ORDINANCE	NO	
BILL NO	5	(2018)

A BILL FOR AN ORDINANCE AMENDING
THE FISCAL YEAR 2018 BUDGET FOR THE COUNTY OF MAUI
AS IT PERTAINS TO APPENDIX C - CAPITAL IMPROVEMENT PROJECTS,
DEPARTMENT OF ENVIRONMENTAL MANAGEMENT,
WEST MAUI COMMUNITY PLAN AREA,
LAHAINA WASTEWATER RECLAMATION FACILITY (WWRF)
PRIMARY ELECTRICAL SYSTEM REPLACEMENT

BE IT ORDAINED BY THE PEOPLE OF THE COUNTY OF MAUI:

SECTION 1. Ordinance No. 4456, Bill No. 65 (2017), Draft 1, as amended, "Fiscal Year 2018 Budget", Appendix C — Capital Improvement Projects, is hereby amended as it pertains to the Department of Environmental Management, West Maui Community Plan Area, by adding a capital improvement project entitled, "Lahaina Wastewater Reclamation Facility (WWRF) Primary Electrical System Replacement", in the amount of \$2,423,472, to read as follows:

	"APPENDIX C - Capital Improvement Projects			
Capital imp appendix.	Capital improvement project funding may not be used for any purpose other than as described in this appendix.			
CBS NO.	PROJECT TITLE/DESCRIPTION	APPROPRIATION		
	Department of Environmental Management			
	1. Countywide			
CBS-1132	a. Countywide Environmental Protection Agency (EPA) Compliance Projects	500,000		
	Design and construct sewer line improvements based on the current CCTV project in accordance with the 1999 Consent Decree.			
CBS-1119	b. Countywide Environmental Protection Agency (EPA) Compliance Wastewater Reclamation Facility Renovation Projects	2,000,000		
	Design, construction, renovation, or upgrade of equipment at the Wastewater Reclamation Facilities (WWRF) as required by the 20-year Rehabilitation & Replacement Plan, developed under the 1999 Consent Decree. FY 2018 projects include: Design for Plant RTU upgrades at the Lahaina and Kahului WWRFs, Wailuku Wastewater Pump Station (WWPS) electrical upgrade, decommissioning the old Lahaina WWPS No. 1 and Hawaiian Homes' WWPS, resurfacing the Kahului WWRF Storage Pond, and construction of access catwalks for the Lahaina WWRF disk filters.			
CBS-1128	c. Countywide Wastewater System Modifications	1,000,000		
	Provide contingency funding as required for projects where design and construction bids exceed funding appropriations at all County wastewater system facilities in accordance with state and federal requirements.			
000 4000	2. Hana Community Plan Area			
CBS-1908	a. Hana Landfill Makai Berm Waste Removal	2,000,000		
	Remove waste dumped outside of the existing permitted waste limits of Hana Landfill (and other related costs) from the makai side of the landfill. Relocate the waste to the current permitted landfill parcel in accordance with Hawaii Department of Health remediation plan requirements.			

Design the upgrade/replacement of approximately 3,500 lineal feet of existing major gravity trunk lines in South Kihei Road. CBS-1160 b. South Maul Recycled Water System Expansion Design and construct distribution system improvements, a new one-million-gallon offsite storage tank, and pump station upgrades for the Kihei Wastewater Reclamation Facility. Tank shall be constructed on the same property where the existing tank is located. 4. Makawao-Pukalani-Kula Community Plan Area A. Makani Landfill Site Restoration Restore final cover system, improve site drainage, and secure defunct gas collection and control system to minimize required site maintenance and protect human health and the environment. This project will be used by the County to demonstrate that a reduced post-closure period is sufficient to achieve certified closure of the landfill as stated in HAR 11-58.1-17(b)(2)(A). 5. Molokai Community Plan Area CBS-2727 a. Kalamaula Landfill Site Restoration Restore final cover system and improve site drainage to minimize required site maintenance and protect human health and the environment. This project will be used by the County to demonstrate that a reduced post-closure period is sufficient to achieve certified closure of the landfill as stated in HAR 11-58.1-17(b)(2)(A). CBS-4590 b. Kaunakakai Wastewater Reclamation Facility (WWRF) Plan Create a report of existing treatment components and investigate alternatives, additions, and retrofits for expansion to accommodate future growth. The report shall include a summary of existing facilities, a future anticipated flow study, alternatives discussions, recommendations, proposed upgrade schedules, and construction cost estimates. 6. Pala-Haiku Community Plan Area a. Kuau No. 3 Force Main Replacement Design the replacement of an 330-foot-long, 8° diameter ductile iron pipe force main located along Hana Highway which was constructed in 1986 and, pursuant to the corrosion study, is approaching the end of its useful life. 7. Wailuku-Kabului Communit	
Design the upgrade/replacement of approximately 3,500 lineal feet of existing major gravity trunk lines in South Khei Road. B. South Mauir Recycled Water System Expansion Design and construct distribution system improvements, a new one-million-gallon offsite storage tank, and pump station upgrades for the Khei Wastewater Reclamation Facility. Tank shall be constructed on the same property where the existing tank is located. 4. Makawao-Pukalani-Kula Community Plan Area a. Makani Landfill Site Restoration Restore final cover system to minimize required site maintenance and protect human health and the environment. This project will be used by the County to demonstrate that a reduced post-closure period is sufficient to achieve certified closure of the landfill as stated in HAR 11-58.1-17(b)(2)(A). 5. Molokai Community Plan Area CBS-2727 a. Kalamaula Landfill Site Restoration Restore final cover system and improve site drainage to minimize required site maintenance and protect human health and the environment. This project will be used by the County to demonstrate that a reduced post-closure period is sufficient to achieve certified closure of the landfill as stated in HAR 11-58.1-17(b)(2)(A). CBS-4590 b. Kaunakakai Wastewater Reclamation Facility (WWRF) Plan Create a report of existing treatment components and investigate alternatives, additions, and retrofits for expansion to accommodate future growth. The report shall include a summary of existing facilities, a future anticipated flow study, alternatives discussions, recommendations, proposed upgrade schedules, and construction cost estimates. 6. Pala-Halku Community Plan Area CBS-1183 a. Kuau No. 3 Force Main Replacement Design the replacement of an 807-foot-long, 6" diameter ductile iron pipe force main located along Hana Highway which was constructed in 1986 and, pursuant to the corrosion study, is approaching the end of its useful life. 7. Wailuku-Kahului Community Plan Area CBS-3175 a. Leachate Collection & Recovery and Electrical Distri	
major gravity trunk lines in South Kihei Road. Ds. South Maui Recycled Water System Expansion Design and construct distribution system improvements, a new one-million-gallon offsite storage tank, and pump station upgrades for the Kihei Wastewater Reclamation Facility. Tank shall be constructed on the same property where the existing tank is located. 4. Makawao-Pukalani-Kula Community Plan Area a. Makani Landfill Site Restoration Restore final cover system, improve site drainage, and secure defunct gas collection and control system to minimize required site maintenance and protect human health and the environment. This project will be used by the County to demonstrate that a reduced post-closure period is sufficient to achieve certified closure of the landfill as stated in HAR 11-58.1-17(b)(2)(A). 5. Molokai Community Plan Area a. Kalamaula Landfill Site Restoration Restore final cover system and improve site drainage to minimize required site maintenance and protect human health and the environment. This project will be used by the County to demonstrate that a reduced post-closure period is sufficient to achieve certified closure of the landfill as stated in HAR 11-58.1-17(b)(2)(A). CBS-4590 b. Kaunakakai Wastewater Reclamation Facility (WWRF) Plan Create a report of existing treatment components and investigate alternatives, additions, and retrofits for expansion to accommodate future growth. The report shall include a summary of existing facilities, a future anticipated flow study, alternatives discussions, recommendations, proposed upgrade schedules, and construction cost estimates. 6. Paia-Haiku Community Plan Area a. Kuau No. 3 Force Main Replacement Design the replacement of an 837-foot-long, 8" diameter ductile iron pipe force main located along Hana Highway which was constructed in 1986 and, pursuant to the corrosion study, is approaching the end of its useful life. 7. Wailuku-Kahului Community Plan Area a. Leachate Collection & Recovery and Electrical Distribution System at the Central	00,000
Design and construct distribution system improvements, a new one-million-gallon offsite storage tank, and pump station upgrades for the Kihei Wastewater Reclamation Facility. Tank shall be constructed on the same property where the existing tank is located. 4. Makawao-Pukalani-Kula Community Plan Area 8. Makani Landfill Site Restoration Restore final cover system, improve site drainage, and secure defunct gas collection and control system to minimize required site maintenance and protect human health and the environment. This project will be used by the County to demonstrate that a reduced post-closure period is sufficient to achieve certified closure of the landfill as stated in HAR 11-58.1-17(b)(2)(A). 5. Molokai Community Plan Area CBS-2727 8. Kalamaula Landfill Site Restoration Restore final cover system and improve site drainage to minimize required site maintenance and protect human health and the environment. This project will be used by the County to demonstrate that a reduced post-closure period is sufficient to achieve certified closure of the landfill as stated in HAR 11-58.1-17(b)(2)(A). CBS-4590 D. Kaunakakai Wastewater Reclamation Facility (WWRF) Plan Create a report of existing treatment components and investigate alternatives, additions, and retrofits for expansion to accommodate future growth. The report shall include a summary of existing facilities, a future anticipated flow study, alternatives discussions, recommendations, proposed upgrade schedules, and construction cost estimates. 6. Pala-Haiku Community Plan Area a. Kuau No. 3 Force Main Replacement Design the replacement of an 830-foot-long, 6" diameter ductile iron pipe force main located along Hana Highway which was constructed in 1986 and, pursuant to the corrosion study, is approaching the end of its useful life. 7. Walluku-Kahului Community Plan Area a. Leachate Collection & Recovery and Electrical Distribution System Upgrades Upgrades Upgrade and modernize the leachate collection and recovery system at the Central	
offsite storage tank, and pump station upgrades for the Kihei Wastewater Reclamation Facility. Tank shall be constructed on the same property where the existing tank is located. 4. Makawao-Pukalani-Kula Community Plan Area 2. A. Makami Landfill Site Restoration Restore final cover system, improve site drainage, and secure defunct gas collection and control system to minimize required site maintenance and protect human health and the environment. This project will be used by the County to demonstrate that a reduced post-closure period is sufficient to achieve certified closure of the landfill as stated in HAR 11-58.1-17(b)(2)(A). 5. Molokai Community Plan Area 2. A. Kalamaula Landfill Site Restoration Restore final cover system and improve site drainage to minimize required site maintenance and protect human health and the environment. This project will be used by the County to demonstrate that a reduced post-closure period is sufficient to achieve certified closure of the landfill as stated in HAR 11-58.1-17(b)(2)(A). CBS-4590 b. Kaunakakai Wastewater Reclamation Facility (WWRF) Plan Create a report of existing treatment components and investigate alternatives, additions, and retrofits for expansion to accommodate future growth. The report shall include a summary of existing facilities, a future anticipated flow study, alternatives discussions, recommendations, proposed upgrade schedules, and construction cost estimates. CBS-1183 a. Kuau No. 3 Force Main Replacement Design the replacement of an 830-foot-long, 6" diameter ductile iron pipe force main located along Hana Highway which was constructed in 1986 and, pursuant to the corrosion study, is approaching the end of its useful life. 7. Walluku-Kahului Community Plan Area a. Leachate Collection & Recovery and Electrical Distribution System Upgrades Upgrades Upgrade and modernize the leachate collection and recovery system at the Central Maui Landfill Leachate Storage Tanks. The scope of this project includes upgrading the electrical distribution	00,000
Reclamation Facility. Tank shall be constructed on the same property where the existing tank is located. 4. Makawao-Pukalani-Kula Community Plan Area 3. Makani Landfill Site Restoration Restore final cover system, improve site drainage, and secure defunct gas collection and control system to minimize required site maintenance and protect human health and the environment. This project will be used by the County to demonstrate that a reduced post-closure period is sufficient to achieve certified closure of the landfill as stated in HAR 11-58.1-17(b)(2)(A). 5. Molokai Community Plan Area CBS-2727 3. Kalamaula Landfill Site Restoration Restore final cover system and improve site drainage to minimize required site maintenance and protect human health and the environment. This project will be used by the County to demonstrate that a reduced post-closure period is sufficient to achieve certified closure of the landfill as stated in HAR 11-58.1-17(b)(2)(A). CBS-4590 b. Kaunakakai Wastewater Reclamation Facility (WWRF) Plan Create a report of existing treatment components and investigate alternatives, additions, and retrofits for expansion to accommodate future growth. The report shall include a summary of existing facilities, a future anticipated flow study, alternatives discussions, recommendations, proposed upgrade schedules, and construction cost estimates. 6. Pala-Halku Community Plan Area 2. CBS-1183 a. Kuau No. 3 Force Main Replacement Design the replacement of an 830-foot-long, 6" diameter ductile iron pipe force main located along Hana Highway which was constructed in 1986 and, pursuant to the corrosion study, is approaching the end of its useful life. CBS-1184 b. Kuau No. 4 Force Main Replacement Design the replacement of a 677-foot-long, 6" diameter ductile iron pipe force main located along Hana Highway which was constructed in 1986 and, pursuant to the corrosion study, is approaching the end of its useful life. 7. Wailuku-Kahului Community Plan Area a. Leachate Collection & Recovery and E	
existing tank is located. 4. Makawao-Pukalani-Kula Community Plan Area a. Makani Landfill Site Restoration Restore final cover system, improve site drainage, and secure defunct gas collection and control system to minimize required site maintenance and protect human health and the environment. This project will be used by the County to demonstrate that a reduced post-closure period is sufficient to achieve certified closure of the landfill as stated in HAR 11-58.1-17(b)(2)(A). 5. Molokai Community Plan Area CBS-2727 a. Kalamaula Landfill Site Restoration Restore final cover system and improve site drainage to minimize required site maintenance and protect human health and the environment. This project will be used by the County to demonstrate that a reduced post-closure period is sufficient to achieve certified closure of the landfill as stated in HAR 11-58.1-17(b)(2)(A). CBS-4590 b. Kaunakakai Wastewater Reclamation Facility (WWRF) Plan Create a report of existing treatment components and investigate alternatives, additions, and retrofits for expansion to accommodate future growth. The report shall include a summary of existing facilities, a future anticipated flow study, alternatives discussions, recommendations, proposed upgrade schedules, and construction cost estimates. 6. Paia-Haiku Community Plan Area Design the replacement of an 830-foot-long, 6" diameter ductile iron pipe force main located along Hana Highway which was constructed in 1986 and, pursuant to the corrosion study, is approaching the end of its useful life. CBS-1184 b. Kuau No. 4 Force Main Replacement Design the replacement of a 677-foot-long, 8" diameter ductile iron pipe force main located along Hana Highway which was constructed in 1986 and, pursuant to the corrosion study, is approaching the end of its useful life. 7. Walluku-Kahului Community Plan Area a. Leachate Collection & Recovery and Electrical Distribution System Upgrades Upgrades Upgrades Upgrade and modernize the leachate collection and recovery system at the Central Man	
Restore final cover system, improve site drainage, and secure defunct gas collection and control system to minimize required site maintenance and protect human health and the environment. This project will be used by the County to demonstrate that a reduced post-closure period is sufficient to achieve certified closure of the landfill as stated in HAR 11-58.1-17(b)(2)(A). 5. Molokai Community Plan Area CBS-2727 a. Kalamaula Landfill Site Restoration Restore final cover system and improve site drainage to minimize required site maintenance and protect human health and the environment. This project will be used by the County to demonstrate that a reduced post-closure period is sufficient to achieve certified closure of the landfill as stated in HAR 11-58.1-17(b)(2)(A). CBS-4590 b. Kaunakakai Wastewater Reclamation Facility (WWRF) Plan Create a report of existing treatment components and investigate alternatives, additions, and retrofits for expansion to accommodate future growth. The report shall include a summary of existing facilities, a future anticipated flow study, alternatives discussions, recommendations, proposed upgrade schedules, and construction cost estimates. 6. Pala-Halku Community Plan Area CBS-1183 a. Kuau No. 3 Force Main Replacement Design the replacement of an 830-foot-long, 6" diameter ductile iron pipe force main located along Hana Highway which was constructed in 1986 and, pursuant to the corrosion study, is approaching the end of its useful life. CBS-1184 b. Kuau No. 4 Force Main Replacement Design the replacement of a 677-foot-long, 8" diameter ductile iron pipe force main located along Hana Highway which was constructed in 1986 and, pursuant to the corrosion study, is approaching the end of its useful life. 7. Walluku-Kahului Community Plan Area a. Leachate Collection & Recovery and Electrical Distribution System Upgrades Upgrades Upgrades Upgrades Upgrades and modernize the leachate collection and recovery system at the Central Maui Landfill Leachate Storage Tanks. The s	
Restore final cover system, improve site drainage, and secure defunct gas collection and control system to minimize required site maintenance and protect human health and the environment. This project will be used by the County to demonstrate that a reduced post-closure period is sufficient to achieve certified closure of the landfill as stated in HAR 11-58.1-17(b)(2)(A). 5. Molokai Community Plan Area a. Kalamaula Landfill Site Restoration Restore final cover system and improve site drainage to minimize required site maintenance and protect human health and the environment. This project will be used by the County to demonstrate that a reduced post-closure period is sufficient to achieve certified closure of the landfill as stated in HAR 11-58.1-17(b)(2)(A). CBS-4590 b. Kaunakakai Wastewater Reclamation Facility (WWRF) Plan Create a report of existing treatment components and investigate alternatives, additions, and retrofits for expansion to accommodate future growth. Kuau No. 3 Force Main Replacement Design the replacement of an 830-foot-long, 6" diameter ductile iron pipe force main located along Hana Highway which was constructed in 1986 and, pursuant to the corrosion study, is approaching the end of its useful life. CBS-1184 b. Kuau No. 4 Force Main Replacement Design the replacement of a 677-foot-long, 8" diameter ductile iron pipe force main located along Hana Highway which was constructed in 1986 and, pursuant to the corrosion study, is approaching the end of its useful life. 7. Wailuku-Kahului Community Plan Area a. Leachate Collection & Recovery and Electrical Distribution System Upgrades Upgrade and modernize the leachate collection and recovery system at the Central Maui Landfill Leachate Storage Tanks. The scope of this project includes upgrading the electrical distribution system to meet current NEc requirements, making necessary mechanical design upgrades, and providing reliable and uninterrupted operation of this mission-critical control system required by the	30,000
maintenance and protect human health and the environment. This project will be used by the County to demonstrate that a reduced post-closure period is sufficient to achieve certified closure of the landfill as stated in HAR 11-58.1-17(b)(2)(A). CBS-4590 b. Kaunakakai Wastewater Reclamation Facility (WWRF) Plan 20 Create a report of existing treatment components and investigate alternatives, additions, and retrofits for expansion to accommodate future growth. The report shall include a summary of existing facilities, a future anticipated flow study, alternatives discussions, recommendations, proposed upgrade schedules, and construction cost estimates. 6. Paia-Haiku Community Plan Area CBS-1183 a. Kuau No. 3 Force Main Replacement Design the replacement of an 830-foot-long, 6" diameter ductile iron pipe force main located along Hana Highway which was constructed in 1986 and, pursuant to the corrosion study, is approaching the end of its useful life. CBS-2724	b. Waikapu Landfill Site Restoration	860,000
	Restore final cover system and improve site drainage to minimize required site	
	maintenance and protect human health and the environment. This project will be	
	used by the County to demonstrate that a reduced post-closure period is	
	sufficient to achieve certified closure of the landfill as stated in HAR 11-58.1-	
	17(b)(2)(A).	
CBS-1095	c. Central Maui Landfill (CML) V-B Extension	3,625,000
	Construction of the next Central Maul Landfill lateral expansion (Phase V-B	
000 1101	Extension) in accordance with RCRA Subtitle D Regulations (HAR 11-58).	
CBS-1131	d. Wailuku-Kahului Environmental Protection Agency (EPA) Compliance	1,000,000
	Sewer Rehabilitation	
	Design and construct the replacement of major gravity sewer lines that have	
	reached the end of their useful life or have been found to be damaged or in	
ODC 4474	disrepair via video investigation or other means.	500,000
CBS-1171	e. Wailuku-Kahului Recycled Water Force Main	500,000
	Design a new water distribution line that connects the Kahului Wastewater	
	Reclamation Facility to an existing line at the old Maui Pineapple processing facility to provide recycled water for landscape or agricultural irrigation purposes.	
	racinty to provide recycled water for landscape of agricultural imgation purposes.	
	8. West Maui Community Plan Area	
CBS-2725	a. Olowalu Landfill Site Restoration	950,000
CB3-2723	Restore final cover system and improve site drainage to minimize required site	930,000
	maintenance and protect human health and the environment. This project will be	
	used by the County to demonstrate that a reduced post-closure period is	
	sufficient to achieve certified closure of the landfill as stated in HAR 11-58.1-	
	17(b)(2)(A).	
CBS-1181	b. Napili Wastewater Pump Station No. 5 Modifications	2,300,000
	Design and construct upgrades (pumps, motors, generators, etc.) and required	
	modifications (building, piping, electrical) to the existing pump station to meet	
	area capacity requirements and for design and operation standardization with	
	other West Maui pump station facilities.	
CBS-1182	c. Napili Wastewater Pump Station No. 6 Modifications	2,300,000
0	Design and construct upgrades (pumps, motors, generators, etc.) and required	
	modifications (building, piping, electrical) to the existing pump station to meet	
	area capacity requirements and for design and operation standardization with	
	other West Maui pump station facilities.	
CBS-1144	d. Lahaina Wastewater Reclamation Facility (WWRF) Modifications, Stage	24,000,000
	IA	
	Engineering consultant services to design long-term operational process	
	changes to the 1975 and 1985 treatment facilities, provide complete design plans	
	and bid documents for required work, and complete construction of basins and	
	other required facilities.	
CBS-5016	e. Lahaina Wastewater Reclamation Facility (WWRF) Primary Electrical	2,423,472
	System Replacement	
	Replacement of three electrical switchgears and associated work at the Lahaina	
	Wastewater Reclamation Facility, which provides power to the entire treatment	
	facility. The equipment is near or at the end of its useful service life and is vital	
	for electrical service reliability. Failure of the existing equipment would shut down	
	part or all of the facility resulting in untreated wastewater and raw sewage	
	overflows, violation of permits and probable fines."	

SECTION 2. New material is underscored.

SECTION 3. This Ordinance shall take effect upon its approval.

APPROVED AS TO FORM AND LEGALITY:

JEFFREY UEOKA

Deputy Corporation Counsel

DIGEST

A BILL FOR AN ORDINANCE AMENDING
THE FISCAL YEAR 2018 BUDGET FOR THE COUNTY OF MAUI
AS IT PERTAINS TO APPENDIX C – CAPITAL IMPROVEMENT PROJECTS,
DEPARTMENT OF ENVIRONMENTAL MANAGEMENT,
WEST MAUI COMMUNITY PLAN AREA,
LAHAINA WASTEWATER RECLAMATION FACILITY (WWRF)
PRIMARY ELECTRICAL SYSTEM REPLACEMENT

This bill proposes to amend Ordinance No. 4456, Bill No. 65 (2017), Draft 1, the "Fiscal Year 2018 Budget" of the County of Maui, by amending Appendix C — Capital Improvement Projects, as it pertains to the Department of Environmental Management, West Maui Community Plan Area, by adding a capital improvement project entitled, "Lahaina Wastewater Reclamation Facility (WWRF) Primary Electrical System Replacement", in the amount of \$2,423,472.

I, DENNIS A. MATEO, County Clerk of the County of Maui, State of Hawaii, DO HEREBY CERTIFY that the foregoing BILL NO. 5 (2018) was passed on First Reading by the Council of the County of Maui, State of Hawaii, on the 19th day of January, 2018, by the following vote:

AYES: Councilmembers Alika Atay, Eleanora Cochran, S. Stacy Crivello, Donald S. Guzman, G. Riki Hokama, Kelly T. King, Yuki Lei K.

Sugimura, Vice-Chair Robert Carroll, and Chair Michael B. White.

NOES: None.

DATED at Wailuku, Maui, Hawaii, this 22nd of January, 2018.

DENNIS A. MATEO, COUNTY CLERK COUNTY OF MAUI, STATE OF HAWAII

Copies of the foregoing Bill, in full, are on file in the Office of the County Clerk, County of Maui, for use and examination by the public.
