GRANT DESCRIPTION

PAGE # _____

PROBLEM STATEMENT

Identify the traffic safety related problem or deficiency that the proposed grant is intended to correct. Identify and gather appropriate data relevant to the problem. Collision/fatalities data appropriate to the identified problem and a brief analysis of the data is required. When available, three years of data should be presented and analyzed. When identifying the problem, take into consideration changes in population, traffic patterns and other demographic dynamics that may affect traffic safety.

Speeding on roadways is a major concern for the Maui Police Department. Roadways are being improved and modified to carry more capacity and real estate development continues to sprawl out into previously undeveloped areas of Maui County. Speeding complaints from the community is ongoing throughout the county. Speeding has been a contributing factor in fatal crashes here in Maui County.

Maui County summary on Speed Involved Fatalities and Speeding Citations Issued

	Traffic Fatalities	Speed-involved Fatalities	% Speed-involved Fatalities	Speeding Citations (County and Grant funded)
2012	23	10	43%	4,762
2013	16	6	37.5%	4,626
2014	21	9	42.8%	3,138
2015	21	8	38%	3,833
2016	21	8	38%	8,408
TOTAL	102	41	39.8%	24,767

The fatalities represented in the above include the operator and/or passenger(s) of the vehicles involved in fatal crashes (FARS).

SCHOOL ZONE SPEEDING:

Speeding in the designated school zones has been a growing concern for the Maui Police Department; we recently started focusing on our fifteen (15) primary school zones. We know that pedestrians are more likely to be struck crossing the roadway in general; however, children being shorter are more likely to be struck by motorist than an adult. The police motorcycle enforcement detail has been the primary unit addressing community based concern. We continue to enforce the speeding and reckless driving in the school zones as a department.

The speed enforcement was conducted in the designated school zones.

GRANT GOALS

Goals serve as the foundation upon which the grant is built. Goals are what you hope to accomplish by implementing a traffic safety grant and represent an end result. Grant goals should be stated in measurable terms (i.e., a percent reduction), be concise and deal with a specific item, be realistic with a reasonable probability of achievement, and be related to a specific time frame (a "by" date). Please notate baseline from which the reduction/increase will result.

The goal of the Maui Police Department is:

1. To issue 2,700 or more speeding citations on grant funded overtime by September 30, 2018; and
2. Of the 2,700 or more citations, 500 or more speeding citations would be issued in a designated school zone by September 30, 2018.

GRANT OBJECTIVES

Objectives are tasks or activities conducted in order to accomplish the grant goal(s) (e.g., develop permanent fitting stations for child restraints, enforcement activities, educational activities, etc.). Grant objectives should be stated in measurable terms (i.e., a percent reduction, number of training to be held, number of roadblocks, etc.), be concise and deal with a specific item, be realistic with a reasonable probability of achievement, and be related to a specific time frame (a "by" date).

Maui Police Department intends to achieve its goal by:

1. Aggressively enforcing the speeding laws on major roadways by issuing 2,700 speed related citations by September 20, 2018;
2. Enforce the speeding laws with a police motorcycle, as they apply in designated schools zones, issuing 500 speed

related citations by September 20, 2018;

3. Purchase one (1) two wheeled police motorcycle and required enforcement/ safety equipment to include emergency lights/ service box/police radio/safety helmet. The purchase of this motorcycle would be used to enforce speeding/reckless driving in our schools zones and public roadways throughout our community;
4. Purchase one (1) speed/message board trailer with integrated statistical package, this unit would replace our older trailer (2005) that was taken off line two years ago; and
5. To utilize the speed survey data and deploy the electronic digital speed read-out trailers at the times and locations where speeding occurs or is reported.

METHOD OF EVALUATION

Using data gathered throughout the grant period, the grant manager will evaluate (1) how well the stated grant goals and objectives were accomplished, and (2) was the grant cost effective? How are you going to show effectiveness of your project? What will be the impact of the project on your identified problem and goal(s)? Provide details on the method of evaluation.

The Maui Police Department will evaluate the progress of the grant activities through quarterly reporting to the Highway Safety Office. This report will include the number of citations issued, the number of speed surveys conducted on highways and school zones, to include the number of times the speed display trailers/message boards are utilized.

At the end of the grant period, an evaluation of the number of speed related fatalities will be compared to the baseline total from the 2017 calendar year. Speed surveys in the school zones will provide statistics as to the effectiveness of speed enforcement in our schools zones. The combined efforts will provide MPD with speed compliance and the effectiveness of the department's strategies.

MPD will evaluate the purchase of the police motorcycle by keeping track of the following information to the Highway Safety Section:

1. How many speeding citations are being issued in the designated school zones and public roadways?
2. How many times the speed surveys are being conducted in the school zones, and the results?
3. What other benefits have resulted by having a police motorcycle in designated school zones and public roadways throughout our island. To include "Other" citations being issued and/or arrest(s) being made?

If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal contract, grant, loan, or cooperative agreement, the undersigned shall complete and submit Standard Form-LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions.
3. The undersigned shall require that the language of this certification be included in the award documents for all sub-award at all tiers (including subcontracts, subgrants, and contracts under grant, loans, and cooperative agreements) and that all subrecipients shall certify and disclose accordingly.

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by section 1352, title 31, U.S. Code. Any person who fails to file the required certification shall be subject to a civil penalty of not less than \$10,000 and not more than \$100,000 for each such failure.

RESTRICTION ON STATE LOBBYING
(applies to subrecipients as well as States)

None of the funds under this program will be used for any activity specifically designed to urge or influence a State or local legislator to favor or oppose the adoption of any specific legislative proposal pending before any State or local legislative body. Such activities include both direct and indirect (e.g., "grassroots") lobbying activities, with one exception. This does not preclude a State official whose salary is supported with NHTSA funds from engaging in direct communications with State or local legislative officials, in accordance with customary State practice, even if such communications urge legislative officials to favor or oppose the adoption of a specific pending legislative proposal.

(applies to subrecipients as well as States)

Instructions for Primary Certification

1. By signing and submitting this proposal, the prospective primary participant is providing the certification set out below.
2. The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. The prospective participant shall submit an explanation of why it cannot provide the certification set out below. The certification or explanation will be considered in connection with the department or agency's determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.
3. The certification in this clause is a material representation of fact upon which reliance was placed when the department or agency determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, the department or agency may terminate this transaction for cause or default.
4. The prospective primary participant shall provide immediate written notice to the department or agency to which this proposal is submitted if at any time the prospective primary participant learns its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

The knowledge and information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.
10. Except for transactions authorized under paragraph 6 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is proposed for debarment under 48 CFR Part 9, subpart 9.4, suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal Government, the department or agency may terminate this transaction for cause or default.
