**Subject:** support of Dave Good as Director of Public Works

To Whom It May Concern,

I have had the pleasure of knowing Dave Good for over 25 years and throughout that time, I've recognized him as a balanced, thoughtful, and professional individual. I also had the opportunity to work for him professionally for almost three years and during that period my respect for him grew. As a professional, he has the rare gift of providing leadership while maintaining his position as a valued team member. So often technical folks can lack effective communication skills and those who communicate well, lack the ability to dive into highly technical areas without getting lost. I have witnessed Dave approach both areas with ease and grace. This is precisely the type of person who needs to continue leading Maui's complex maze of public works issues. Dave has a community mind-set, the technical background, effective communication skills and most importantly, a demonstrated track record of success as Maui County's Director and Deputy Director of Public works. Without reservation, I support Dave as continued Director of Public Works.

Sincerely,

Ryder Swatek

Vice President of HNU Energy
