Subject: Do not limit hours of Beach access parking!

Aloha Chairman Guzman and Maui County Council members, I am firmly opposed to changing section 10.48.250 regarding times parking is available on hotel property. Access means access, not limited by activity. Closing access at night and certain times restricts night fishing, night diving and other legitimate nighttime uses. This seems like an overreach of power to further deny access to the local community. Please vote NO on changing the rules!
