## GRANT DESCRIPTION

PAGE # \_\_\_\_\_

**PROBLEM STATEMENT**

*Identify the traffic safety related problem or deficiency that the proposed grant is intended to correct. Identify and gather appropriate data relevant to the problem. Collision/fatalities data appropriate to the identified problem and a brief analysis of the data is required. When available, three years of data should be presented and analyzed. When identifying the problem, take into consideration changes in population, traffic patterns and other demographic dynamics that may affect traffic safety.*

Unrestrained drivers and occupants suffer serious and sometimes fatal injuries in motor vehicle crashes which may have been prevented had they been using the vehicle's passenger restraint systems. By vigorously enforcing the motor vehicle occupant protection laws, we hope to reduce the number of persons fatally injured in crashes.

In 2015 there were 22,441 occupants of passenger vehicles killed in motor vehicle traffic crashes. Of these 22,441 occupants, 10,635 (52%) were known to be restrained. Looking at only occupants where the restraint status was known, 48 percent were unrestrained at the time of the crash. Restraint use was not known for 1,932 occupants. (source: USDOT, NHTSA National Center for Statistics and Analysis)

**Maui County summary of unrestrained fatalities**

	Number Fatal Crashes	Unrestrained fatalities (operators & passengers)	% of unrestrained fatalities
2014	21	5	23%
2015	21	4	19%
2016	21	9	42%
2017	18	9	50%
TOTAL	81	27	34%

**GRANT GOALS**

*Goals serve as the foundation upon which the grant is built. Goals are what you hope to accomplish by implementing a traffic safety grant and represent an end result. Grant goals should be stated in measurable terms (i.e., a percent reduction), be concise and deal with a specific item, be realistic with a reasonable probability of achievement, and be related to a specific time frame (a "by" date). Please notate baseline from which the reduction/increase will result.*

The goals for Maui County are listed below:

1. Expend 830 overtime hours in occupant protection enforcement and issue 1,660 or more occupant protection citations by September 30, 2019.

**GRANT OBJECTIVES**

*Objectives are tasks or activities conducted in order to accomplish the grant goal(s) (e.g., develop permanent fitting stations for child restraints, enforcement activities, educational activities, etc.). Grant objectives should be stated in measurable terms (i.e., a percent reduction, number of training to be held, number of roadblocks, etc.), be concise and*

*deal with a specific item, be realistic with a reasonable probability of achievement, and be related to a specific time frame (a "by" date). Please notate baseline from which the reduction/increase will result.*

1. To conduct active enforcement of the occupant protection laws primarily during the off-peak traffic times between 05:00pm to 11:59pm;
2. To conduct at least one (1) night time checkpoint per quarter of the grant period;
3. Participate in the national Click-It-or-Ticket campaign by conducting checkpoints in areas of low compliance;
4. To conduct at least two (2) earned media coverage during the grant period;
5. Two MPD personnel to attend in the State Click-It-or-Ticket proclamation held at the State Capitol on Oahu; and
6. Issue 1,660 occupant protection violation citations and one hundred (100) Other citations (mobile electronic device/illegal window tints) on State and County roadways by September 30, 2019.

#### **METHOD OF EVALUATION**

*Using data gathered throughout the grant period, the grant manager will evaluate (1) how well the stated grant goals and objectives were accomplished, and (2) was the grant cost effective? How are you going to show effectiveness of your project? What will be the impact of the project on your identified problem and goal(s)? Provide details on the method of evaluation.*

The Maui Police Department will evaluate the progress of the grant activities by including in the quarterly report the number of seatbelt citations; number of child restraint citations; the number of "Other" citations issued while enforcing the occupant protection laws. Also, we will be providing evidence of media coverage demonstrating the objectives that are being met. These will be sent with the quarterly report to the Highway Safety Office.

Effectiveness of the grant goals and objectives and whether or not the grant was cost-effective will be achieved by analyzing the year-end data on traffic fatalities and surveys and comparing them to the previous data.
