these generators to protect them from the environment, and replace the steel fuel tanks which are prone to corrosion in these high corrosion locations. - \$150,000 for each site, \$300k total.

**Please note that similar work is required for the Ke'anae DoT Baseyard; however, an increase in tower height is also required to improve connectivity to the site. This will require more background research and in-house design work before going to engineering and architectural design. Costs for this site should be similar as the above sites (\$150k estimated).

3. Frequency search, coordination and licensing for microwave channels for Ke'anae, Hāna (to Big Island) and Ulupalakua to provide redundant path connectivity. - \$8,000
13. Regarding the current shortage of Emergency Service Dispatchers:
- a. Provide the costs involved to implement various types of hiring incentives (for example, referral program, retention program, etc.) for the Committee to consider in the Fiscal Year 2018 Budget. (RH)

We are working with the Department of Personnel Services (DPS) to implement a retention and service incentive for all Emergency Services Dispatchers. Retention pay of \$350.00 per month equates to \$4,200 annually. With 45 Emergency Services Dispatch positions (Wailuku and Molokai), the cost would be \$189,000 annually.

- b. Provide the Department's perspective on how a shortage differential could be implemented. (RH)

As previously mentioned, we are working with the Department of Personnel Services to implement a retention and service incentive for all Emergency Services Dispatchers. Mr. Alton Watanabe of DPS is assisting us with that process. We would like to re-establish the retention incentive used until 2011-2012 when it was discontinued.

- c. Confirm whether \$362,800 in Premium Pay is adequate for account 910430A Communications Police (page 15-77 of the Budget Details). If this amount is not adequate, provide justification on a new figure for the Committee to consider in the Fiscal Year 2018 Budget. (RH)

Currently we are already over budget for Premium Pay in Communications. Using an average of \$49,000 in Premium Pay a month, we would need a total of \$588,000 to cover our Premium Pay for one year. In the current year, the Department is using the staff shortage in Dispatch to cover the cost for the Premium Pay.

14. Of the \$60,750 paid to account 6110 Computer Services (page 15-79 of the Budget Details), what portion is paid to the State Criminal Justice Data Center, how often is this paid, and for what purpose? What does the State do with the monies that are received from the County? (RH)

Department employees utilize the National Crime Information Center (NCIC) and the National Law Enforcement Telecommunication System (NLETS). These systems are accessed through the Hawaii Criminal Justice Data Center. The network is designed to link and support every state, local and federal law enforcement, justice and public safety agency for the purposes of sharing and exchanging critical information. The Hawaii Criminal Justice Data Center provides access portals to various law enforcement agencies to access the information.

The total cost for NCIC/NLETS access for the State of Hawaii in Fiscal Year 2017 was \$412,907. Maui County ran 156,962 transactions during the fiscal period, or 13.35% of the total for the State. Maui County was responsible for 13.35% of the overall cost for all state transactions, or \$53,621.

The \$60,750 budgeted for computer services refers to the projected total for transactions to be conducted during Fiscal Year 2018. This is an annual payment, invoiced once a year. The funding is utilized to continue access and maintain the network, network security, etc. for this application as it connects with multiple states and law enforcement agencies.

15. How many tasers does the Department currently have? Of this number, how many are allocated per district, and how often are they replaced? (RH)

Riki Hokama
April 17, 2017
Page 9

We currently have a total of 224 X26-Tasers (old technology) and 221 X2-Tasers (current technology). The X26 Tasers should be exchanged every 5 years. All 224 of the X26-Tasers in our inventory are up for replacement as they are obsolete. Effective December 2015, Taser no longer manufactures, provides service for, or legally defends the Taser X26.

We are currently working on a new contract with Taser which will include the replacement of the obsolete X26 Tasers. The Taser 60 Contract is a multi-year contract which will replace all of our X26 Tasers in the initial year and rotate all of our Tasers over a five year period.

Tasers are not allocated by District, but are issued to all sworn personnel.

16. If approved, identify where the six Automatic Electronic Defibrillators will be used. (EC)

Three (3) AEDs will be assigned to the Traffic Section and three (3) will be assigned to the Plans and Training office for replacement as needed. In the next year we anticipate one (1) to be assigned to Lanai and two (2) to the Wailuku District Patrol. AEDs typically last 5 to 7 years before replacement.

If you have any further questions or require further information, please do not hesitate to call me at 244-6300.

Sincerely,

TIVOLI S. FAAMU
Chief of Police
