Subject: Affordable housing oroject

Please accept our no vote for the proposed housing project in the Haniu/Puanoa area. We have just had 87% of our water taken away and the new system has not been proven yet. The 2 lanes of traffic is not adequate to handle the local and visitor traffic even in our slow season. My teacher friends fell like their classrooms are maxed out, and our precious environment has not been given the attention it deserves for the demands of the future. We are not ready to just keep adding homes and populations without taking care of these issues Betsy and Joe Talon Sent from my iPhone
