GET Committee Testimony for March 21, 2019 Meeting
Agenda Item (GET-2(4)) relating to Molokai Planning Commission

March 20, 2019

Aloha Council Members,

Because I can't be at the live meeting and In lieu of verbal testimony, I am sending a note of support for Lori Buchanan's appointment to the Molokai Planning Commission. I've testified to you in support of Lori Buchanan on multiple occasions, most recently a couple weeks ago. I support her for numerous reasons. She is a champion for our Molokai Community Plan. She shows up. Attendance has been a plaguing issue, so the simple fact that she shows up is an extremely important factor. She takes the time needed to review each agenda item with care and diligence. From her discussion, you can tell she actually READS the EA's. Lori Buchanan started the process of restoring the public's trust in the commission, which had been lost when the commission became stacked with development and real estate interests. Bottom line, if she is willing to serve I urge you to take her up on it.
