Subject: Affordable Housing-Makila Kai

Dear Committee,

I am just one person, out of many, who are tired of not owning a home on Maui.

I grew up here, left for the mainland, and came back. I have been back since 2013, and have had to move 4 times in less than 6 years! Why you ask? Because of greedy landlords just raping this land for the almighty buck!

The place that I grew up in, I feel like a foreigner. I'm part Hawaiian and cannot even afford a home, on land that is rightfully Hawaiians! Yet I see ads where real estate companies are bragging that people from outside of Hawaii are buying homes? Really? You want to brag about that?

When is it going to be our turn as Hawaiians to have more affordable housing?

I'm tired of being gouged by landlords just because the neighbor to the left or right has hiked up their rent so lets just hike up mine even though it's still the same house, no improvements and all the utilities are paid by me. No Rent control, nothing for the average working person making less than \$50k?

How do you live on less than \$50k in Maui????

Wake up, all the greed is not going to buy you a ticket to eternity!!!! Stop allowing outsiders create businesses where they are making money off of the land and ocean and not caring about anything else!

Outsiders can take their money elsewhere for all I care, besides, the land was stolen, how is it justifiable that it can be sold!!!!

Why??? GREED!!!!!!!!Haleakala should wake up from it's dormant status and just explode ash on everything, then what will your million dollar plus homes be worth!

I'm also tired of being run off of the road by these "richie riches", because there side is the road is flooded and they don't want their pretty white Mercedes to get dirty!!!!!! Yes, committee it has come to that!!!!
