**SUBJECT: EXTERNAL PEER REVIEW – OFFICE OF THE COUNTY
AUDITOR**

I am pleased to inform you that the Office of the County Auditor has passed its first ever external peer review. Generally Accepted Government Auditing Standards ("GAGAS") provide a framework for conducting high-quality audits with competence, integrity, objectivity, and independence. A critical part of GAGAS is the external peer review.

Enclosed is the external peer review report and our response. This information will also be made available on our website.

Sincerely,

Dear Mr. Taguchi,

We have completed a peer review of the Office of the County Auditor, County of Maui for the period June 1, 2017 through May 31, 2018. In conducting our review, we followed the standards and guidelines contained in the *Peer Review Guide* by the Association of Local Government Auditors.

We reviewed the internal quality control system of your audit organization and conducted tests to determine whether your internal quality control system operated to provide reasonable assurance of compliance with *Government Auditing Standards* issued by the Comptroller General of the United States. Our procedures included:

- Reviewing the audit organization's written policies and procedures.
- Reviewing a sample of audit engagements and working papers.
- Reviewing documents related to independence, training, and development of auditing staff.
- Interviewing the audit staff and County Auditor to assess their understanding of, and compliance with, relevant quality control policies and procedures.

Due to variances in individual performance and judgment, compliance does not imply adherence to standards in every case but does imply adherence in most situations.

Based on the results of our review, it is our opinion that, except for the deficiency noted below, the Office of the County Auditor, County of Maui's internal quality control system was suitably designed and operating effectively to provide reasonable assurance of compliance with *Government Auditing Standards* for audits and attestation engagements during the period of June 1, 2017 through May 31, 2018.

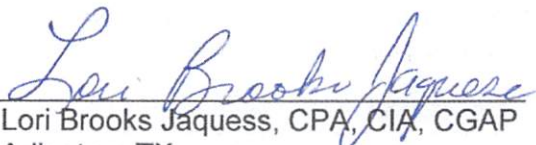

The deficiency found in your internal quality control system was lack of compliance with your internal policies and procedures. This deficiency resulted in recurring nonconformance with Standard 3.84.

We offer the following observations and suggestions to help your organization achieve full compliance with *Government Auditing Standards*:

Standard 3.84 requires that each audit organization should document compliance with its quality control policies and procedures.

In reviewing the Office's engagement work papers, we noted audit report findings were supported by sufficient and competent evidence. However, we observed this was not attained in compliance with your formal policies and procedures. Standard work paper templates, checklists, forms and other requirements included in your policies and procedures were not documented in the work papers. Compliance with the established policies and procedures will provide reasonable assurance of adherence to the Standards in most cases.

We suggest you develop a process to ensure the audit staff are aware of, and are required to comply with, the established policies and procedures.
